ARISTOTLE

Professional Networking for the DoD S&T Community

What is Aristotle?

Similar to LinkedIn and Facebook, Aristotle was designed for the Department of Defense (DoD) Science and Technology (S&T) community. It facilitates situational awareness by consolidating Topics, Projects, People and Documents in one interface. It links similar research areas and fields plus individuals involved in related fields or research areas, or with similar professional interests or expertise. Aristotle supports community interaction in a secure environment highlighting relationships among:

- ***People***—Includes individually created online presences detailing contact information, professional interests and expertise, chains of command and colleagues, publications and pictures and then links these interconnecting components
- ***Topics***—Profiles for an event, interest area, idea or concept
- ***Projects***—Pages storing information on specific projects including funding, task schedules, contact information for key players or organizations and shared documents
- ***Documents****—Documents of interest include whitepapers, research papers, articles, PowerPoint presentations and resumes uploaded by participants. Control access by DoD distribution/limitation or specific criteria

*Note: Aristotle is not to be used for CLASSIFIED materials

Who is on Aristotle?

DoD and federal S&T professionals including military, civilian and contractors and scientists, engineers, researchers, program managers and more

Why should I use Aristotle?

Aristotle gives you the power to extend your professional network and discover relationships by:

- Organizing and sharing information and collaborating with colleagues
- Gathering, prioritizing and utilizing information
- Keeping up-to-speed on developments in vital work areas by subscribing to Topics, Projects and People
- Using the Graph View to visualize your work environment and the larger DoD S&T community

Is Aristotle secure?

Yes. A DTIC registered Common Access Card (CAC) or DTIC Login ID and password are required for participation/access. In addition to standard DoD distribution statements, owners can assign permissions to limit who can see or modify Topics, Projects, and Documents.

Who may register for Aristotle?

Aristotle is available to DTIC registered DoD/federal employees and DoD/federal contractors. Use https://www.dtic.mil, select Register. With a DoD CAC, access is almost immediate. If you do not have a CAC, follow the instructions.

Approved for Public Release; Distribution Unlimited
