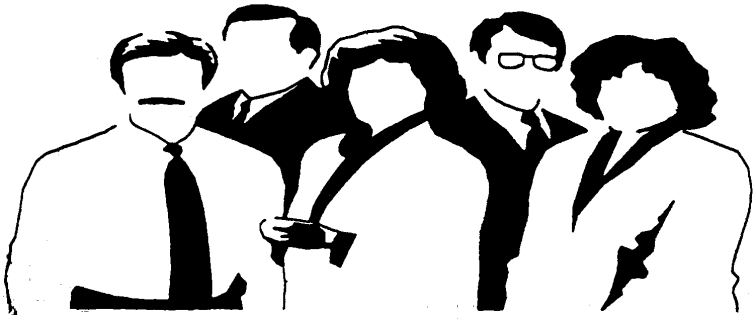
Formerly known as the Technical Review Committee, the Restoration Advisory Board works with APG on matters related to its environmental cleanup program. Its responsibilities include reviewing Army documents and plans, working with the Army to develop cleanup priorities, and sharing information with and soliciting feedback from members of the community.

All board meetings are open to the public. Copies of the minutes of each meeting are placed in APG's information repositories. The repositories are located at the Aberdeen and Edgewood branches of the Harford County Library, Miller Library at Washington College, Essex Community College Library, and the TECOM Public Affairs Office at APG.


If you have questions about the Restoration Advisory Board or APG's environmental cleanup program, please call APG's environmental information line at (410)272-8842 or (800)APG-9998.
