MANUAL
FOR
CHILD MALTREATMENT AND DOMESTIC ABUSE
INCIDENT REPORTING SYSTEM

July 2005

Personnel and Readiness

Office of the Under Secretary of Defense for
Personnel and Readiness

FOREWORD

This Manual is issued under the Authority of DoD Directive 6400.1, "Family Advocacy Program," August 23, 2004. It prescribes procedures for completion and submission of information about substantiated and unsubstantiated reports of child maltreatment and domestic abuse incidents. It applies to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Agencies, hereafter referred to collectively as "the DoD Components." The term "Military Services," as used herein, refers to the Army, the Navy, the Air Force, and the Marine Corps.

This Manual standardizes data submissions for all incidents of child maltreatment and domestic abuse among the Military Services. It supersedes Assistant Secretary of Defense Memorandum, "Child and Spouse Abuse Report," August 22, 1997. The Manual expands spouse abuse reporting requirements to encompass not only spouses, but also former spouses, a person of the opposite sex with whom the abuser shares a child in common, or a current or former intimate partner of the opposite sex with whom the abuser shares or has shared a common domicile. The Manual eliminates the reporting requirement for incidents of child maltreatment and domestic abuse in the Coast Guard. The Coast Guard is an agency within the Department of Homeland Security and has its own family advocacy program, separate from the Department of Defense. The file formats specified in this Manual are intended to satisfy DoD policy and budgetary requirements.

This Manual is effective immediately, and is mandated for use by all DoD Components. The DoD Components may issue supplementary instructions with the understanding that DoD-wide standardization precludes the development of unique definitions and procedures. Send recommended changes to the Manual to the Office of the Deputy Under Secretary of Defense (MC&FP/FAP), Crystal Square #4, Suite 302, 241 18th Street South, Arlington, VA 22202-3424.

The DoD Components may obtain copies of this publication through their own publication channels. Approved for public release: distribution unlimited.

INTRODUCTION

In May 1981, The Department of Defense published Directive 6400.1, "Family Advocacy Program," reference (a), which officially established the Department of Defense Family Advocacy Program (FAP). The Directive also published a set of common definitions, and required each of the Services to establish a broad-based family advocacy program providing for the prevention, identification, reporting, treatment, and follow-up of child and spouse abuse. In October 1981, Congress appropriated funding for the program, and mandated comprehensive child and spouse abuse incident reporting and DoD accountability for developing, managing, and monitoring a family advocacy program.

As a result, DoD Instruction 6400.2, "Child and Spouse Abuse Report," reference (b), was issued on July 10, 1987. This Instruction required each of the Services to report suspected child abuse and neglect, suspected spouse abuse, and suspected child sexual abuse in out-of-home care using the data on DD Form 2486. Then, each of the Services maintained a central registry of reports, using the data submitted by installations on the DD Form 2486. The Service Headquarters compiled the installation data from the Form 2486 to submit aggregate data to the Department of Defense semi-annually on DD Form 2404.

In 1997, the DoD central registry was changed from a victim-based reporting system to an "incident-based reporting system" within the Defense Manpower Data Center (DMDC), and was automated. This revision was made to address significant problems with data collection and reporting using DD Form 2486. In addition, many of the data fields on the form were not used by the DoD FAP Office for policy analysis or budget requirements, and were not necessary for a DoD central registry. Finally, the lack of a DoD-wide automated, incident-based central registry made it difficult to track substantiated cases across Services, which is of critical importance in conducting background criminal and suitability checks for those providing services to military families.

The present DoD central registry, managed within DMDC, has information on (1) unsubstantiated reports not linked to an identifiable individual and (2) information on substantiated reports linked to identifiable active duty and retired Service members, Department of Defense civilian employees, contractors, and their family members.

The present automated, incident-based reporting system, in contrast to the pre-1997 case-based reporting system, has the following additional advantages:

a. It provides unduplicated counts of the number of reports the installation FAP responds to ("cases to be worked").

b. It permits differential classifications/status determinations based on available evidence.

c. It serves as the basis for FAP workload analysis and permits calculations leading to empirically based budget projections.

d. It replaces DD Forms 2486 and 2404 with electronic submissions, and reduces the number of data elements required by the Department of Defense and the Services.

C2. CHAPTER 2

RECORD FILE FORMAT

This chapter presents the record file format for entering information about an alleged incident, and the military sponsor, victim, and alleged offender associated with the incident. Descriptions of required data fields for an alleged incident (C2.1.), the military sponsor (C2.2.), the victim (C2.3.), and the alleged offender (C2.4.) are included. Figures C2.F1. through C2.F4. present the required data field numbers; field names; domains; coding instructions and remarks; record positions; and size for information on the alleged incident, and the associated sponsor, victim, and alleged offender.

C2.1. ALLEGED INCIDENT INFORMATION.

C2.1.1. Data to complete fields 1 through 15 shall be submitted for each alleged incident of child maltreatment and domestic abuse involving a member of a DoD Component and reported to a family advocacy program of the Armed Services.

C2.1.2. Field 1, Situation Identifier. An eight-digit number assigned to each reported alleged incident of child maltreatment or domestic abuse. The first four digits refer to the fiscal year and the second four digits are taken from a unique subset of numbers assigned to each family advocacy program (FAP) by each Service Family Advocacy Program Manager (also known as "Incident Number.") Incidents of alleged child maltreatment in which two or more children were the alleged victims shall be recorded as separate incidents for each child.

C2.1.3. Field 2, FAP Unit Identification Code (U.I.C.). The unique alphanumeric code identifying the FAP where the incident was reported. (Also known as the "Geographical or Unit I.D.")

C2.1.4. Field 3, US State Alpha Code. A two-digit alphabetical abbreviation designating the State in which an incident was reported. (Also known as "State Code.")

C2.1.5. Field 4, Country Code. A two-digit alphabetical abbreviation designating the country in which an incident was reported. (Also known as "Country Code.") If there is a US State code, leave the Country code blank.

C2.1.6. Field 5, Incident Report Date. The calendar year date the incident was reported to the FAP.

C2.1.7. Field 6, Military Service Organization Code. The designation describing the military service (Army, Navy, Marine Corps, or Air Force) that received the report of an alleged incident for assessment, and is submitting the report.

C2.1.8. Field 7, Organization Name Text. Completed when the Defense Logistics Agency or the National Security Agency received the alleged report.

C2.1.9. Field 8, Victim Type Code. The designation of whether a victim of an alleged incident is a child or an adult. (Also known as "Type of Victim.")

C2.1.10. Field 9, Legal Event Context Code. The designation of the category of alleged maltreatment reported as "Physical Abuse," "Sexual Abuse," "Emotional Maltreatment," and/or "Neglect." (Also known as "Type of Alleged Maltreatment.") See Appendix 1, Definitions.

C2.1.11. Field 10, Person Status Code. The designation of a child or an adult victim as alive or deceased as a result of the incident. (Also known as "Fatality Occurred.") If no death occurred, designate "Alive Person." If a death occurred, designate "Deceased Person."

C2.1.12. Field 11, Alleged Victim Previously Known to the DoD Central Registry. A designation that the alleged victim in the incident had or had not been previously reported to the DoD Central Registry as a victim of a previous incident of maltreatment with the same or different alleged offender. APPLIES ONLY WHEN THE VICTIM DIES AS A RESULT OF THE ABUSIVE INCIDENT. CHILD AND ADULT VICTIM FATALITIES ARE REPORTABLE TO THE DoD CENTRAL REGISTRY AS INCIDENTS. Field 11 assists the Office of the Secretary of Defense FAP in the fatality review process.

C2.1.13. Field 12, Alleged Offender Previously Known to the DoD Central Registry. A designation that the alleged offender in the incident had or had not been previously reported to the DoD Central Registry as an alleged offender with the same or different victim. An alleged offender is an individual who allegedly abused, maltreated, or neglected his/her child, current or former spouse, a person with whom the alleged offender shares a child in common, or a current or former intimate partner with whom the alleged abuser shares or had shared a common domicile. In a child maltreatment incident with more than one alleged offender, the person allegedly responsible for the most severe maltreatment shall be deemed the alleged offender. If the person allegedly responsible for the most severe maltreatment cannot be determined and the victim's sponsor is an alleged offender, the sponsor shall be deemed to be the alleged offender. APPLIES ONLY WHEN THE VICTIM DIES AS A RESULT OF THE ABUSIVE INCIDENT. The purpose of this field is the same as in field 11.

C2.1.14. Field 13A, Situation Findings Date. The date the CRC determines, for clinical purposes, whether an alleged incident of child maltreatment or domestic abuse occurred. (Also known as "Incident Report Status Date.")

C2.1.14.1. Field 13B, Situation - Incident Unsubstantiated, Unresolved. A designation indicating the CRC determined, for clinical purposes, that the preponderance of the available information to support an alleged incident is of the same weight or equally convincing as the information that the alleged incident of abuse or maltreatment did not occur.

C2.1.14.2. Field 13C, Situation - Incident Unsubstantiated, Did Not Occur. A designation indicating an alleged incident has been determined by the CRC to be without merit or foundation for clinical purposes. An "Unsubstantiated - Situation Did Not Occur" determination means the preponderance of available information indicating maltreatment or

abuse did not occur is of greater weight or more convincing than the information indicating abuse or maltreatment occurred.

C2.1.14.3. Field 13D, Situation – Unsubstantiated, Referred for Services. A designation indicating the incident was presented to the CRC for determination and although some form of maltreatment may have occurred, either (1) the incident did not meet the criteria for an appropriate referral to FAP and was referred to another agency for appropriate intervention services, such as an incident of child maltreatment allegedly committed by someone outside the family who was not in a caregiving relationship, or when either the victim or alleged offender is a non-beneficiary, or (2) although it met the criteria for an appropriate referral to FAP, the resulting harm was assessed to be moderately low or lower in severity level, the likelihood of recurrence was assessed to be moderately low or lower in risk level, and intervention services were only recommended.

C2.1.14.4. Field 13E, Situation - Incident Substantiated. A designation indicating an alleged incident has been determined by the CRC to be merited or founded for clinical purposes. A "Substantiated" determination means the preponderance of available information indicating abuse or maltreatment occurred is of greater weight or more convincing clinically than the information indicating abuse or maltreatment did not occur.

C2.1.14.5. Field 13F, Situation - Incident Transferred In Date. The calendar date on which a FAP received an incident file already clinically determined as "Substantiated" from a FAP of the same or different Military Service. Case Review Committee accepts the previous Case Review Committee's determination.

C2.1.14.6. Field 13G, Situation - Incident Transferred Out Date. The calendar date on which a FAP sent an incident file reporting its CRC had clinically determined as "Substantiated" to a FAP of the same or different Military Service.

C2.1.14.7. Field 13H, Situation - Substantiated Incident Closed Date. The date a "Substantiated" incident was closed by the FAP because (1) the CRC determined intervention and/or treatment was no longer needed or possible, (2) the risk of maltreatment was considered minimal, (3) the sponsor and family members were no longer eligible for care, (4) the victim had died, or (5) because the alleged offender refused treatment. Examples of when intervention and/or treatment was no longer possible would include situations in which the victim doesn't progress in treatment or the alleged offender is a treatment failure or refuses treatment. (Also known as "Incident Closed Date.")

C2.1.15. Field 14, Person Association Reason Code. A designation of the alleged offender's relationship to the victim as being "Intrafamilial," or "Extrafamilial." (Also known as "Relationship of Alleged Offender to Victim.")

C2.1.15.1. Intrafamilial. A designation of a current familial relationship created by birth, law, or marriage between the alleged offender and victim, such as a parent, sibling, spouse, or other family member.

C2.1.15.2.1. Extrafamilial Caregiver. The classification of an alleged offender who is an employee (including janitors, bus drivers, etc.), independent contractor, or volunteer in a military-sanctioned or military-sponsored program providing care for and supervision of a child by agreement with the child's parent, guardian, or foster parent.
