Microfabrication Methods to Help Navigate a Day Without GPS

Atomic layering of diamond. Layering diamond over a blown structure or depositing CVD diamond in a micro-well on the substrate have been shown to be effective, promising methods for creating highly symmetric, accurate 3-D inertial-sensor structures. ANNOUNCEMEN

Recent DoD issuance standards and
include:

- **September 18:** OSD Component requests for MS Word versions of online DoD issuances must be sent to DoDDirectives@whs.mil instead of individual editors
- **September 7:** Betty Lynn's Tips has been updated - new SD Form 818 document and training.
- **July 20:** Betty Lynn's Tips has been updated - Writing DoD Issuances, Part 2: Mechanics.
- **July 11:** The webpages for processing DoD Issuances and processing AI's and DA&M's have been updated with a new visual representation of the issuance process.
- **June 19:** The office of the Deputy Secretary of Defense requires that reissued directives include a summary of the changes made. The DoD directive action memo and processing procedures have been updated and a sample is available: Directives_Reissuance_Samples
- **Effective June 15, 2012:** DoD issuance standards formatting changed for consistency and per the Plain Writing Act of 2010. Issuances currently in the formal

Welcome To DPMO

"Keeping the Promise", "Fulfill their Trust" and "No one left behind" are several of many mottos that refer to the efforts of the Department of Defense to recover those who became missing while serving our nation.

More than 83,000 Americans are missing from World War II, the Korean War, the Cold War, the Vietnam War and the 1991 Gulf War. Hundreds of Defense Department men and women -- both military and civilian -- work in organizations around the world as part of DoD's personnel recovery and personnel accounting communities. They are all dedicated to the single mission of finding and bringing our missing personnel home. The mission requires expertise in a intelligence collection and anal
