

# **JLLWG 11-1 Recap and Master Issue Deck Review**

***LtCol Chris Pappas, III  
Chief, Joint Lessons Learned Policy Branch  
Joint Staff J-7  
26 September 2011***

- **Key Issues WJLLWG 11-1**
- **Presentations WJLLWG 11-1**
- **Break-Out Sessions and Results**
- **Master Deck Issue Slides**
  - Recap: 25 Mar 11, WJTSC 11-1
  - Way ahead: As of 1 Sep 11, WJTSC 11-2
- **Closing**

## *WJLLWG 11-1: Key Issues*

- **Announcement of approved CJCSM 3150.25, Joint Lessons Learned Program**
- **Review of design concepts for the JLLIS Joint Issue Resolution Tool with refinement of current/future requirements**
- **Identification of requirements for JLLP organizations to query JLLIS for stability operations/reconstruction data clearance/release to the NATO Joint Analysis and Lessons Learned Centre (JALLC)**
- **The disestablishment of Joint Forces Command (JFCOM)**

## *WJLLWG 11-1 Presentations*

**“Lessons Learned Successes in Exercise Case Studies”** Mr Paul Cutter, DIA Defense CI & HUMINT Center (DCHC)

**“Peacekeeping and Stability Operations Institute (PKSOI) Update”** Mr Dan French, PKSOI

**“Observations and Recommendations: Web Services Partnership Overview”** LTC Sam Lex, Joint Center for International Security Force Assistance (JSCISFA)

**“Cyber Training Initiative (CTI)”** Mr Tim Kemper, STRATCOM J74

**“Successfully Understanding the Knowledge Needs of an Organization”** Mr. Adrian (Zeke) Wolfberg, Office of the Chief of Staff Performance Management (DIA)

# WJLLWG 11-1 Presentations

## **“The Joint Lessons Learned Information System (JLLIS),”**

Mr. Jeff Willard, J-7

## **“Mobile JLLIS,”** Mr. Adam Bilbao, SOCOM

## **“JLLIS Multi-National Initiatives”**

LCDR Tanner, J7 JLLB

## **“Multi-National Information Sharing”**

**USSOCOM** Mr. Dave MacNeil

**NORAD-USNORTHCOM** Maj Rich Martin

**USJFCOM (JCOA)** Mr. Al Musgrove

**CALL** Mr. Jim Walley

## **“DoD Information Sharing Update”**

Mr. Al Johnson, OASD/NII.

Information presented by Mr Shelby Ball, J7, on behalf of OASD/NII

# WJLLWG 11-1 Presentations

## “JFCOM Transition Overview and the Impact on Lessons Learned” Mr. Al Musgrove, USJFCOM (JCOA)

# WJLLWG 11-1 Break-Out Sessions

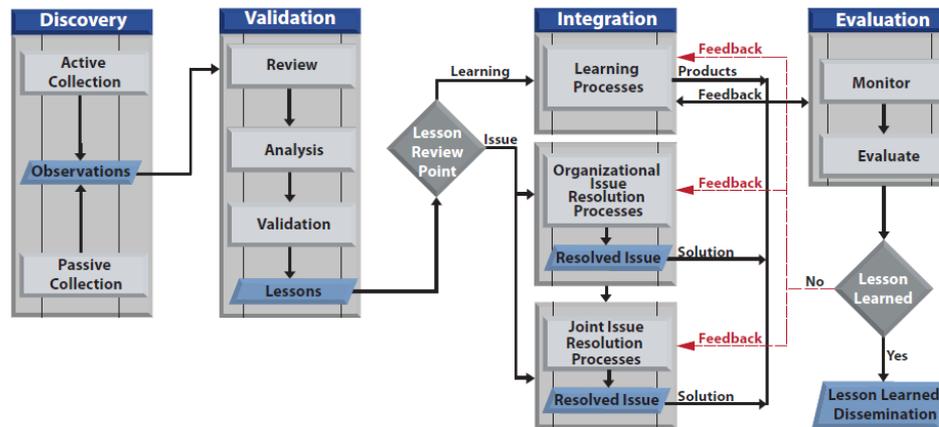

## • Break-Out Sessions (BOS)

**BOS 1:**

**Multi-National Engagement**

**BOS 2:**

**Issue Resolution**

# **JLLWG 11-1 Recap: Master Issue Deck**

# *Master Issue Deck for WJTSC 11-1*

## **Joint Training Assessment and Readiness**

**Issue 09-004: “*Joint Issue Resolution Tracking Process (Joint Corrective Action Process)*”**

**Issue 06-010: “*Joint Lessons Learned Information System (JLLIS)*”**

**Issue 09-005: “*JTIMS and JLLIS Integration*”**

# Joint Issue Resolution (JIR) Tracking Process

**Issue 09-004:** Combatant Commands, Services and Combat Support Agencies (CSAs) need a JIR tracking process, supported by an automated collaboration tool within the Joint Lessons Learned Information System (JLLIS), for tracking resolutions of joint issues generated through the Joint Lessons Learned Program (JLLP).

**Discussion:** Combatant Commands, Services and CSAs require a collaborative, transparent process to efficiently address lessons learned (LL) issues resulting from exercises and operations. The JLLP should provide a process for tracking lessons being addressed in a joint collaborative environment.

- WJTSC 10-1: JLLWG convened break-out sessions (BOS) to refine JLLP and issue resolution processes for the draft Chairman Joint Chief of Staff Manual (CJCSM). Additional working group sessions followed.
- WJTSC 10-2: JLLWG BOS addressed the JLLIS tracking tool; and provided a more refined view of JIR.
- JLLIS requirements are being aligned with processes and procedures outlined in the CJCSM.

**Endstate:** An automated JIR tracking tool within JLLIS which supports the JLLP, follows the business processes outlined in the CJCSM, and provides the ability to collaborate on and resolve joint issues in a transparent and efficient manner.

**POA&M:** Refine and finalize JIR tracking business rules and process steps; develop policy and guidance for the Chairman Joint Chief of Staff Instruction (CJCSI) 3150.25E, Joint Lessons Learned Program; present JLLIS user interface demonstration module (UIDM) test, May 2011; and deploy an automated JIR tracking tool within JLLIS.

**OPRs:** JS J-7 JID      **OCRs:** DUSD(P&R), DOD

# Joint Lessons Learned Information System (JLLIS)

**Issue 06-010:** The joint community lacks a single automated support system to discover, apply, share and research joint lessons.

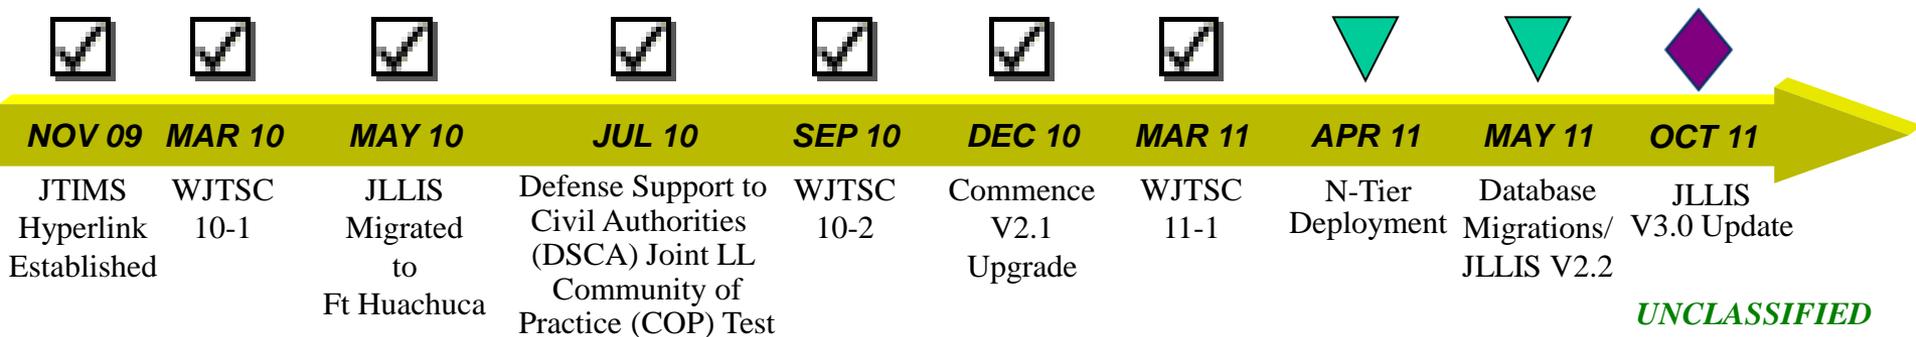

**Discussion:** The Department of Defense (DOD) lessons learned community lacks a repository capability as well as the input support tools vital to effective knowledge management.

- JLLIS is POM'd for FY11-15
- JLLIS migrated from Quantico, VA to Fort Huachuca, AZ in May 2010.
- JLLIS Stakeholders: Combatant Commands, Services, National Guard; Combat Support Agencies (CSA); and Interagency.

**Endstate:** Enterprise, web based, Global Information Grid (GIG) compliant JLLIS with an input and management tool and a federated/distributed database for all JLLIS stakeholders.

**POA&M:** All Combatant Commands, Services, CSAs, Interagency, and other organizations migrate to a standard JLLIS codebase; design and re-architect a GIG-compliant, web-services enabled JLLIS to support the JLLP processes, and integrate with other DOD systems like the Joint Doctrine, Education and Training Electronic Information System; Joint Training Information Management System (JTIMS), and the Defense Readiness Reporting System.

**OPRs:** JS J-7 JID    **OCRs:** DOD components

# JTIMS and JLLIS Integration

**Issue 09-005:** No capability exists to automatically transfer data between Joint Training Information Management System (JTIMS) and Joint Lessons Learned Information System (JLLIS).

**Discussion:** JTIMS Task Performance Observations (TPOs) may have joint lessons learned applicability. TPOs may identify an issue requiring joint issue resolution; per definitions of the Joint Lesson Learned Program (JLLP), final resolution of an issue would provide a lesson learned, which should be included in the joint lessons learned data base.

JLLIS observations may provide additional information to better enable the development of a Training Objective, Training Proficiency Evaluation (TPE) or Training Proficiency Assessment (TPA). DoDI 3020.47 states that each combatant command, Combat Support Agency (CSA), and Military Department (Service) shall determine which performance observations should be elevated in status to a lesson learned, and that these lessons learned should be included in the JLLP through JLLIS.

**Endstate:** Near real-time data integration between JTIMS and JLLIS

**POA&M:** Determine the requirements and develop the capability for JLLIS to import JTIMS data.

**OPRs:** JS J-7 JID and JETD

**AUG 09**

Brief phased integration process to JLLIS/JTIMS Working Groups

**NOV 09**

Deploy JTIMS v4.0 with export capability to JLLIS

**MAY 11**

Deploy JLLIS import capability of JTIMS Lessons Identified data

# Joint Issue Resolution Tracking Process

**Issue 09-004:** Combatant Commands, Services and Combat Support Agencies (CSAs) need an automated JLLIS Issue Resolution process for tracking validated lessons through the Joint Lessons Learned Process.

**Discussion:** Combatant Commands, Services and CSAs require an automated, collaborative, process to efficiently manage, address lessons resulting from exercises and operations. The JLL Program (JLLP) should provide a process for tracking/reporting lessons being addressed in a joint collaborative environment.

- WJTSC 10-1: JLLWG convened break-out sessions (BOS) to refine JLLP and issue resolution processes for the draft Chairman Joint Chief of Staff Manual (CJCSM). Additional workgroup sessions followed.
- WJTSC 10-2: JLLWG BOS reviewed JLLIS Issue Management design concept and refined design business rules.
- WJTSC 11-1: JLLIS requirements are being aligned with processes and procedures outlined in the CJCSM.

**Endstate:** An automated JLLIS Issue Management Module, which supports the JLLP, processes outlined in the CJCSM, and provides the ability to collaborate on and resolve validated lessons in a transparent and efficient manner.

**POA&M:** Refine and finalize Issue Management business rules and process steps; develop policy and guidance for the Chairman Joint Chief of Staff Instruction (CJCSI) 3150.25E, Joint Lessons Learned Program; release JLLIS mockup for stakeholder review, July 2011; and deploy an automated Issue Management Module within JLLIS, Oct 2011.
