Overall Conference Comments and Critique

The information provided in WJTSC 12-1 Announcement Message, follow-on messages, e-mails, and the websites was relevant and informative, and assisted you in preparing to attend WJTSC 12-1.

Rating:

Comments:

The "Internet Café" with both CAC enabled computers and personal computer hookups is a value-added capability and should be sustained at future conferences.

Rating:

Comments:

The WJTSC 12-1 conference support (registration, in processing at the Cheyenne Mountain Resort, billeting, telephones, break area, handouts, etc.) met your expectations.

Rating:

Comments:

The Cheyenne Mountain Resort provided an effective venue to conduct the WJTSC 12-1.

Rating:

Comments:

The WJTSC 12-1 Welcome Packet provided to each attendee were useful and a value-added expenditure. Should any of the contents not be provided in the packet? Should additional items be provided in the packet? If so, please suggest additional useful items in the comment section below.

Rating:

Comments:

The conference agenda supported the stated focus for WJTSC 12-1 to provide a forum to discuss Support to the Joint Training Community. In addition, the WJTSC provided a venue for the combatant commands, CSAs, Services, and Coalition partners to present, discuss, and synchronize joint/combined training and exercise issues.

Rating:

Comments:

The number of meetings and pace of the conference adequately consolidated meetings without task-saturating attendees. If not, please comment on suggested improvements.

Rating:

Comments:

The new WJTSC 12-1 format is more effective for developing, discussing, and solving joint training and exercise issues. Specifically: fewer days at the conference, fewer working groups, no plenary session, and an empowered Council of Colonels, with the follow-on Executive Session at the Pentagon.
