- a. Of the 1995 firsthand reports received since 1,975, 1,942 (97.34%) reports are resolved.
 - 1,341 (67.22%) reports were equated to Americans who are accounted for (i.e., PW returnees, missionaries, civilians jailed at various times for violation of Vietnamese codes).
 - 45 (2.26%) reports were correlated to wartime sightings of military personnel or pre-1975 sighting of civilians who remain unaccounted for.
 - 556 (27.87%) reports were determined to be fabrications.
- b. The remaining 53 (2.66%) unresolved firsthand reports represent the focus of the U.S. Government analytical and collection efforts:
 - 47 (2.36%) pertain to Americans reported in a captive environment.
 - 6 (0.30%) reported sightings of Americans in a non-captive environment (i.e. working as truck drivers; married with Vietnamese family).
- c. Since mid-1982, 10,008 “dog tag” reports have been received on over 10,000 names.
 - Generally speaking 93% of those names reported are individuals who returned to the U.S. alive
 - 5% correspond to U.S. remains that have been recovered/identified and buried in the U.S.
 - and 2% relate to individuals who remain unaccounted for.
- d. In all instances, dog tag reports receive thorough investigative attention, to include informing the military services of those reports with valid names so next- of- kin may be advised as appropriate.
