Final Report: UC Merced NMR Instrumentation Acquisition

For the UC Merced NMR Instrumentation Acquisition proposal, a new 400 MHz and an upgraded 500 MHz NMR have been delivered, installed, and incorporated into research and two lab courses. While no results from these instruments have been published yet, data acquired on these instruments has been used in a Ph.D. student's dissertation, and approximately 50 undergraduate students have used the instrument for coursework.

The views, opinions and/or findings contained in this report are those of the author(s) and should not contrued as an official Department of the Army position, policy or decision, unless so designated by other documentation.

Approved for Public Release; Distribution Unlimited

The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA, 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.
ABSTRACT

For the UC Merced NMR Instrumentation Acquisition proposal, a new 400 MHz and an upgraded 500 MHz NMR have been delivered, installed, and incorporated into research and two lab courses. While no results from these instruments have been published yet, data acquired on these instruments has been used in a Ph.D. student's dissertation, and approximately 50 undergraduate students have used the instrument for coursework.

Student Metrics

This section only applies to graduating undergraduates supported by this agreement in this reporting period

The number of undergraduates funded by this agreement who graduated during this period: ...... 0.00

The number of undergraduates funded by this agreement who graduated during this period with a degree in science, mathematics, engineering, or technology fields: ...... 0.00

The number of undergraduates funded by your agreement who graduated during this period and will continue to pursue a graduate or Ph.D. degree in science, mathematics, engineering, or technology fields: ...... 0.00

Number of graduating undergraduates who achieved a 3.5 GPA to 4.0 (4.0 max scale): ...... 0.00

Number of graduating undergraduates funded by a DoD funded Center of Excellence grant for Education, Research and Engineering: ...... 0.00

The number of undergraduates funded by your agreement who graduated during this period and intend to work for the Department of Defense: ...... 0.00

The number of undergraduates funded by your agreement who graduated during this period and will receive scholarships or fellowships for further studies in science, mathematics, engineering or technology fields: ...... 0.00

Scientific Progress
The instruments were delivered in December, and installation was completed and signed off in February. Since that time, the NMRs have been incorporated into two upper-division labs (the physical chemistry and the inorganic chemistry labs) and a lower-division lab (organic chemistry). In addition, both instruments have seen heavy use by organic chemists for routine characterization, although no results have been published yet, and a physical chemist has used the instruments to study ion diffusion, with some results published in the attached dissertation.

Technology Transfer
