C.

Do not return this copy. Retain or destroy.
FOREWORD

This publication adds 158 references to the 2365 listed in The Chimpanzee, A Topical Bibliography, which was published in 1962.

The format is the same as in the initial bibliography with the identifying numbers being followed by lower case letters so they can be inserted in their proper place in the event a composite volume is ever again issued.

Once again, appreciation is extended to Dr. Robert P. Breitenbach and Mr. Darrell Locke for their assistance in the compilation, and to Miss Sylvia Echavarria for her typing of the drafts and final copy.
ABSTRACT

In June, 1962, "The Chimpanzee, A Topical Bibliography" was published as Aeromedical Research Laboratory Technical Documentary Report 62-9. This TDR is published as an addenda to that report and lists 158 new references on chimpanzee research.

PUBLICATION REVIEW

This technical documentary report has been reviewed and is approved.
