Introduction

This directory has been prepared for use of Army personnel and contractors in connection with research tasks of the Army Technical Library Improvement Studies (ATLIS) project of the Department of the Army STINFO Program.

The document provides a listing of technical libraries and information systems of the Department of the Army. These include libraries and information centers serving Army scientific, engineering, and medical research installations, as well as comparable facilities under Army management or contract. Selection has been made for the most part with reference to the technical and scientific mission of the organization, with technical nature of the library holdings being of secondary consideration. In this context, a number of Army school, hospital medical, and Special Services libraries do not fall within the restricted scope of the directory and have been omitted. A few exceptions will be noted, however, because of significant size and depth of the library holdings in technical subjects.

The listings are arranged alphabetically by state. Included in the units of information are the name of the organization with mailing address, librarian director, telephone number, and size of the staff and collections as far as this information is available, arranged as follows:

<table>
<thead>
<tr>
<th>Organization Name</th>
<th>Address</th>
</tr>
</thead>
<tbody>
<tr>
<td>Person in charge</td>
<td>Telephone number</td>
</tr>
<tr>
<td>Date of Activation</td>
<td></td>
</tr>
<tr>
<td>Staff: Professional, Sub-professional, Clerical, Other</td>
<td></td>
</tr>
<tr>
<td>Holdings:</td>
<td></td>
</tr>
</tbody>
</table>

(Note: Where staff count shows only two types of personnel (e.g. 0,2), the second number may be either sub-professional library assistants or clerical personnel, solely, or both types combined in one count.)

An alphabetical index of personnel, keyed to the library listing number, is included on pages 20 and 21.

Every effort has been made to ensure accuracy of the information included. However, if any discrepancies or omissions are noticed, it will be appreciated if such information is reported to the undersigned.
