HISTORY

Since the inception of this contract, various reports have been submitted regularly to the Advanced Research Projects Agency and the Army Research Office-Durham. These reports include:

- Semi-Annual Status Reports
- Quarterly Management Reports
- Technical Reports (consisting of preprints of articles submitted for publication to various journals)
- Special Reports (consisting of preparation for meetings, symposia, etc.)
- Annual Report of Publications

The many areas of research and the many researchers involved have presented their findings in detail over the years since 1964. Perhaps best representative of highlighting this research would be a Complete List of Publications. This list is attached.
