FOREWORD

This volume replaces Miscellaneous Publication 9, Bibliography of Translations from Foreign Journals, dated January 1966, which has been withdrawn from distribution. In the intervening 4 years, most of these 400 translations have been incorporated into the Defense Documentation Center holdings and are therefore readily available to eligible readers. For this work, the basic listings in Miscellaneous Publication 9 have been augmented with the call numbers of DDC (where available) for the readers' greater convenience.

ABSTRACT

This volume contains a sequential bibliographic listing of 400 translations from the files of the Technical Library, Fort Detrick, Frederick, Maryland, and the call numbers by which they can be requested from Defense Documentation Center. A complete author index is included.
