Bibliographies, air force equipment, army equipment, army research, artillery rockets, free fall missiles, missiles, periodicals, rockets, United States, USSR

This bibliography goes from the general to specific to list periodical articles held by the Morris Swett Library, USAFAS on the subjects of missiles and rockets used for military purposes. Although some Russian weapons are covered emphasis in the number is on U.S. weaponry.
FOREWORD

Missiles and Rockets are the subject of this number. Selection has been made from the bound periodicals collection of the Morris Swett Library, USAFAS.

Arrangement is by parts. Part One indicates twenty-six periodicals consulted and arranged by an arbitrarily derived acronym. Part Two lists general articles written on missiles followed by rockets. Part Three covers by type. Inclusion of an item, or omission, does not imply USAFAS indorsement or sanction of the compiler's point-of-view nor does it guarantee accuracy of content. Comment and criticism concerning this list is solicited.
