FOREWORD

The work described in this report was conducted within task area ZF63-521-001-010 (Manpower Management Decision Technology), work unit 3.12 (Cohort Continuance Models), and supports work unit 3.16 (Accession Planning Models). The overall objective of the task area is to develop techniques to improve the Navy's managerial decision-making capabilities. The objective of work unit 3.12 is to develop techniques to relate longitudinal plans and policies directly with personnel data relating to specific points in time; and of work unit 3.16, to develop methods to analyze tradeoffs between enlisted manpower requirements, personnel policies, and available enlisted manpower supply.

This report supersedes NPRDC Technical Note 81-11 of April 1981. It provides an update of the Enlisted Survival Tracking File (STF), a data base that permits analysis of the longitudinal behavior of individuals or groups of individuals (e.g., cohorts). This data base has been used by OP-135 in forecasting personnel losses. In addition, it is a principal source of information for the Structured Accession Planning System (STRAP), which has been developed for use by OP-120 and DCNO (MPT).

INTRODUCTION

Problem

The development of comprehensive Navy personnel management systems requires longitudinal analysis of enlisted personnel behavior. Such analysis requires a data base containing a chronological record of individual behavior.

Objective

The objective of the effort described herein was to develop the Enlisted Survival Tracking File (STF), a readily accessible, comprehensive source of enlisted longitudinal personnel data.

APPROACH

Development was initiated in 1975 by the Bureau of Naval Personnel. Specifically, Pers 5212 (Enlisted Programs Branch) and Pers 2120 (Enlisted Strength and Advancement Planning) requested Pers 35-b (Operations Research) to create an ongoing "survival rate" report to serve the needs of both organizations.

Since NAVPERSRANDCEN required the use of an enlisted longitudinal data base to facilitate its cohort continuance modeling effort, it collaborated with Pers 35-b (now NMPC-164) in 1977 to develop the STF. This data base was to be consistent with official Navy data bases (such as the Enlisted Master Record (EMR) File), and it was intended to (1) serve the needs of Navy enlisted loss and strength planners (OP-133), (2) satisfy the design requirements of new manpower programming systems (OP-120/DSS), and (3) provide data necessary for the analysis of enlisted cohort continuance behavior.

STF DESCRIPTION

Overview

The STF consists of two separate collections of records--a longitudinal file (STF-L) and a biographical file (STF-B). STF-L consists of sequences of fixed-length records that represent the status of each individual at quarterly intervals. STF-B consists of one fixed-length record per individual containing selected biographical data. The data used to construct these files are derived from the end-of-quarter EMR file and the quarterly audit/trail file. These files are routinely prepared by NMPC-163 and are documented in the Navy Manpower and Personnel Management Information System (MAPMIS) manual.

Both STF files contain records commencing with the end of the fourth quarter of FY 1977. Therefore, for all individuals accessed after the fourth quarter of FY77, the STF contains a complete longitudinal description of their enlistment history. Appendices A and B provide data elements and coding directives for the STF-L and STF-B files respectively. The process involved in updating the STF is described in Appendix C.

STF-L File

The STF-L file consists of fixed length, 120-character records with the format shown in Figure 1 (fixed-block with a block size of 12,000). The correspondence between STF data elements and their associated positions on the Navy audit/trail and EMR files is shown in Figure 2.

All records for each individual occur consecutively in chronological order. Each record represents the status of an individual (with respect to certain variables) as of the end of a specific quarter. Such a record exists for every quarter during which the individual appeared in active duty status on the EMR. Moreover, whenever the status of an individual (with respect to these variables) does not change from quarter to quarter, a counter is incremented to indicate that the contents of the record relate to more than one quarter.

The first data element in each STF-L record is the social security number, a nine-position number used to identify the individual. The next is a five-position number--10-14--that indicates the "as-of" date for the information contained in that record.

Positions 10-11 give the last 2 digits of the fiscal year; position 12, the specific quarter within the fiscal year for which the data are pertinent; and positions 13-14, the number of consecutive quarters for which the data are pertinent. Thus, the sequence "78301" appearing in positions 10-14 would indicate that the data in this record pertain to the end of the third quarter of FY78 (i.e., end June 1978) and that the data pertain only to that quarter. Similarly, the sequence "78304" would indicate that the data pertain to the end of the third quarter of FY78 (i.e., end June 1978) and to the end of the following three quarters (i.e., end Sept. 1978, end Dec. 1978, and end Mar. 1979).

As shown in Figure 1, Positions 111-120 of a given record are used to indicate Loss Date of Occurrence (111-114), Loss Code Navy (115-117), and Loss Code DoD (118-120). These positions are filled in if the individual left active duty status during the fiscal year and quarter shown in positions 10-12 and did not return to active duty prior to the end of that quarter. When positions 111-120 are filled in, positions 13-14 (quarter count) always contain "01." The sequence "951" appearing in positions 115-120 of a given record would indicate the individual entered desertion status during the fiscal year and quarter shown in positions 10-12 and remained in desertion status as of the end of that quarter.

STF-B File

The STF-B file consists of fixed-length, 120-character records with the format shown in Figure 3 (fixed-block, with block size of 32,400). This file consists of one record per individual. Each record contains selected biographical data obtained from the individual's most recent end-of-quarter EMR file, except in the case of home of record (positions 10-11), which is obtained from the earliest end-of-quarter EMR file monitored for the individual.

Interpretation of STF Record Sequences

Figure 4 presents a sequence of records from the STF-L file updated through the end of the fourth quarter of FY79 (i.e., end Sept. 1979). The sequence contains the historical records of two individuals identified by their SSNs (111111111 and 222222222). Note that the file contains three records for each individual.

	1	2	3	4	5	6	7	8	9	10	11	12

2222222279401FMCY5906671221 4011111				11	2360059710	79037903790300008303850	311573421	30560				

Figure 4. A sequence of STF-L records for individuals with fictitious social security numbers 11111111 and 22222222.

The records listed in Figure 4 are described below:

1. SSN = 11111111

a. Positions 10-12 of the first record (774) indicate that this individual's history has been tracked only from the end of the fourth quarter of FY77 (his active duty service date (ADSD), appearing in positions 62-65, is June 1974 (7406)). Positions 13-14 (03) indicate that the data in this record relate to the end of the first quarter of FY 1978 and the end of the second quarter of FY 1978, as well as the end of the fourth quarter of FY 1977.

b. The next record for this individual shows his status at the end of the third quarter of FY 1978. Positions 111-120 (7806951) of this record show that he was in desertion status at that time and had been declared a deserter in June 1978. Since no record for this individual appears at the end of the fourth quarter of FY 1978, it appears that he was still in desertion status at that time and had not returned to active duty status at any time during the quarter.

c. The third and last record for this individual shows that, at the end of the first quarter of FY 1979, he had left the Navy. Positions 111-120 (7811942 LBK) indicate that his separation occurred in November 1978 with Navy loss code 942 and DoD loss code (SPD code) LBK. No subsequent records appear for this individual, indicating that he did not return to active duty.

2. SSN = 22222222

a. Positions 10-12 of the first record (792) for this individual indicate that his history has been tracked beginning at the end of the second quarter of FY79. Since positions 62-65 (7903) show that his ADSD is March 1979, it is clear that the file contains his entire enlistment history. Positions 13-14 (01) indicate that the data in this record relate only to this quarter.

b. The second record shows that some data fields have been changed for this individual (e.g., PNEC (positions 54-57), soft EAOS (positions 82-85), onboard UIC (positions 87-91), onboard ACC (positions 92-94), and past UIC (positions 100-104)). Similarly, each subsequent end-of-quarter record shows changes in one or more data fields.

c. Positions 10-12 (794) of the third record for this individual indicate that he was still in active duty status at the end of the fourth quarter of FY79.

STF Applications

The STF is currently serving as the principal data source for a Standard Report Generator (SRG), the STRAP Enlisted Predictor (STEP), and the Enlisted Loss Information System (ELIS).

a. SRG provides summary statistical data for any subset of Navy personnel definable in terms of STF variables. "Cohorts" may be defined in terms of values of STF variables at various stages of an individual's enlisted history. The report generator displays the number of individuals in this cohort who entered the Navy in each fiscal year and quarter, who were onboard at the end of each fiscal year and quarter, and who were lost to the Navy (disaggregated by reason) during each fiscal year and quarter.

b. STEP serves as a module within the Navy's Structured Accession Planning (STRAP) system.¹ STEP provides the system with historically based rates and counts that are used in projecting future personnel flows. These flows include attrition, reenlistment, advancements through the lower three pay grades, extensions, and others.

c. ELIS is a computerized information system that enables a user to obtain historical data and projections of losses and related personnel flows. Further information on this system can be obtained from NMPC-164 (Decision Support Systems).

FUTURE DEVELOPMENTS

It is anticipated that data from earlier years (i.e., prior to September 1977) will be added to the STF to enhance its utility. Additionally, data elements derived from the candidate data base (CANDAB) may be added to the STF to facilitate studies of advancement examination test-takers. Finally, consideration will be given to the benefits of creating additional data elements.

Enlisted Data Element Dictionary

SOCIAL SECURITY NUMBERS (SSN)

1. DEFINITION. A 9-position number used to identify an individual. SSN is the major control, used with the first five characters of name, for locating an individual within the NAFMIS system and no two members may legally be identified by the same number. A member will be specifically identified in all records, files, reports, and correspondence by his SSN.

Description

1xx	Navy-strength Gain
2xx	Activity-strength Gain
344	SSN Change
CAC	CACHE Gains
QC0	Availability

AS-OF DATE

1. **Definition:** A 5-position number used to indicate the As-Of Date of the data contained in the record. The As-Of Date is based on the date of the update processing.

2. **Code Structure:**

FY (STF 10-11) Fiscal year

Quarter (STF 12) Quarter of fiscal year

Count (STF 13-14) Number of quarters data in record remains unchanged

STRENGTH INDICATOR

1. **DEFINITION:** A-1 Position Alphanumeric Field Derived from the Strength Control Indicator (SC-IND)

(EMR Positions 44-45; Audit/Trail Positions 37-38)

2. **CODE STRUCTURE:**

F - Active Strength Records -
SC-IND (EMR 44-45) = XF

H - Loss/Hold
SC-IND (EMR 44-45) = HX

D - Deserter
SC-IND (EMR 44-45) = DX

A - Loss/Hold Supported by an Availability -
SC-IND (EMR 44-45) = AX

R - Deserter Supported by an Availability -
SC-IND (EMR 44-45) = RX

Enlisted Data Element Dictionary

STRENGTH CONTROL INDICATOR (SCINE)

1. DEFINITION. A 5-position alphanumeric field which represents a member's current strength status in the Enlisted Master Record. Field consists of:

- a. LOSS/HOLD status (position 1)
- b. Flexwriter/Enlisted Service Record (position 2)
- c. 1xx/2xx Gains (position 3)
- d. (position 4 reserved for future use)
- e. Availability Gain (position 5)

2. REFERENCES.

- a. Internal requirements of Pers-35
- b. NAVPERS Manual, Part 9, Chapter 6, NAVSO P-3058
- c. Navy Recruiting Manual, COMNAVCHUITCOMINST 1130.8

3. CODE STRUCTURE.

<u>Code</u>	<u>Description</u>
XPXXX	Active Strength record
XEXXX	SCAT/ESR record with data errors
HXXXX	EMR Loss/Hold recorded
DXXXX	EMR Deserter record
AXXXX	EMR Record in a Loss/Hold status supported by an availability
XXXXA	EMR Record created by an availability
XXXXC	EMR Record created by COMPASS Prospective Gains and Avails
RXXXX	EMR Record in a deserter status with a subsequent Avail reported
XX1XX	Created by 194/195/18x change codes
XX2XX	EMR Record established by an Activity Gain (2xx)

Table 07 -- EDUCATION

1. YEARS OF EDUCATION.

<u>Code</u>	<u>Description</u>
01-08	Grammar School grades
09-12	High School grades
13-20	College (1-8 years)

2. EDUCATIONAL CERTIFICATION.

<u>Code</u>	<u>Description</u>
1	None Received
2	High School Diploma
3	High School GED Equivalency
4	Certificate of Completion of an Occupational Program
5	Certificate of Attendance at an Occupational Program
A	1 or 2 years College Level Equivalency
D	Associate Degree Level
G	Professional Nursing Diploma (3-yr hospital school of nursing)
K	Baccalaureate Degree Level and certain first profession degrees (Law, Theology, Optometry, Chiropody, etc.)
N	Masters Degree Level (includes certificates of advanced study and those degrees identified as licentiate)
R	Post-Masters (but below Doctorate)
U	Doctor's Degree Level
W	First-Professional Certificate

NOTE: First-Professional Degrees are the first degrees awarded in:

Architecture
Certified Public Accounting
Chiropody or Podiatry (D.S.C. or POD.D.)
Dentistry (D.D.S. or D.M.D.)
Medicine (M.D.)
Optometry (O.D.)
Osteopathy (D.O.)
Pharmacy
Veterinary Medicine
Law (L.L.B. or J.D.)
Theology (B.D., Rabbi, or other)

Advanced degrees within the above fields are to be coded at the Master's or Doctorate level, as applicable.

3. EDUCATIONAL SOCIETY.

<u>Code</u>	<u>Description</u>
J	PHI BETA KAPPA-member with Baccalaureate Degree
K	PHI BETA KAPPA-member with Masters Degree
L	PHI BETA KAPPA-member with a Doctor's Degree.
M	TAU BETA PI-member with a Baccalaureate Degree.
N	TAU BETA PI-society member with a Master's Degree.
O	TAU BETA PI-society member with a Doctor's Degree.

A-SCHOOL INDICATOR

1. DEFINITION: A 1-position numeric used to indicate the A-school history of an individual. This data element is derived from several different EMR data elements.

2. CODE STRUCTURE:

Code		
1	Attended A-school Graduated	School history course Code (EMR 1166) = A-school course code School-history-student- Action = bb or P1
2	Attended A-school Did not graduate	Same as for 1 except school-history-student- Action (EMR 339) = Other
3	Currently in A-school	Student-availability-course-code (EMR 2280) = A-school course code
4	Slated to attend A-school	Temporary-duty-prospective-gain- 1,2, or 3 course-code (EMR 1616, 1721, 1826) = A-school course code
5	Striker	Present rate code (EMR 97) Not = 3600, 5000, 6000, nor 7800 and present pay grade (EMR 10) = 5,6,7 (E1-3)
6	General Detail	Present rate code (EMR 97) = 3600, 5000, 6000, or 7800
7	None of the above

Enlisted Data Element Dictionary

TERM STATUS CODE (TERMSTATUS)

1. DEFINITION. A 1-position alphanumeric code which indicates the status of a member (USN only) as affected by a reenlistment or an extension of enlistment which counts as a reenlistment (period equal to or greater than 24 months). This code should be equal to the member's number of enlistments unless member has operative extensions totaling 24 or more months. The code increases by 1 each time a member reenlists or executes OPERATIVE EXPENSIONS totaling 24 or more months.

2. REFERENCES.

- a. PAYPERS Manual, NAVSO P-3058
- b. BUPERS LTR PERS-B2213 HAS/RFP of 14 MAR 1973

3. CODE STRUCTURE.

Code	Description
(blank)	Not reported
0 (zero)	Insular Force, Fleet Reserve, and Retired on Active duty
1-9	First to ninth terms (count for reenlistment)
A-G	Tenth to sixteenth terms (count for reenlistment)
Z	Reserve member on Active Duty

4. APPLICABLE TRANSACTIONS.

Change Code	Description
TSC	TERM STATUS CODE change
1xx	Navy-strength gains (reenlistment only)
300	Discharge/Immediate reenlistment

BRANCH AND CLASS OF SERVICE (BRCLASS)

1. DEFINITION. 2. 2-position numeric field which indicates the branch and component of service in which a member is currently serving.

2. REFERENCES.

- a. Navy Recruiting Manual, COMNAVCRUITCOMINST 1130.8
- b. BUPERS Manual, NAVPERS 15791
- c. PAYPERS Manual, NAVSC P-3050

3. CODE STRUCTURE.

<u>Code</u>	<u>Abbr</u>	<u>Description</u>
(blank)		Not Reported
11	USN	Regular Navy
15	USN-NAT	Insular force (Guam or Phillipines)
23	USN-S	Inductee
25	USN-MI	Medical Inductee
32	USNR-E	Naval Reserve (Ready)
68	USNFB-F6	Fleet Reserve (from USN)
78	USNFB-F6	Fleet Reserve (from USNR)
90	USN-RET	Retired Regular Navy
56	USNR-RET	Retired Naval Reserve

4. APPLICABLE TRANSACTIONS.

<u>Change Code</u>	<u>Description</u>
1xx	Navy-strength gains (including 1EL/ESR)
300	Discharge with immediate reenlistment
334	BR/CI change
379/380	Active Duty Obligation Amplification

ENLISTED DESIGNATOR CODE (ENLDESIG)

1. DEFINITION. A 1-position numeric field which indicates a special qualification not necessarily covered by RATE or NEC.

2. REFERENCES.

- a. PAYPERS Manual, Part 9, Chapter 6, NAVSO P-3959
- b. BUPERS Manual, NAVPERS 15791
- c. BUPERS Instruction 1089.51

3. CODE STRUCTURE.

<u>Code</u>	<u>Display</u>	<u>Description</u>
(blank)	(blank)	Not qualified for any designator
1	SS	Designated 'qualified in submarines' USN or USNR
2	SU	Designated Submarine School graduate USN or USNR
3	DV	Qualified Diver
4	PJ	Qualified as a parachutist
5	SQ	Designated 'qualified in submarines' USN or USNR, but not to be assigned to submarine duty without prior approval of the Chief of Naval Personnel
6	NAC	Qualified as 'Naval Aircrewman'
7	SG	Designated "qualified in submarines," but not in submarine source rating
8	SP	To be assigned
9	AP	Qualified as 'Aviation Pilot'

4. APPLICABLE TRANSACTION.

<u>Change Code</u>	<u>Description</u>
333	Change ENLISTED DESIGNATOR CODE

Enlisted Data Element Dictionary

PRIMARY NAVY CLASSIFICATION CODE (PNEC) (PNECDATE)

1. DEFINITION. An 8-position numeric field used as a supplement to the enlisted rating structure (General, Service, and Emergency ratings) which indicates a primary special knowledge or skill for manpower management usage, consisting of:

a. A 4-position numeric NEC Code (Ø15Ø), as outlined in the NEC manual.

b. 4-position numeric data (YRMO - Ø154) which indicates the date on which the PNEC was initially awarded, or, in cases where periodic requalification or recertification is necessary for retention of the PNEC, the date on which requalification or recertification was last accomplished.

2. REFERENCES.

- a. PAYPERS Manual, NAVSO P-3Ø5Ø
- b. BUPERS Notice 1221 series
- c. Manual Of Navy Enlisted Manpower And Personnel Classifications And Occupational Standards, (Navy Enlisted Classifications) Section II, NAVPERS 18Ø68

3. CODE STRUCTURE.

PRIMARY NAVY ENLISTED CLASSIFICATION CODE. See Reference c.

<u>Code</u>	<u>Description</u>
(xxxxYRMO)	4-pos. NEC CODE; 2-pos. year; 2-pos. month

Chapter II
Part A
Section 1

Enlisted Data Element Dictionary

SECONDARY NAVY ENLISTED CLASSIFICATION CODE (SNEC) (SNECDATE)

1. DEFINITION. SNEC is a manpower management - 8-position numeric field used as a supplement to the Enlisted Rating Structure (General, Service, and Emergency Ratings) which indicates:

a. A 4-position numeric secondary skill or special knowledge - 015E.

b. A 4-position numeric field (YRMO - 0162) which indicates either the date on which the SNEC was initially awarded or, in cases where periodic requalification or recertification is required for retention of the SNEC, the date on which such requalification or recertification was accomplished.

2. REFERENCES.

- a. NAVPERS Manual, NAVSO P-3050
- b. BUPERS Notice 1221 series
- c. Manual Of Navy Enlisted Manpower And Personnel Classifications And Occupational Standards, (Navy Enlisted Classifications) Section II, NAVPERS 1b068

3. CODE STRUCTURE. See Reference c.

<u>Code</u>	<u>Description</u>

4. APPLICABLE TRANSACTIONS.

<u>Change Code</u>	<u>Description</u>
NEA	Change all NECs (BUMED/Pers-53)
NEB	Add one NEC (BUMED/Pers-53)
NEP	Add one NEC (initial input from UNITAS, via USAREC)
328	Change PRESENT RATE
338	DOD Occupational Grouping Code (E-1 to E-3 only)
340	Court Memoranda

Chapter II
Part A
Section 1

Enlisted Data Element Dictionary

ACTIVE DUTY SERVICE DATE (ADSD)

1. DEFINITION. A 6-position numeric date which reflects all periods of active Federal Military Service in commissioned, warrant, flight officer, or enlisted status. If there is no break in active duty from date of original entry on such duty, ADSD is the date of original entry on active duty. If there is a break in active duty, ADSD is later than the date of original entry by a period equivalent to the break (or breaks). In computing, include all periods of active duty for training. For a tour of 30 days or less, count the actual number of days. For longer tours, subtract the first day of the tour from the last day and add 1 day to the remainder (see REMARK e.).

2. REFERENCES.

- a. BUPERS Manual, NAVPERS 15791
- b. Navy Recruiting Manual, COMNAVCERTCOMINST 1130.8
- c. PAYPERS Manual, NAVSO P-3050

Chapter II
Part A
Section 1

Enlisted Data Element Dictionary

CURRENT ACTIVE DUTY DATE (CADD)

1. DEFINITION. A 6-position numeric field that indicates the actual date on which a member commenced his current Active Duty. This date is applicable to Naval Reservists, Fleet Reservists, and Retired members called or recalled to Active Duty. It also applies to members who are administratively transferred to the Fleet Reserve or the Retired list, but remained on Active Duty. If a Naval Reservist on Active Duty reenlists USNR and remains on Active Duty, then his CADD is the date of the reenlistment.

2. REFERENCES.

381	ACEUOBLI Correction (BUPERS research only)
383	Agreement To Extend Enlistment, Operative
387	Agreement To Remain On Active Duty, Operative
389	Agreement To Extend USNR Enlistment, Operative

Chapter II
Part A
Section 1

Enlisted Data Element Dictionary

SOFT EXPIRATION OF ACTIVE OBLIGATED SERVICE (SOFTREACS)

1. DEFINITION. A 6-position numeric field (YRMODA) which reflects a member's present total obligation. This date includes expiration of present enlistment and any extension he may have executed.

2. REFERENCE.

- a. BUPERS Manual, NAVPERS 15791
- b. Enlisted Transfer Manual, NAVPERS 15909
- c. PAYPERS Manual, NAVSO P-3050

3. CODE STRUCTURE.

<u>Code</u>	<u>Description</u>
(YRMODA)	2-pos. year; 2-pos. month; 2-pos. day

4. APPLICABLE TRANSACTIONS.

<u>Change Code</u>	<u>Description</u>
000	ACDUOELI Correction
050	RECORD OF DA
1FL/ESH	SCAT (FLZXC)/Enlisted Service Record gain
194/195	INVOL/VCL Recalled To Active Duty
300	Discharge With Immediate Reenlistment
340	COURT MEMORANDUM
379/380	ACDUOBLI Amplification
381	ACDUOELI Correction (BUPERS research only)
383	Agreement To Extend Enlistment, Operative
387	Agreement To Remain On Active Duty, Operative
389	Agreement To Extend USNR Enlistment, Operative

EADS-CHANGE-INDICATOR

1. DEFINITION: A. 1-position numeric field indicating the cause of a EAOS change. This indicator is based on transaction records from the Audit/Trail file. If more than one transaction has occurred during the quarter, the last one is used.

2. CODE STRUCTURE:

1 - Immediate Reenlistment -

CHANGE-CODE (AUDIT/TRAIL 278) - 130, 131

2 - Reenlistment Continuous Service -

CHANGE-CODE (AUDIT/TRAIL 278) - 140, 141

3 - Extension - (No Bonus)

CHANGE-CODE (AUDIT/TRAIL 278) - 38X

CHANGE-DESCRIPTION (AUDIT/TRAIL 313) NOT - B

4 - Bonus Extension - (Bonus)

CHANGE-CODE (AUDIT/TRAIL 278) - 38X

CHANGE-DESCRIPTION (AUDIT/TRAIL 313) - B

5 - USNR to USN -

CHANGE-CODE (AUDIT/TRAIL 278) - 10X, 11X

6 - Returned from Desertion -

CHANGE-CODE (AUDIT/TRAIL 278) - 191,193

9 - Reason Unknown

Blank - No Change

Section 1

Enlisted Data Element Dictionary

SELECTIVE REENLISTMENT BONUS (SRBZONEDATA)

1. DEFINITION. A 15-position element relative to a bonus which may be awarded to an enlisted member in a designated rating or NEC, who reenlists or extends his enlistment for at least 3 years. The purpose of the SRB program is to increase the number of reenlistments in those ratings characterized by retention levels insufficient to adequately man the career force by paying a reenlistment bonus incentive. The bonus will be paid in addition to all pay and allowances to which the member is otherwise entitled.

2. REFERENCES.

- a. BUPERS Instruction 1133.26
- b. BUPERS Instruction 1133.28
- c. PAYPERS Manual, NAVSO P-3050
- d. Military Pay and Allowances Entitlements Manual, DODPM

- f. DOD Instruction 1304.22
- g. DOD Directive 1304.21
- h. SECNAV Instruction 7220.72

3. CODE STRUCTURE. A 15-position field depicting the Zone and related information (see References a and b):

<u>Code</u>	<u>Description</u>
A	At least 21 months of continuous naval service (excluding ACDUTRA), but not more than 6 years of total active military service
B	At least 6 but not more than 10 years continuous active military service
C	Broken service, otherwise Zone A eligibility. Time lapsed since last discharge/RAD is greater than 3 months and equal to or less than 1 year

D Broken service, otherwise Zone A eligibility.
Time lapsed since last discharge/RAD is
greater than 1 year and equal to or less than
2 years

E Broken service, otherwise Zone B eligibility.
Time lapsed since last discharge/RAD is
greater than 3 months and equal to or less
than 1 year

F Broken service, otherwise Zone B eligibility.
Time lapsed since last discharge/RAD is
greater than 1 year and equal to or less than
2 years

Positions 2-5

(YRMO) Effective date

Positions 6-9

(xxxx) Rating or NEC for which payment made

Position 10

1-6 Number of payments authorized

Position 11

1-6 Number of payments received

Position 12 (Payment Category)

A Annual Installment (2nd and subsequent)

D Advanced payment (one or more annual installments
paid in advance. Terminal installment
paid first)

I Initial Installment

L Lump-Sum payment made

R Remaining Amount payment made

X Accelerated (next anniversary installment
moved ahead)

Position 13

(Y) Last position of Fiscal Year of Effective
Date Of Payment (generated)

Position 14 (Skill/Rating Indicator)

Y Yes, member serving in Rating/NEC authorized
 N No, member not serving in Rating/NEC authorized
 B Broken Service enlistment/reenlistment

Position 15 (Award Level)

1-6 The multiple of the monthly basic pay to which the member was entitled at the time of discharge or release (see Enclosures to Reference (a) for applicable levels)

4. APPLICABLE TRANSACTIONS.

<u>Change Code</u>	<u>Description</u>
QR5	Selective Reenlistment Bonus

REENLISTMENT QUALITY CONTROL CODE (REENQUALCONTROL)

1. DEFINITION. A 2-position alphanumeric field which indicates the type of reenlistment recommendation a member received upon separation from his last enlistment (USN or USNR). See REMARKS.

2. REFERENCES.

- a. Navy Recruiting Manual, COMNAVCRUITCOMINST 1130.8
- b. PAYPERS Manual, NAVSO P-3050
- c. BUPERS Instruction 1900.2
- d. BUPERS Instruction 1133.22

3. CODE STRUCTURE. (See Reference c).

<u>Code</u>	<u>Description</u>
00	Not reported
10	Recommended for Reenlistment
R1	Recommended for Preferred Reenlistment
20	Recommended for Reenlistment but ineligible because of status: Fleet Reserve, Retired (except transfer to TDRL), Commissioned Officer, Warrant Officer, Midshipman, and Cadet.
3(x)	Recommended for Reenlistment except for disqualifying factor represented by (x), listed below: <ul style="list-style-type: none"> A - Alien (when discharged IAW BUPERS Manual 3850220 (1) (V) Marriage to alien not eligible for entry into U.S.) B - Parenthood/Pregnancy C - Conscientious Objector D - Demonstrated dependency or hardship but not meeting requirements of BUPERSMAN 3850240 E - Erroneous induction or enlistment G - Condition (not physical disability) interfering with performance of duty H - Hardship

- K - Disenrolled from Naval Academy or other officer program - not considered qualified for enlisted status
 - L - Favorable recommendation of board which directed separation
 - P - Physical disability (includes discharge and transfer to TDRL)
 - Q - Disqualified for officer candidate training (not PQ for appointment as officer in the Naval service)
 - R - Eligible for a probationary 2-year reenlistment (See BUPERSINST. 1133.22D)
 - S - Sole surviving son
 - T - Overweight/Overheight
 - U - Minority age
 - V - Overage for Active Service
 - X - Motion Sickness/Nonswimmer
- Not Recommended for Reenlistment

SUCCESS CHANCES FOR RECRUITS ENTERING THE NAVY (SCREEN)

1. DEFINITION. A 3-position alphanumeric field which reflects a recruit's chances of successfully completing his initial tour of active duty. To be considered in establishing the score are AFQT Score, years education, age, and whether or not the member has dependents.

2. REFERENCES.

a. Navy Recruiting Manual, COMNAVCRUITCOMINST 113β.8

3. CODE STRUCTURE.

Code Description

Position 1 - Categories

A	Over 12 years education, no dependents (Majority)
B	Twelve years education, no dependents (Majority)
C	Over 12 years education, dependents (Majority)
D	Twelve years education, dependents (Majority)
E	Less than 12 years education, no dependents (Majority)
F	Less than 12 years education, dependents (Majority)
G	Over 12 years education, no dependents (Minority)
H	Twelve years education, no dependents (Minority)
J	Over 12 years education, dependents (Minority)
K	Twelve years education, dependents (Minority)
L	Less than 12 years education, no dependents (Minority)
M	Less than 12 years education, dependents (Minority)

Positions 2 & 3

(xx) a 2-position numeric score

ENLISTMENT EVALUATION TEST IDENTIFICATION (TESTID)

1. DEFINITION. A 2-position alfa-numeric code that identifies one of the particular test series administered to the recruit member:

- a. Basic Test Battery (BTE) - see MENTAL APTITUDE RESULTS.
- b. Armed Services Vocational Aptitude Battery (ASVAB) -- See MENTAL APTITUDE RESULTS.

2. REFERENCES.

- a. Navy Recruiting Manual, COMNAVCRUITCOMINST 1130.8
- b. Manual of Enlistment Classification Procedures, NAVPERS 15812
- c. BUPERS Manual, NAVPERS 15791

3. CODE STRUCTURE.

<u>Code</u>	<u>Description</u>

SCHOOL HISTORY (SCHHIST1/2/3/4/5)

1. DEFINITION. Five 8-position numeric fields which are used to indicate significant formal Navy Training completed. All such training is included in the NAVY INTEGRATED TRAINING RESOURCES AND ADMINISTRATION SYSTEM (NITRAS), defined as any course two or more weeks in duration, or those courses for which an NEC is earned, regardless of duration. Each field consists of:

- a. Completion Date - Location 1166 (SCHHIST1/2/3/4/5DT)
- b. Course Code - Location 1170 (SCHHIST1/2/3/4/5CODE)

2. REFERENCES.

- a. Enlisted Transfer Manual, NAVPERS 15909
- b. CNETINST 1510.1

3. CODE STRUCTURE.

<u>Code</u>	<u>Description</u>
Completion Date (Pos. 1-4)

**TEMPORARY DUTY PROSPECTIVE GAIN
(FIRST, SECOND, THIRD)**

FIRST TEMPORARY DUTY PROSPECTIVE GAIN SCHOOL COURSE CODE (TDPGI COURSE CODE - 1616). A 4- position numeric field that indicates a formal Navy school or course a member has been ordered to attend under the auspices of UNITRAS. This system includes schools for courses 2 or more weeks in duration, or those schools or courses for which a NEC is earned, regardless of duration.

STUDENT AVAILABILITY AREA (STUDENTAVAILAREA)

1. DEFINITION. 4-positions alphanumeric which indicate courses as a result of formal Navy training under the auspices of the NITRAS system.

a. STUDENT AVAILABILITY COURSE CODE (STUAVAIL COURSE) - 2280. A 4-position alphanumerical field which indicates a formal Navy school a member is attending under the auspices of NITRAS, which schools or courses are of two or more weeks in duration, or those schools or courses for which an NEC is earned, regardless of duration.

2. REFERENCES.

- a. Enlisted Transfer Manual, NAVPERS 15909

Pers-51	a. Assignment/Order document b. Modifications to previous orders c. COMPASS transactions

6. REMARKS.

a. The student must not have a previously assigned ultimate duty station and must be available for assignment after completion of the current course.

APPENDIX C
STF UPDATE PROCESSING

STF UPDATE PROCESSING

The four computer programs used in updating the STF file are described in the following paragraphs. A copy of these programs is available on request from NAVPERS-RANDCEN, Code 15.

EMR Extract Program

This program creates an extract from the end-quarter EMR file. Most of the data elements in STF are taken directly from the EMR, while some are derived from EMR data elements (for details on specific elements and their derivation, see Appendix A). The output record contains data elements for both the STF-L and STF-B files. This extract is input to the STF update program.

Audit/Trail File Extract

This program creates two extracts from the audit/trail file. The first extract is based on audit/trail records with change codes "198" (cancel erroneous loss), "344" (SSN change), "8xx" (loss), and "9xx" (loss). The second extract is based on audit/trail records with change codes affecting either EAOS date. These include extensions, return from desertion, change of branch and class, etc. The first extract is input to the STF update program and serves to keep the STF accurate with respect to SSN changes, loss changes/cancellations, and gain cancellations. The second file is input to the STF merge program to determine reason for EAOS changes.

STF Update Program

This program combines the old STF-L, old STF-B, EMR extract, and audit/trail file extract to produce an intermediate step STF-L and STF-B and a file of SSN changes. The processing logic is described in the following steps:

1. All STF-L records with the same SSN are read and saved.
2. The STF-B record with the corresponding SSN is read.
3. The EMR extract record is read.
4. If the SSN on the EMR extract does not appear in the STF file, create new STF-L and STF-B records and write them to the intermediate files. Processing continues at step 3.
5. If the SSN on the old STF is not found on the EMR extract, the audit/trail extract is searched for change code "198" (cancel erroneous loss), "344" (SSN change), "996" (change loss reason), "998" (cancel erroneous gain), "8xx" (loss), or "9xx" (loss). If more than one of these codes are found, they are processed in chronological order. The STF file is modified accordingly. If the SSN has been modified, all of the STF records are written to the SSN change file.
6. If the SSN on the old STF matches the SSN of the EMR extract and the most recent STF record is not a loss (i.e., positions 111-120 are blank), the EMR record is appended to the STF-L record sequence. If the most recent STF record is a loss (i.e., positions 111-120 are not blank), the audit/trail extract is searched for possible amendment to STF loss record.

7. Positions 15-24 of all records are set to the value of the EMR extract record.

8. If the contents of positions 24-120 in the last STF-L record match the contents of the corresponding positions in the EMR extract record, the quarter count (positions 13-14) in the last STF-L record is incremented. In this case, the EMR record is not included in the set of records written to the intermediate STF-L file. If the contents do not match, the EMR extract is included in the set of records written to the intermediate STF-L and STF-B files.

STF Merge Program

This program combines the intermediate STF-L file, the intermediate STF-B file, the SSN change file and the EAOS change reason file to produce the new STF-L and STF-B files. The SSN change records are appropriately inserted into both the STF-L and STF-B files. If either EAOS (positions 78-85) of the two most recent STF-L records differ, the EAOS change reason file is searched. If no record with the corresponding SSN is found, the EAOS change indicator (POS 86) in the most recent STF-L record is set to 9 (i.e., unknown reason). If a corresponding EAOS change is found, the indicator is set to the appropriate value. The STF-L records and the STF-B records are written to the new STF-L and STF-B files.

The STF update process is illustrated in Figure C-1.

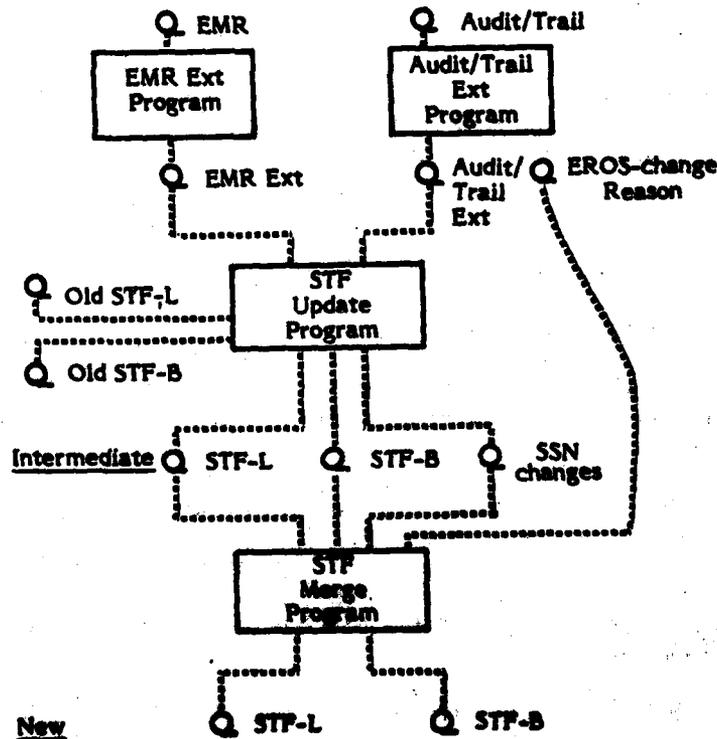

Figure C-1. Flowchart illustrating STF update processing.
