GENERAL GUIDANCE

General. Make Blocks 1, 4, 5, 6, 7, 11, 13, 15, and 16 agree with the corresponding information on the report cover. Leave Blocks 2, 3, and 8 blank.

Block 1. Report Number. Enter the unique alphanumeric report number shown on the cover.

Block 2. Government Accession No. Leave Blank. This space is for use by the Defense Documentation Center.

Block 3. Recipient's Catalog Number. Leave blank. This space is for the use of the report recipient to assist in future identification of the document.

Block 4. Title and Subtitle. Enter the title in all capital letters exactly as it appears on the publication. Titles should be entered whenever possible. Write out the English equivalent for Greek letters and mathematical symbols in the title (see *Scientific and Technical Reports of Defense-sponsored RDT/E*, AD-667 000). If the report has a subtitle, this subtitle follows the main title, be separated by a comma or semicolon if appropriate, and be initially capitalized. If a publication has a title in a foreign language, translate the title into English and follow the English translation with the title in the original language. Make every effort to simplify the title before publication.

Block 5. Type of Report and Period Covered. Indicate here whether report is interim, final, etc., and, if applicable, inclusive period covered, such as the life of a contract covered in a final contractor report.

Block 6. Performing Organization Report Number. Only numbers other than the official report number shown in Block 1, such as numbers for in-house reports or a contractor/grantee number assigned by him, will be placed in this space. If no such numbers are shown, leave this space blank.

Block 7. Author(s). Include corresponding information from the report cover. Give the name(s) of the author(s) in conventional form (example, *John R. Doe* or, if author prefers, *J. Robert Doe*). In addition, list the affiliation of an author if it differs from that of the performing organization.

If appropriate, enter in 15a the declassification/downgrading schedule of the report, using the instructions for declassification/downgrading schedules listed in paragraph 4-207 of DoD 5200.1-R.

Block 19. Key Words. Select terms or short phrases that identify the principal subjects covered in the report, and are sufficiently specific and precise to be used as index entries for cataloging, conforming to standard terminology. The DoD "Thesaurus of Engineering and Scientific Terms" (TEST), AD-672 000, can be helpful.

Block 20. Abstract. The abstract should be a brief (not to exceed 200 words) factual summary of the most significant information contained in the report. If possible, the abstract of a classified report should be unclassified and the abstract an unclassified report should consist of publicly-releasable information.
