SCHOOL OF ADVANCED MILITARY STUDIES

RESEARCH CATALOG

AY 1986-1987
This catalog contains lists of authors and titles of research papers prepared by students of the School of Advanced Military Studies (SAMS), Command and General Staff College, Fort Leavenworth, Kansas. These papers were prepared under the auspices of SAMS' two primary programs, the Advanced Military Studies Program (AMSP) and the Advanced Operational Studies Fellowship Program (AOSFP).

AMSP students are required to write two course monographs, the first focusing on a tactical issue and the second focusing on an operational subject. Advanced Operational Studies Fellows are also required to write a monograph, but they are given wider latitude in the selection of topics than are the AMSP students. In each case the research paper reflects the author's own considered judgment and does not represent an official position of this School, the Command and General Staff College, or the United States Army.

The numbers following each entry correspond to the Defense Technical Information Center (DTIC) accession number. Copies from DTIC may be obtained by authorized government agencies through a DTIC terminal or by correspondence to the following address:

Defense Technical Information Center
ATTN: DTIC-FDAC
Cameron Station, Alexandria, Virginia 22314-6145

Copies may also be obtained through the Combined Arms Research Library at the Command and General Staff College by correspondence to:

Interlibrary Loan
Combined Arms Research Library
U.S. Army Command and General Staff College
Fort Leavenworth, Kansas 66027-6900

Users of this catalog are encouraged to circulate it to interested agencies and to provide it to reference libraries where it will have maximum accessibility.

L. D. HOLDER
Colonel, Armor
Director, School of Advanced Military Studies
