NOSC Optical Propagation Experiment

Final Report to
Office of Naval Research
Contract N00014-89-D-0142 (DO#12)

Principal Investigator: Fred H. Fisher

MPL-U-31/91
May 1991

Approved for public release; distribution unlimited.

University of California, San Diego
Scripps Institution of Oceanography
MPL was tasked to supply support services and the FLIP platform for a laser communication experiment by NOSC. These services were provided and NOSC was satisfied with our performance. The experiment was a classified one to which we had no access.
