A REVOLUTIONARY WAR:
KOREA AND THE
TRANSFORMATION OF THE
POSTWAR WORLD

OCTOBER 1992
INTRODUCTION

Long overshadowed by World War II and the Vietnam Conflict, the Korean War is beginning to be seen as a seminal event in the military and diplomatic history of the Twentieth Century. This bibliography lists works which examine major aspects of that war and its effects. It was prepared at the request of the Department of History in support of the 15th Military History Symposium, which will be held at the United States Air Force Academy from 14 to 16 October 1992. The bibliography lists a selected portion of the US Air Force Academy Library's holdings on the indicated topic. Included are books, government publications, journal articles, and technical reports, neither newspaper articles nor works of fiction are included.

The choice of periodical articles for the bibliography was highly selective, consisting of those deemed to be of value in promoting understanding and analysis of the Korean War. Many additional articles may be identified by searching appropriate indexes.

This bibliography was compiled by Mr. Elwood L. White of the Reference Branch of the Academy Library. The manuscript was prepared for the printer using Pro-cite bibliographic software.
