**Proceedings Eighth Users' Stress Workshop (U)**

A. David Mangelsdorff

---

**Stress; stress disorders, post-traumatic stress psychological training.**

The proceedings document the presentations at a workshop conducted in September 1991 on the training programs designed for managing psychological trauma and stress.
PREFACE

The eighth in a series of stress workshop/conferences held in San Antonio, Texas, the 1991 effort was as successful as previous ones. I would like to thank the following organizations for their interest and concern in support this program: the NATO Research Study Group on Psychological Support, the United States Army Health Care Studies and Clinical Investigation Activity, the University of Texas Health Science Center at San Antonio, and the San Antonio Police Department in general (and Dr. Mike McMains in particular) for their contributions.

It is hoped the experience and information will be profitable to all users.

A. David Mangelsdorff. Ph.D., M.P.H.
