c. In addition to the annual inspection plan, the IG, DoD, will normally provide a 120-day advance announcement of inspections to the Heads of the DoD Components. The commanders of inspection sites normally shall be provided specific advanced notification of upcoming site visits. When additional sites are identified during the inspection process, commanders will be notified as far in advance as practicable, but such sites may be visited with minimum advance notice when necessary to prevent delay of the inspection.

2. Inspection Report Processing

a. A draft inspection report shall be furnished to the appropriate action Agencies for comment before publication of the final report. All action Agencies shall respond to the findings and recommendations in the draft report within the response time established by the IG, DoD, transmittal memorandum. The response time established will be based on the urgency, extent, and complexity of the inspection but will be no less than 30 calendar days. The action Agencies shall:

(1) Advise the IG, DoD, within 10 calendar days of the transmittal date when the recipient believes action was assigned incorrectly.

(2) Provide management comments indicating concurrence, partial concurrence, or nonconcurrence with each finding and recommendation, and the estimated monetary benefit.

(3) Describe the corrective actions taken or planned and the actual or estimated completion dates.

(4) Provide a rationale for nonconcurrences and, where appropriate, alternative methods to correct the deficiency or an alternative estimate of potential monetary benefits.

(5) Identify and propose solutions to problems directly related to, but not explicitly discussed in the findings and recommendations, if applicable.
b. The final inspection report contains the findings and recommended corrective actions along with management comments. When management comments are not responsive, action Agencies shall provide to the Assistant Inspector General for Inspections (AIG-INS), OIG, DoD, additional information as requested.

3. Resolution, Followup, and Verification

a. Final reports and management comments are referred to the Assistant Inspector General for Analysis and Followup, OIG, DoD, for resolution or followup under the provisions of DoD Directive 7650.3 (reference (d)).

b. The AIG-INS, OIG, DoD, shall, on a selective basis, conduct on-site verification and evaluation of inspection results and corrective actions. The on-site verification shall be coordinated to avoid duplication in the OIG, DoD, followup program and to ensure an aggressive field verification effort.

4. IG, DoD, Assistance Procedures. The Inspector General Act of 1978 (reference (c)) provides for receipt and investigation of employee complaints on fraud, waste, and mismanagement. The IG, DoD, inspection program will promote the receipt and handling of such complaints as follows:

b. Employees who ask for assistance from the IG, DoD, will be referred to the channels with the authority to resolve the problem. Personnel will be encouraged to try to resolve personal complaints or grievances at the local command level through discussion with their supervisor, complaint official, or head of their organization.

c. Reports of suspected criminal activity will be referred to the appropriate OIG, DoD, investigative or audit function for action.

d. The OIG, DoD, representative receiving information from an employee shall not disclose the identity of that employee without the employee's consent as described in reference (c), unless the IG determines such disclosure is unavoidable during the course of the inspection. In those cases, the OIG, DoD, representative shall notify the employee when his or her identity has been or may be disclosed, and, if possible, to whom such disclosure has been or shall be made.
