E. RESPONSIBILITIES

1. The Assistant Secretary of Defense for Force Management Policy shall:

   a. Administer this Instruction through a request for annual submission of resource reports from the Military Departments within 30 days after the President's budget has been submitted to the Congress.

   b. Ensure that the Military Departments comply with requirements through certification of inputs for consistency and completeness.

   c. Provide additional guidance and/or clarification to the Military Departments as necessary for their data submissions.
2. The **Secretaries of the Military Departments** shall:

While specific activity costs are consolidated under generalized categories within the budget justification books, academy resources must be identifiable with those accounts displayed.

c. Designate a focal point responsible for transmitting the requested information to the OASD(FMP). The office so designated shall identify a liaison to provide clarification or explanation of data, if necessary.

d. Furnish, on request, to the OASD(FMP) the completed forms in this Instruction. Additionally, submit copies of the academy summary formats (DD Forms 2721, 2722 and 2723) to the Comptroller of the Department of Defense (C,DoD).

F. **PROCEDURES**

1. **General.** All resource information applicable to a Service Academy and its related Preparatory School in support of the active force (and, if applicable the Reserve components) is to be reported on an actual or estimated basis by appropriation. Resources to be reported are those funded under the Active and Reserve Military Personnel Appropriations (all Service personnel, cadet subsistence, allowances, and uniforms); Operation and Maintenance (O&M) Appropriation for supplies, equipment, and facilities to include items provided on a reimbursable or nonreimbursable basis by another organizational segment of the reporting Service; Procurement Appropriation (computers, systems, etc.); and capitalized investments: Military Construction (MILCON) and Military Family Housing (MFH).

2. **Reporting and Recordkeeping.** Minimum reporting and recordkeeping requirements for academy costs shall be as follows:

a. The Army, the Navy, and the Air Force shall submit annually individual reports on the demographics and resources for their respective Service Academy and Academy Preparatory School to include associated training programs. The Marine Corps shall
account for resources used in support of the Naval Academy and the Naval Academy Preparatory School on separate formats to be included with the Department of Navy's submission.

b. Reports developed for the OASD(PMP) shall be consistent with data provided in the President's budget request and information contained in the C,DoD report (reference (b)). All costs shown on the specified formats shall be in current dollars for each fiscal year (FY) addressed. Within 30 days after the President's budget has been submitted to Congress, the Services shall submit annually data to cover 4 FYs:

(1) The prior FY (actual).

(2) The current FY.

(3) The budgets for the two succeeding FYs.

c. For each format at enclosures 2 through 8, fill in applicable blanks identifying the Service, date prepared, and FYs reported.

d. Projected and/or estimated inflation rates used in the computation of military pay, civilian pay, and O&M shall be those provided annually in the C,DoD (reference (c)).

e. Costs incurred in the conduct of multiple programs and consolidated under a single budget activity should be separated for reporting on the applicable formats. For example, if multiple officer program costs (Reserve Officers Training Corps, Service Academy, Academy Preparatory School, Officer Candidate and/or Training School) are accounted for under one budget activity (i.e., automation, communications), they should be allocated or prorated between the two programs and reported under the activity's heading. A prorated or allocated cost between programs should be shown with an asterisk denoting that the cost is an estimate rather than a specific amount for which records are maintained.

f. Each Military Department should submit only those formats for which manpower or funds have been committed to a Service Academy and Academy Preparatory School program. Manpower resources should be reported by the component in which the officer or enlisted personnel serves.

g. If the total annual cost allocated to a specified cost category (shown on DD Form 2721) is less than 500 dollars, it need not be reported here.

h. Information on race and/or ethnicity shall be consistent with the standardized categories developed by the OMB (reference (d)).
