Operations Other Than War

A Selected Bibliography

U. S. Army War College Library
May 1995
Preface

Military operations other than war encompass the use of military capabilities for any purpose other than war. These operations range from peacetime operations such as providing assistance to civil authorities, to combat operations associated with short-duration interventions, to post-combat restoration operations. This bibliography covers materials that address the subject in a general manner, as well as readings that focus specifically on recent operations like RESTORE HOPE, PROVIDE COMFORT, and the Hurricane Andrew restoration.

Most of the books, documents, periodical articles, and videorecordings cited in this bibliography, with a few exceptions, were published since 1992. Emphasis is on the United States military's involvement in operations other than war.

All materials referenced in the bibliography are readily available in the USAWC Library. For your convenience, we have added our call numbers at the end of each book entry (keep in mind that call numbers vary from library to library).

For additional information, please contact the Research and Information Services Branch, U.S. Army War College Library, by sending an e-mail message to awcsl@carlisle-emh2.army.mil, or by phoning DSN 242-4280 or Commercial (717) 245-4280.
