PREFACE

This monthly survey compiles articles on sub-Saharan Africa which appear in Pravda. It has been prepared since April 1980. Pravda is the official newspaper of the Central Committee of the Communist Party of the Soviet Union. Items published are presumably authoritative. Articles dealing with Soviet political, military, or economic interests in Africa are entirely translated or extensively excerpted or summarized. News accounts which heavily rely on news services of other countries are simply noted. All entries have been arranged chronologically under general African or country headings. FBIS translations are summarized or annotated for reader reference; duplication is avoided.
