CHANGE NO. 2
DoD 4100.39-M

FEDERAL LOGISTICS INFORMATION SYSTEM (FLIS) PROCEDURES MANUAL

I. Volume 1, DoD 4100.39-M, 1 October 1994, change as follows: Remove pages listed below and insert revised pages. Additions and changes are indicated by bold-face italic type. Deletions are indicated in the Significant Changes paragraph below.

II. SIGNIFICANT CHANGES

A. The page changes are effective upon receipt.

B. Changes for the entire manual this quarter and the applicable change number for each affected volume are: Change 2 to volume 1, change 6 to volume 4, change 8 to volume 6, change 9 to volume 8, change 9 to volume 9, and change 10 to volume 11. New basics have been provided for volumes 2, 10 and 13.
III. This change sheet will be filed in front of volume 1 for reference purposes after changes have been made.

BY ORDER OF THE DIRECTOR:

[Signature]

RANDALL B. HAGLUND
Colonel, USMC
Commander
Defense Logistics Services Center

DISTRIBUTION: Defense Logistics Agency: 41, 42

Army: To be distributed in accordance with Special Distribution List.

Navy: To be distributed in accordance with Special Distribution List maintained at NPFC.

Stocked:
Commanding Officer
Naval Publications and Forms Center
5801 Tabor Avenue
Philadelphia, PA 19120

Air Force: Distribution “X”

CHAPTER 4
APPENDIX 1-4-C
GUIDANCE FOR PrePARING DD FORMS 2021 AND 2021-1

1. **General.** All requests for system modification will be documented on DD Form 2021 and DD Form 2021-1. If the space provided is inadequate, continue on plain bond paper beginning with the title and control number on each additional page.

2. **Title.** Enter a short and concise title describing the proposed change.

3. **Control Number.** A nine-position alphanumeric number will be assigned to each FLIS System Change Request (SCR) by the initiating activity. Initiating activities will maintain a control register to assure sequential assignment of control numbers. The control number is constructed as follows:

   XX  XXXXX  XX
   Activity  Julian Date  Serial Number

   a. **Activity.** A two-digit alpha code used to identify the initiating activity:

<table>
<thead>
<tr>
<th>Code</th>
<th>Activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>CA</td>
<td>National Weather Service</td>
</tr>
<tr>
<td>DA</td>
<td>Army</td>
</tr>
<tr>
<td>DF</td>
<td>Air Force</td>
</tr>
<tr>
<td>DG</td>
<td>National Security Agency</td>
</tr>
<tr>
<td>DH</td>
<td>Defense Nuclear Agency</td>
</tr>
<tr>
<td>DM</td>
<td>Marine Corps</td>
</tr>
<tr>
<td>DN</td>
<td>Navy</td>
</tr>
<tr>
<td>DP</td>
<td>Defense Mapping Agency</td>
</tr>
<tr>
<td>DS</td>
<td>Defense Logistics Agency (DLA-CAN/MM)</td>
</tr>
<tr>
<td>GE</td>
<td>Federal Aviation Administration</td>
</tr>
<tr>
<td>GP</td>
<td>Coast Guard</td>
</tr>
<tr>

<td>General Services Administration</td>
</tr>
<tr>
<td>VA</td>
<td>Veterans Administration</td>
</tr>
<tr>
<td>ZA</td>
<td>DLA-MMLX - Federal Catalog Program</td>
</tr>
<tr>
<td>ZB</td>
<td>Military Traffic Management Command - Freight Classification</td>
</tr>
</tbody>
</table>

   b. **Julian Date.** A five-digit numeric code representing the date of preparation of the SCR, constructed as follows:

   First two positions will represent the last two digits of the year. Positions 3, 4, and 5 will represent the numeric day of the year. For example, 1 December 1994, would be represented by the code 94335.

   c. **Serial Number.** Enter a consecutively assigned number, beginning with 01 for each change in Julian date.

4. **Part I. Routing and Approval/Disapproval.** This part of the form will be used to expedite the routing of the proposal and to indicate approval/disapproval action. All approval/disapproval actions must be signed by an individual authorized to represent the requesting/evaluating activity. Final approval/disapproval action for implementation must be signed by the Federal Logistics Information
5. Part II. Requested FLIS Modifications.

a. Block 1. Background/Facts Bearing on the Proposal. This block should identify the references and the policy decisions that were the basis for defining the scope of the change. For instance, if the SCR is the result of a meeting or letter, or the result of a joint tasking, state which meeting, when, where, who the sponsor is, and the exact tasking. If the SCR is a result of a meeting or joint tasking, include a list of the attendees. References to internal correspondence and regulations will not be used. To facilitate understanding, specific paragraphic type references can be incorporated throughout the text of the proposed change (block 5). It should also identify whether the SCR has minor or major impact to Service/Agency (S/A) support systems.

b. Block 2. Proposed Implementation Date. Enter the proposed implementation date, taking into consideration the coordination cycle for approval of the SCR and the time frames required for implementation.

c. Block 3. Priority. Enter the appropriate priority, as follows:

(1) Routine Minor. An SCR requiring at least 60 calendar days for S/A coordination and distribution of the system change by DLSC a minimum of 180 days prior to implementation. A routine minor SCR requires a minimum of 370 days from date of submission of the SCR to final implementation.

(2) Routine Major. An SCR requiring from 61-120 calendar days for S/A coordination and distribution of the system change by DLSC a minimum of 240 days prior to implementation. A routine major SCR requires a minimum of 430 days from date of submission of the SCR to final implementation.

(3) Expedite. An SCR requiring at most 60 calendar days for S/A coordination and distribution of the system change by DLSC a minimum of 90 days prior to implementation. An expedite SCR requires a minimum of 198 days from date of submission of the SCR to final implementation.

(4) Emergency. An SCR required to maintain the operational status of FLIS. (See paragraph 1.4.3.a.5.)

e. Block 5. Recommended Description of Change. The following paragraphs indicate the level of detail to be provided:

(1) General Objectives. Establishes in narrative form a description of the overall system objectives to be accomplished by the system change for the function being served. Establishes what is to be done without stating specific criteria to be met in accomplishing the automatic data processing (ADP) needs of the function.

(2) Specific objectives should include, as a minimum, functional statements that delineate what shall be accomplished to ensure that the general objectives are met to the satisfaction of the functional manager. The following elements of detail will be included as specific functional requirements:

(a) Input. Cite who the data shall be received from and what elements of data shall be input to FLIS to satisfy the objective. When constrained by other functions or systems, the configuration of the data element may be identified (new Data Record

of the input and mode and media desired for the output.

(5) Benefits expected from the test.

(6) If the test is requested as the result of a problem, is the problem major, critical, or routine in accordance with volume 2, chapter 6.

c. It should be noted that a request for a mini interface test to pinpoint a problem, will not be made in lieu of reporting a problem in accordance with volume 2, chapter 6, but may supplement the problem report.

d. DLSC will process the test transactions against the STDB as time permits. However, turnaround time will not exceed one week. The test will be processed using current DLSC production programs and support files.

1.7.10 Reporting of Interface Test Effectiveness

a. Following the conclusion of each interface test, each participant is requested to forward a letter to DLA. ATTN: DLA-E. referencing the test and evaluating its effectiveness in terms of benefits derived, problems encountered, and lessons learned that will assist DLA-E and DLSC in evaluating the interface test capability and possible enhancing its effectiveness in the future.

b. DLSC will also provide evaluations of the interface test to DLA-ZS to assist in the overall evaluation.
