This report is a work prepared for the United States Government by Battelle. In no event shall either the United States Government or Battelle have any responsibility or liability for any consequences of any use, misuse, inability to use, or reliance upon the information contained herein, nor does either warrant or otherwise represent in any way the accuracy, adequacy, efficacy, or applicability of the contents hereof.
Enclosed are four sets of floppy disks. Included is one set each of the program disks for both WINLAM and FAMMAS. These programs can be installed on any IBM compatible Windows machine by inserting the first install disk into the appropriate drive and typing WINSTALL at the DOS prompt.

Also included are the disks containing the source code listings for both WINLAM and FAMMAS. Any standard text editor may be used to view and/or print the source code listings. A hardcopy of the source code listings is not included in this deliverable due to its extremely large size. However, a hardcopy listing of the source code will be provided if requested.
