DISTRIBUTION STATEMENT A

Approved for public release. Distribution Unlimited.
MEMORANDUM FOR REGIONAL DIRECTORS, DCAA
DIRECTOR, FIELD DETACHMENT, DCAA

SUBJECT: Audit Management Guidance, Revision of Procurement Integrity Act Provisions

Public Law 104-106 deleted the requirements previously contained in 41 U.S.C. 423(e) regarding certification and enforcement matters. The Public Law eliminates the requirement to list the individuals having access to proprietary or source selection information in audit reports. FAOs may begin implementation upon receipt of this MRD. FAOs should continue to list the primary DCAA contacts as we do in all audit reports.

The prior requirement for listing individuals having access to proprietary or source selection information applied almost exclusively to price proposal evaluations. This change in the law will be reflected in CAM Section 10-211 and Figure 10-2-3 in the July 1997 edition of CAM. Sample revisions to CAM Figure 10-2-3 (the "DCAA Personnel" and "Report Authorization" sections of a code 210 audit report) are displayed on the enclosure. The price proposal and preaward system survey sample reports on the DIIS will be changed in the April 1997 quarterly update.

FAOs should direct questions to their regional office. Regional offices unable to answer or with questions of their own should contact Janice Mabey, Program Manager, Auditing Standards Division, at (703) 767-3274. Our cc:Mail and FAX numbers are *pas@hq1.dCAA.mil and (703) 767-3234.

Lawrence P. Uhlfelder
Assistant Director
Policy and Plans
