The study of *Health Status of Military Women and Men in the Total Force* will obtain comprehensive probability-based epidemiological data for women and men across all pay grades for active-duty Army, Air Force, and Guard/Reserve components. These data will be combined with comparable data from a Naval Health Research Center survey of active-duty Navy and Marine Corps personnel to form a comprehensive dataset for the Total Force. Principal study objectives are to:

(a) examine the health status of military women and men in six general areas: reproductive health, medical history and nutritional status, mental health, lifestyle factors, occupational/environmental risks and stressors, and use of health services;
(b) examine the effects of military women's and men's physical health conditions or emotional problems on military work;
(c) examine the impact of military service on the health status of military women and men; and
(d) examine factors associated with health care utilization, satisfaction, and access to health services.

This Annual Report discusses major activities of Year 1, including questionnaire development and pilot testing, sample design, and data collection planning. In addition, it notes research activities planned for Year 2.
Cooperative Agreement Number DAMD17-96-2-6021

TITLE: Health Status of Military Women in the Total Force

PRINCIPAL INVESTIGATOR: Robert M. Bray, Ph.D.

CONTRACTING ORGANIZATION: Research Triangle Institute
Research Triangle Park, NC 27709-2194

REPORT DATE: October 1997

TYPE OF REPORT: Annual

PREPARED FOR: U.S. Army Medical Research and Materiel Command
Fort Detrick, Maryland 21702-5012

DISTRIBUTION STATEMENT: Approved for public release;
distribution unlimited

The views, opinions and/or findings contained in this report are those of the author(s) and should not be construed as an official Department of the Army position, policy or decision unless so designated by other documentation.
FOREWORD

Opinions, interpretations, conclusions and recommendations are those of the author and are not necessarily endorsed by the U.S. Army.

_____ Where copyrighted material is quoted, permission has been obtained to use such material.

_____ Where material from documents designated for limited distribution is quoted, permission has been obtained to use the material.

_____ Citations of commercial organizations and trade names in this report do not constitute an official Department of Army endorsement or approval of the products or services of these organizations.

_____ In conducting research using animals, the investigator(s) adhered to the "Guide for the Care and Use of Laboratory Animals," prepared by the Committee on Care and Use of Laboratory Animals of the Institute of Laboratory Resources, National Research Council (NIH Publication No. 86-23, Revised 1985).

_____ For the protection of human subjects, the investigator(s) adhered to policies of applicable Federal Law 45 CFR 46.

_____ In conducting research utilizing recombinant DNA technology, the investigator(s) adhered to current guidelines promulgated by the National Institutes of Health.

_____ In the conduct of research utilizing recombinant DNA, the investigator(s) adhered to the NIH Guidelines for Research Involving Recombinant DNA Molecules.

_____ In the conduct of research involving hazardous organisms, the investigator(s) adhered to the CDC-NIH Guide for Biosafety in Microbiological and Biomedical Laboratories.

HEALTH STATUS OF MILITARY WOMEN AND MEN 
IN THE TOTAL FORCE 

YEAR 1 ANNUAL REPORT

1.0 Introduction

Much prior research on health issues has focused generally on military men and on the active-duty Services of the Military. Consequently, broad-based epidemiological data about military women are lacking, and no comprehensive health status data are available across all components of the Total Force. The present investigation will provide, for the first time, probability-based epidemiological data on women’s and men’s health status for the Total Force, encompassing personnel serving in the Active military and in the Guard/Reserve components.

This project builds on a recent study (Perceptions of Wellness and Readiness [POWR]) conducted jointly by the Naval Health Research Center (NHRC) and Research Triangle Institute (RTI) of active-duty Navy and Marine Corps personnel. Specifically, it expands the target population of the POWR study to encompass the active-duty Army and Air Force and the full set of Guard/Reserve components. Information from the two surveys will be combined wherever possible to yield comprehensive broad-based epidemiological data on women’s and men’s health status for the Total Force. In addition to analyzing the wide array of resulting military data, it also will compare military data with civilian data from selected civilian surveys, such as the National Health Interview Survey (NHIS) and the National Health and Nutrition Examination Survey (NHANES). Military data will represent women and men across all pay grades throughout the world, and results will be generalizable to women and men in all components of the Armed Forces. Civilian data will represent women and men throughout the Nation.

This report describes progress on the study during Year 1 and project plans for Year 2.

1.1 Objectives

The overriding aim of the study is to provide comprehensive broad-based epidemiological data on the health status of women and men in all components of the Total Force, both Active and Guard/Reserve. To achieve this aim, the design, analyses, and reporting of the research will be guided by four broad objectives:

- Examine the health status of military women and men in six general areas: reproductive health, medical history and nutritional status, mental health, lifestyle factors, occupational/environmental risks and stressors, and use of health services.
Examine the effects of military women’s and men’s physical health conditions or emotional problems on military work.

Examine the impact of military service on the health status of military women and men.

Examine factors associated with health care utilization, satisfaction, and access to health services.

These findings will have high significance to the Military in general and military women in particular because they will for the first time provide broad-based data for the Total Force that have important implications for readiness. More specifically, they will (a) provide baseline epidemiological data on a wide range of health problems, risk factors, and health care needs and practices; (b) classify subgroups of women and men within and across Active and Guard/Reserve components who are most at risk of experiencing health problems; (c) suggest areas where health promotion and other interventions can be targeted to improve military women’s and men’s health; and (d) specify gaps in understanding that are in need of further study.

1.2 Background

The shift in the U.S. Military from a conscription-based to an all-volunteer force in 1973, along with increased social acceptance of women’s involvement in traditionally male-dominated occupations, has created new opportunities for an increasing number of women in the Military. In the early 1980s, less than 10% of the Armed Forces were women, but by 1995 that percentage was approximately 14% of the force for a total of nearly 200,000 women.

Although women in the U.S. Military have traditionally tended to be in administrative support or health-related occupational specialties, such as nursing, all occupations in principle are open to women except those related to direct offensive ground combat. In the Persian Gulf War, however, approximately 33,000 women served in combat-support roles, including airplane and helicopter pilots, construction and repair, and artillery direction.

In addition to safety concerns for women who might be near direct combat operations, the Persian Gulf War and other events have raised concerns about the potential impact of military service upon women’s health. These include the risk of stress-related health problems associated with minority status in a predominantly male environment, the risk of reproductive hazards associated with exposure to hazardous materials, or the risk of injury if women are in more physically demanding occupational specialties as opposed to administrative or medical
specialties. Similarly, concern has also been raised about the potential impact of women's health problems upon overall military readiness.4

Partly in reflection of the large proportion of males in the Military, however, much prior research on the health of military personnel has either involved all-male samples within individual Services,8-11 or it has included both military women and men but has generally not provided gender-specific estimates.12,13 Prior health-related studies that have been conducted among military women, such as the 1989 DoD Women's Health Survey,14 the 1992 Navy Personnel Research and Development Center (NPRDC) survey of pregnancy among enlisted women, and Hoiberg and White's study of hospitalizations among Navy women,4 have tended to focus on a narrow aspect of military women's health issues (e.g., pregnancy, hospitalizations) or have not allowed estimation of baseline disease prevalence rates.

In addition, military population surveys do not offer the same degree of detailed epidemiological data on health status and health behaviors as are available for the civilian population through such studies as the National Health and Nutrition Examination Survey (NHANES),15-17 the National Health Interview Survey (NHIS),18 the Behavioral Risk Factor Surveillance System (BRFSS),19 and the Epidemiological Catchment Area (ECA) study.20 Five recent DoD-wide surveys have provided some population-based health data on active-duty members: the 1992 Worldwide Survey of Substance Abuse and Health Behaviors Among Military Personnel,21 the 1992 DoD Survey of Military Medical Care Beneficiaries,22 the 1989 DoD Women's Health Survey,14 the 1995 DoD Survey of Health Related Behaviors Among Military Personnel23 and the 1994-95 health care survey of DoD beneficiaries. Unfortunately, none of these studies allows extensive estimation of baseline disease prevalence rates or provides comprehensive data about nutritional status, mental status, exposure to trauma/environmental hazards, reproductive history, stressors, or lifestyle factors. Additional research is needed to better assess these issues and their impact on the use of health services and on the readiness of military women.

Studies of health service utilization of military women have found that military women are more likely to use health services than military men, a finding consistent with research in the civilian population.24-26 Nice and Hilton found that Navy shipboard women used health care resources at a significantly higher rate than did men, with a female-to-male visit ratio of 1.44 for all visits and 1.21 when all sex-specific diagnoses were excluded.27 Similarly, a study of the health status of women in the Army demonstrated that Army women used health care resources more frequently than Army men did.28 In addition, Navy enlisted women have considerably higher rates of hospitalization than do enlisted men, with pregnancy-related conditions accounting for nearly one-third of women's hospitalizations.29
In one study of enlisted Navy men and women, mental disorders were the second leading cause for hospitalization, after injuries for men, and after pregnancy-related conditions for women.29 However, a study of sex differences in sick call diagnoses aboard U.S. Navy ships found significantly higher rates of personality disorder, stress, and adjustment reactions, and other symptoms and syndromes (e.g., eating and sleep disorders) among women.30 Also, women soldiers deployed during the Persian Gulf War were almost twice as likely as men to be diagnosed with psychiatric disorders.31 However, these higher rates may reflect women’s greater propensity to use health services, as noted above. Further, most studies have not controlled for known demographic, psychosocial, or Service-related differences between the sexes in the assessment of their disorder rates. More definitive data are needed to understand the extent of mental disorders and the need for additional prevention and/or intervention services.

Reproductive issues are of major concern not only for policy purposes (e.g., manning ships and staffing combat positions), but also for specialized health care. An NHRC study found that age-specific birth rates for Navy enlisted women were 10% to 50% less than for civilians.32 The same study also reported that active-duty enlisted Navy women had an ectopic pregnancy rate twice that of civilian women. However, baseline information on known risk factors (e.g., lifestyle, reproductive history, and history of sexually transmitted diseases [STDs]) for adverse reproductive outcomes was not available. Therefore, adequate inferences could not be made about the high rate of ectopic pregnancies in enlisted Navy women.

Findings from these studies might suggest that stressors associated with being a woman in the Military or exposure to hazardous materials could be adversely affecting the health of military women. However, many of these studies have focused on only one Service (e.g., the Navy), have not taken into account risk factors that could explain differences between military women and men, or have not collected sufficient baseline information to examine relationships between a particular risk factor (e.g., exposure to hazardous chemicals) and health outcomes. To better understand and evaluate the effect of an expanded role for women, a clear understanding of health, lifestyle, and fitness variables must be ascertained to serve as a basis for subsequent comparisons.

This study attempts to address a number of these gaps in information by generating baseline information related to six general health issue areas: (a) reproductive health, (b) medical history and nutritional status, (c) mental health, (d) lifestyle factors, (e) occupational/environmental risks and stressors, and (f) use of health services. When combined with data from the POWR survey of active-duty Navy and Marine Corps personnel, this research will provide important baseline information on the health status of military women and men in the Total Force, including the Guard/Reserve components. The results of this survey will provide the
means to evaluate women’s health status in the Total Force, an issue of considerable importance as the demographic profile of the Military changes over the next few years and as women move into occupations that have traditionally been dominated by men. In addition, some information will be collected using methodology and measures similar to those used in national civilian surveys and, therefore, will be comparable to civilian population data. Taken together, findings from this research can reaffirm or guide current policies on occupation and medical care in the Military, particularly with regard to issues reflecting the health of military women.

2.0 Year 1 Activities

The first year of the project has been devoted to building support for the study among the Military Services, refining the study instrument and procedures, and obtaining needed clearances. More specifically, we have assembled an advisory committee from the Military Services and held four meetings of the committee, developed and pilot tested a questionnaire for the study, refined the sampling design and data collection plans, and obtained human subjects approval and clearance for a Report Control Symbol (RCS) for the study. This section provides details about these activities.

2.1 Advisory Group Meetings

Shortly after the project was awarded in October 1996, we embarked on a process of developing support for the study among the Military community. Our basic approach was to enlist the support of an advisory committee with representatives from all of the Services and Reserve Components that would be involved in the study (Active Army, Active Air Force, Army National Guard, Army Reserve, Air National Guard, Air Reserve, Marine Corps Reserve, Navy Reserve). DoD Reserve Affairs assisted us in obtaining contacts for the various Reserve Components. In addition, representatives from other Military offices that we worked with during the proposal period agreed to serve on the committee and support the study from the Active Army, Air Force, and Army National Guard. Currently, the advisory group is comprised of representatives from the following offices:

- U.S. Army Center for Health Promotion and Preventive Medicine;
- U.S. Army Medical Research and Materiel Command;
- U.S. Army National Guard Readiness Center;
- Office of the Chief of the Army Reserve;
- Office of the Secretary of Defense, Reserve Affairs;
- U.S. Naval Reserve Health Care Programs Branch;
- U.S. Navy Bureau of Medicine and Surgery;
Headquarters, U.S. Marine Corps;
- Air Force Office for Prevention and Health Services Assessment; and
- Office of the Assistant Secretary of Defense, Health Affairs.

During Year 1, the study team held four meetings at the RTI-Washington, DC, office with the advisory group. As a result of these meetings, the advisory group members have had significant influence and input into the development of the questionnaire and survey methods. They also have been invaluable in building support for the study among their Service components. Despite their overall support, some members of the group have been outspoken and have taken issue with some aspects of the study design. For example, there was considerable discussion about whether men should be included in the survey because a major focus of the investigation was on women's health issues. Fortunately, all of these differences have been resolved successfully.

2.2 Questionnaire Development

When we began the Total Force study, our intention was to use the questionnaire developed by NHRC for their POWR study with a few modifications to make it applicable to the Reserve components. POWR was designed to assess the health status of active-duty Navy and Marine Corps personnel with regard to reproductive health, medical history and nutritional status, mental health, lifestyle factors, occupational/environmental risks and stressors, and use of health services. In developing the POWR questionnaire, NHRC gave priority to using well-established instruments that (a) had published and reliable psychometric properties, (b) were appropriate to an active-duty military population, and (c) were brief. Emphasis was on using questions from standardized large national health surveys and other military surveys for comparability.

Early in discussions with the advisory group, it became apparent that several members had reservations about using the POWR questionnaire for the Total Force survey and that a number of changes were going to be necessary to address their concerns. The number of proposed revisions to POWR prompted the advisory group to ask us to revisit the utility of POWR compared to other questionnaires. To be responsive to their concerns, the study team agreed to revise the questionnaire. Consequently the advisory group became active participants in reviewing and shaping the content of the questionnaire and provided valuable insight into current military issues. Not only did they propose new issues for us to include in the Total Force questionnaire, but they also suggested areas to expand and to delete.
As a result of our initial advisory group meeting, we spent many hours reviewing alternative instruments and comparing them with the POWR instrument. As a part of this review process, we also consulted with the NHRC about their analyses of the POWR data. We wanted to retain as much of POWR as possible to preserve our ability to link our data to the POWR data at the end of our data collection.

In developing the Total Force questionnaire, some items were added to provide more in-depth information about basic study constructs and about recent emerging themes for the Military. In addition, some items were deleted from the POWR questionnaire based on preliminary analysis of POWR data or critique from the study advisors. Working with the advisors, we have been able to understand each Service’s needs, attend to their concerns, and obtain their advice throughout this process. In addition to their input during meetings, the advisors’ availability outside meetings has also facilitated our questionnaire development efforts.

The result was a new instrument we are calling the Total Force Health Assessment that maintains many components of POWR, but varies in a number of ways. More specifically, In comparison to POWR, the Total Force Health Assessment has

- reorganized the demographics section;
- included questions about paying for medical/dental bills and insurance coverage;
- added questions to assess sexual risk-taking behavior;
- expanded the preventive health section;
- omitted the current medications section;
- eliminated the Hopkins 21-symptom checklist, which examines anxiety (because it was highly correlated with the Center for Epidemiological Studies—Depression [CES-D] scale);
- expanded the time horizon for measuring stress;
- increased the number of questions assessing tobacco use;
- increased the number of questions assessing alcohol use;
- rephrased questions related to child rearing;
- expanded the deployment section to assess satisfaction with facilities during deployment, re-entry stressors, and deployment deferrals;
reformulated the occupational exposure section;

added questions to examine how pregnancy may limit work performance; and

modified the questions pertaining to planned pregnancies and prenatal care.

The draft questionnaire for the Total Force Health Assessment appears in Appendix A.

2.3 Pilot Test

To assess the utility of the Total Force questionnaire, a pilot test was conducted among personnel from the Guard, Reserve, and Active components. This was done using group administrations, with 185 people (104 men and 81 women). After respondents finished the instrument, debriefing sessions were held with military personnel as they exited the group administrations. These debriefing sessions allowed us to explore specific issues about the questionnaire in-depth and were particularly beneficial in highlighting issues needing attention in the instrument (see Appendix B for a copy of the debriefing questions).

The final revisions to the Total Force questionnaire include

- expanding the illnesses and injuries section to capture those that limit the respondent’s ability to work in his/her non-military job;

- assessing the respondent’s strategies for coping with stress;

- exploring the cause of any deterrence to receiving health care services;

- making the exercise section more concise;

- increasing the number of questions about contraceptive methods;

- introducing a skip pattern that allows respondents who have not had or who have not used birth control to skip the questions about contraceptive methods;

- adding a definition for physical, sexual, and emotional abuse;

- substituting a different scale to measure the respondent’s level of anger;

- revising the deployment section to focus more on the respondent’s last deployment;

- reformulating the definition for deployment;
- rephrasing questions related to occupational hazards;
- allowing female respondents who have had a hysterectomy to skip questions related to their menstrual cycles or uterine problems;
- allowing female respondents who have never been pregnant to skip pregnancy-related questions; and
- introducing questions that assess women's ability to work throughout their pregnancies.

We are in the process of finishing these revisions to the Total Force questionnaire so that it will be ready to go into the field in January 1998. As a result of the numerous rounds of revisions the Total Force questionnaire has undergone, we have lost much of the comparability to the POWR survey. Although we have tried to retain comparability wherever possible, especially in regard to the psychosocial scales included in POWR, our greater priority has been to create an instrument that would better serve the Total Force.

2.4 Sample Design

The data for the Total Force study will be collected using a stratified random sampling design. Strata will be constructed to control the distribution of the sample with respect to the following factors:

- duty location at two levels: Continental U.S. (CONUS), Outside CONUS (OCONUS);
- Service component at three levels: Active-Duty Army, Active-Duty Air Force, and Ready Reserve (Army National Guard, U.S. Army Reserve, U.S. Naval Reserve, U.S. Marine Corps Reserve, Air National Guard, U.S. Air Force Reserve);
- gender at two levels: male, female;
- pay grade group at five levels: E1 - E3, E4 - E6, E7 - E9, O1 - O3 and W1 - W5, O4-O10; and
- race/ethnicity at two levels: white, nonwhite.

Source information for constructing and stratifying the sampling frame will be extracted from the Active Duty Master File (ADMF) and the Reserve Components Common Personnel Data System (RCCPDS) maintained by the Defense Manpower Data Center (DMDC).
The allocation of the total sample to the stratum cells will be determined in response to precision requirements imposed on specified key reporting domains. Domains for this purpose have been identified in a preliminary design. This candidate design assumes a mail survey methodology. Key reports from the preliminary sample design are included in Appendix C and are described below.

The Domain Data Report lists the key reporting domains, prevalences, and variance constraints upon which the design is developed. The Stratum Sizes Report lists the strata we have developed at this point to control the distribution of the sample with respect to the representation of the key domains. The Sample Allocation Report shows the minimum cost allocation of a sample of total size 50,000 (approximately) that will satisfy the variance constraints given in the Domain Data Report. Finally, the Domain Results Report shows which of the domain constraints are driving the solutions (and by implication the costs), the precision we expect given the sample allocation reported in the Sample Allocation Report, and the design effect associated with each of the key domain prevalence estimates.

The sample allocation was computed by first constructing equations that describe the variable survey costs and domain-level variances. The equations, together with the inequality variance constraints implied by the domain-level precision requirements, are combined in an objective function that is minimized subject to the set of variance constraints. The allocation solutions obtained are those that achieve the imposed precision requirements for the least cost. Under another contract, RTI has developed a computer-assisted sample development and evaluation tool for the DMDC that has been used to construct the strata, define the key domains, compute the minimum cost allocation, and evaluate the expected performance of the sampling design.

A total sample size large enough to yield 30,000 observations is planned. We are assuming an overall response rate of 60%, implying a total sample size of 50,000 persons. However, the response rate depends on a number of factors, such as the perceived importance of the study to the surveyed population, the length and complexity of the questionnaire, the follow-up procedures used to obtain information from initially uncooperative individuals, and the Service component, pay grade, race/ethnicity, and to a lesser extent the gender of the sampled person. Hence to some degree, the experienced overall response rate depends on how the sample is allocated.

Current plans are to use weighting class adjustments and post-stratification adjustments as the basis for missing data (nonresponse) compensation. Weighting classes will initially be constructed to be congruent with the design strata. Should the experienced response patterns
necessitate collapsing of the initially defined classes (because of few respondents in some classes), consideration will be given to using (inverse) response propensity weighting in place of weighting class adjustments. The two procedures are equivalent when the response propensity model includes the interaction terms implied by the weighting classes. However, the response propensity procedure has superior properties when weighting classes are collapsed. Because the model includes the main effects, the full sample weighted distributions of the control variables are reproduced (which is not the case for weighting class adjustments when some of the classes are collapsed).

Further, depending on the availability of information, the modeling approach allows the inclusion of terms related to differences in the response variable values between respondents and nonrespondents. Weighting classes, on the other hand, assume that the averages of the response variable values for respondents and nonrespondents are the same within each class. Note also that the performance of the model can be evaluated using standard regression-based procedures.

Sample subgroups (i.e., key reporting domains) have been defined in terms of Service, gender, pay grade group, and race/ethnicity. The precision requirements for the survey are specified in terms of the maximum values of the sampling variances to be associated with estimates of domain proportions. For this purpose, the values of the proportions in each domain are specified along with their variances. The specifications are reasonably based on policy and program considerations. For example, a policy and/or program response might be undertaken by a Service if, say, 10% of the women in that Service were to report a level of stress that affected their performance on the job. If such were the case, then the survey could be designed to provide estimates of 10% with a confidence interval no more than, say, plus or minus 2% for domains defined in terms of women within Services.

Such specifications are not yet in place and will be developed in consultation with the advisory group for the study. The process is likely to be iterative insofar as the specified precision requirements are necessarily constrained by the budget appropriated for collecting, editing, and processing the sample data.

Given the precision requirements, the final step involves computing the sizes of each of the domains in each of the design strata, combining the size information with the specified values of the domain proportions and associated variances, and computing that allocation of the total sample that will satisfy the total set of variance constraints for the least cost. The sample allocation is the number of observations required from each of the design strata. The allocation solutions obtained are then inflated to allow for the expected stratum-level response rates.
2.5 Data Collection Planning

We are currently in the process of finalizing our data collection plans and expect to use two different data collection methodologies for the study depending on the proximity of selected personnel to a major military installation or drilling center and the level of military support that can be obtained. The two methods are a mailout and direct administration in group sessions. Persons selected for the study who are remote from a major installation would receive a mailing, and those who are close to an installation would participate in group sessions. We are having discussions with the Services to assess the feasibility of group sessions. In the event that group sessions cannot be arranged, we will conduct the entire study with the mail methodology.

For those who are mailed a questionnaire, we plan to use the Total Design Method recommended by Dillman,\textsuperscript{33,34} which involves mailing an initial questionnaire packet followed by a “reminder/thank you” postcard 1 week later. Approximately 3 weeks after the postcard mailing, a second mailing of a questionnaire packet, with a revised cover letter, will be sent to nonrespondents. A third questionnaire packet will be sent via overnight express to nonresponders after 3 to 4 more weeks have passed. Although Dillman suggested a telephone follow-up as a possible alternative to a third mailing, we questioned the availability of home/billeting telephone numbers for selected personnel. We, therefore, opted for the less costly third mailout. We believe that we can further optimize returns by using the updated Dillman approach of sending a “heads up” lead letter to each selected respondent 5 to 7 days prior to mailing the initial questionnaire packet. The letter will advise the selected participants that RTI will send them a questionnaire packet, that their participation is important to the success of the research, and that their responses are strictly confidential.

Over the past year, we have been working with our scoring contractor, National Computer Systems (NCS), to develop a means of maintaining the respondent’s anonymity but, at the same time, have a means to track who has returned a questionnaire. This is essential to minimize costs associated with follow-up mailings by limiting them to nonrespondents only. To ensure that a respondent’s data cannot be linked to his/her name and address, we are currently planning to use anonymous questionnaires that contain no identifying information. Questionnaires sent to respondents in the mail will have a bar code or similar identification number printed on the postage-paid return envelope that accompanies each questionnaire. (A copy of the RTI cover letter is in Appendix D.) When a completed questionnaire is received by NCS, the instrument will be immediately separated from the envelope in which it came, and the bar code (or identification number) will be scanned (or keyed) into a data file to allow us to keep track of which respondents have sent back questionnaires (so that a second mailing is sent only to nonresponders). The identification number will be entirely separate from the respondent’s data.
and will only be kept for the purpose of limiting second and third mailings to nonrespondents. Completed questionnaires will be optically scanned by NCS.

Where feasible and when we can obtain necessary command support, we plan to administer the survey at installations in group sessions instead of by mail. We are currently working with our advisory group comprised of military representatives of the respective military components to obtain support for group sessions. If support is obtained for this approach, it will require additional effort and involvement from the Military. A classroom-type facility would need to be provided. A Service member will also be needed to serve as the Point of Contact (POC) to coordinate the logistics and administration of the survey. This would include (a) notifying persons who are randomly selected by RTI to participate; (b) arranging for a classroom; (c) documenting attendance, distributing the survey materials, and monitoring the group sessions; and (d) arranging to have a mailbag for collecting and mailing completed surveys.

2.6 Study Clearances

In addition to working on the sampling and field methods for the study, we have also been involved in gaining needed clearances to proceed with the fieldwork. The RTI Institutional Review Board (IRB) has reviewed the study and approved it for pilot testing and field data collection. The RTI IRB will re-review the project at yearly intervals as long as the data collection continues. The study also was reviewed by the Department of the Army Human Use Review and Regulatory Affairs Division. That office reviewed the proposed survey methodology in light of compliance with all applicable human use regulations and issued its approval for an "exempt" status for the study.

Additionally, RTI has submitted an application for a Survey Control Number and Report Control Symbol (RCS), which is required before field operations can commence. This was submitted to the Army Research Institute (ARI), Army Personnel Survey Program. An initial review has been completed, and we are expecting that the Survey Control Number and RCS will be issued shortly, pending requested revisions to the questionnaire.

3.0 Summary and Conclusions

To summarize, the following key activities were accomplished in Year 1:

- An advisory group from all participating components was assembled for the study.
- The questionnaire was revised.
• A pilot test was conducted.

• Human subjects approach was obtained.

• A preliminary sampling plan was developed, pending resolution of data collection methodology.

• Two data collection methodologies were explored—a mail methodology and a group session methodology. The final methodology to be used awaits decisions from the advisory group about the level of support for group sessions they can obtain.

Year 2 will see data collection on the study beginning early in 1998. We are currently making final revisions to the questionnaire and plan for the questionnaire to go to printing in December 1997. During November and December, we will be finalizing our data collection plans and seeking approval to conduct group administration survey sessions where possible. We plan for data collection to occur from January through May 1998. Following data collection, we will begin building an analysis data file, weighting the data, and conducting the analyses.

We will continue to meet periodically with our advisory group of military representatives to obtain their advice and input on the study and to seek their approval for gaining access to group sessions.

APPENDIX A
1997 Total Force Health Assessment

Introduction

What is this study about? This study is mainly about your health with questions on illness, stress, smoking, and sexual behavior, for example.

How will your answers be used? Your answers will be combined with those from other military personnel to prepare a final report. The information in the report will be used to improve the quality of military life.

Who is overseeing the study? Research Triangle Institute, a not-for-profit research company, is under contract to the Department of Defense to oversee this study.

How were you selected? You were randomly selected to participate in this important survey.

Instructions for Completing the Questionnaire

- Most questions provide a set of answers. Read all of the printed answers before marking your choice. If none of the printed answers exactly applies to you, mark the circle for the one answer that best fits your situation.

- Use only a soft-lead pencil (such as a #2) to complete this questionnaire.

- Make heavy black marks that fill the circle for your answer.

  CORRECT MARK
  ❖

  INCORRECT MARK
  ○ ● ○ ○

- Completely erase any answers you change.

- Do not make any stray marks anywhere in this booklet.

- Sometimes you will be asked to “Darken one circle on each line”. For these questions, record an answer to each part of the question, as shown here:

  EXAMPLE:
  
  Has a health care provider ever told you that you had any of the following?

  a. Asthma
  b. Chronic bronchitis
  c. Chronic rhinitis or hay fever

  No, Never Yes, But Recovered Yes, Still Have
  1 2 3

- If you are asked to give numbers for your answer, please complete the grid as shown below:

  EXAMPLE:
  
  Think about your illnesses in the past 12 months. How many days were you unable to perform your military job because of illness in the past 12 months?

  * First, enter the number of days in the boxes. Use all three boxes. Write ONE number in each box.

  DAYS
  0 0 5
  1 1 1
  2 2 2
  3 3 3
  4 4 4
  5 5 5
  6 6 6
  7 7 7
  8 8 8
  9 9 9

  * Always write the last number in the right-hand box. Fill in any unused boxes with zeroes.
  For example, an answer of “5 days” would be written as “005.”

  * Then, darken the matching circle below each box.

- For many questions, you should mark only one circle for your answer in the column below the question, as shown here:

  EXAMPLE: How would you describe your health?

  1. Excellent
  2. Very good
  3. Good
  4. Fair
  5. Poor

  Now please turn the page and begin with Question 1
1. In which component of the military do you currently serve?*

   1. Active Army (USA)
   2. Army National Guard (ARNG)
   3. Army Reserve (USAR)
   4. Naval Reserve (USNR)
   5. Active Air Force (USAF)
   6. Air National Guard (ANG)
   7. Air Force Reserve (USAFR)
   8. Marine Corps Reserve (USMCR)

2. In all, how many years have you served on Active Duty? (Choose the one answer that best applies.)

   1. Never served on Active Duty
   2. Less than 6 months
   3. More than 6 months, but less than 1 year
   4. 1 year
   5. 2 years
   6. 3 years
   7. 4 years
   8. 5-9 years
   9. 10-19 years
  10. 20 or more years

3. In all, how many years have you served in the Guard or Reserve? Do not include active duty years. (Choose the one answer that best applies.)

   1. Never served in the Guard or Reserve
   2. Less than 6 months
   3. More than 6 months, but less than 1 year
   4. 1 year
   5. 2 years
   6. 3 years
   7. 4 years
   8. 5-9 years
   9. 10-19 years
  10. 20 or more years

4. Are you male or female?

   1. Male
   2. Female

5. What is your highest level of education now? (Darken only one circle)

   1. Did not graduate from high school
   2. GED or ABE certificate
   3. High school graduate
   4. Trade or technical school graduate
   5. Some college but not a 4-year degree
   6. 4-year college degree (BA, BS, or equivalent)
   7. Graduate or professional study but no graduate degree
   8. Graduate or professional degree

6. About how tall are you without shoes on?

   1. 4 feet, 7 inches
   2. 4 feet, 8 inches
   3. 4 feet, 9 inches
   4. 4 feet, 10 inches
   5. 4 feet, 11 inches
   6. 5 feet, 0 inches
   7. 5 feet, 1 inch
   8. 5 feet, 2 inches
   9. 5 feet, 3 inches
  10. 5 feet, 4 inches
  11. 5 feet, 5 inches
  12. 5 feet, 6 inches
  13. 5 feet, 7 inches
  14. 5 feet, 8 inches
  15. 5 feet, 9 inches
  16. 5 feet, 10 inches
  17. 5 feet, 11 inches

7. About how much do you weigh without shoes on? (WOMEN: If you are currently pregnant, please enter your usual weight before you became pregnant.)

   • First, enter your weight in the boxes.
   • Use all three boxes.
   • Write ONE number in each box.

   - Then, darken the matching circle below each box.
8. How old were you on your last birthday?  
- First, enter your age in the boxes. Use both boxes. Write ONE number in each box.
- Then, darken the matching circle below each box.

9. What is your current marital status?  
   1. Married or living as married  
   2. Separated and not living as married  
   3. Divorced and not living as married  
   4. Widowed and not living as married  
   5. Single, never married, and not living as married

10. Are you of Spanish or Hispanic origin or descent?  
    1. No (not Spanish or Hispanic)  
    2. Yes, Mexican or Mexican-American or Chicano  
    3. Yes, Cuban  
    4. Yes, Central or South American  
    5. Yes, other Spanish or Hispanic origin

11. Which of these categories best describes you?  
    1. American Indian/Alaskan Native  
    2. Black/African-American  
    3. Oriental/Asian/Chinese/Japanese/Korean/Filipino/Pacific Islander  
    4. White/Caucasian  
    5. Other (please specify below)

12. Which of the following best describes your employment situation? (Darken only one circle)  
    1. Active duty military  
    2. Employed in a non-military job  
    3. Self-employed  
    4. Unemployed  
    5. Homemaker  
    6. Student  
    7. Retired  
    8. Unable to work

13. Which of the following categories best describes your military responsibilities? [If you need to, please refer to the handout that came with this survey for examples of different job categories.] (Darken only one circle)  
   ENLISTED  
   1. Infantry, Gun Crew, Air Crew, or Seamanship Specialist  
   2. Electronic Equipment Repair  
   3. Communications and Intelligence Specialist  
   4. Health Care Provider  
   5. Health Care Administrator  
   6. Other Technical or Allied Specialist  
   7. Functional Support and Administration  
   8. Electrical or Mechanical Equipment Repairman  
   9. Craftsman  
   10. Service and Supply Handler  
   11. Other (e.g., officer candidates, students, special duties)
   OFFICER  
   12. General or Flag Officer  
   13. Executive Officer or Commanding Officer  
   14. Tactical Operations Officer  
   15. Intelligence Officer  
   16. Engineering and Maintenance Officer  
   17. Professional, Scientist or Staff Support (not involved in health care)  
   18. Health Care Provider  
   19. Administrator or Operational Support  
   20. Supply, Procurement, or Allied Officer  
   21. Other (e.g., students, trainees, billet designators)

14. What is your pay grade?  
   ENLISTED  
   1. E-1  
   2. E-2  
   3. E-3  
   4. E-4  
   5. E-5  
   OFFICER  
   6. O-1  
   7. O-2  
   8. O-3  
   9. O-4  
   10. O-5  
   11. O-6  
   12. O-7 to O-10  
   13. O-3 or O-3E

15. What was your annual household income from ALL sources last year? Please estimate your annual household income before taxes were taken out. As with all information you provide on this survey, your answer to this question will be kept confidential.  
    1. Less than $14,999  
    2. $15,000 to $19,999  
    3. $20,000 to $24,999  
    4. $25,000 to $34,999  
    5. $35,000 to $44,999  
    6. $50,000 to $74,999  
    7. $75,000 or more
16. In general, would you say your health is:
   1. Excellent
   2. Very good
   3. Good
   4. Fair
   5. Poor

17. During the past 30 days, have you had any of the following problems with your regular work or other daily activities as a result of your physical health? (Darken one circle on each line)
   Yes  No

   a. Cut down the amount of time you spent on work or other activities   1  2
   b. Accomplished less than you would have liked   1  2
   c. Were limited in the kind of work or other activities you could do   1  2
   d. Had difficulty performing the work or other activities (took extra effort)   1  2

18. During the past 30 days, have you had any of the following problems with your work or other regular daily activities as a result of any emotional problems (such as feeling depressed or anxious)? (Darken one circle on each line)
   Yes  No

   a. Cut down the amount of time you spent on work or other activities   1  2
   b. Accomplished less than you would have liked   1  2
   c. Didn’t do work or other activities as carefully as usual   1  2

19. During the past 30 days, to what extent has your physical health or emotional problems interfered with your normal social activities with family, friends, neighbors, or groups?
   1. Not at all
   2. Slightly
   3. Moderately
   4. Quite a bit
   5. Extremely

20. How much of the time during the past 30 days:

   - None of the time
   - Some of the time
   - A good bit of the time
   - Most of the time
   - All of the time

   a. Did you feel full of pep?   1  2  3  4  5  6
   b. Did you have a lot of energy?   1  2  3  4  5  6
   c. Did you feel worn out?   1  2  3  4  5  6
   d. Did you feel tired?   1  2  3  4  5  6

21. How true or false is each of the following statements for you?

   Definitely false
   Mostly false
   Don’t know
   Mostly true
   Definitely true

   a. I seem to get sick a little easier than other people I know   1  2  3  4  5
   b. I am as healthy as anybody I know   1  2  3  4  5
   c. I expect my health to get worse   1  2  3  4  5
   d. My health is excellent   1  2  3  4  5

22. During the past 30 days, on the average, how many hours of sleep did you get per night?

   1  2  3  4  5  6  7  8  9  10 or more
23. Has a health care provider ever told you that you had any of the following?

Please indicate how often you have felt this way during the past 7 days.

- a. My sleep was restless .............. 1 2 3 4 5
- b. I felt lonely ........................ 1 2 3 4 5
- c. I felt I could not shake off the blues even with help from my family or friends .... 1 2 3 4 5
- d. I felt sad ............................ 1 2 3 4 5
- e. I could not get "going" .............. 1 2 3 4 5
- f. I had trouble keeping my mind on what I was doing .......................... 1 2 3 4 5
- g. I felt that everything I did was an effort .... 1 2 3 4 5

27. How do you feel about your life as a whole?

- 5 Pleased/delighted
- 4 Mostly satisfied
- 3 Mixed
- 2 Mostly dissatisfied
- 1 Terrible/unhappy

28. During the past 12 months, how much stress did you experience in your usual job?

- 5 A great deal
- 4 A fairly large amount
- 3 Some
- 2 A little
- 1 None at all

29. During the past 12 months, how much stress did you experience in your personal life?

- 5 A great deal
- 4 A fairly large amount
- 3 Some
- 2 A little
- 1 None at all

30. During the past 12 months, how much did stress in your usual job interfere with your ability to perform your military responsibilities?

- 5 A lot
- 4 Some
- 3 A little
- 2 Not at all
- 1 Had no stress in my usual job in the past 12 months

31. During the past 12 months, how much did stress in your personal life interfere with your ability to perform your usual responsibilities?

- 5 A lot
- 4 Some
- 3 A little
- 2 Not at all
- 1 Had no stress in my personal life in the past 12 months
### Health Care

**32. What is the main (or primary) source of payment for your medical or doctor's bills? (Darken only one circle)**

- 1. Active duty medical benefits
- 2. Veterans Administration medical benefits
- 3. Other government sponsored medical insurance (such as Medicaid)
- 4. Health insurance from a civilian employer (including insurance you receive through your spouse's employment)
- 5. Other private insurance coverage
- 6. Your own money
- 7. Money received or borrowed from family or friends

**33. What is the main (or primary) source of payment for your dental bills? (Darken only one circle)**

Preventive Care

37. A fecal occult blood test is a test of a bowel movement to determine whether it contains blood. When did you have your most recent fecal occult blood test?
   ① Within the past year
   ② More than 1 year ago but within the past 2 years
   ③ 2–3 years ago
   ④ 3–5 years ago
   ⑤ More than 5 years ago
   ⑥ Never
   ⑦ Don't know

38. About how long has it been since you had your blood pressure taken by a doctor, nurse, or other health care professional?
   ① Within the past year
   ② More than 1 year ago but within the past 2 years
   ③ 2–3 years ago
   ④ 3–5 years ago
   ⑤ More than 5 years ago
   ⑥ Never
   ⑦ Don't know

39. About how long has it been since you last had your cholesterol checked?
   ① Within the past year
   ② More than 1 year ago but within the past 2 years
   ③ 2–3 years ago
   ④ 3–5 years ago
   ⑤ More than 5 years ago
   ⑥ Never
   ⑦ Don't know

40. How long has it been since you last visited a dentist or dental health professional for a routine checkup or cleaning?
   ① Within the past year
   ② More than 1 year ago but within the past 2 years
   ③ 2–3 years ago
   ④ 3–5 years ago
   ⑤ More than 5 years ago
   ⑥ Never
   ⑦ Don't know

Weight Management and Nutrition

41. During the past 12 months, have you tried to lose weight?
   ① Yes
   ② No

42. How easy or difficult has it been for you to meet military weight standards?
   ① Very easy
   ② Somewhat easy
   ③ Somewhat difficult
   ④ Very difficult

43. During the past 12 months, have you changed what you eat because of any medical condition?
   ① Yes
   ② No

44. Are you satisfied with your eating patterns?
   ① Yes
   ② No

45. Do you ever eat in secret?
   ① Yes
   ② No

46. During the past 7 days, on about how many days did you: (Darken one circle on each line)

<table>
<thead>
<tr>
<th>Number of Days</th>

   a. Eat breakfast
   b. Eat snacks between meals
   c. Overeat
   d. Not eat enough
   e. Take vitamin pills
   f. Take calcium supplements

   [Numbers in circles for each option]
47. During the past 7 days, about how many times did you:

- More than 7 times
- 4–6 times
- 1–3 times
- Never

a. Eat high-fat meats or dairy (e.g., hamburger, hot dogs, steak, bacon, whole milk, cheese, ice cream) ........................................................................................................................................................................... 1 2 3 4
b. Eat fried foods (e.g., french fries, fried chicken, fried eggs) ........................................................................................................................................................................... 1 2 3 4
c. Eat sweets (e.g., cakes, pies, cookies, candies) ........................................................................................................................................................................... 1 2 3 4
d. Eat low-fat meats or dairy (e.g., chicken or turkey without skin, low-fat milk, yogurt) ........................................................................................................................................................................... 1 2 3 4
e. Eat ‘leafy’ vegetables (e.g., broccoli, cabbage, greens, spinach) ........................................................................................................................................................................... 1 2 3 4
f. Eat ‘starchy’ vegetables (e.g., beans, peas, corn, potatoes) ........................................................................................................................................................................... 1 2 3 4
g. Eat fruits (e.g., apples, fruit juice, raisins, dried fruit, melons, bananas) ........................................................................................................................................................................... 1 2 3 4
h. Eat high fiber foods (whole grain breads, cereals, bran) ........................................................................................................................................................................... 1 2 3 4

48. How important do you feel that food choices are in terms of your health?

1. Probably the most important factor
2. Very important, but not the most important factor
3. Important
4. Not very important
5. Of little or no consequence

49. How important to you are the following considerations when you buy food?

When you buy food, how important are a food’s:

- Extremely Important
- Very important
- Moderately important
- Somewhat important
- Not at all important

When you buy food,

a. Health benefits, nutritional value ........................................................................................................................................................................... 1 2 3 4 5
b. Price, cost ........................................................................................................................................................................... 1 2 3 4 5
c. Likes or dislikes, eating enjoyment ........................................................................................................................................................................... 1 2 3 4 5
d. Convenience, easy to prepare ........................................................................................................................................................................... 1 2 3 4 5
e. Calories ........................................................................................................................................................................... 1 2 3 4 5

Exercise

50. In an average 7 days, how many times do you engage in exercise or work for at least 20 minutes without stopping, that is exercise or work hard enough to make you breathe heavier and make your heart beat faster?

1. Less than 1 time per week (3 times per month or less)
2. 1 or 2 times per week
3. At least 3 times per week

51. How long have you been exercising or working as described in question 50?

1. Less than 1 month
2. 1–3 months
3. 4–11 months
4. 1–2 years
5. 3–4 years
6. 5 years or more

52. How often do you do exercise that improves muscle strength, such as pushups, sit-ups, weight lifting, and resistance training?

1. Less than 1 time per week (3 times per month or less)
2. 1 or 2 times per week
3. At least 3 times per week

53. How would you rate your current physical fitness?

1. Poor
2. Fair
3. Good
4. Very good
5. Excellent

54. How easy or difficult has it been for you to pass the military Physical Training (PT) test?

1. Very easy
2. Somewhat easy
3. Somewhat difficult
4. Very difficult
Tobacco Use

Please answer ALL of the following tobacco questions even if you don’t use tobacco products or you’re not a regular user.

55. When was the last time you smoked a cigarette?
   ① Today
   ② During the past 30 days
   ③ 5-8 weeks ago
   ④ 2-3 months ago
   ⑤ 4-6 months ago
   ⑥ 7-12 months ago
   ⑦ 1-3 years ago
   ⑧ More than 3 years ago
   ⑨ Never used smokeless tobacco

56. Think about the past 30 days. How many cigarettes did you usually smoke on a TYPICAL day?
   ① About 3 or more packs a day
   (more than 55 cigarettes)
   ② About 2½ packs a day (46-55 cigarettes)
   ③ About 2 packs a day (36-45 cigarettes)
   ④ About 1½ packs a day (26-35 cigarettes)
   ⑤ About 1 pack a day (16-25 cigarettes)
   ⑥ About ½ pack a day (6-15 cigarettes)
   ⑦ 1-5 cigarettes a day
   ⑧ Less than 1 cigarette a day, on the average
   ⑨ Did not smoke any cigarette in the past 30 days

57. Have you smoked at least 100 cigarettes in your entire life? (That would be 5 packs or more in your entire life.)
   ① Yes
   ② No

58. During the past 12 months, have you made a serious attempt to stop smoking cigarettes; that is, did you go for at least a week without smoking?
   ① Yes
   ② No
   ③ Didn’t smoke cigarettes in the past 12 months
   ④ Never smoked cigarettes

59. When was the last time you used chewing tobacco or snuff or other smokeless tobacco?
   ① During the past 30 days
   ② More than 1 month ago but within the past 6 months
   ③ More than 6 months ago but within the past year
   ④ More than 1 year ago but within the past 2 years
   ⑤ More than 2 years ago
   ⑥ Never used smokeless tobacco

60. During the past 12 months, how often on the average have you used chewing tobacco or snuff or other smokeless tobacco?
   ① About every day
   ② 5-6 days a week
   ③ 3-4 days a week
   ④ 1-2 days a week
   ⑤ 2-3 days a month
   ⑥ About once a month
   ⑦ 7-11 days in the past 12 months
   ⑧ 3-6 days in the past 12 months
   ⑨ Once or twice in the past 12 months
   ⑩ Never in the past 12 months
   ⑪ Don’t use smokeless tobacco

61. Have you used chewing tobacco or snuff or other smokeless tobacco at least 20 times in your entire life?
   ① Yes
   ② No

62. During the past 12 months, how often on the average have you smoked cigars or a pipe?
   ① About every day
   ② 5-6 days a week
   ③ 3-4 days a week
   ④ 1-2 days a week
   ⑤ 2-3 days a month
   ⑥ About once a month
   ⑦ 7-11 days in the past 12 months
   ⑧ 3-6 days in the past 12 months
   ⑨ Once or twice in the past 12 months
   ⑩ Never in the past 12 months
   ⑪ Don’t smoke cigars or pipes
63. During the past 30 days, on how many days did you drink one or more drinks of alcoholic beverages?

- 6 28-30 days (about every day)
- 7 20-27 days (5-6 days a week, average)
- 6 11-19 days (3-4 days a week, average)
- 5 4-10 days (1-2 days a week, average)
- 4 2-3 days in the past 30 days
- 3 Once in the past 30 days
- 2 I have drunk alcoholic beverages, but not in the past 30 days
- 1 I have never drunk alcoholic beverages in my life

64. Think about the days when you drank in the past 30 days. How many drinks did you usually drink on a TYPICAL day? Count as a drink a can or bottle of beer; a wine cooler or a glass of wine, champagne, or sherry; a shot of liquor or a mixed drink or cocktail.

- 1 9 drinks or more
- 9 8 drinks
- 8 7 drinks
- 7 6 drinks
- 6 5 drinks
- 5 4 drinks
- 4 3 drinks
- 3 2 drinks
- 2 1 drink
- 1 I have drunk alcoholic beverages, but not in the past 30 days
- 0 I have never drunk alcoholic beverages in my life

65. During the past 30 days, on how many days did you have 5 or more drinks on the same occasion? By "occasion," we mean at the same time or within a couple of hours of each other.

- 8 28-30 days (about every day)
- 9 20-27 days (5-6 days a week, average)
- 7 11-19 days (3-4 days a week, average)
- 8 4-10 days (1-2 days a week, average)
- 6 2-3 days in the past 30 days
- 4 Once in the past 30 days
- 3 I drank during the past 30 days, but I never had 5 or more drinks on the same occasion
- 2 I have drunk alcoholic beverages, but not in the past 30 days
- 1 I have never drunk alcoholic beverages in my life

66. How many sexual partners have you had in the past 12 months?

- 0 1 2 3 4 5 6 7 8 9 10 or more

67. In the past 12 months, how often did you or your partner(s) use a condom when you had sex?

- 1 Did not have sex in the past 12 months
- 2 Never
- 3 Hardly any of the time
- 4 Some of the time
- 5 About half of the time
- 6 Most of the time
- 7 Every time

68. In the past 12 months, have you ever had sex with anyone who has been told that he or she has HIV, AIDS, or the AIDS virus?

- 1 Yes
- 2 No
- 3 I don't know
69. In the past 30 days, which of the following methods did you and your partner(s) use to prevent pregnancy? (Darken one circle on each line)

To prevent pregnancy, we used:

- a. Birth control pills
- b. Condom
- c. Tubal ligation (had "tubes tied")
- d. Vasectomy
- e. Depo-provera
- f. Spermicide (foam, jelly, cream, suppositories)
- g. Withdrawal
- h. Rhythm
- i. Abstinence
- j. Other method
- k. Did not use any method to prevent pregnancy

70. A list of reasons why people sometimes do not use birth control follows. Please indicate if each reason was a reason why you did not use birth control in the past 30 days:

I did NOT use birth control in the past 30 days because:

- a. I did not have sex in the past 30 days
- b. Using birth control is against my religious or moral beliefs
- c. My partner(s) didn't want us to use birth control
- d. Using birth control is too much of a hassle
- e. We wanted to have a baby (get pregnant)
- f. Using birth control is too expensive
- g. I was too embarrassed to ask for it
- h. Some other reason

71. How many close friends do you have (people that you feel at ease with, can talk to about private matters, and can call for help)?

- 0 1 2 3 4 5 6 7 8 9 10 or more

72. How many relatives do you have that you feel close to?

- 0 1 2 3 4 5 6 7 8 9 10 or more

73. How many of these friends or relatives do you see at least once a month?

- 0 1 2 3 4 5 6 7 8 9 10 or more

74. Are you a member of any social clubs or groups?

- 1 Yes
- 2 No

75. Are you an active member of a church, temple, or other religious organization?

- 1 Yes
- 2 No

76. In the past 12 months, how many children (natural, adopted, stepchildren, or grandchildren) under the age of 21 lived in your household?

- 0 1 2 3 4 5 6 7 8 9 10 or more

77. What are the ages of the children who lived in your household in the past 12 months? (Darken one circle on each line)

I have had children living in my household who are:

- a. Less than 5 months old
- b. 6 months to under 1 year old
- c. 12 to 23 months old
- d. 24 to 35 months old
- e. 3 to 5 years old
- f. 6 to 9 years old
- g. 10 to 12 years old
- h. 13 to 15 years old
- i. 16 to 20 years old

(continued on next page)
Life Changes

78. In the past 12 months, how many serious personal losses or difficult problems have you had to handle (e.g., promotion passover, divorce or separation, legal or disciplinary action, bankruptcy, death of someone close, serious illness or injury of a loved one, etc.)?
   1. Many
   2. Some
   3. Few
   4. None

79. Have you seriously considered suicide?
   (Darken one circle on each line)
   I have seriously considered suicide within the:
       Yes  No
   a. Past 2 years      1  2
   b. Past year         1  2
   c. Past 2 months     1  2

80. In the past 12 months, how often did you have any serious problems dealing with your spouse, parents, friends, co-workers, or with your children?
   1. Often
   2. Sometimes
   3. Rarely (but at least once)
   4. Never

81. During the past 30 days, how much of the time have your physical or emotional problems interfered with your social activities (like visiting with friends, relatives, etc.)?
   1. All of the time
   2. Most of the time
   3. Some of the time
   4. A little of the time
   5. None of the time

82. In the past 12 months, how often did you experience a major pleasant change (for example, promotion, marriage, birth, award, etc.)?
   1. Often
   2. Sometimes
   3. Rarely (but at least once)
   4. Never

83. What causes the biggest problem in your life?
   (Darken only one circle)
   1. Money
   2. Social life
   3. Family
   4. Supervisor
   5. Job
   6. Health
   7. No problems
   8. Other

84. Were you abused before entering the military?
   (Darken one circle on each line)
   Before entering the military, I had been:
       Yes  No
   a. Emotionally abused   1  2
   b. Sexually abused      1  2
   c. Physically abused    1  2

85. Since entering the military, have you been abused by someone else in the military? (Darken one circle on each line)
   Since entering the military, I have been:
       Yes  No
   a. Emotionally abused   1  2
   b. Sexually abused      1  2
   c. Physically abused    1  2

86. Since entering the military, have you been abused by someone NOT in the military? (Darken one circle on each line)
   Since entering the military, I have been:
       Yes  No
   a. Emotionally abused   1  2
   b. Sexually abused      1  2
   c. Physically abused    1  2
87. Have you ever received counseling to help you deal with abuse you've suffered?  (Darken one circle on each line)

<table>

</tbody>
</table>
91. Knowing what you know now, if you had to decide all over again whether to serve in your current military job, what would you decide?
   ① Decide definitely not to join
   ② Have some second thoughts about joining
   ③ Decide without hesitation to join

92. In general, how well would you say that your current military job measures up to the sort of job you wanted when you took it?
   ① Very much like it
   ② Somewhat like it
   ③ Not very much like it

93. If a good friend told you he or she was interested in working in a job like your current military job, what would you tell him or her?
   ① Advise him/her against it
   ② Have doubts about recommending it
   ③ Strongly recommend it

94. How sad or happy do you feel about your current military job?
   Happy ① ② ③ ④ ⑤ ⑥ Sad

Disaster or Violence Exposure

Exposure to a disaster or violence can sometimes have long-term effects. The following questions will help to provide a history of exposure to disasters or violence that may help in studying their effects.

95. Have you ever been exposed to a natural disaster involving injuries or fatalities (e.g., earthquakes, fire, flood, etc.)? (Darken one circle on each line)
   I have been exposed to a natural disaster as:
   a. a witness ① ②
   b. a survivor or victim ① ②
   c. a participant in clean-up, rescue, investigation, or aid (remote or on-site) ① ②

96. Have you ever been exposed to combat or violence involving injuries or fatalities? (Darken one circle on each line)
   I have been exposed to combat or violence as:
   a. a witness ① ②
   b. a survivor or victim ① ②
   c. a participant in clean-up, rescue, investigation, or aid (remote or on-site) ① ②
   d. someone who has used deadly force in combat ① ②

97. Have you ever witnessed or been exposed to a major accident involving injuries or fatalities? (Darken one circle on each line)
   I have been exposed to a major accident as:
   a. a witness ① ②
   b. a survivor or victim ① ②
   c. a participant in clean-up, rescue, investigation, or aid (remote or on-site) ① ②
Deployment is when you go into the field or out to sea, but it does not include scheduled annual training.

98. Did you serve with the military in any of the following areas? (Darken one circle on each line)

<table>
<thead>
<tr>
<th>I served in:</th>
<th>No, Never</th>
<th>Yes, Ashore</th>
<th>Yes, Aboard ship</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The Persian Gulf – Operations Desert Shield or Desert Storm</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>

<tr>
<td>c. Somalia – Operation Restore Hope</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Haiti – Operation Uphold Democracy</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>f. Bosnia – Operations Joint Endeavor or Joint Guard</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>g. Cuba – Operation Safe Haven</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>h. Other foreign areas</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

99. What is the approximate total time you have been deployed since you joined the military?

1. Less than 1 month
2. 1 month
3. 2-3 months
4. 4-5 months
5. 6-11 months
6. 12-23 months
7. 24-35 months
8. 36-47 months
9. More than 4 years
10. Never been deployed

101. During the past 12 months, have you been away from your home as part of your military service for at least 30 days in a row?

1. Yes
2. No

102. The last time you were deployed, how much stress did you experience upon returning to your home?

1. A great deal
2. A fairly large amount
3. Some
4. A little
5. None at all
6. Never been deployed

103. Think about the last time you were deployed.

Very satisfied
Satisfied
Dissatisfied
Very dissatisfied
Don't know

How satisfied were you with:

a. The number of toilet facilities provided
b. The number of hand washing facilities provided
c. The number of shower facilities provided
d. The amount of privacy available for personal hygiene
e. The availability of health care services

104. In the past 5 years, have you ever been prevented or deferred from deploying for any of the following reasons? (Darken one circle on each line)

1. I've never been deployed.
2. I've never been prevented from deploying.

I was not deployed because of:

a. A pregnancy
b. A family situation
c. An injury
d. Dental work
e. A short-term illness (e.g., flu, cold, etc.)
f. A chronic illness (e.g., asthma, diabetes)
### Occupational Health

**105.** During the past 30 days, have you been exposed to tobacco smoke for an hour or more a day at work or at home?

- 1. Not exposed
- 2. At work only
- 3. At home only
- 4. Both at work and at home

**106.** How long have you been/were you exposed to the hazards listed below?

- 5 years or more
- 3-4 years
- 1-2 years
- Less than 1 year
- Not exposed
- Don’t know

I’ve been exposed to:

- a. Fibrous glass (fiberglass)
- b. Asbestos
- c. Coal dust or rock dust
- d. Silica powder or sandblasting dust
- e. Other specific dusts (woods, talc, lime)
- f. Respiratory or skin irritants
- g. Chemicals (acids, alkalis, solvents)
- h. Paint (oil-based thinner, scrapings, or sanding)
- i. Metal fumes (from molten metal)
- j. Metal scrapings/filings
- k. Welding fumes
- l. Coal tar, pitch, asphalt
- m. Engine exhaust (gasoline, diesel, or jet)
- n. Fuels or motor oil

I’ve been exposed to:

- o. Loud noise (e.g., jets)
- p. Heavy lifting (over 25 lb)
- q. X-rays
- r. Radioactive materials (e.g., nuclear fuel, nuclear medicines)
- s. Vibration (vibrating tools, motors)
- t. General shop dust
- u. Pesticides, herbicides
- v. Alcohol (industrial)
- w. Medical waste (e.g., used hypodermic needles)
- x. Adhesives
- y. Explosives
- z. Radar antenna or array (within 50 ft)
- aa. Transmitting antennas (within 50 ft)
- bb. Some other hazard

**107.** Is protective gear available for your use in your current military job? Examples of protective gear are gloves, respirator, filter, mask, boots, earplugs, film badge, hazardous materials suit and fire fighting suit.

- 1. Yes, always
- 2. Sometimes, but not always
- 3. No, never
- 4. Don’t need to wear protective gear

**108.** In your military job, when you have contact with substances that might be harmful, how often do you use protective gear?

- 1. Never
- 2. Some of the time
- 3. Most of the time
- 4. Always
- 5. Don’t need to wear protective gear (No contact with harmful substances)

**109.** In your military job, when you have contact with substances that might be harmful, which reasons for **NOT** wearing protective gear are true for you? **(Darken one circle on each line)**

- 1. Don’t need to wear protective gear (No contact with harmful substances)

In my military job,

I don’t wear protective gear when:

<table>
<thead>
<tr>
<th>Reason</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. It doesn’t work properly</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>b. It interferes with job performance</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>c. It is uncomfortable</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>d. I don’t know how to use it</td>
<td>1</td>
<td>2</td>
</tr>
</tbody>

If you are MALE: Please _Stop_ here. Place the questionnaire in the enclosed postage-free envelope. Thank you for your time and cooperation.

If you are FEMALE: We would appreciate it if you would take a few extra minutes to answer some additional questions about women’s health issues. Please continue.
Women's Health Issues

This section asks questions about women's health issues, including stress, health care and medical conditions.

1. In the past 12 months, how much stress did you experience because you are a woman in the military?
   1. None at all
   2. A little
   3. Some
   4. A fairly large amount
   5. A great deal

2. During the past 3 months, did you have any of these conditions? (Include times you have had these conditions even if you didn't seek medical care.)
   (Darken one circle on each line)

   In the past 3 months, I have had:
   a. Premenstrual symptoms or pain (PMS, premenstrual cramps)
   b. Cramps or pain during menstrual period requiring medication or time off of work
   c. Heavy periods (excessive menstrual flow)
   d. Light periods (hardly any menstrual flow)
   e. One missed period
   f. No menstrual periods for 2 or more months
   g. Period lasting longer than a week
   h. Excessive frequency of periods (time between periods too short)
   i. Bleeding between periods

   In the past 3 months, I have had:
   j. Yeast or vaginal infection
   k. Vaginal rash, discharge, or other disorder except yeast infection or sexually transmitted disease
   l. Endometriosis
   m. Problem with uterus (womb) other than endometriosis
   n. Abdominal pain (from known cysts)
   o. Abdominal pain (from other unknown cause)
   p. Discharge from breast
   q. Breast lump

3. If you missed a period in the past 30 days, have you had a pregnancy test?
   1. Yes
   2. No, not yet
   3. No, I've had a hysterectomy
   4. No, I am menopausal or post-menopausal
   5. Did not miss a period in the past 30 days

4. At what age did your menstrual cycles begin?
   1. Younger than 10 years old
   2. 10–12 years old
   3. 13–15 years old
   4. 16 years old or older
   5. Don't know

5. What is the total number of years you have taken birth control pills in your lifetime?
   0 1 2 3 4 5 6 7 8 9 10 or more

6. During the past month, have you taken replacement estrogens in the form of:
   (Darken one circle on each line)
   a. Hormone pills
   b. Hormone creams or other hormone preparation such as a skin patch

7. A mammogram is an x-ray taken of your breasts by a machine that presses each breast between two plates (one at a time). When did you have your most recent mammogram?
   1. Less than 1 year ago
   2. 1 year ago
   3. 2 years ago
   4. 3 or more years ago
   5. Never
   6. Don't know
8. A Pap smear is when a health care provider inserts a swab into your vagina to scrape cells from the cervix. How long has it been since you had a Pap smear?
   ① Within the past year
   ② More than 1 year ago but within the past 2 years
   ③ 2–3 years ago
   ④ 3–5 years ago
   ⑤ More than 5 years ago
   ⑥ Never
   ⑦ Don’t know

9. Have you ever had a Pap smear where the result was NOT normal?
   ① Yes
   ② No
   ③ Don’t know

10. If you have had Pap smear results that were NOT normal, have you had any of the following? (Darken one circle on each line)
    Because of a NOT normal Pap smear, I have had:
    a. Additional tests
    b. Surgery
    c. Other treatment
    d. More frequent Pap smears
    Yes No Apply
    ① ② ③

11. How often do you examine your breasts for lumps?
    ① Monthly
    ② Once every few months
    ③ Rarely or never

12. About how long has it been since you had your breasts examined by a health care provider?
    ① Less than 1 year
    ② 1 year
    ③ 2 years
    ④ 3 years or more
    ⑤ Never had breasts examined

13. Have you received training from a medical provider on how to examine your own breasts?
    ① Yes
    ② No

14. Have you ever had an operation to remove a breast lump that was found to be noncancerous?
    ① Yes
    ② No

15. Do you know where to get information about possible pregnancy risks from your job and job environment?
    ① Yes
    ② No
    ③ I can’t get pregnant

16. When you are pregnant, do you feel you are given enough time off from your usual job to see an OB/GYN when necessary?
    ① Yes
    ② No
    ③ I have never been pregnant

17. While stationed outside the continental United States, how easy or difficult has it been to receive the kind of OB/GYN care you would like?
    ① Very easy
    ② Somewhat easy
    ③ Somewhat difficult
    ④ Very difficult
    ⑤ I have never been stationed outside the United States

18. How many times have you been pregnant since joining the military?
    ① I’ve never been pregnant since joining the military
    ② 1 time
    ③ 2 times
    ④ 3 times
    ⑤ 4 or more times

19. Think about the times you’ve been pregnant since joining the military. How many times did you mean to get pregnant?
    ① I’ve never been pregnant since joining the military
    ② I did not mean to get pregnant, but I have been pregnant since joining the military
    ③ 1 time
    ④ 2 times
    ⑤ 3 times
    ⑥ 4 or more times
20. During an operational assignment, have you had:
   (Darken one circle on each line)
   Yes  No
   a. a pregnancy that you meant to have 1 2
   b. a pregnancy that you did not mean to have 1 2

21. How many live births have you had?
   0 1 2 3 4 5 6 7 8 9 or more

22. How many premature babies have you had?
   0 1 2 3 4 5 6 7 8 9 or more

23. How many of the babies you've had weighed less than 5 pounds at birth?
   0 1 2 3 4 5 6 7 8 9 or more

24. How old were you the first time you gave birth?
   0 Have never given birth
   • First, enter your age when your first child was born. Write ONE number in each box.
   • Then, darken the matching circle below each box.

   YRS
   9 9
   1 1
   2 2
   3 3
   4 4
   5 5
   6 6
   7 7
   8 8
   9 9

25. To the best of your knowledge, when was the last time you were pregnant?
   1. Currently pregnant
   6. May be pregnant now, but don't know for certain
   5. Within the past year but not now
   4. More than 1 year ago but within the past 2 years
   3. More than 2 years ago but within the past 5 years
   2. More than 5 years ago
   1. Have never been pregnant

26. Think about your last pregnancy (or your current pregnancy). How long after you became pregnant did you have your first pregnancy check-up?
   6. Within the first 3 months after becoming pregnant
   5. 4-6 months after becoming pregnant
   4. More than 6 months after becoming pregnant
   3. Did not have any pregnancy check-ups
   2. Have not had first check-up
   1. Have never been pregnant

27. In the past 12 months, have you had any of the following? (Darken one circle on each line)

   In the past 12 months, I have had:
   Yes  No  Doesn't Apply
   a. Problems becoming pregnant? 1 2 3
   b. Pregnancy complications that restricted your normal activities (e.g., high blood pressure, severe swelling, spotting, premature labor, diabetes, etc.)? 1 2 3
   c. An ectopic or "tubal" pregnancy? 1 2 3
   d. A miscarriage or spontaneous abortion? 1 2 3
   e. Childbirth problems? (e.g., hemorrhaging, Cesarean section, induced labor) 1 2 3
   f. Complications after childbirth that restricted your normal activities (e.g., infection, depression) 1 2 3

Thank you for the extra effort to complete these questions.

Place the questionnaire in the enclosed postage-free envelope.

Thank you for your time and cooperation.
### ENLISTED Job Category Examples (for Question 13)

(If you are an officer, please turn this page over to find examples of officer job categories.)

APPENDIX B

Total Force Health Assessment Pretest Debriefing Form

Date: Saturday, August 9, 1997
Service: Air Force Reserves
Installation: Charleston Air Force Base
Number of Respondents in This Debriefing Session
Session (I or II)

General Questions:

• If you were to get a questionnaire like this in the mail, how interested would you be in completing it? Why?

• If this questionnaire had been mailed to you, what would motivate you to fill it out and send it back?

• Were there any questions that you felt didn’t apply to you? Did those questions have appropriate response categories (so you could indicate that it didn’t apply to you)? Any questions that did apply to you but did not have appropriate response choices for you?

• Were any sections or types of questions particularly interesting to answer? Or particularly easy to answer? Which types of questions were you less interested in? Which ones were more difficult to answer?
• Taking all your answers together, do you think the questionnaire will give a fairly accurate (if not exact) picture of your behavior? If not, what areas seem not to have been very well reflected? What areas seem to have been distorted because of the way you had to answer the kinds of questions?

• Were there any questions (or sections) you thought should not have been asked? Which ones? Why did you consider them inappropriate? [PROBE: Were the Q's offensive, too sensitive, too "prying," not what was expected would be in the questionnaire based on the introduction, etc.?)

• Were there any questions in particular that you didn't understand? Which ones? [PROBE: What were the problems; what wasn't clear? What did you think we were asking? Were there any response choices that weren't clear? What might be done to make these questions/response choices clearer?]

For Guard/Reserve Debriefings:

Did you have any trouble understanding questions related to your “job,” your “usual job,” etc.? What did you consider your “job/usual job” to be in these questions? Examples would be Qs 28, 30, 100.
Specific Queries about Questions

• Q13:
  How easy was it for you to identify an appropriate category? Did you use the blue handout?

• Q23:
  How difficult was it to understand the terms? Were there any terms that you did not understand? Any suggestions for making some terms clearer?
  How difficult was it to answer this question -- particularly the follow-up question (the “If yes, what was the result?” question)?

• Qs 24 and 25:
  How difficult was it to recall any illnesses or injuries in the past 12 months?

• Qs 56 and 64:
  How difficult was it to figure out what the question was asking?

• Qs 69 and 70:
  How did you feel about being asked about your birth control habits?
  Were there any words that you did not understand? Were there any methods that you did not understand? Any suggestions for making these methods clearer?
  How difficult was it for you to understand what Q70 was asking? (Q70 is the question about reasons for not using birth control.)
• Qs 78 and 82:

How difficult was it for you to choose among the response choices? Were there obvious differences among the response choices?

• Q106:

Were there any terms that you did not understand?

• "Deployment" questions (98-104):

What does deployment mean to you?

In Q104, how did you define being "prevented from deploying"?

• Q 2 in the "Women's Health" section

How easy was it to understand the words? What words were particularly difficult to understand (e.g., endometriosis, "heavy periods," "light periods.") Any suggestions for making some terms clearer?

• Q 19 in the "Women's Health" section

Did you have trouble understanding what the question was asking?

• Q20 in the "Women's Health" section

Do you understand the term "operational assignment"?

How would you define that term?

Q 27 in the "Women's Health" section

What phrases or terms were particularly difficult to understand (e.g., ectopic/"tubal" pregnancy or part b.)? Any suggestions for making some terms clearer?
Total Force Health Assessment Pretest Debriefing Form

Date: Monday, September 22, 1997
Service: Active Army
Installation: Fort Bragg Army Post
Number of Respondents in This Debriefing Session
Session (I or II)

General Questions:

- If this questionnaire had been mailed to you, what would motivate you to fill it out and send it back? (Note who is saying they would consider filling it out--and under what conditions--and those who are adamant about their refusal.)

- How would you react to a second mailing of the same questionnaire?

- If you were told that the questionnaires were completely anonymous and that the only identifying numbers are on the return envelopes and as soon as they’re received, the questionnaires are separated from the return envelopes, what would your reaction be? We’re putting ID numbers on the return envelopes so that we can keep track of the returned surveys. Would you believe us?

- How would knowing about the ID numbers on the return envelopes affect your willingness to fill out the questionnaire?

- If you were asked to report for a group survey session, would you attend?

- Who would have to make the REQUEST in order for you to consider attending?

- Were there any questions that you felt didn’t apply to you? Did those questions have appropriate response categories (so you could indicate that it didn’t apply to you)? Any questions that did apply to you but did not have appropriate response choices for you?
• Were any sections or types of questions particularly interesting to answer? Or particularly easy to answer? Which types of questions were you less interested in? Which ones were more difficult to answer?

• Taking all your answers together, do you think the questionnaire will give a fairly accurate (if not exact) picture of your behavior? If not, what areas seem not to have been very well reflected? What areas seem to have been distorted because of the way you had to answer the kinds of questions?

• Were there any questions (or sections) you thought should not have been asked? Which ones? Why did you consider them inappropriate? [PROBE: Were the Q's offensive, too sensitive, too "prying," not what was expected would be in the questionnaire based on the introduction, etc.?)

• Were there any questions in particular that you didn't understand? Which ones? [PROBE: What were the problems; what wasn't clear? What did you think we were asking? Were there any response choices that weren't clear? What might be done to make these questions/response choices clearer?]

Specific Queries about Questions

• Qs 24 and 25:
  How difficult was it to recall any illnesses or injuries in the past 12 months?

• Did you have any trouble understanding questions related to your “job,” your “usual job,”
etc.? What did you consider your “job/usual job” to be in these questions? Examples would be Qs 28, 30, 100.

- Qs 32, 33, 34
  Did Q32, Q33, and Q34 "trip you up"? Were you bothered by the fact that we were asking that question?

- Q 69
  Were there any words that you did not understand? Were there any methods that you did not understand? Any suggestions for making these methods clearer?

- What’s your definition of abstinence (69i)?

- What difference do you see between people who have had a vasectomy/tubes tied/hysterectomy or are sterile and those who use a birth control pills, condoms, spermicides, etc? How are they different?

- Q 70
  How difficult was it for you to understand what Q70 was asking? (Q70 is the question about reasons for not using birth control.)

- "Deployment" questions (98-104):
  What does deployment mean to you? Give us a definition of deployment.

- Q106
Any problems understanding what settings we were asking about? Did you think we were asking about exposures in general? At work? At home?

- Women’s section Q20
  How do you interpret this question? What do you think we’re trying to get at?

Instead of the way Q20 is worded, we’re considering changing it to read: Have you ever had a pregnancy to avoid deployment or return early from deployment?

Dear Member of the Armed Forces:

Research Triangle Institute of North Carolina, a nonprofit research organization, is conducting a research survey for the Department of Defense to provide a comprehensive assessment of health related issues for the Total Force, including Active Duty, Guard, and Reserve components. The study is called "Health Status of Military Women and Men in the Total Force" and its principal investigator is Dr. Robert M. Bray.

Your questionnaire will be one of a targeted 30,000 questionnaires completed by military personnel around the world. Your name was chosen at random from a list of officers and enlisted personnel to participate in this survey. Substitutions for selected personnel are NOT permitted. That is why you are so important to us. In a survey such as this, each person who participates represents thousands of other service personnel. For us to have useful results, it is very important that you provide complete and accurate responses to the questions asked, and the survey’s success depends on everyone’s willingness to take part. However, your participation is voluntary. Your decision on whether or not to participate will in no way affect health care benefits that you or your family receive or are entitled to.

Because of the sensitive nature of the information in this survey, the importance of the study, and to encourage your frank and honest responses, we have arranged for you to mail your completed questionnaire directly to a civilian scoring contractor. Your name will never be associated with the responses you give and no military personnel will see your answers. DO NOT write your name or social security number on the questionnaire. You will notice a computerized ID number (bar code?) on the business reply return envelope (but not on the questionnaire). So that we don’t bother you with a second mailing, we will use the bar code from the envelope to tell us you have returned your questionnaire. Your questionnaire is anonymous and does not contain any personally identifying information.

Please complete the questionnaire in private and do not show it to anyone. Directions for marking your answer choices are given at the beginning of the questionnaire. Please read the instructions carefully. USE ONLY A SOFT LEAD (NO.2) PENCIL; do not use a colored pencil or pen of any kind. We expect that the questionnaire will take from 45 minutes to an hour to complete.

When you have finished, seal the questionnaire in the enclosed envelope and mail it to our printing and scoring contractor, (name and location of subcontractor). NOTE: Since this is a business reply envelope, no postage is required; however, you must place it in a U.S. Postal system box.

If you have any questions about this survey, you may call Dr. Robert Bray at 1-800-334-8571, extension 6433. If you have any questions about your rights as a research participant, you may call Dr. Linda Sheldon at 1-800-334-8571, extension 6603. On behalf of Research Triangle Institute, I want to sincerely thank you for your participation in this important survey.

Sincerely,

Randall Keesling
Data Collection Task Leader
