Blanket clearances for calendar year 1998 (valid thru 31 Dec 98) for US military aircraft (including DOD contract carriers) overflying Czech airspace and/or landing in the Czech Republic are:
Joint Contact Team, PFP, humanitarian, Gulf, START insp, and president/vice president/FLOTUS/cabinet officials: 107.107/97-DP
INF inspections: INF-98/CZ
IFOR/SFOR: IFOR-US-CZ (no expiration date).
a. Non-IFOR/SFOR aircraft carrying weapons, munitions, explosives, and other hazardous cargo, or those operating reconnaissance equipment, as well as combat aircraft, are not covered by these blanket clearances. Separate overflight clearances must be obtained for these aircraft.
b. All aircraft using these blanket clearances (including IFOR/SFOR) must fly established air routes and follow international civil aviation organization (ICAO) procedures at all times. Exception: Aircraft flying VFR below 5,000 feet AGL are not required to operate within established air routes per Czech air traffic control regulations.
c. Aircraft operating in support of IFOR/SFOR may use the IFOR/SFOR blanket clearance regardless of aircraft type (transport or combat) or cargo (non-hazardous or hazardous).
d. Blanket clearances are valid for the full range of activity covered by each category. For example, flights carrying DVS/VIPS to observe PFP exercises, or those providing MEDEVAC service for such exercises, may use the PFP blanket clearance.
e. The Czech Republic no longer requires notification of flights using blanket clearances. Therefore, the USDAO Prague no longer requires message or FAX notification from elements using any blanket clearance (including IFOR/SFOR) to transit Czech airspace. The following exceptions apply:
1. Aircraft operating with a blanket clearance and landing in Prague require message or FAX notification to arrange ground handling.
2. IFOR/SFOR aircraft carrying hazardous cargo require message or FAX notification for contingency purposes.

Also, taxis are available (approx $20 US one way).
3. Personnel arriving at Otopeani Airport (Bucharest) proceeding onward to the Black Seaport of Constanta must provide itinerary and transportation fund cite when requesting Country clearance. USDAO Bucharest does not have the capability to support transportation to Constanta (about 250 kilometer away). When arriving late or departing early, recommend overnight stay in Bucharest.

2. COSTA RICA - 81
   (PERSONNEL) Clearance Requirement:
   Add as note at beginning of para: The State Dept recommends that US citizens defer travel to the Pavones/Golfito region of southern Costa Rica. US-citizen residents of this region have been targeted by organized bands of squatters attempting to remove them from their land by violence. Squatters killed a US citizen in Nov 97. Operating with impunity, the squatters continue their efforts to intimidate US citizens in the area, occupying their land, threatening them with death, and reportedly cutting water supplies to their land. US citizens residing in the Pavones/Golfito region should exercise extreme caution, including evacuating the area if threats to their safety are not promptly addressed by the Government of Costa Rica.
