VARIOUS REACTIONS, DISCUSSION ON "TEAM SPIRIT 84"

Low-Level Official Speaks

SK081005 Pyongyang Domestic Service in Korean 0000 GMT 9 Feb 84

[Text] The great leader Comrade Kim Il-song has taught: All people should keenly watch the ever-increasing reckless aggression and provocation maneuvers of the enemies and should be firmly prepared to actively cope with any emergency.

Receiving the report on the joint meeting of the Political Bureau of the WPK Central Committee and the Central Military Commission of the WPK, our functionaries and working people throughout the country are now raising their voices of indignation against the U.S. imperialists and the Chon Tu-hwan puppet clique, their stooges.

Kim Kun-song, deputy director of a department of the Ministry of Metal Industry, said as follows: [Begin recording] Because of the Team Spirit '84 joint military exercise of the U.S. imperialists and the South Korean puppet clique, a very strained situation has been created in our country.

At this grave time when war may break out at any moment, receiving the report on the joint meeting of the Political Bureau of the WPK Central Committee and the Central Military Commission of the WPK, the functionaries and working class of the Ministry of Metal Industry cannot repress their surging indignation against the U.S. imperialists and their stooges and are now making every preparation to cope with the rascals' war provocation maneuvers.

At the Third Session of the Seventh SPA which was held recently, following the joint meeting of the DPRK Central People's Committee and the Standing Committee of the SPA, we again declared that tripartite talks should be held with the participation of the South Korean authorities in talks between us and the United States, and proposed the holding of tripartite talks.

This proposal for tripartite talks is the most realistic and reasonable proposal for negotiations for the peaceful solution of the Korean question. Nevertheless, far from responding to this just proposal, the U.S. imperialists and the Chon Tu-hwan puppet clique are staging the Team Spirit '84 joint military exercise and are rushing toward more unscrupulous war maneuvers.
This vividly exposes the true color of the U.S. imperialists to the world. The U.S. imperialists, who are the incarnation of aggression and war, are trying to seek a way out of their political and economic crisis through aggression and war. This is a hackneyed method of imperialists.

The U.S. imperialists are now frantically running wild to dominate the whole world and are playing with fire everywhere in the world. Because of the ever-intensified new war provocation maneuvers of the U.S. imperialists and their stooges, a touch-and-go situation in which war may break out at any moment has been created in our country.

The rascals are babbling that their frequent war exercises are aimed at maintaining so-called security, at blocking a southward invasion, and at preserving peace. However, this is an out-and-out lie. They cannot conceal their aggressive nature.

We have never forgotten, even for a moment, the fact that the U.S. imperialists triggered the war of aggression in the past through the puppets, made our land a sea of blood, and imposed great disasters upon our people.

The Korean peninsula cannot become a test site of force for the United States. We know well the real aim of the Team Spirit '84 joint military exercise. The Team Spirit '84 military exercise is a preliminary war and a nuclear test war to complete the preparations for a war against us by mobilizing huge-scale U.S. armed forces and the South Korean puppet army.

We are keenly watching with surging indignation the reckless war maneuvers of the rascals who, far from responding to our proposal for tripartite talks, are running wild to trigger a war of aggression. The rascals will gain nothing from this.

The functionaries and working class of the Ministry of Metal Industry, who have received in their burning hearts the party Central Committee's letter to all party members, are not only making every preparation to cope with the new war provocation maneuvers by the U.S. imperialists and the South Korean puppet clique, but are also effecting new innovations in the implementation of the tasks indicated in the great leader's new year's message.

Any provocation or aggression by the rascals cannot frighten us. Rather, it will promote our indignation and hatred against the rascals. We will more firmly deepen our economic and national defense capabilities with our invincible unity and cohesion which have been rallied rock solidly around the party and the leader. At the same time, we will fully demonstrate our firmly united might by answering the rascals' new war provocation maneuvers by effecting revolutionary upsurges on our labor fronts. [End recording]
N. Koreans' Reaction

SK091215 Pyongyang Domestic Service in Korean 0517 GMT 9 Feb 84

[Text] The report on the joint meeting of the Political Bureau of the Central Committee and the Central Military Commission of the WPK is evoking great repercussions among the party members and workers. The great leader Comrade Kim Il-song has taught: The whole people should keenly watch the enemies' maneuvers for reckless aggression and vicious provocation and should be fully prepared to counter any contingencies with initiative.

The great leader has taught as above. Failing to suppress surging indignation at the U.S. imperialists and the South Korean puppet clique, who frantically run amok with new war provocation instead of acceding to the tripartite talks that we proposed, (Choe Chang-ho), chief secretary of the People's Committee of (Sukchon) County, said:

[Begin recording] The party members and workers Sukchon County who heard of the report on the joint meeting of the Political Bureau of the Central Committee and the Central Military Commission of the WPK cannot suppress their indignation at the U.S. imperialists and the South Korean puppet clique, who, instead of acceding to the tripartite talks that the Government of our Republic has presented, run amok with new war provocations, and are filled with the burning determination to defend their socialist fatherland with their lives against the villains' maneuvers.

As all the facts clearly show, the Team Spirit '84 joint military exercise, which the villains are holding, is the product of the policy for naked aggression and war which the U.S. imperialists have pursued. It is a trite technique of the imperialists to find a way out of their political and economic crises through war and aggression. The U.S. imperialists' new war provocation maneuvers in our country today carry a greatly serious and dangerous nature, and are bringing the dark cloud of war closer hour by hour.

Against the prevailing situation, the joint meeting of the Central People's Committee and the Standing Committee of the SPA of the DPRK, and the third session of the Seventh SPA, some time ago, declared that, as a new measure for a peaceful solution of the Korean question, tripartite talks should be held to discuss the questions of signing a peace agreement between Korea and the United States, of withdrawing the U.S. troops from South Korea, and of adopting a nonaggression declaration between the North and the South, and have made sincere effort for the materialization of the talks.

The proposal of the Government of our Republic for convening the tripartite talks started from the standpoint that if the parties who are responsible for solving the Korean question gathered at a place, they would eliminate the war danger that prevails on the Korean peninsula through dialogue and negotiation, maintain and firm up the peace, and would explore a peaceful phase for solving the Korean question. By holding the Team Spirit '84 joint military exercise instead of positively acceding to our fair and just proposal,
the U.S. imperialists and the Chon Tu-hwan puppet clique answered with naked war maneuvers.

The Team Spirit '84 joint military exercise is a vicious challenge to all the Korean people, who ardently aspire for peace on the Korean peninsula and their fatherland's independent and peaceful reunification, and is a grave threat to peace in Asia and the world.

Against the prevailing exigent situation, the joint meeting of the Political Bureau of the Central Committee and the Central Military Commission of the WPK adopted a letter of the party Central Committee addressed to all the party members, and the Central Military Commission of the WPK issued an order of the supreme commander of the KPA for strengthening the posture for combat and mobilization against a possible U.S. imperialists' armed invasion. This is a due self-defensive measure for countering the U.S. imperialists' war provocation maneuvers.

The party members and workers within our Sukchon County, who are vigorously advancing along the single road united rock-firm around the great leader and the glorious party center with a single ideological will, are assuming political and ideological preparations to defend their socialist fatherland and its revolutionary gains with their lives against the new war provocation maneuvers of the U.S. imperialists and the South Korean puppet clique.

By vigorously waging the struggle for thoroughly implementing the programmatic task that the great leader Comrade Kim Il-song set forth in this year's new year address, and the decision of the eighth plenum of the Sixth WPK Central Committee, we will realize ahead of schedule the 10 long-range objectives in the socialist economic construction by accelerating the construction at the fronts in the 5 districts, will achieve the high-speed growths of production and construction in all sectors and at all units in the county, and will epochally increase the people's living standard.

By achieving a great bumper harvest again in this year's farming by more shrewdly accelerating preparations for the new year's farming now, we will positively contribute to making this year, the meaningful year marking the 20th anniversary of the publication of the agricultural thesis, further shine as the across-the-board bumper year.

While further forging the rock-hard invincible cohesion and unity of our people, who are united firmly around the great leader and the glorious party center, all the party members and workers within the county will effect a new great upsurge in all fields of the economic and defense construction by highly displaying the revolutionary spirit of Chollima and the speed battle.

Our people love peace and do not want war. But, we will never allow the imperialists to make aggression against our country. To eliminate the tension that prevails on the Korean peninsula today and to solve the Korean question peacefully is the demand of the times and the nation, and to hold the tripartite talks is the most realistic and rational policy for negotiation for a peaceful solution of the Korean question at this time.
The U.S. imperialists and the South Korean puppet clique should not run contrary to the trend of the times through a confrontation of strength and a new war and should really accede to the tripartite talks.

DPRK Worker Reacts

SK100712 Pyongyang Domestic Service in Korean 0110 GMT 10 Feb 84

[Text] The report on the joint meeting of the Political Bureau of the Central Committee and the Central Military Commission of the WPK is evoking great repercussions among party members and workers. The great leader Comrade Kim Il-song has taught: All the people should keenly watch the enemies' maneuvers for reckless aggression and vicious provocation, which are becoming more undisguised with each passing day, and should be fully prepared to counter any contingencies with initiative.

Sternly exposing and denouncing the new war provocation maneuvers of the U.S. imperialists and the Chon Tu-hwan puppet clique, which are mounting every day, Comrade Pak Chan-hung, a melter at the No. 2 Steel Workshop in the Kimchaek Iron Works, said:

[Begin recording] The working class in our Kimchaek Iron Works, which heard of the report on the joint meeting of the Political Bureau of the Central Committee and the Central Military Commission of the WPK is sternly denouncing the U.S. imperialists' maneuvers of aggression with surging indignation.

Having begun on 1 February, the U.S. imperialists are staging the Team Spirit '84 joint military exercises by mobilizing more than 200,000 troops and up-to-date weapons of mass destruction.

The staging of such a large-scale war exercise clearly shows that the U.S. imperialists are revealing their filthy nature as aggressors. Because of such aggressive maneuvers by the U.S. imperialists, an acute situation in which a war may break out at any moment is being created in our country.

For a long time, our party and the Government of the Republic has stressed many times that the question of national reunification should be solved in a peaceful manner.

As is known to all, the joint meeting of the Central People's Committee and the Standing Committee of the SPA of the DPRK, and the third session of the Seventh SPA, proposed tripartite talks for a peaceful solution of the Korean issue to the United States and the South Korean authorities. Despite this, the U.S. imperialists and the South Korean puppet clique are responding to us with naked war maneuvers, instead of affirmatively replying to our proposal, by staging the Team Spirit '84 joint military exercise.

We can say that this joint military exercise is a preliminary war aimed at perfecting the preparations for war against the northern half of our Republic and is a nuclear test war.
In order to deal with the situation that has been created in our country, the working class in the Kimchaek Iron Works will watch the U.S. imperialists' maneuvers of aggression with keen revolutionary vigilance and will thoroughly maintain the alert and mobilized posture.

Upholding the letter from the party Central Committee to all of the party members, we, the working class in the Kimchaek Iron Works, will more firmly prepare ourselves politically and ideologically to safeguard the socialist fatherland and the revolutionary gains with our lives from the new war provocation maneuvers of the U.S. imperialists and the South Korean puppet clique. The working class of our Kimchaek Iron Works will firmly consolidate the invincible unity and cohesion of our people who are united as one with the great leader and the glorious party center and will firmly defend and protect the party with iron and steel.

No matter how frantically the U.S. imperialists and the South Korean puppet clique may stage the aggressive war maneuvers, the working class of our Kimchaek Iron Works will produce more iron and steel material by operating all facilities to full capacity and will send them to the construction sites of the five district fronts. Thus, we will more highly demonstrate the strength of our Republic by vigorously accelerating socialist economic construction. [end recording]

VRPR CITES PRC REPORTER'S TRAVELOGUE ON PANMUNJOM

SK100911 (Clandestine) Voice of the RPR in Korean to South Korea 0300 GMT
10 Feb 84

[Text] The Chinese magazine, JINGJI DAOBAO, in its first issue of 1984
carried a travelogue article on the North. The article written by (Son Il),
reporter of XINHUA, under the title of "Panmunjom After 30 Years," said that
some 40,000 U.S. troops are occupying the southern part of Korea, obstructing
the independent and peaceful reunification of the Korean peninsula.

It continued: Time has passed so fast and a third of a century has passed
since the cease-fire. During this long period, the world situation has
changed very much.

The flag of the United Nations, which is on the table in the armistice nego-
tiation conference room, has already faded. In the United States, several
presidents have been replaced. However, there has been no change in the
U.S. intervention in the domestic affairs of South Korea. Numerous U.S.
soldiers have been deployed in the land of South Korea far from their home
towns.

The article also said: In recent years, a steel concrete barrier some 240
kilometers long has been built along the area south of the DMZ. This barrier
is to perpetuate the division of the Korean peninsula and to prevent exchanges
between the North and the South.

The article concluded: South Korea has been subordinated to foreign countries
economically because of the infiltration of foreign capital there. It has
been subordinated to the United States politically and militarily because of
the presence of the U.S. forces there.

S. KOREAN STUDENT REVERES KIM CHONG-IL

SK100816 (Clandestine) Voice of the RPR in Korean to South Korea 0300 GMT 10 Feb 84

[Text] According to a report of the RPR Kangwon Provincial Committee, a certain Yi, a student at Kangwon University, enthusiastically admired and revered the sagacious leader Comrade Kim Chong-il.

When he met with old friends of his high school days in his home town one day in January and while exchanging conversations with them, Mr Yi said to them: Recently I have come to more deeply know the greatness and talent of General Kim Il-song and the dear leader Comrade Kim Chong-il in the course of my study of the Chuche idea. General Kim Il-song is a great man who has brilliantly adorned the history of human ideology by creating the Chuche idea, an idea respecting man, for the first time in history.

Mr Kim Chong-il is a genius of ideology who has systematized the Chuche idea and has developed it into Kimilsongism.

Today the Chuche idea, which has been developed into Kimilsongism thanks to the dear leader Comrade Kim Chong-il's efforts, is illuminating, like a beacon, the path of all oppressed and exploited people and those who are wandering around, without knowing a definite path, like us.

At the present time, when Kimilsongism is attaining great fruition by firmly grasping the hearts of people, mankind is unanimously following the dear leader Comrade Kim Chong-il, admiring him as the sun of brilliant guidance. Holding Mr Kim Chong-il in high esteem as the sagacious leader, our nation's future is very promising and bright.

We should continue to uphold Mr Kim Chong-il and to advance along the brilliant road directed by Kimilsongism. The genuine value of our life and our bright future lie precisely in following the will of Mr Kim Chong-il and in leading life, taking Kimilsongism as firm faith.

The RPR Kangwon Provincial Committee's report added that deeply moved by Mr Yi's statements, his friends firmly vowed to live with the spirit of Kimilsongism.

OPPOSITION LEADER CALLS FOR LIFTING OF POLITICAL BAN

SK060932 Seoul TONG-A ILBO in Korean 6 Feb 84 p 2

[From the column "Tidbits"]

[Text] Explaining the results of his contacts with former politicians, now banned from engaging in any political activity, at a press meeting held on the morning of 6 February at the party building, KNP President Kim Chong-chol said: The majority of the former politicians, now banned from engaging in political activity, I have met with appeared to be very cautious in talking about their resumption of political activity or about choosing which party to join, maybe because they themselves were once members of the ruling party of the past.

He went on: I sensed that the majority of the former politicians with whom I have talked were very eager to participate in politics. Since these men have seen twists and turns in the past and are strongly aware of their political responsibility, they are more cautious than other politicians who served in the opposition parties of the past.

Calling for an early lifting of the ban imposed on former politicians, he said: It is very regrettable that the government still keeps such an unreasonable measure as the ban in practice even now. In order for party politics to develop properly, the dangerous idea of arbitrarily regarding former politicians as wrong-doers must be wiped out.

DAILY ON THE KNP LEADER'S COMPLAINT

SK090950 Seoul TONG-A ILBO in Korean 8 Feb 84 p 2

[From the column "Tidbits"]

[Text] In the morning of 8 February, after a party meeting was over, Kim Chong-chol, president of the KNP, referring to the recent talk about "worries over overheated politics" or "overheated election atmosphere" among the government and ruling party circles, expressed strong discontent, saying: "Politics is, by nature, a complicated social phenomenon. It is natural that the people should vigorously participate in discussions of not only politics but also elections so that they can exchange their views. I really do not understand why they talk about overheated politics or overheated election atmosphere."

President Kim Chong-chol then indirectly denounced the DJP, saying: If the overheated atmosphere the government worries over is about spending money for politics or election, the problem should go to the ruling party, not to our opposition parties. If the ruling party shifts the blame for overheated atmosphere onto our opposition parties, which have suffered under a lack of political funds, this is precisely an act of a thief turning on the master with a club.

He exposed the recent atmosphere in local areas, saying: According to lawmakers of our party, the DJP is busy arranging various feasts for people.

VICE INFORMATION MINISTER ASSAULT ON DAILY NOTED

SK080543 Seoul TONG-A ILBO in Korean 4 Feb 84 p 2

[From the column "Tidbits"]

[Text] While asking for cooperation in connection with the reinstatement of expelled students at a dinner at a restaurant in Seoul he arranged on the last evening of January for reporters assigned to Seoul Police Headquarters, Ho Mun-to, vice minister of culture and information, abruptly departing from the main subject, continued by making absurd remarks against a certain daily "A," to the reporter of the daily who was present on the occasion. He used language unacceptable in common practice.

At a place where many hostesses, five officials of the Culture and Information Ministry, and nine reporters were present, he said, while under the influence of considerable alcohol: From your -kada" (Japanese for style) alone, I can tell that you are a reporter of the daily "A."

He used profane and obscene language against the daily "A," which is too upsetting to be printed. He babbled that the daily "A" is the newspaper of a comprador capitalist. He questioned in high tone the nationality and legitimacy of the paper, and even attacked a certain individual.

Continuing his absurd and violent language, he also continued to drink. As a result, he was so heavily intoxicated that he was unable to put on his shoes. He was carried to a car to go home still wearing his slippers.

Those who were present on the occasion reportedly showed sorrow over this. They said: If a vice minister of the country behaves like this, what is to become of the dignity of the nation? If the vice minister of the government agency which exercises supervisory control over the press shows such a prejudice against a certain newspaper, how can a proper government operation be expected?

[Text] The DKP lawmakers from Seoul electoral districts gathered at the party headquarters in the morning of 8 February. At the meeting, the opposition lawmakers bitterly denounced the Seoul City Government authorities for having confiscated, through some district offices of the city government, the gifts they had distributed to some residents in their electoral districts on the occasion of the Lunar New Year, declaring such an act as a sort of excessive crackdown. According to them, the district offices confiscated the gifts under the pretext of preventing an overheated election atmosphere.

At the meeting, representative Kim Pyong-o exposed his case, saying: "On the Lunar New Year's Day, I distributed two pairs of socks as gifts, to all the scavengers, mailmen, and garbage collectors in my electoral district. But, later, I learned that the district office chief in my district had confiscated the socks distributed to the scavengers."

Yi Tae-ku, acting president of the party, lamented this, saying: "The gifts distributed to these people by lawmakers of the ruling party did not become an issue while the gifts distributed by lawmakers of the opposition party were declared as a factor creating an overheated election atmosphere. This is ridiculous. Under such circumstances, I cannot but fear how we should conduct the election slated for this year."

Representatives Son Se-il and Han Kwang-ok said that such acts remind us of the practice of excessive loyalty that frontline administration offices showed in the past era when an election drew near. They said they will bring this as an issue and strongly call the Seoul City Government to account for this at its briefing session.

DKP OFFICIALS STRESS AUTONOMY OF CAMPUS

SK040000 Seoul TONG-A ILBO in Korean 3 Feb 84 p 2

[From the column "Tidbits"]

[Text] In connection with the campus issue, which has become the center of social interest recently, an executive official of the DJP said on 3 February that "he feels that the excessive controversy over the left-leaning trend on campus would not help resolve the problem" and stressed that "we had better have a many-sided view, realizing that some are trying to reach a quick conclusion because of their awareness of the matters at issue on their campus while others are not."

He also noted: Other organizations' indefinite artificial propping up of universities and colleges will not solve the basic question of campuses. We should put an end to the simplistic theory that all situations should be handled with strength. Now is the time for us on the outside to bring about a turning point in helping guarantee self-regulation of campuses.

In the meantime, party Secretary General Kwon Ik-hyon said on 2 February that "politicians and political parties should not interfere in the campus issue. We should strive to eliminate the problems through the responsibility of professors."

Secretary General Kwon also stressed: The interference on campuses by politicians of both ruling and opposition parties has created chronic campus problems for the last 20 years, including the trying of students in the courts.

ROLES OF GUIDING PERSONNEL IN YOUNG STUDENT WORK DISCUSSED

Pyongyang NODONG CH'ONGYON in Korean 12 Nov 83 p 1

Editorial: "Let Us Improve and Strengthen the Young Student Work by Enhancing the Roles of the Guiding Personnel of the School's SWYL and the Juvenile Corps"

Today, in order to meet the demand of the real development that new revolutionary shifts in the work of SWYL (Socialist Workers Youth League) are occurring, our party demands that we further improve and strengthen the young student work by enhancing the roles of the guiding personnel of the school's SWYL and the Juvenile Corps.

It is an urgent demand for more highly supporting the young student work today to enhance the roles of the guiding personnel of the school's SWYL and the Juvenile Corps.

The great leader, Comrade Kim Il-song, exhorted us as follows: "The guiding personnel of the Juvenile Corps and SWYL must positively contribute with their high responsibility and effective work to nurturing students as the successors to the revolution who struggle with their utmost devotion for the fatherland and the people, and for the party and the leader." ("Selected Works of Kim Il-song," Vol 8 p 177)

The guiding personnel of the Juvenile Corps and SWYL are the honorable revolutionaries who enjoy the high trust of the great leader and the respected and beloved comrade leader, and who nurture young students as reliable successors to the Chuche revolutionary cause.

They are functionaries dispatched to schools to be fully responsible for the school's SWYL and the Juvenile Corps and are in direct charge of the school's young student work. It is indeed the duty imposed on the guiding personnel of the school's SWYL and the Juvenile Corps to directly organize, guide, and execute the indoctrination and organizational life of young students by mobilizing the school's SWYL and Juvenile Corps organizations.

Therefore, the success of the indoctrination work of young students is dependent on how high the roles of the guiding personnel of the school's SWYL and the Juvenile Corps are.
When they correctly carry out the trusted roles with burning loyalty to the party and the leader, and with high awareness of and responsibility for their work, they can effectively implement the indoctrination work of young students in accordance with the party’s intentions. Then can they brilliantly realize the ideas of our party on the young student work, and nurture reliable successors to our revolution.

It is because their duties and roles are so important that the great leader and the respected and beloved comrade leader have trusted and bestowed great honors on the guiding personnel of the school’s SWYL and the Juvenile Corps, and have provided all conditions for all works.

Based on a scientific analysis particularly of the real demand of the revolutionary development, of the real condition in the indoctrination work of young students, and of the activity of the guiding personnel of SWYL and the Juvenile Corps, our party proposes it as an important demand to decisively enhance their roles. Today the party’s expectations of the guiding personnel of the school’s SWYL and the Juvenile Corps are indeed great, and the party’s demand on their work is truly enormous.

The guiding personnel of the school's SWYL and the Juvenile Corps must support the noble intentions of the party with their hearts, and superbly carry out their duties and roles with their utmost power and energy so as to decisively improve the indoctrination work of young students in accordance with the demand for converting the entire society with the Chuche ideology.

What is most important in enhancing the role of the guiding personnel of the school's SWYL and the Juvenile Corps is to make them carry out work from the firm standpoint of being fully responsible for the indoctrination work of young students.

The indoctrination work of young students is the honorable and responsible work of the guiding personnel of the school's SWYL and the Juvenile Corps that the great leader and the respected and beloved comrade leader have entrusted. For the guiding personnel of the school's work of young students is their revolutionary work and basic duty. The guiding personnel of the school's SWYL and the Juvenile Corps must deeply cherish this, entertain a high sense of responsibility, and heatedly burn their hearts with the revolutionary determination to carry it out honorably. Only when this is done, can they generate new revolutionary shifts in the young student work.

The guiding personnel of the school's SWYL and the Juvenile Corps must responsibly organize and carry out ideological indoctrination with basic emphasis on correctly establishing among young students the revolutionary view of the leader by strengthening the indoctrination of loyalty to the party and the leader among them. They must energetically and actively mobilize SWYL and Juvenile Corps organizations, and concentrate mainly on actively guiding young students so that they can effectively carry out study and organizational life.

Works that the guiding personnel of the school's SWYL and the Juvenile Corps must implement are indeed enormous and important. If they want to fully
implement these works, they must bestir themselves to work with the revolutionary spirit and work style. Tenaciously endeavoring and completely carrying through, even forfeiting sleep for 10 nights in order to carry out party policies—this is the revolutionary spirit and work style of the guiding personnel of youth today.

During the anti-Japanese guerrilla struggle period in the past, young communists and functionaries of the Communist Youth League and the Boys Corps grappled with new generations with just such revolutionary spirit and work style to nurture them as strong revolutionaries.

Idling away day after day with indolence, laxity, and ennui is not the revolutionary work style, nor has it anything to do with the work style that the guiding personnel of youth today acquire. The guiding personnel of the school's SWYL and the Juvenile Corps must always brim with a high will for work, high ambition, and energy, and always carry out work with tension and militancy. They must also deeply study their work, initiate new problems, conceive new works, and creatively and positively execute their work.

Especially they must pour all their power and energy into completely fulfilling to the end on a timely basis instructions that the great leader and the respected and beloved comrade leader have given to the young student work.

Thus they must always deeply study the great leader's instructions and the work of the respected and beloved comrade leader, seek out work materials from them, end endlessly develop and intensify work. Then, they must never drift along without concentrating their main power on internal work, nor must they cling only to activity campaigns.

The work with young students must be always carried out with freshness to suit their ages and psychological characteristics. This is an important policy that our party has consistently emphasized.

Whether they carry out extracurricular activity among young students or organize meetings among them, the guiding personnel of the school's SWYL and the Juvenile Corps must use their brains extensively to suit young students ages, consciousness level, psychological characteristics, and taste. Thus they must see to it that all works of the school's SWYL and the Juvenile Corps corps become interesting and lively with the active participation of young students, and all works must be developed with freshness and with methodology to impart favorable influence on the formation of their world outlook, their intellectual development, and their physical development.

What is particularly important at this juncture is to positively emulate and learn from the great models and experience that the respected and beloved comrade leader has achieved in youth and juvenile work.

The respected and beloved comrade leader early personally guided youth and juvenile work wisely to create models and experience in developing young student work to suit their characteristics. These noble models and experience are the brilliant models that the guiding personnel of the school's SWYL and Juvenile
Corps must learn from and emulate, and fully embody in work and life so as to develop the extracurricular activity of young students with freshness and substance to suit their characteristics.

In order for the guiding personnel of the school's SWYL and Juvenile Corps to carry out the indoctrination of young students to meet their characteristics, they must penetrate deeply into young students and live with them. If, instead, they merely move around in the office and interview only visiting students, they cannot fathom students' minds, even if they stay at students' sides. The guiding personnel of the school's SWYL and Juvenile Corps must reject the old work style of working only with the guiding personnel of Juvenile Corps branches and primary grade organizations, and activists. Instead, they must go to young students to be with them and to carry out work to suit their taste and demand. They as close indoctrinators of young students must treat young students with the feeling of elder blood brothers and sisters, warmly awake and guide them, and indoctrinate them by explaining and persuading them even a hundred times.

It is one of the important guarantees for improving and strengthening the young student work to enhance the political and practical quality of the guiding personnel of the school's SWYL and Juvenile Corps.

If their level is not high, no matter how enthusiastic they may be, they cannot fully carry out their duty, and consequently they cannot be loyal to the party.

If they do not study or do not even read newspapers carefully, they can never raise their level. Then, they cannot be true guiding personnel of youth and juveniles.

The guiding personnel of the school's SWYL and Juvenile Corps must arm themselves strongly with the revolutionary ideology and theory of the great leader and our party, and must become capable indoctrinators and well-rounded workers with versatile talents and capabilities. They must read many books, and know how to sing and how to play musical instruments, and know how to do horizontal bars, and know how to do everything. To do this the guiding personnel of the school's SWYL and Juvenile Corps must fully establish the revolutionary study style, study more than anyone else, and fully and deeply study and master the creative ideology and theory of the great leader and the respected and beloved comrade leader.

At the same time, they must also study child psychology and pedagogy, and also understand the contents of teaching materials for young students. They must also cultivate a method of carrying on interesting conversation with young students, and cultivate talent in delivering speeches, and study to learn technical and scientific knowledge, knowledge on literature and art, and knowledge on physical education. Then they can become guiding personnel for youth and juveniles who can attract and endear young students.

In order to enhance the roles of the guiding personnel of the school's SWYL and Juvenile Corps, it is imperative that SWYL organizations at all levels correctly establish the system of work with them, and concentrate on it.
SWYL organizations at all levels must concentrate their main power in the work with young students on the work with the guiding personnel of the school's SWYL and Juvenile Corps, and particularly organize the work to enhance their responsibility and roles. SWYL organizations at all levels must always give on a timely basis the direction for work to the guiding personnel of the school's SWYL and Juvenile Corps, and strengthen the understanding and guidance of the condition of their work. In this respect they must pay deeper attention to enhancing the responsibility and roles of the responsible guiding personnel of the school's SWYL and Juvenile Corps.

SWYL organizations at all levels must firmly establish the system of guiding subordinate organizations. Functionaries must always deeply penetrate schools and carry out the work with purpose and awareness to positively aid the work of the guiding personnel of the school's SWYL and Juvenile Corps, and to solve pending problems, and to create and generalize experience.

Today it is the most important demand for more completely carrying out our party policy for young student work to enhance the roles of the school's SWYL and Juvenile Corps.

All guiding personnel of the school's SWYL and Juvenile Corps are urged to enthusiastically cherish the high trust and expectation of the party, and to more tenaciously prepare young students as true successors to the Chuche revolutionary cause by responsibly fulfilling their assigned revolutionary duty.

DAILY ON COMMUNIST HUMANICS IN ART, LITERATURE

SK090409 Pyongyang KCNA in English 1510 GMT 8 Feb 84

[Text] Pyongyang, February 8 (KCNA)--NODONG SINMUN today comes out with an article titled "Brilliant Application of Communist Humanics in Our Literature and Art," which reads in part:

The kernel of our party's Chuche-oriented idea and theory on literature and art is a unique idea and theory on communist humanics.

Communist humanics founded by our party is a true humanics which gives an all-round exposition of the essence and mission of socialist and communist literature and art and the basic requirement in the creation of literature and art and the ways of depiction.

The immortal Chuche idea was the first in history to clarify that for a man, a social being, Chajusong (independence) is his life and soul; it gives a perfect exposition of the essential character of man.

Drawing on this great discovery of the nature of man, communist humanics defines the problem of Chajusong, the problem of an independent man, as the fundamental question of literature and art.

By raising as the fundamental demand the problem of depicting people who defend and glorify their political Chajusong, communist humanics indicates the way of representing a man as a most dignified and noblest being to suit his nature.

Communist humanics also gives a comprehensive exposition of the ways of creating a typical man of a new era and depicting the times and life.

The foundation of communist humanics was an event of epochal significance in the building of socialist and communist literature and art and in the development of the theory on literature and art.

It gave a guideline in depicting people and life of different types in different eras to suit their nature, and opened a broad way of creating a typical man in our era which advances towards Chajusong.
Our party not only founded communist humanics but also applied it in an all-round way so as to develop literature and art on to a higher stage as required by the deepening socialist construction.

The most precious success achieved by our literature and art in the course of applying communist humanics is a clear and high representation of a truly typical man in our era.

The portrayal of young communists including Kim Hyok and Cha Kwang-su who upheld respected Comrade Kim Il-song as the great leader, as the centre of unity in the incipient period of revolution, and many anti-Japanese revolutionary fighters including the heroine of the anti-Japanese war who fought with all devotion to defend the headquarters of the revolution as body-guard is throwing brilliant rays as days go by in the wide flower garden.

Our leading characters in films are people of a new type who glorify their socio-political life, regarding it as the most valuable thing; they are revolutionaries of our era advancing toward the accomplishment of the cause of Chajusong.

Another success of our literature and art in the course of applying communist humanics is the successful solution of the problem of creating the portrayal of the outstanding leader of the working class.

To fully meet the demand of communist humanics, our party gave comprehensive and concrete answers to the theoretical and practical problems in respectfully depicting the August image of Comrade Kim Il-song, the respected leader of our people, in literary and art works.

With the successful implementation of the party's policy, our literature and art produced "Immortal History," a cycle of stories, and "The Star of Korea," a feature film, which depict the glorious and brilliant revolutionary history of the respected leader on a vivid canvas of unprecedented scope, and many other monumental works.

By applying communist humanics, our literature and art opened a new phase in depicting people and life so as to organically combine the noble ideological content with a high artistic value.

The days of applying the ways of depiction in compliance with the demand for creating models raised by communist humanics were significant days in which a revolution took place in our literature and art and an unprecedented innovation and creation was effected in all its domains.

In these historical days, our party set a shining example in comprehensively applying communist humanics through the course of accomplishing the cause of adapting the immortal classic masterpieces "Sea of Blood," "The Flower Girl" and "The Fate of a Self-Defence Corps Man" to film, opera and novel.
Our party saw to it that these precious successes made in the course of adapting the immortal classic were consolidated and developed to markedly raise the level of literature and art.

As the ideological and artistic plane of our literature and art rose high as never before with the application of communist humanics, the function and role of literature and art in our social life were brought to a very high level.

With a deep insight into the enhanced position and role of literature and art in social life, our party put forward the unique policy of actively conducting ideological education of the working people through literature and art. With the thorough implementation of this policy, communist humanics, a weapon of creation of literature and art, turned into a powerful weapon of training the working people to be revolutionaries of Chuche type.

KCNA HITS INVESTIGATION OF KOREAN TRADERS IN JAPAN

SK091012 Pyongyang KCNA in English 1001 GMT 9 Feb 84

[Text] Tokyo, February 8 (KNS-KCNA)--The Japanese tax administration authorities committed the outrage of investigating the free business activities of Japan-resident Korean traders and manufacturers in disregard of their right to enterprise.

At around 8 on the morning of January 27 the Tokyo Tax Administration Bureau sent more than 170 investigators to search by surprise 19 objects including the house and store of Pu Yong-u, member of the Taito-ku, Tokyo metropolis, association of traders and industrialists under the General Association of Korean Residents in Japan (Chongnyon) on charges of "violation of the income tax law," and confiscated at random various documents on his business activities including the account-book, deposit passbook and telephone ledger.

At the same time, they investigated the business of several Korean traders and manufacturers including Ko Tu-son and Ko Tu-sin, residents in Adachi District, who had nothing to do with the "suspicion" imposed upon Pu Yong-u.

The investigators detained the Korean traders and manufacturers as if they were criminals and committed illegal acts against them without hesitation.

The investigation perpetrated by the Tokyo Tax Administration Bureau was a tax collection offensive to squeeze more money from the Korean traders and manufacturers at any cost on the threshold of "taxation in March" and, at the same time, part of the Japanese authorities' ever more malicious hostile policy toward the DPRK and part of their political suppression of the Koreans in Japan.

This is well illustrated by the organization and process of the investigation.

On the evening of the day of the investigation a friendship gathering of Korean and Japanese people had been expected to be held under the auspices of the Taito Association of Traders and Industrialists.

But the tax administration authorities deliberately delayed the investigation they had planned earlier and committed it on the very day to prevent the friendship gathering and create confusion in the work of the association.
Now Chongnyon functionaries and Koreans in Japan express bitter national indignation at the outrage of the Japanese tax administration authorities.

The Chongnyon functionaries and Korean traders and manufacturers in the Kanto District including Tokyo have visited the Tokyo Tax Administration Bureau almost every day from January 28 and lodged a strong protest with the tax administration authorities against their investigation and strongly demanded them to apologize for it.

KIM CHONG-IL RECEIVES LETTERS FROM ABROAD

SK031328 Pyongyang KCNA in English 1034 GMT 3 Feb 84

[Text] Pyongyang, February 3 (KCNA)--The dear leader Comrade Kim Chong-il received letters from the Guyana-Korea Friendship Society and the Sierra Leone-Korea Friendship Association which held annual meetings and the Portuguese Central Committee for the Study of Kimilsungism which held a meeting marking the day of the constitution of the Democratic People's Republic of Korea.

The letter from the Sierra Leone-Korea Friendship Association says:

1984 will be a year of great successes for the Sierra Leonean people in realising the far-reaching plan of the great leader Comrade Kim Il-song and in studying the correct guiding principles of you the dear leader Comrade Kim Chong-il for humanity.

The Rangoon incident was a drama of Chon Tu-hwan's own making to extricate himself from a predicament and conduct a cheap propaganda for winning the world's "sympathy."

In acting rashly the Burmese Government was caught in a trap set by Chon Tu-hwan and made Burma submitting to Chon Tu-hwan and the U.S. imperialists.

We hold that the Democratic Confederal Republic of Koryo, a unified state where the South Korean people can lead a happy life free from imperialist exploitation and subjugation, should be founded.

We will continue to hold high the banner of the Chuche idea, a man-centred philosophy, in Sierra Leone.

The letter from the Portuguese Central Committee for the study of Kimilsungism says that the socialist constitution of the Democratic People's Republic of Korea is an important revolutionary work of Chuche Korea and an important basic law for the Korean people having you Comrade Kim Chong-il, a distin-
guished theoretician of the Chuche idea and a paragon of great revolutionary, as their dear leader.

The letters wholeheartedly wish the dear leader Comrade Kim Chong-il good health and a long life.

KIM IL-SONG RECEIVES REPLY FROM 'ARAFAT

SK060422 Pyongyang KCNA in English 0400 GMT 6 Feb 84

[Text] Pyongyang, February 6 (KCNA)--The great leader Comrade Kim Il-song, president of the Democratic People's Republic of Korea, received a message from Yasir 'Arafat, chairman of the executive committee of the Palestine Liberation Organization and commander-in-chief of the Palestine revolutionary armed forces, in reply to his message of greetings to the latter on the 19th anniversary of the start of the Palestinian revolution.

The reply message dated January 28 reads:

I extend revolutionary greetings to you.

I am happy to extend deepest thanks in the name of my Palestinian Arab people, revolutionaries and the members of the executive committee of the Palestine Liberation Organization, my brothers, and myself to you and, through you, to the Workers' Party of Korea and the government and people of the Democratic People's Republic of Korea for your comradely message of greetings on the 19th anniversary of the start of the Palestinian revolution.

The principled and unshakable stand expressed by you, my dear and great brother, in the message reflects the depth of comradely relationship and prospering bonds of friendship.

This stand has been proved by the fact that you have supported our Palestinian people in the just struggle to restore their national rights including the right to return home, the right to self-determination and the right to found a sovereign state of Palestine on their Palestinian homeland on every opportunity on a domestic and worldwide scale.

I take this opportunity of reassuring you of the principled and firm support of the Palestine Liberation Organization to the struggle your friendly people under your wise and courageous leadership are waging against the manoeuvres of the imperialists and their stooges and for the reunification of the two parts of the country in accordance with the program advanced by you for the interests and unity, prosperity and development of your people.

I wish you good health and a long life and happiness as well as your friendly people constant progress and prosperity.

KCNA CARRIES POLISH JOURNALIST'S NOTES ON DPRK

SK040521 Pyongyang KCNA in English 0449 GMT 4 Feb 84

[Text] Pyongyang, February 4 (KCNA)--Jerzy Oseka, Polish journalist who had attended the World Conference of Journalists Against Imperialism and for Friendship and Peace held in Pyongyang, published travel notes under the title "A Country Unique in Everything" in the January 7 issue of the paper "POLITYKA."

He said: One can hear about the Chuche idea everywhere in Korea.

The young communists headed by Comrade Kim Il-song struggled to liberate their country by their own efforts.

Comrade Kim Il-song was elected head of the Democratic People's Republic of Korea which was founded in September 1948, and the Chuche idea became the guiding idea of the new system.

The journalist introduced the endeavours for modernisation at the June 4 Rolling Stock Factory he saw during his visit to it, and said that Korea is modernising industry with her own strength and technique as required by the Chuche idea.

A revolutionary way of life is prevailing in all aspects and culture and art have made great development in Korea, he said.

Introducing Korea's educational system and mass gymnastic display showing the revolutionary history and feats of the great leader Comrade Kim Il-song, the author further said:

The changes taking place in the Democratic People's Republic of Korea are a result of the leadership of Marshal Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea.

He is constantly giving on-the-spot guidance to factories and cooperative farms in all parts of the country.

In Korea poverty and starvation had been liquidated once and for all and industry, agriculture and transport have developed.
