Archaeological Collection Summary for Makua Military Reservation, Hawaii

U.S. Army Corps of Engineers, St. Louis District, Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX)

U.S. Army Corps of Engineers, St. Louis District, Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (CELMS-PD-C) 1222 Spruce Street, St. Louis, MO 63103-2833

U.S. Army Environmental Center Environmental Compliance Division (SFIM-AEC-ENC) Aberdeen Proving Ground, MD 21020-5401

This research was supported in part by an appointment to the Research Participation Program at the St. Louis District, U.S. Army Corps of Engineers administered by the Oak Ridge Institute for Science and Education through an interagency agreement between the U.S. Department of Energy and the St. Louis District, U.S. Army Corps of Engineers.

Approved for public release—distribution unlimited

The U.S. Army Environmental Center tasked the Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX) with the job of assisting the Army in complying with the Native American Graves Protection and Repatriation Act (NAGPRA), P.L.101-601. The MCX was asked to locate and assess archaeological collections derived from Army lands, to identify the Native American or Native Hawaiian organizations culturally affiliated with the collections, and to draft Section 6 Summary letters for each installation. A two-stage process was used to identify, locate, and assess the contents of the collections, consisting of archival research and telephone interviews with the repository personnel. This report conveys the results of the collection research completed for compliance with Section 6 of NAGPRA.

UL
AN ARCHAEOLOGICAL COLLECTIONS SUMMARY
FOR
MAKUA MILITARY RESERVATION, HAWAII

Information Provided for Compliance with the
Native American Graves Protection and Repatriation Act
Section 6 Summary

Prepared for the
U.S. Army Environmental Center,
Environmental Compliance Division
Aberdeen Proving Ground, Maryland

By
U.S. Army Corps of Engineers,
St. Louis District,
Mandatory Center of Expertise for the
Curation and Management of Archaeological Collections,
U.S. Army NAGPRA Compliance Project,
Technical Report No. 95

March 1996
OBJECTIVES AND METHODS

The U.S. Army Environmental Center (AEC) tasked the Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX) with the job of assisting Army installation personnel in complying with the requirements of the Native American Graves Protection and Repatriation Act (P.L. 101-601, NAGPRA). The MCX was asked to locate and assess archaeological collections derived from Army-owned lands, to identify the Native Hawaiian organizations most likely culturally affiliated with the collections, to draft Section 6 Summary letters for each installation, and to conduct physical inventories of any collections that contain human skeletal remains. This report conveys the results of the collections research completed to assist Makua Military Reservation in complying with the Section 6 Summary requirements of NAGPRA.

The MCX used a two-stage process to identify, locate, and assess the contents of archaeological collections from the installation. First, archival research was performed to review all archaeological site records and reports for the installation. Second, telephone interviews were conducted with personnel at installations, universities, museums, and archaeological contractors that were identified during the archival research as possible repositories of Army collections. The MCX did not physically verify the existence of collections and, as such, the information contained in this report is based on background record reviews and information obtained via telephone interviews with the aforementioned installation personnel and institution professionals.

Archival research for Makua Military Reservation began with a search of the National Archeological Data Base (NADB) for references pertaining to the installation. This was followed by a thorough examination of all archaeological site forms and a literature review of all pertinent archaeological reports and manuscripts on file at the Department of Land and Natural Resources, State Historic Preservation Division, Honolulu; the Bernice Pauahi Bishop Museum, Honolulu; and the U.S. Army Corps of Engineers, Pacific Ocean Division, Fort Shafter, Hawaii. The records search was performed at the above repositories in September of 1995 and sought to identify any work on the installation that may have produced archaeological collections.

Subsequent telephone interviews to potential collections repositories ascertained whether the materials were present and the range of objects in each collection. Draft Section 6 Summary letters are enclosed (Appendix I), as well as a listing of the Native Hawaiian organizations that should be contacted and their points of contact (Appendix II).
RESEARCH RESULTS

ARCHAEOLOGICAL INVESTIGATIONS AT MAKUA MILITARY RESERVATION

A number of archaeological investigations have been conducted at Makua Military Reservation, beginning in 1977 and continuing to the present. Seven organizations have been identified as having conducted archaeological work at the installation. These organizations are:

- Bernice Pauahi Bishop Museum, Honolulu, Hawaii,
- BioSystems Analysis, Inc., Kailua, Hawaii,
- Cultural Surveys Hawaii, Kailua, Hawaii,
- Department of Land and Natural Resources, Division of State Parks, Honolulu, Hawaii,
- Hawaii Marine Research, Inc., Hawaii (now defunct),
- Ogden Environmental and Energy Services, Honolulu, Hawaii, and
- U.S. Army Corps of Engineers, Pacific Ocean Division, Honolulu, Hawaii.

Investigations have primarily consisted of systematic surveys and testing activities. Archaeological sites types have included prehistoric and historic agricultural, livestock, military structures, and other remains. To date, only work performed by BioSystems Analysis, Inc. and Ogden Environmental and Energy Services has resulted in the collection of artifacts or other materials. As of the date of this report, Ogden’s project at Makua Military Reservation is ongoing.

SUMMARY OF ARCHAEOLOGICAL COLLECTIONS

A total of approximately 4 ft³ of archaeological materials has been identified for Makua Military Reservation. Materials include basalt flakes and tools, volcanic glass, coral, shell, mammal and fish bones, *kukui* nut fragments, charcoal and soil samples, and historic metal and bottle glass. As of the date of this report, the collections are reportedly located at the following repositories:

- BioSystems Analysis, Inc., Kailua ~1 ft³
- Ogden Environmental and Energy Services, Honolulu ~3 ft³

The attached *Summary of Current Locations of Archaeological Collections from Makua Military Reservation* (Appendix III) provides more detailed information about each collection derived as a result of archaeological investigations at the installation. A collection consists of all of the materials, artifacts and associated documentation (e.g., field notes, maps, photos, data
analyses, correspondence), produced as a result of an archaeological investigation or project at a single site or multiple sites. In some cases, the same archaeological site may have been investigated by various individuals or organizations. Depending on where the resulting collections are curated, they may be stored and identified as separate collections or separate components of a single collection. In cases where the artifacts and records have become separated, we list the records collections repository as well.

Every attempt has been made to locate all collections cited on available archaeological site records or in published and unpublished references to archaeological investigations on the installation.

NAGPRA-Related Materials

No sacred objects, funerary objects, or human skeletal remains were identified in a thorough review of archaeological records, associated literature, and telephone interviews. The final determination of sacred objects or objects of cultural patrimony among the Makua Military Reservation collections may be established upon further consultation with Native Hawaiian organizations according to the definitions and restrictions specified in NAGPRA.

REFERENCES TO ARCHAEOLOGICAL INVESTIGATIONS

Appendix IV contains a list of references reviewed by the MCX during its archival research. No references were found for Makua Military Reservation in a search of the National Archeological Database (NADB).

CULTURAL OVERVIEW OF THE REGION

Hawaii is among some thirty-eight major archipelagos and islands referred to as Polynesia (Kirch 1984:19). Archaeological evidence suggests that the Hawaiian islands have been inhabited by humans for the past 1,600 years. The apparent area of origin of these first Hawaiian inhabitants was in central East Polynesia, probably the Marquesas Islands. Information regarding early Hawaiian society is sketchy, however, it is believed that it must have been like that of the Ancestral Polynesians, who had a chiefdom based on corporate descent groups (Eidsness 1995:8).

European contact with Native Hawaiians commenced with the arrival of British Captain James Cook in 1778. At this time, each of the eight islands that comprise Hawaii were under separate rule. Hawaiian society was hierarchically organized, with several grades of chiefs (ali‘i) and land managers (konohiki) over a large class of commoners ( maka‘ainana). Social
organization was closely tied to land use, which involved a tiered system of land divisions. Whole islands or parts of islands constituted independent chieftoms (moku) controlled by high chiefs. The moku were divided into a large number of wedge-shaped sections (ahu'ua'a) controlled by lesser-chiefs. Within the ahu'ua'a were smaller sections held and worked by extended households or groups of commoners (Kirch 1985:2; MacKenzie 1991:3).

Contact with the Europeans brought significant changes in both the Hawaiian land tenure system and Hawaiian social structure. In 1795, King Kamehameha I brought all of the islands, with the exception of Kauai, under his control. Although Kamehameha did not make substantial alterations in land tenure, his rule provided a new administrative level for the islands. Kamehameha also initiated relationships with Europeans and Americans which intensified throughout the nineteenth century (MacKenzie 1991:5).

The Constitution of 1840, which established a governmental structure for the kingdom and formally declared that the land belonged to the chiefs and people, with the king as trustee for all, attempted to deal with conflicts over land that began to arise between Hawaiians and foreigners. The demand for change in the land tenure system resulted in the Great Mahele of 1848, which divided the kingdom into thirds: one-third to the Hawaiian government, one-third to the chiefs, and one-third to the commoners who worked the land. In 1850, legislation was passed that allowed Westerners to own and convey land (MacKenzie 1991:5-9).

By the late nineteenth century, Westerners owned large plantations on most of the islands and had gained significant economic and political power in the kingdom. The struggle to control land in the islands eventually resulted in the overthrow of the Hawaiian monarchy in 1893, when the U.S. minister to Hawaii, John Stevens, ordered U.S. naval forces to land in Hawaii in support of white settlers. The provisional government, and later the Republic of Hawaii, designated the Crown and government lands as its public lands. When the United States annexed the Republic of Hawaii in 1898, the revolutionary government ceded these public lands to the federal government (Parker 1989:135). When Hawaii was admitted to the Union as a state in 1959, the federal government relinquished title of the former Crown and Government lands to the state, although certain lands set aside through an act of congress, executive order, presidential proclamation, or gubernatorial proclamation remained the property of the United States. Congress passed legislation allowing these "retained" lands to be returned to the state when they are declared unnecessary to federal needs (MacKenzie 1991:18).

Makua Military Reservation is located in the Makua Valley on the west, or leeward, coast of Oahu. According to a map of pre-Mahele moku and ahu'ua'a prepared by the Hawaiian Studies Institute (1987), the installation appears to fall within the boundaries of the Waianae District (or moku) and the three ahu'ua'a of Keawaula, Kahanahaiki, and Makua. The Waianae District in general is believed to have been an important area during Hawaiian prehistory, due to its abundant marine resources and based on the number of traditional accounts relating to the area. Additionally, the large beach which fronts Makua Ahupua'a was reportedly a focal point of fishing activities within the area (Hammatt et al. 1986:19-20).
Early historical accounts of the vicinity indicate that fishing remained the primary activity in the region until the mid-1800s. During the Great Mahele, Makua Valley had some fourteen land claims totaling 111.4 acres, with the remainder of the land going to the government. By the late eighteenth century, ranching was the primary focus within the Makua Military Reservation area and continued until the Army takeover of the area in 1941 (Hammatt et al. 1986:21-22).
SECTION 6 COMPLIANCE

P.L. 101-601 (NAGPRA) requires that federal agencies engage in active consultation with Native Hawaiian organizations regarding archaeological collections from the installation. Enclosed are draft NAGPRA Section 6 Summary letters (Appendix I) and a list of points of contact at three Native Hawaiian organizations (Appendix II).

Two state-wide organizations are identified in NAGPRA (Sections 2.6 and 2.12) and must be contacted: the Office of Hawaiian Affairs, which was established by the constitution of the state of Hawaii; and Hui Malama I Na Kupuna O Hawai‘i Nei, the non-profit, Native Hawaiian organization incorporated by the state to provide guidance and expertise in decisions dealing with Native Hawaiian cultural issues, particularly burial issues. Additionally, the Departmental Consulting Archeologist of the National Park Service recommends contacting the relevant island burial council (National Park Service 1993).

Although only the above mentioned organizations are identified in Appendix II, there may be other Native Hawaiian organizations or individuals that particular installations should contact regarding NAGPRA issues. The statutory definition (Section 2.11) should be used to identify any other Native Hawaiian organizations:

“Native Hawaiian organization” means any organization which:
(A) serves and represents the interests of Native Hawaiians;
(B) has as a primary and stated purpose the provision of services to Native Hawaiians, and
(C) has expertise in Native Hawaiian Affairs.

Additionally, the term “Native Hawaiian” is defined as “any individual who is a descendant of the aboriginal people who, prior to 1778, occupied and exercised sovereignty in the area that now constitutes the State of Hawaii” (Section 2.10).

Refer to 43 CRF Part 10 for the implementing regulations for NAGPRA.

APPENDIX I

DRAFT SECTION 6 SUMMARY LETTERS

[Installation Header]

Mr. Kunani Nihipali, President
Hui Malama I Na Kupuna O Hawai‘i Nei
P.O. Box 190
Haleiwa, HI 96712-0190

Dear Mr. Nihipali:

I am writing to inform you of collections held by Makua Military Reservation that may contain Native Hawaiian cultural items, as defined by the Native American Graves Protection and Repatriation Act (NAGPRA). Makua Military Reservation has documented these archaeological collections in a Summary in accordance with the requirements of Section 6 of NAGPRA.

Makua Military Reservation is responsible for approximately 4 ft³ of collections reportedly housed at two repositories in Hawaii. These archaeological collections were generated during investigations conducted at the installation between 1992 and the present. Materials include basalt flakes and tools, volcanic glass, coral, shell, mammal and fish bones, *kukui* nut fragments, charcoal and soil samples, and historic metal and bottle glass. No human skeletal remains or associated funerary objects were identified in our review of the collection documentation.

In accordance with Sections 6 and 2.11 of the statute, we are inviting you to consult with us regarding these archaeological collections. We are also notifying the Office of Hawaiian Affairs and the Oahu Burial Committee. Upon your written request, we will provide you access to review our records, catalogues, relevant studies, or other pertinent data for the purpose of determining the geographic origin, cultural affiliation, and basic facts surrounding acquisition and accession of these collections.

Please feel free to contact [Installation POC name] regarding any of these issues, at [telephone, address].

To facilitate discussions between Makua Military Reservation and Hui Malama I Na Kupuna O Hawai‘i Nei on these matters, please forward the name and method of contacting your
organizational representative or preferred NAGPRA point of contact. We look forward to working with you.

Sincerely,

SUMMARY OF CURRENT LOCATIONS OF ARCHAEOLOGICAL COLLECTIONS FROM MAKUA MILITARY RESERVATION

All collections information has been entered into a Paradox data base file and can be queried by any of the fields listed below, as well as by the name of the installation and by MACOM. The data base will be delivered by the MCX to the U.S. Army Environmental Center upon completion of the U.S. Army NAGPRA Compliance Project. Inquiries for additional information are welcome (MCX: 314-331-8865; U.S. Army Environmental Center NAGPRA Compliance Project: 410-671-1573). The data fields listed in the summary of collections contain the following information:

<table>
<thead>
<tr>
<th>FIELD</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>REPOSITORY</td>
<td>The current location in which the collection is stored, as of the date of this report.</td>
</tr>
<tr>
<td>REPOSITORY POC</td>
<td>The person contacted by the MCX, or the person to whom inquiries regarding the collection should be addressed.</td>
</tr>
<tr>
<td>TELEPHONE</td>
<td>The telephone number for the repository POC.</td>
</tr>
<tr>
<td>COLLECTION ID</td>
<td>The identifying unit used by the repository to store and/or locate the collection. This can be a unique accession number assigned by the repository, the archaeological site number or project name, the name of the collector of the collection, or another number or name assigned by the repository.</td>
</tr>
<tr>
<td>SITE NUMBERS</td>
<td>The official site number or name only for those sites from which materials were collected. An investigator may have performed work at additional sites but did not collect any materials. Those site numbers are not included in this field.</td>
</tr>
<tr>
<td>FIELDWORK DATES</td>
<td>The date(s) during which the investigation(s) occurred. This information is provided to differentiate between projects that may have investigated the same site repeatedly.</td>
</tr>
<tr>
<td>EXCAVATOR/COLLECTOR</td>
<td>The individual and/or organization that conducted the investigation.</td>
</tr>
</tbody>
</table>
COLLECTION SIZE: The volume or number of objects in a collection, estimated by the repository POC or from project reports.

DESCRIPTION OF MATERIALS: General material classes of the objects in the collection derived from data provided on site records, in references, and/or by the Repository POC.

ANTIQUITY/ARCH. PERIOD: Chronological or cultural-historical designations recorded on site records or in references specific to the collection.

CULTURAL AFFILIATION: This column contains only those ethnic identifications found in the site records or references specific to the collection. This field is left blank if no such information was recorded.

BASIS OF DETERMINATION: Documents the source of the cultural affiliation information (e.g., site record, oral testimony, reference).

SECTION 5 MATERIALS: Describes the number and kind of human skeletal remains and associated funerary objects in the collection, as indicated by the site records, references, repository management documents, or information from repository POC. If these materials are present or are suspected to be present, NAGPRA Section 5 requires a physical inventory of the materials.

APPENDIX IV

MCX LIST OF REFERENCES

In addition to the references reviewed by MCX personnel at the archaeological site information center, every attempt was made to obtain references cited but not on file. Information taken from these references was coded for data relating to collections made from sites located on installation property (see attached sample of PD-C Bibliographic Data Sheet form) and entered into a data base for ease of manipulation.

Report titles were drawn directly from the title page of reports, and consist of the following fields:

<table>
<thead>
<tr>
<th>FIELD</th>
<th>DATA ENTERED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject Property</td>
<td>Army Installation name</td>
</tr>
<tr>
<td>Last Name</td>
<td>Primary author's last name</td>
</tr>
<tr>
<td>First Name</td>
<td>Primary author's first name</td>
</tr>
<tr>
<td>Middle Initial</td>
<td>Primary author's middle initial</td>
</tr>
<tr>
<td>Secondary Authors</td>
<td>Names of secondary authors, or in instances where the author is a company rather than an individual, the company name is listed here</td>
</tr>
<tr>
<td>Title</td>
<td>Title of the reference. For letter reports, the person or agency to whom the correspondence is addressed is listed as the title.</td>
</tr>
<tr>
<td>Series</td>
<td>If the report is part of a publication series, the name and number are provided here.</td>
</tr>
<tr>
<td>Date</td>
<td>Date of publication or submission</td>
</tr>
<tr>
<td>Length</td>
<td>Report length in pages</td>
</tr>
<tr>
<td>Contract Number</td>
<td>Contract number and delivery order number, if applicable</td>
</tr>
</tbody>
</table>
The data for the next three fields are drawn directly from the report title page and reflect the hierarchy of contracting agencies involved in accomplishing the work. In some cases, the sponsoring agency is listed as the Army installation; in others, the intermediary contracting agent, (e.g., the Army Corps of Engineers or the National Park Service) is listed as the Sponsoring Agency.

Sponsoring Agency  
Agency for which the report was prepared

Contractor  
The agent contracted to perform the work

Subcontractor  
The agent subcontracted to perform the work

The majority of the citations for archaeological investigations on Army land refer to unpublished reports prepared under contract with federal agencies, consequently the MCX printout was designed to address these reports. In instances where the author is a company rather than an individual, the company name is listed in the Secondary Authors field (due to the length of the field). For published references, the publisher is listed in the Sponsoring Agency field.
