An Archaeological Collections Summary for Fort Benjamin Harrison, Indiana

---

**Performing Organization Name(s) and Address(es)**

U.S. Army Engineer District, St. Louis, Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX)

1222 Spruce Street, St. Louis, MO 63103

**Sponsoring / Monitoring Agency Name(s) and Address(es)**

U.S. Army Environmental Center, Environmental Compliance Division (SFIM-AEC-ECN), Aberdeen Proving Ground, MD 21010-5401

**Supplementary Notes**

This research was supported in part by an appointment to the Research Participation Program at the St Louis District, U.S. Army Corps of Engineers administered by the Oak Ridge Institute for Science and Education through an interagency agreement between the U.S. Department of Energy and the St. Louis District, U.S. Army Corps of Engineers.

**Abstract**

The U.S. Army Environmental Center tasked the Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX) with the job of assisting the Army in complying with the Native American Graves Protection and Repatriation Act (NAGPRA), P.L. 101-601. The MCX was asked to locate and assess archaeological collections derived from Army lands, to identify the Native American or Native Hawaiian organizations culturally affiliated with the collections, and to draft Section 6 summary letters for each installation. A two-stage process was used to identify, locate and assess the contents of the collections, consisting of archival research and telephone interviews with the repository personnel. This report conveys the results of the collection research completed for the compliance with Section 6 of NAGPRA.

RESEARCH RESULTS

ARCHAEOLOGICAL INVESTIGATIONS AT FORT BENJAMIN HARRISON

Archaeological work on Fort Benjamin Harrison began in 1983 and continues through the present. Seven agencies have conducted archaeological investigations on Fort Benjamin Harrison. These groups are:

- Glenn A. Black Laboratory of Archaeology, Indiana University, Bloomington, IN,
- Gray & Pape, Inc., Cincinnati, OH,
- Illinois State University, Normal, IL,
- Public Service Archaeology Program, University of Illinois at Urbana-Champaign, IL,
- Resource Analysts, Inc., Bloomington, IN,
- Thomas Beard contracted by D. E. McGillem & Associates, Inc., Indianapolis, IN, and
- U.S. Army Construction Engineering Research Laboratory, Champaign, IL.

Investigations consisted of systematic surface surveys and test excavations.

SUMMARY OF ARCHAEOLOGICAL COLLECTIONS

A total of approximately 49 ft³ of boxed archaeological materials and associated documentation has been identified for Fort Benjamin Harrison. The prehistoric period artifacts recovered include stone tools, animal bone, and ceramics. The historic period materials recovered include glass, ceramics, metal, coal, cinders, shell, cloth, ammunition, animal bone, and miscellaneous building material.

As of September 1995, the collections are located in the following repositories:

- Gray and Pape, Inc., Cincinnati, Ohio: approximately 18 ft³
- Indiana State Museum, Indianapolis, Indiana: approximately 31 ft³

The attached Summary of Current Locations of Archaeological Collections from Fort Benjamin Harrison (Appendix V) provides detailed information about the collections derived as a result of archaeological investigations at the installation. A collection consists of all of the materials, artifacts, and associated documentation (e.g., field notes, maps, photos, data analyses, correspondence), produced as a result of an archaeological investigation or project at a single
site or multiple sites. In some cases, the same archaeological site may have been investigated by various individuals or organizations. Depending on where the resulting collections are curated, they may be stored and identified as separate collections or separate components of a single collection. In cases where the artifacts and records have become separated, we list the records collections repository as well. Every attempt has been made to locate all collections cited on available archaeological site records or in published and unpublished references to archaeological investigations on the installation.

Because the post will be closed this fall as part of the Base Realignment and Closure program, Fort Benjamin Harrison sought a permanent repository for the collections previously stored on the post. Training and Doctrine Command transferred responsibility for the collections to the U.S. Army Center of Military History, which in turn, is negotiating long term curation of the collection with the Indiana State Museum. The collection was transferred by the Directorate of Public Works, Fort Benjamin Harrison on 17 August 1995. A short term receipt was issued by the Indiana State Museum pending completion of a Memorandum of Agreement For Curatorial Services between the U.S. Army and the museum. An item inventory was performed on the Fort Benjamin Harrison artifact and record collections before transfer to the museum. This inventory is available at the Indiana State Museum.

Gray and Pape, Inc. were instructed to retain all collections from their 1994-95 investigations until a permanent repository was located. As of September 1995, Gray and Pape, Inc. has not been instructed to transfer the collections.

Appendix V does not list collection information pertaining to three site numbers that are included on the inventory list of Fort Benjamin Harrison's collections now stored at the Indiana State Museum. These site numbers are: 12MA327, 355, and 452. None of these site numbers was entered on the official state topographic maps as being within the boundaries of Fort Benjamin Harrison. The site record for one of these sites, 12MA452, listed the Army as the property owner, and Gray and Pape, Inc. as the investigating organization. However, in a telephone conversation 31 August 1995 between the MCX and Orloff Miller of Gray & Pape, Inc., Mr. Miller reported that site 12MA452 was not included in the scope of work for the project, nor is it included in any of their reports. Dr. Rick Jones, Indiana State Archaeologist, reported in a telephone conversation on 13 September 1995, that there had been some duplication and confusion of site numbers and the problem has yet to be reconciled, so it is presently unknown whether the materials from these sites were derived from Army-owned lands.

NAGPRA-Related Materials

MCX research identified no human remains or funerary objects during its review of archaeological records, associated literature, and telephone interviews for Fort Benjamin Harrison. The final determination of sacred objects or objects of cultural patrimony may be
the Peoria, have retained their separate federal recognition as the Miami Tribe of Oklahoma, and also live in Miami, Oklahoma (Clark 1994:337-338).

Official tribal status for the Miami who remained in Indiana ended in 1897. The Miami, who had been removed to Kansas and Oklahoma, were claimed by the Bureau of Indian Affairs to be the "official" Miami Nation (Waldman 1988:133). The tribal members in Indiana united to organize the Miami Nation of Indians of the State of Indiana, Inc., a not-for-profit corporation in 1937. This corporation was established to raise money to provide for the legal expenses to restore federal recognition (Clark 1994:337-338). Their petition for acknowledgment was denied (per 25 CFR 83-13), effective 17 Aug. 1992 (BIA 1995), and they are currently in litigation.

The Delaware also received adjudicated lands in the area where Fort Benjamin Harrison is now located (U.S.G.S. n.d.), and Tanner's map circa 1810 depicts Delaware villages in the area (1987:98-99). The Delaware tribe was pushed from their original homeland along the Atlantic shores to briefly settle in Indiana in the late 1700s (Miller 1994:169; Johnson 1992:26-27; Waldman 1988:78). They inhabited the White River area in Indiana from 1795-1818 until a treaty in 1818 removed them from their Indiana territory (Goddard 1978:213 and 224). Displaced by the treaty, the Delaware remnant in Indiana were moved to Oklahoma in 1867-68, and are federally recognized as the Delaware Tribe of Western Oklahoma (Miller 1994:169; Johnson 1992:26-27; Waldman 1988:78).

Northern Indiana was also occupied by the Mascouten early in the historical period. By 1800, this group had amalgamated with the Kickapoo (Goddard 1978:669). The Kickapoo occupied various areas in Indiana but were not associated with any specific area (Callender 1978:656). However, they were known to occupy areas around the Vermillion River that "include the ground occupied by Fort Benjamin Harrison" (Peterson and Otter n.d.:6-3). In 1819, their lands were ceded to the U.S. Government and by 1832 they were removed to Kansas. Eventually some of the Kickapoo moved into Oklahoma and Texas (Callender 1978:656).

The Potawatomi tribes occupied northern Indiana in the 1800s (Clifton 1978:725). In 1830 there were 36 Potawatomi communities in the northern part of Indiana, but by 1836 their lands were ceded and most of the communities were removed by 1840 (Tanner 1987:137-138) to lands in Kansas and Oklahoma (Waldman 1988:197-198). Although there are federally recognized and unrecognized groups of the Potawatomi scattered through northern Indiana, the majority live in Oklahoma and Kansas (Stull 1994:464).
SECTION 6 COMPLIANCE

P.L. 101-601 (NAGPRA) requires that federal agencies engage in active consultation with Native Americans of federally recognized tribes and/or lineal descendants who may be culturally affiliated with the archaeological collections from the installation. Enclosed are draft NAGPRA Section 6 Summary letters (Appendices I-III) and a list of the tribal chairpersons from the federally recognized tribes which may be culturally affiliated with the collections (Appendix IV). Of the tribes referenced above, the Miami, Delaware, Peoria, Potawatomi, and Kickapoo are federally recognized.

Initial consultation should be conducted on a government-to-government basis. Refer to P.L. 101-601 (NAGPRA) for specifics on required Native American consultation and the legal definitions of items subject to NAGPRA.

APPENDIX I

DRAFT SECTION 6 SUMMARY LETTER
FOR MIAMI AND DELAWARE TRIBES

Dear [Name of POC]:

I am writing to inform you of collections held by Fort Benjamin Harrison that may contain Native American cultural items, as defined by the Native American Graves Protection and Repatriation Act (NAGPRA), that are, or are likely to be, culturally affiliated with the [Tribe]. Fort Benjamin Harrison has documented these archaeological collections in a Summary in accordance with the requirements of Section 6 of NAGPRA.

Fort Benjamin Harrison is responsible for collections that include approximately 49 cubic feet housed at the Indiana State Museum in Indianapolis, Indiana, and Gray and Pape, Inc., in Cincinnati, Ohio. These archaeological collections were generated from surveys and excavations conducted from 1983 to the present. The collections consist of prehistoric artifacts including stone tools, animal bone, and ceramics. The historic period materials include glass, ceramics, metal, coal, cinders, shell, cloth, ammunition, animal bone, and miscellaneous building material. Record collections include associated documentation such as field notes, photographs, maps, reports, and correspondence. No human skeletal remains or associated funerary objects were identified in our review of the collection documentation.

We are notifying [Tribe] because some of these materials were found in the area thought to be part of the territory occupied historically by the [Tribe]. In accordance with Section 6 of NAGPRA, we are inviting you to consult with us regarding these archaeological collections. Upon your written request, we will provide you access to review our records, catalogues, relevant studies, or other pertinent data for the purpose of determining the geographic origin, cultural affiliation, and basic facts surrounding acquisition and accession of these collections.
APPENDIX II

DRAFT SECTION 6 SUMMARY LETTER FOR THE PEORIA TRIBE

[Installation Header]

[Tribal POC Name]
[Title]
[Address]
[City, State, Zip]

Dear [Name of POC]:

I am writing to inform you of collections held by Fort Benjamin Harrison that may contain Native American cultural items, as defined by the Native American Graves Protection and Repatriation Act (NAGPRA), that are, or are likely to be, culturally affiliated with the [Tribe]. Fort Benjamin Harrison has documented these archaeological collections in a Summary in accordance with the requirements of Section 6 of NAGPRA.

Fort Benjamin Harrison is responsible for collections that include approximately 49 cubic feet housed at the Indiana State Museum in Indianapolis, Indiana, and Gray and Pape, Inc., in Cincinnati, Ohio. These archaeological collections were generated from surveys and excavations conducted from 1983 to the present. The collections consist of prehistoric artifacts including stone tools, animal bone, and ceramics. The historic period materials include glass, ceramics, metal, coal, cinders, shell, cloth, ammunition, animal bone, and miscellaneous building material. Record collections include associated documentation such as field notes, photographs, maps, reports, and correspondence. No human skeletal remains or associated funerary objects were identified in our review of the collection documentation.

We are notifying the Peoria Indian Tribe because some of these materials were found in the area thought to be part of the territory occupied historically by the Miami descendants in your tribe. In accordance with Section 6 of NAGPRA, we are inviting you to consult with us regarding these archaeological collections. Upon your written request, we will provide you access to review our records, catalogues, relevant studies, or other pertinent data for the purpose of determining the geographic origin, cultural affiliation, and basic facts surrounding acquisition and accession of these collections.
Please feel free to contact [Installation POC name] regarding any of these issues, at [telephone, address].

To facilitate discussions between Fort Benjamin Harrison and the Peoria Tribe on these matters, please forward the name and method of contacting your tribal representative, traditional religious leader, or preferred NAGPRA point of contact. We look forward to working with you.

Sincerely,

COLLECTION SIZE: The volume or number of objects in a collection, estimated by the repository POC or from project reports.

DESCRIPTION OF MATERIALS: General material classes of the objects in the collection derived from data provided on site records, in references, and/or by the Repository POC.

ANTIQUITY/ARCH. PERIOD: Chronological or cultural-historical designations recorded on site records or in references specific to the collection.

CULTURAL AFFILIATION: This column contains only those ethnic identifications found in the site records or references specific to the collection. This field is left blank if no such information was recorded.

BASIS OF DETERMINATION: Documents the source of the cultural affiliation information (e.g., site record, oral testimony, reference).

SECTION 5 MATERIALS: Describes the number and kind of human skeletal remains and associated funerary objects in the collection, as indicated by the site records, references, repository management documents, or information from repository POC. If these materials are present or are suspected to be present, NAGPRA Section 5 requires a physical inventory of the materials.

APPENDIX VI

MCX LIST OF REFERENCES

In addition to the references reviewed by MCX personnel at the archaeological site information center, every attempt was made to obtain references cited but not on file. Information taken from these references was coded for data relating to collections made from sites located on installation property (see attached sample of PD-C Bibliographic Data Sheet form) and entered into a data base for ease of manipulation.

Report titles were drawn directly from the title page of reports, and consist of the following fields:

<table>
<thead>
<tr>
<th>FIELD</th>

<td>Contract number and delivery order number, if applicable</td>
</tr>
</tbody>
</table>
The data for the next three fields are drawn directly from the report title page and reflect the hierarchy of contracting agencies involved in accomplishing the work. In some cases, the sponsoring agency is listed as the Army installation; in others, the intermediary contracting agent, (e.g., the Army Corps of Engineers or the National Park Service) is listed as the Sponsoring Agency.

Sponsoring Agency
Agency for which the report was prepared

Contractor
The agent contracted to perform the work

Subcontractor
The agent subcontracted to perform the work

The majority of the citations for archaeological investigations on Army land refer to unpublished reports prepared under contract with federal agencies, consequently the MCX printout was designed to address these reports. In instances where the author is a company rather than an individual, the company name is listed in the Secondary Authors field (due to the length of the field). For published references, the publisher is listed in the Sponsoring Agency field.

APPENDIX VII

OTHER REFERENCES TO FORT BENJAMIN HARRISON

Attempts were made to obtain copies of references that were cited on the site records, or in other publications but were not available at the Division of Historic Preservation and Archaeology or Glenn A. Black Laboratory of Archaeology. From telephone conversations with various persons conversant with the archaeology of Fort Benjamin Harrison, the MCX determined that no new collections are reported in these references.
