REPERCUSSION AT HOME, ABROAD ON KCNA STATEMENT

SK140501 Pyongyang KCNA in English 0355 GMT 14 Oct 83

[Text] Pyongyang, October 14 (KCNA)--The statement of the KOREAN CENTRAL NEWS AGENCY made public on October 12 in denunciation of the anti-communist row of the Chon Tu-hwan puppet clique is now arousing a strong echo among people at home and abroad.

Yun Ku-sang, vice-director of a department of the Ministry of Foreign Trade, said:

Now the Chon Tu-hwan puppet clique is running riot with a greater frenzy.

The traitor Chon Tu-hwan had better think of his towering crimes against the times and mankind before groundlessly taking issue with others.

Publishing a "statement" and issuing an "emergency alert order," the Chon Tu-hwan puppet clique is leading the situation of the country to the highest pitch of strain. This is an unpardonable challenge to the Korean people eagerly desiring of the independent and peaceful reunification of the country and to the conscience of the progressive mankind of the world who love justice and truth.

The traitor Chon Tu-hwan is a fascist butcher who has made a practise of suppressing people and committing murder, destruction and war, taking anti-communism as his life-long slogan.

The Kwangju massacre unprecedented in history was also committed by him and a large number of democrats and opposition politicians of South Korea were jailed or murdered mercilessly by him.

Chon Tu-hwan, a colonial traitor, who is unconcerned for the destiny of the country and the nation, has introduced a large quantity of nuclear weapons into South Korea to convert it into a nuclear store-house.

A special-class watch dog of the U.S. imperialists, he has played the role of shock force in stamping out the national liberation struggle in colonies, regarding the struggle of the world's progressive people for independence, sovereignty and peace as a thorn in his flesh and going against the times.
This traitor has gone so far as to try to worm into the Non-Aligned Movement to create alienation and confrontation, making ridiculous talk with flowery words on the order of his master.

This is why world public opinion ridicules and denounces in unison his schemes.

No matter how frantically he may kick up a row, taking issue with us, no one of normal sense of judgement would ever listen to the sophism of this fool reversing black and white.

Fraud and fabrication are the way of the doomed for prolonging their days.

If the Chon Tu-hwan puppet clique persistently leads the situation of our country to an irredeemable phase on a preposterous pretext, it would be held wholly responsible for all the grave consequences arising therefrom to take a bitterer cup.

NODONG SINMUN ON FIRST BATCH OF SEOUL-TOKYO $4 BILLION LOAN

SK101622 Pyongyang KCNA in English 1530 GMT 10 Oct 83

[Text] Pyongyang, October 10 (KCNA) -- NODONG SINMUN today comments on the
signing on October 7 of a contract on the first year instalment of the
4,000 million dollar "security" loan promised by the Japanese reactionary
ruling quarters to the South Korean puppets.

Though the Japanese reactionaries, says the commentary, are disguising this
loan as an "economic aid," this is a foolish artifice for concealing its
aggressive nature. It is, to all intents and purposes, a military fund
for driving the South Korean puppets into a war.

The author of the commentary continues:

The South Korean puppets are working desperately to keep Korea divided for-
ever and thereby gratify their desire for long-term office and ignite a new
war. For this purpose, they had country-selling dealings with their old
master without hesitation, nestling closer to his bosom. It is a foregone
conclusion that the South Korean puppets will increase military appropria-
tions by the size of the money they receive from Japan and get more
frantic in war preparations.

A sinister intention of the Japanese reactionaries is hidden behind the
4,000 million dollars. The Japanese reactionaries scheme to unfold in
Korea the opening scene of their imperialist overseas military aggression.

The Japanese militarists who have already made a deep economic intrusion
into South Korea intend to satisfy their expansionist desire without much
difficulty by tightening military tieup with the puppets. The Japanese
reactionaries regard loan as one of its means.

When 4,000 million dollars flow into South Korea, it will inevitably be
completely placed under the military control of Japan and the Japanese
reactionaries will widen their road of reinvasion.

And it must not be overlooked that this loan is a major lever for rounding
off the triangular military alliance system among the United States, Japan
and South Korea. The U.S. imperialists plan to hasten the completion of
this system by strengthening military compact between Japan and South Korea with the former's "security" loan to the latter.

Traitor Chon Tu-hwan should discontinue new war preparations and treacheries and the Japanese reactionaries renounce their reinvasion designs on Korea.

KCNA ON OVERSEAS KOREANS' PAPER DENOUNCING U.S.

SK101659 Pyongyang KCNA in English 1556 GMT 10 Oct 83

[Text] Pyongyang, October 10 (KCNA)--A recent issue of "Uri Nara," a newspaper of Koreans published in West Germany, carried an article by an overseas Korean Song Sang-sun denouncing the U.S. imperialists' occupation of South Korea and expressing ardent desire for national reunification.

It is the lot of the South Korean people today to be subjected to national humiliation under the domination of the United States for protracted 38 years longer than the 36 years of colonial rule of the Japanese imperialists, the author said, and continued:

Our fellow countrymen who had experienced the acute pains of the wounds inflicted upon them by the Japanese imperialists in the past know only too well what the United States imposes upon them.

One of the young people who set fire to the "American Cultural Centre," answering the question of a judicial officer at the court why he had committed such awful act, said:

"It is the United States which made me stand here. Could I do such a thing, had it not been for the United States?"

Well said. As he said, such incident would not have occurred, had there been no "American Cultural Centre" and had the United States not held power on this land to become an object of the curses of the people. Discontent with and resistance to the United States' South Korean policy of domination drove them to such extreme. It was, indeed, admirable act overflowing with patriotic loyalty.

The author stressed:

The efforts of our fellow countrymen for genuine liberation, independence and unification will be redoubled on the basis of such ardent patriotic spirit and their flames will spread, beside "American Cultural Centres," to the top of the U.S. Embassy and U.S. command in South Korea to declare the termination of the U.S. domination of South Korea. There is no doubt in this.

It is our resolution not to waste time any more in destroying the pandemonium of the United States and achieving unification on its foundation.

'HANMINTONG' EXTRAORDINARY MEETING HELD IN TOKYO

Report on Meeting

SK080427 Pyongyang KCNA in English 0408 GMT 8 Oct 83

[Text] Pyongyang, October 8 (KCNA)--The 12th extraordinary meeting of the Central Committee of the "National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" (Hanmintong), a Korean organization under the influence of the "'ROK' Residents Association in Japan" ("Mindan"), was recently held in Tokyo, according to a KNS report.

An opening address of Kim Yong-won, vice-chairman of the Japan headquarters of "Hanmintong," was followed by speeches of Chairman Kim Chae-hwa and permanent advisor Pae Tong-ho.

Kwak Tong-ui, secretary general of the Japan headquarters of "Hanmintong," delivered a report of the Presidium reviewing the activities during the past 10 years.

Declaring that "Hanmintong" has played a big role in actively supporting the South Korean democratic forces and people in their valiant anti-dictatorial movement for democracy and advancing the movement for democracy and unification on the whole, he said:

Today 10 years after the formation of "Hanmintong" we find ourselves at an important juncture.

We drew many lessons from the bloody struggle in Kwangju.

In the history of the movement for democracy and unification in South Korea the Kwangju incident signified a new historical start of the struggle.

In a sea of blood the patriotic students and citizens of Kwangju cried: Now we see that the United States is behind Chon Tu-hwan.

The conclusion they drew for us was that our struggle against dictatorship and for democracy should be integrated with the struggle against outside forces. We ourselves are keenly conscious that the victory of democracy and unification is promised only on this road.
The reporter said that "Hanmintong" has warmly supported the patriotic action of students in setting fire to the "American Cultural Centre" in Pusan, urged by their national conscience, accusing the United States of its historical crimes in South Korea and calling for the Chajusong (independence) of the nation, and has conducted diverse activities for their rescue.

Referring to the fact that "Hanmintong" has fought under the banner of anti-outside, anti-dictatorship struggle in step with the development of the anti-outside, anti-U.S. struggle in South Korea, he continued:

We are now at a historical moment when our movement has developed into a high-dimensional anti-outside force struggle for national independence in the flames of the persistent struggle against fascism and for democracy. And we are filled with renewed confidence and determination to continue advancing towards final victory.

The achievement of national independence against outside forces is a request of the times and a supreme order of history which no one can ignore or look on with folded arms. Herein lie the road to democracy, the road to unification and the road to peace.

We should put a period to the history of disgrace in which we have entrusted our destiny to others and remained under the domination by outside forces, and develop by ourselves a new history of national independence and self-determination.

We have waged a struggle against fascism and for democracy over the last decade. We should wage a struggle against outside forces and for national independence in the decade ahead. Then we will surely open a new way out.

We must cut off the last windpipe of the Chon Tu-hwan military fascist group at all costs in the 1980s.

At the meeting the report was followed by speeches and the adoption of Declaration No. 2 containing a new programme on changing the course of "Hanmintong" from the former struggle for democracy to the line of national independence against outside forces and its revised rules.

Meeting Adopts Declaration

SK081053 Pyongyang KCNA in English 1032 GMT 8 Oct 83

[Text] Pyongyang, October 8 (KCNA)—Declaration No. 2 containing a new fighting programme was adopted at the 12th extraordinary meeting of the Central Committee of the "National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" (Hanmintong) which was recently held in Tokyo, according to a KNS report.

The declaration says:
1. We define it as our basic line of the movement for national salvation to reject outside forces' domination and interference and restore national sovereignty.

We set it as the first goal of the struggle to eliminate foreign domination and establish national sovereignty by developing the past movement against dictatorship and for democracy to a new higher stage in keeping with the purpose of the national-salvation movement developing in depth in South Korea.

The main outside forces ruling South Korea is the United States.

We decisively oppose the United States' wrong South Korean policy and demand it to stop its political, economic and military support to the dictatorial "regime" and discontinue all its interference in the internal affairs of our nation including the question of unification.

We also oppose Japan's neo-colonial moves for reinvasion of South Korea.

We will do our utmost to break up the dark fusion between South Korea and Japan which is based on aggression and treachery.

To wage a powerful struggle against outside forces, it is necessary to form an anti-outside national united front.

2. We will continue struggling stubbornly for the overthrow of the fascist dictatorship and the establishment of a democratic coalition government.

While the anti-outside force struggle is a struggle for uprooting the forces manipulating the dictatorial "regime," the anti-dictatorship struggle is one for destroying the local machines of outside forces for ruling South Korea.

The successive "regimes" of South Korea have been anti-national, anti-democratic powers framed up by the outside forces and entirely dependent on their interests.

Along with the anti-outside force struggle for defending national independence, we will make all efforts to thoroughly overthrow the comprador forces within our nation and establish a democratic coalition government based on national independence and democratic principles.

3. We will do our level best in the struggle against the fixation of division and for the independent and peaceful unification of the country without foreign interference.

We should energetically conduct the movement for unification in close coordination with the struggle against outside forces and dictatorship.

The movement for unification and the movement for defending national sovereignty and the movement for democracy are tasks linked inseparably
to each other. The movement for unification, therefore, cannot be separated from the struggle against outside forces and dictatorship.

We will destroy the forces opposed to the nation, democracy and unification and eliminate outside interference which infringes upon the national independence and thereby open the road for unification.

4. We will actively promote the anti-war, anti-nuclear movement, turn the Korean peninsula into a nuclear-free zone and fix non-aligned neutrality and thus ensure world peace with might and main.

South Korea at present is a region fraught with the greatest danger of war in the world.

Accordingly, all foreign troops must be withdrawn from South Korea and it must never be allowed to introduce foreign troops or to set up foreign military bases and, particularly, nuclear weapons must be unconditionally and immediately withdrawn to turn the whole of the Korean peninsula into a nuclear-free zone.

We hold that an immediate end should be put to the moves to form a South Korea-U.S.-Japan three-way military system. We will further strengthen the struggle of solidarity with all the anti-war, anti-nuclear and peace movements in the world.

5. We will defend the national rights of Koreans in Japan and further strengthen solidarity with all the Koreans overseas in the struggle for democracy and unification.

We will strive harder to make the Japanese Government stop its national discrimination against and persecution of Korean residents in Japan and fully guarantee their rights as foreigners.

All such movements of ours can be successfully promoted only through international solidarity.

We will enlist support of all international organizations and constantly strengthen solidarity with the democratic political parties, organizations and personages of all countries in the world including Japan.

We will also strengthen still further our relations with the South Korean compatriots and democratic and patriotic forces in Americas, Europe and other parts of the world and make allout efforts to form an anti-outside force national united front with them.

REPORTAGE ON OPPOSITION TO SEOUL IPU CONFERENCE

Peruvian Lawmakers Oppose Conference

SK070435 Pyongyang KCNA in English 0339 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)--Seventeen Peruvian parliamentarians including Senators Enrique Bernales Balles and Rolando Brena Pantoja issued a statement in joint name in connection with the convocation of the 70th Conference of the Inter-Parliamentary Union in Seoul, declaring that whatever decision might be adopted at the "Seoul conference," it would be of no consequence, but be an object of ridicule.

The statement says:

Lurking behind the desperate campaign of the South Korean authorities and the U.S. administration to hold the 70th IPU Conference in Seoul is their political purpose of making South Korea under the U.S. military occupation appear as an "independent state" and get it recognized in the world and have the permanent division of Korea recognized internationally. And they seek to conceal their plots for the provocation of a new war stepped up in South Korea.

It is hard to expect that such problems as decolonization, world peace and disarmament could be successfully discussed in South Korea which is under occupation of foreign troops and where human rights are violated more ruthlessly.

World Public Opposition

SK111104 Pyongyang KCNA in English 1016 GMT 11 Oct 83

[Text] Pyongyang, October 11 (KCNA)--The 70th Conference of the Inter-Parliamentary Union is opposed and rejected by political parties and social organisations of various countries of the world, international organisations and individual personages.

The Workers' Party of Switzerland, the Swiss Autonomous Socialist Party, the Swiss progressive organisations and the parliamentary group of the Jura Autonomous Socialist Party in their letter to the Swiss Committee of
the IPU stressed that the convocation of the IPU conference in South Korea where democracy is obliterated is an insult to justice and freedom.

Erwin Scharf, member of the Political Bureau, and secretary, of the Central Committee of the Communist Party of Austria, in a statement said that the U.S. imperialists are scheming to have the South Korean puppets recognized internationally and create "two Koreas" through the 70th Conference of the IPU.

The International Lawyers Committee for Democracy and Human Rights in South Korea in an information to the governments, political parties and democratic lawyers organisations of all countries and various international organisations pointed out that in South Korea human rights are trampled underfoot and there exists no genuine parliament.

It noted:

The IPU is trying to have "delegates" of the Seoul authorities recognized officially, interfering in the internal affairs of the Korean nation.

No parliamentary group can blindly follow an organisation which bears responsibility for the preservation of world peace in partaking of the U.S. policy.

The African Regional Committee for Friendship and Solidarity With the Korean People in an appeal said: No matter what international problems may be discussed and what documents be adopted at the Seoul conference, they would be of no consequence and effect, because they are documents of a conference held in contravention of the international usage.

The Finland-Korea Association in a letter to the Finnish parliamentary group, the parliamentary groups of all political parties and all the parliamentarians stressed: The South Korean puppet clique are scheming to win international support through the 70th Conference of the IPU. It is evident that no success can be expected from the Seoul conference.

In a statement the Bangladesh-Korea Friendship Association pointed out: No matter what international problem may be discussed and documents be adopted at the filthy conference held in South Korea which has been a colony of U.S. imperialism for 40 years and is devoid of democratic constitution and democracy, they would be of no significance and effect, but be an object of ridicule.

The All India Indo-Korean Friendship Association and the Indian Committee for Supporting Korea's Reunification in a joint statement branded the 70th Inter-Parliamentary Conference being held owing to the intrigues of the U.S. imperialists and the Chon Tu-hwan clique as a despicable one. They called upon all parliaments and peoples of all countries of the world not to recognize any decision or document to be adopted at the conference.
In denunciation of the 70th IPU Conference, the Democratic People's Union and the United Socialist Party of France and the Barbados Group for the Study of the Chuhee Idea of Comrade Kim Il-song respectively issued statements, five officials of the mission of the Salvadoran Farabundo Martí National Liberation Front in Cuba made public a statement in joint name and the Spanish Association for Friendship and Solidarity With the Korean People published an information.

Joint statements were also made public by the Communist Youth Federation of Paraguay at the Bureau of the World Federation of Democratic Youth, the Sudanese Youth Union, the Communist Youth Federation of Chile, the MPLA-Youth of the Party of Angola, permanent representatives of the Communist Youth Union of Venezuela and by the mission of the African National Congress of South Africa in Egypt and the mission of the South West Africa People's Organisation in Egypt and the Middle East and talks were issued by Yutaka Takeda, chairman of the Yamaguchi Prefectural, Japan, Union of Teachers, and Anil Gupta, editor of the Indian paper "Indian and World Event."

Broad segments of Japanese people including members of the Osaka City Assembly waged movements against the Seoul conference and meetings were held in different parts of Japan, at which resolutions denouncing the convocation in Seoul of the IPU Conference were adopted.

Foreign Media Cited

SK121106 Pyongyang KCNA in English 1043 GMT 12 Oct 83

[Text] Pyongyang, October 12 (KCNA)--The Egyptian papers "Al Ahram," "Al Shaab" and "Egyptian Gazette" pointed out that it is the first time in the history of the Inter-Parliamentary Union that its conference is being held without the participation of all the socialist countries and many non-aligned countries.

The Syrian paper "Al Riyadah" in an article titled "Wrong Designation of the Conference's Venue Creating Crisis of the IPU" said: As its 70th conference is being held in Seoul, the IPU with a long history is faced with a serious crisis.

The Democratic Yemeni paper "Ath-Thawri" in an article headlined "70th Inter-Parliamentary Conference Is an Illegal One Which Lost Its Purpose" exposed the actual constitution of South Korea, a colony and military base of the U.S. imperialists. It is very ridiculous that the problems of world peace and security are discussed at a place where delegates' personal safety cannot be secured, it said.

The Indian paper "Patriot" noted that to convene an international conference in a desolate grave of democracy where everything is bound by the chains is an act as foolish as trying to find a flower in a ditch.

The Nicaraguan paper "Baricada" said: As dozens of countries have boycotted the conference held in South Korea, decisions to be adopted there would be of no consequence.

The Austrian APA news agency published articles titled "Worthless International Conference Being Held in Seoul, Not Participated in by Many IPU Member Nations" and "Seoul Conference Rejected by Socialist Countries and Many Third World Countries and Socialist and Communist Parliamentarians of the West Countries."

The Mozambican paper "Noticias" and the Austrian papers "Arbeiter Zeitung" and "De Presse" also denounced the schemes of the U.S. imperialists and the Chon Tu-hwan puppet clique to use the IPU Conference for their despicable political purpose.

Foreign Papers Condemn Meeting

SK130809 Pyongyang KCNA in English 0802 GMT 13 Oct 83

[Text] Pyongyang, October 13 (KCNA)—Papers of various countries published articles denouncing the Seoul conference of the Inter-Parliamentary Union.

The Polish paper "Trybuna Ludu" October 5 condemned the "two Koreas" plot of the U.S. imperialists and the Chon Tu-hwan puppet clique, saying that South Korea is a complete colony of the United States.

As the U.S. imperialists are scheming to have South Korea recognized as an "independent state," parliamentarians of the socialist countries and many non-aligned countries boycotted the Seoul conference of the IPU.

Another Polish paper "Sztandar Mlodych" October 3 in an article said: The Chon Tu-hwan puppet clique is making desperate efforts to have South Korea recognized as an "independent state" in the international arena, clamoring about "cross recognition" and "simultaneous entry into the United Nations" and persistently obstructing the reunification of the country.

The Portuguese paper "O Diario" recently pointed out that Seoul was "designated" as the venue of the 70th Conference of the IPU owing to the United States. The United States is manoeuvring to realise the "two Koreas" strategy and form a triangular military alliance, the paper said.

The Danish paper "Land og Folk" October 2 carried a commentary denouncing the IPU Seoul conference.

KCNA DENIES 'SPECIAL DIRECTIVES' TO CHONGNYON

SK071034 Pyongyang KCNA in English 1034 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)--"Tongil Ilbo," a reptile anti-communist newspaper of the South Korean puppets published in Japan, spread a groundless report that we issued "special directives" to the General Association of Korean Residents in Japan (Chongnyon) to "infiltrate its operatives" into South Korea to frustrate the Conference of the Inter-Parliamentary Union and Reagan's tour of South Korea. Denouncing this, a commentary of NODONG SINMUN today says this is a false report for misleading public opinion and an anti-communist smear campaign for vilifying us and Chongnyon.

The author of the commentary titled "Conspiratorial Propaganda of Anti-Communist Trumpeter Overseas" notes that slanders hurled at us and Chongnyon by "Tongil Ilbo" are extremely vicious and provocative ones.

The commentary says:

The fabricated report of "Tongil Ilbo" was dictated by the South Korean puppets.

Through "Tongil Ilbo" under the guise of a newspaper of Korean residents in Japan the South Korean puppets try to justify their deceptive argument on "threat of southward invasion" and make it appear credible.

But this is a ridiculous trick. The anti-communist nature of "Tongil Ilbo" has been brought to full light.

As for Yi Yong-kun, organizer and manager of the paper, he is a traitor who served the Japanese and U.S. imperialists alternately and human scum active as a special agent of the U.S. imperialists and the South Korean puppets. Besides Yi Yong-kun, there are many secret agents sent by the South Korean puppet clique in the newspaper.

"Tongil Ilbo" is a den of special agents of the South Korean puppets and a base of anti-communist conspiracy.
The Chon Tu-hwan clique hosted the Seoul Conference of the IPU to legalize its puppet regime and create an international climate for fabricating "two Koreas." But the conference has turned into a low-keyed meeting not worthy of the name owing to the opposition and rejection by the people and the boycott of many IPU member nations.

The scheme of the puppet clique to invite Reagan, the boss of U.S. imperialism, to Seoul next month and use his visit as a favorable occasion in realizing its wild ambition for long-term office is also strongly rejected by the South Korean people.

The situation is developing into an active struggle, as can be seen in the massive anti-"government" struggle of students and the explosion at the "American Cultural Centre" in Taegu. This has seized the Chon Tu-hwan group with extreme uneasiness and fear.

Frightened at this, this group is scheming to bring under control the crisis of its rule by connecting the ever intensified anti-U.S., anti-"government" action of South Korean students and people with us and harshly cracking down upon them.

It is precisely for this reason that this group is mobilizing even a conspiratorial organ overseas in the anti-communist propaganda, to say nothing of its machines in South Korea.

DELEGATES TO UNGA SUPPORT REUNIFICATION

7 Oct Report

SK071210 Pyongyang KCNA in English 1012 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)—Representatives of various countries to the 38th Session of the United Nations General Assembly, in their speeches at its plenary meeting, expressed full support to the Korean people's cause of national reunification, according to a report.

The minister of foreign affairs and cooperation of Togo, referring to the division of Korea, said that this is contradictory to the Korean people's desire for reunification.

The reunification proposal advanced by President Kim Il-song, he said, is the foundation for an end to the foreign interference in the internal affairs of Korea.

The coordinator of the Council of the Government of National Reconstruction of Nicaragua demanded the withdrawal of all foreign troops from South Korea and reiterated support to the reunification of Korea.

The prime minister of Mauritius stressed that the Korean question must be solved by the Korean people themselves and outside interference be rejected in seeking its solution.

The tragedy of national split forced upon the Korean people must be terminated at an early date, he stressed.

Noting that 30 years have passed since the ceasefire in Korea, the representative of Greece said that Korea must be reunified.

The Zambian foreign minister expressed support to the Korean people's cause of national reunification and demanded the withdrawal of all foreign troops from South Korea.

The Egyptian president, the Syrian deputy prime minister and foreign minister and the Iranian foreign minister also expressed support to Korean reunification in their speeches.

[Text] Pyongyang, October 14 (KCNA)--The delegates of socialist countries attending the 38th Session of the U.N. General Assembly, in their speeches at the plenary meeting, expressed support to the Korean people's just cause of national reunification, according to a report.

Oskar Fischer, foreign minister of the German Democratic Republic, had this to say:

The U.S. troops must quit South Korea and the Korean people enjoy their legitimate right to live in their reunified country.

Cuban Foreign Minister Isidoro Malmierca Peoli said that the Cuban delegation reaffirms support to the DPRK's just cause of the peaceful reunification of the country and demands the United States to stop its interference in the internal affairs of Korea and withdraw its troops from the southern half of the Korean peninsula.

Albanian Foreign Minister Reis Malile said:

The U.S. Army must quit South Korea and the legitimate rights of the Korean people to live in a reunified country be ensured.

Czechoslovak Foreign Minister Bohuslav Chnoupek stated that Czechoslovakia supports the efforts of the Government of the Democratic People's Republic of Korea for forcing the U.S. troops out of South Korea and achieving the peaceful reunification of Korea.

Vice-Minister of Foreign Affairs of Mongolia Ts. Gomboasuren said:

The Mongolian People's Republic invariably supports the struggle of the Korean people to reunify the country peacefully on a democratic basis free from foreign interference.

We reiterate that the U.S. troops and nuclear weapons must be withdrawn from South Korea.

Vietnamese Foreign Minister Ngyen Co Thach pointed out that Viet Nam fully supports the struggle of the Korean people to force the U.S. Army out of South Korea and peacefully reunify the country.

SOVIET PAPER SAYS SOUTH U.S. 'PUPPET STATE'

SK061154 Pyongyang KCNA in English 1046 GMT 6 Oct 83

[Text] Pyongyang, October 6 (KCNA)--The Soviet paper "Izvestya" recently carried an article exposing that South Korea is a colony and military base of U.S. imperialists, according to a TASS report.

The paper said South Korea today is a puppet state in the Far East--the state where the Americans have felt at home for a long time now.

Having enmeshed the South Korean economy into a network of loans, prodding it to further militarization, Washington has turned the south of the Korean peninsula into a springboard for subversive operations in that region, it said, and continued:

A whole complex of military bases of the United States, with the newest weapons stationed on them, is situated there. More than 40,000 U.S. troops are deployed on South Korea's territory.

Uncontented, the Pentagon, acting with the approval and blessing of the White House, is working to set up the Washington-Seoul-Tokyo alliance. It is well known that this plan, the purpose of which is to aggravate tensions in the Far East, is fraught with serious dangers. It is not accidental that the South Korean Air Force pilots were chosen to carry out the CIA's deadly plan of sending a spy plane into the Soviet Union's air space, "Izvestya" writes.

KCNA ON SOUTH SUPPRESSION OF KOREANS IN JAPAN

SK070035 Pyongyang KCNA in English 2301 GMT 6 Oct 83

[Text] Pyongyang, October 6 (KCNA)—The Chon Tu-hwan puppet clique, regarding Japan-resident Koreans of South Korean origin as "dangerous people" for their "security" is watching them dually and trebly, intensifying its crackdown upon them.

This can be seen first of all in its indiscriminate arrest and imprisoning of Korean residents in Japan.

According to data, hundreds of Korean residents were reported missing after they were secretly arrested by officials of the South Korean puppet Security Planning Board, the "Army Security Command" and the puppet police.

The puppet clique is arresting Korean residents in Japan, charging them with being "spies."

A Korean resident in Japan surnamed Pak went to Cheju Island, taken in by the puppet clique's "home-visiting" trick.

Unaware that the driver who was carrying him was a secret agent of the puppet clique, he told him without reserve that Korean children in his district of Japan are studying at "schools of the North" and other things about the northern half of the DPRK.

Informed of this by the special agent, the puppet police arrested and imprisoned Pak, branding him as "a spy sent by the North."

Officials of the "Security Planning Board" arrested Son Yu-hyong, a Korean resident in Japan, because he went out to the shore at a tourist centre during his visit to South Korea and brutally tortured him by every means and is now watching for a chance to execute him on charges of being "a spy."

Besides, the puppets arrested a Japan-resident Korean student named Yi Chong-su studying at Koryo University on faked-up suspicion of being "a spy" and are holding a murderous trial to penalize him. A Japan-resident Korean businessman Yi Sung-u was also unreasonably arrested on similar charges during his visit to South Korea.
Over the past three years since he usurped puppet power, the traitor Chon Tu-hwan has rigged up numerous spy cases, nearly 57 percent of which were those involving Korean residents in Japan.

While harshly penalizing Japan-resident Korean political prisoners, the puppet clique maliciously scheme to obliterate them once and for all.

Facts tell how viciously the Chon Tu-hwan puppet clique is suppressing Japan-resident Koreans visiting South Korea, to say nothing of the South Korean people, to maintain its "power."

NODONG SINMUN ACCUSES SOUTH OF SEPARATED FAMILIES PROBLEM

SK040116 Pyongyang KCNA in English 2242 GMT 3 Oct 83

[Text] Pyongyang, October 3 (KCNA)--NODONG SINMUN today carries an article titled "It Is Result of the Fascist Rule That the Problem of Separated Families Remains Unsolved in South Korea."

The article says:

Now in South Korea there are hundreds of thousands of families who heard no news from each other after they were separated during the war.

It is entirely a result of the vicious colonial rule of U.S. imperialism and the fascist rule of South Korea that the problem of the reunion of separated families and relatives remains unsolved in South Korea.

The Chon Tu-hwan fascist clique with huge repressive machines and forces and all sorts of fascist evil laws bind all progressive elements of South Korea with the chains of fascism and strictly bar free visits and contacts between people.

While running amuck to further reinforce the long-term office system, they have created a terror-ridden atmosphere so that even parents, husbands and wives and children cannot unburden themselves to each other.

Under the fascist "Law on Assembly and Demonstration," they crack down upon even a few people hurting their feelings on charges of "illegal demonstration," arrest those who are chatting with their friends, charging them with violation of the "law," and repress relatives meeting with each other to share their feelings, branding it as a "seditious act."

The puppet clique issue "emergency duty order" to the puppet police throughout South Korea to stage a harsh "wholesale roundup" at the beginning and end of the year and on the threshold of the Autumn Festival every year.

Each time they are faced with political crisis, the puppets stage frantic "special roundup" campaign under the pretext of the "establishment of order."
The Chon Tu-hwan clique which recently brought forward the problem of "finding out separated families" are staging a "wholesale check and roundup" under the pretext of preventing possible "social confusion" and establishing order with the Inter-Parliamentary Conference and Reagan's South Korean tour as an occasion.

Meanwhile, the South Korean people are languishing in the greatest difficulties of living under the misrule of the fascist clique. It is indeed a miracle for them to live.

Now the traitor Chon Tu-hwan is advertising as if he were doing something for someone, after finding a few separated families. In actuality, however, social circumstances for solving the problem of separated families have not been created in South Korea.

If this problem is to be solved truly in South Korea, the basic problem should be settled above all. The South Korean occupation policy of the U.S. imperialists should be terminated, the fascist rule be liquidated and democracy and rights to existence be ensured to the people.

To solve anything, leaving aside this urgent and vital problem, is a nonsensical act reminding us that blood-thirsty wolves would guard sheep's house.

The South Korean people will never tolerate the puppets' criminal moves to create an "atmosphere of the international conference" with the "campaign for finding out separated families."

KCNA FLAYS FLOW OF FOREIGN CAPITAL INTO SOUTH

SKO40855 Pyongyang KCNA in English 0808 GMT 4 Oct 83

[Text] Pyongyang, October 4 (KCNA)--The South Korean puppet clique, not bothering to conceal their treacherous nature, are inducing foreign capital on a far bigger scale than the preceding puppets had done to plunge the South Korean economy deeper into the quagmire of dependence.

According to a report, the military fascist clique recently worked out "a plan for the reorganization of the foreign capital inducement system," which stipulates a "total liberalization" of the infiltration into South Korea of foreign capital whose investment rate with the comprador capital is below 50 per cent.

In this step the puppets discard the regulation that foreign capitalists may send home the profits they squeezed in South Korea only two years after their infiltration and allow them to remit money at any time and operate new enterprises with the profits they reaped, and intend to codify all this in the "Law on Foreign Capital Inducement."

As soon as they usurped the puppet regime the Chon Tu-hwan military fascist clique revised the "Law on Foreign Capital Inducement" faked up by the preceding puppet, rendering it more reactionary, while intensifying fascist suppression.

On the other hand, under the cloak of "activating foreigners' investment and introduction of technology" the puppet clique removed "factors impeding investments" in various aspects such as operation of enterprises to induce more foreign capital, and allowed foreign capitalists to dispose of their electrical products and its spare parts manufactured in South Korea through a massive local scale.

Besides, the puppet clique allow foreign capitalists to freely carry out of South Korea any goods and ship there any equipment and raw materials and they took a new step of "liberalization of imports" as regards 270 commodities and went so far as to bring in foreign trade marks to let them prevail.

All these are treacherous acts leaving the South Korean economy wholly at the tender mercy of foreign capitalists and turning South Korea into a zone
of foreign capital investment, a dumping ground of commodities and land of unbridled colonial plunder.

Poisoned by the already induced foreign capital, South Korea depends on foreign countries for more than 60 per cent of industrial facilities, among them 90-100 per cent of the facilities of "key industrial domain." As for raw materials, 80-100 per cent of them including 85.5 per cent of iron ores are dependent on imports. It depends on foreign countries for funds, too; the operation of enterprises and production are paralysed without their introduction.

And trade gap is widening due to the humiliating foreign trade of the puppet clique and the flood of foreign trade marks "form a new sphere in circulation."

Accordingly, the puppet clique's debts will go far beyond the mark of 40,000 million dollars at the end of this year, landing them in tighter straits.

The increasing zeal of the military fascist clique in the inducement of foreign capital is intended to deceive the people by creating the impression that they would achieve something by that and to pay the accumulated debts and deliver themselves from international isolation caused by economic instability and the staggering amount of debts.

REPORTAGE ON DEMONSTRATIONS AT SEOUL UNIVERSITY

Students Arrested

SK062347 Pyongyang KCNA in English 2205 GMT 6 Oct 83

[Text] Pyongyang, October 6 (KCNA)--The South Korean military fascist clique arrested Chon Nak-pong and Sin Won-chol, students of Seoul University, on October 5 on charges of violation of the fascist "Law on Assembly and Demonstration," according to a report.

They reportedly agitated a demonstration, scattering anti-"government" leaflets titled "A Letter to the People" downtown Seoul on September 30, blowing a whistle, with the conference of the Inter-Parliamentary Union a few days ahead.

The Chon Tu-hwan military hooligans are revealing their true colour as fascist henchmen by resorting to suppression against the students, hating them who always take the lead in the struggle against their treacheries as a thorn in their flesh.

30 Sep Demonstrations

SK070431 Pyongyang KCNA in English 0336 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)--Hundreds of students staged an anti-"government" demonstration denouncing the Chon Tu-hwan military fascist clique on the night of September 30 on a road leading downtown Seoul, when the anti-U.S., anti-puppet spirit was mounting among South Korean people with the Seoul conference of the Inter-Parliamentary Union as an occasion.

They fought stubbornly, repeatedly clashing with the puppet riot police who madly cracked down upon them, firing tear gas canisters.

The Chon Tu-hwan fascist clique that night drove out many policemen to disperse the demonstrators, put the police on the alert everywhere to intensify "check and roundup" and arrested several students.

The fascist clique arrested two students of Tongguk University who had fought courageously at the head of a demonstration of over 1,000 students.

A foreign press report said there have been at least 15 anti-government demonstrations on Seoul campuses since universities and colleges resumed autumn classes in early September.

STUDENTS IN SOUTH EXPELLED FOR ARREARS OF EXPENSES

SK130317 Pyongyang KCNA in English 2237 GMT 12 Oct 83

[Text] Pyongyang, October 12 (KCNA)--The South Korean students are undergoing unspeakable sufferings from the pillage of campus by the Chon Tu-hwan puppet clique. Many of them are expelled from campuses.

Admission of 110 students was cancelled at Seoul University and 139 at Koryo University for their failure to pay the registration fees.

Many students are forced to give up their university courses half-way.

Some 2,310 students at Hanyang University and 1,750 at Koryo University were removed from the campus registers during one term this year.

Quite a few students have been expelled from Songgyungwan and Sogang Universities on account of the registration fees. Such students increased 98.7 per cent at Songgyungwan University as against the same period last year.

Last year as many as 130,700 students were expelled or forced to stay away from campuses for a time, hard up for school expenses.

At the South Korean middle and high schools, too, a countless number of students are forced to give up study, unable to pay school fees. Their number averages more than 200,000 annually at the middle schools.

In the new school term this year, too, the puppet clique largely increased the impositions at the schools at all levels, lifting the registration fee for each university student to 544,000 won. With several dozen kinds of miscellaneous impositions added to this, one student must pay more than one million won in one term.

The commercialisation of schools by the puppet clique drives a great many students into misfortunes, depriving them of opportunities of learning.

At Koryo University 1,090 students, 430 greater than in the same semester

Chungang and Kyonghui Universities.

The number of disciplined students at Sukmyong Women's University was four

After 1977 over 300 South Korean students went to the United States to study, of whom only nine returned to South Korea as of April 1. This shows that sentiments against the Chon Tu-hwan puppet clique are growing stronger among South Korean students abroad, too. [Text] [SK071528 Pyongyang KCNA in English 1501 GMT 7 Oct 83]

COURT DECISION ON LOAN SCANDAL--Pyongyang, October 11 (KCNA)--The puppet Seoul High Court on October 7 passed a decision on cancelling even the insignificant fine amounting to 312,000 won which had been inflicted on Chang Chin-hyok, one of those involved in the large-scale loan scandal, according to a report. He is a close relative of Chang Yong-cha, the principal criminal in the case. When the voices denouncing those involved in the loan scandal grew louder last year, the puppets inflicted a fine on Chang Chin-hyok who had received 10 million won from Chang Yong-cha. These days when the public opinion built up around the case died down, the puppets cancelled even that nominal fine. This is one of the examples vividly revealing the ugly color of the Chon Tu-hwan traitor clique who are shamelessly trying to conceal all brands of swindle and corruption they are committing. The puppet clique worked out the "draft budget" in this way, openly announcing that budgetary amount will be increased only under categories of military nature. At present a serious economic crisis is sweeping South Korea to make it impossible to secure fund needed for "budget." This notwithstanding, the puppet clique is increasing military expenditures. NODONG SINMUN ON WPK CONGRESS ANNIVERSARY

SK100403 Pyongyang KCNA in English 0339 GMT 10 Oct 83

[Text] Pyongyang, October 10 (KCNA) -- NODONG SINMUN October 9 carried an article headlined "To Thoroughly Implement Decisions of Sixth Congress of the Party Is Worthwhile Work of Our People" on the occasion of the third anniversary of the historic Sixth Congress of the Workers' Party of Korea.

The author of the article says:

"Report to the Sixth Congress of the Workers' Party of Korea on the Work of the Central Committee" delivered by the respected leader Comrade Kim Il-song is a programmatic document which should be continuously upheld in strengthening our party and constantly advancing the revolutionary cause. It is an encyclopedia of revolution and construction which comprehensively indicates the general task of our revolution and ways for its fulfilment, the principled revolutionary lines and tasks for national reunification and for the accomplishment of the cause of anti-imperialism and independence.

To continue to thoroughly fulfil the programmatic tasks set forth by the great leader Comrade Kim Il-song at the sixth congress of the party carries weighty significance in constantly strengthening our party and accelerating socialist and communist construction.

Its significance lies, first of all, in that it makes it possible to further strengthen and develop our party into a revolutionary vanguard of chuche and consistently enhance its leading role.

The sixth party congress is brilliantly recorded in our party's history as a congress which successfully solved the problem of the future destiny of the party and revolution in our country. This is because our party has grown in strength as a great guiding force capable of carrying forward the revolutionary cause of chuche to accomplishment.

The whole history of our party is a proud course along which all the party members and working people have creditably realized the idea and guidance of the great leader Comrade Kim Il-song who is the organiser and leader of the party, faithfully upholding them.
The sixth party congress summed up the brilliant achievements made in the party building and work under the correct leadership of our party and set forth militant tasks to continue to thoroughly implement the unique policy of the party building advanced by the party centre. The policies of more thoroughly establishing the party's monolithic ideological system and strengthening the unity and cohesion of its ranks, strengthening work with men to firmly build up the ranks of the party and the revolution, deepening ideological work and inheriting and developing the party's revolutionary traditions and strengthening its guidance of the revolution and construction and so on—these policies are a valuable guideline for strengthening and developing our party for ever into a juche-type revolutionary party with invincible might and bright future.

To constantly push ahead with the work of carrying out the decisions of the sixth party congress is also of great significance in bringing about new changes in socialist construction.

The article further says:

An important revolutionary task facing us in implementing the decisions of the sixth party congress is to reunify the divided country and make the whole world independent. We must wage a vigorous struggle for reunifying the country through the establishment of the Democratic Confederal Republic of Koryo. And we must fully implement the program of the foreign policy of independence, friendship and peace to strengthen the anti-imperialist independent forces, create favourable international conditions for our revolution and hasten the victory of the world revolution as a whole.

The article stresses:

Comrade Kim Chong-il, member of the Presidium of the Political Bureau, and secretary, of the Central Committee of the party, indicated correct policies and concrete ways for carrying into practice the decisions of the sixth party congress and leads the struggle for their implementation to victory.

Our party published a series of historic works to make the entire party members and working people firmly grasp and embody the spirit of the report of the great leader Comrade Kim Il-song to the sixth party congress and clearly indicate the guiding principle and targets which the party organisations and power organs must maintain in the implementation of the decisions of the party congress.

CHONG CHUN-KI ATTENDS PEOPLE'S MEETING 8 OCT

SK091111 Pyongyang KCNA in English 0917 GMT 9 Oct 83

[Text] Pyongyang, October 9 (KCNA)--Working people in Pyongyang held a meeting to vow loyalty on October 8 in front of a monument erected at the fork of the road to Mangyongdae, upon the lapse of 38 years since the great leader Comrade Kim Il-song, after liberating the fatherland and making a triumphant return home, called on the workers of Kangson before he visited his native house in Mangyongdae which was within a calling distance.

Put up at the meeting place was a portrait of the great leader of our party and our people Comrade Kim Il-song.

At the meeting which was attended by Comrades Chong Chun-ki and Ho Chong-suk and personages concerned together with working people in the city, Kim Pong-chu, chairman of the Central Committee of the General Federation of Trade Unions of Korea, made a speech, which was followed by speeches of attendants.

The speakers said that on October 9, 1945, the historic day before the founding of our party, the great leader went to Kangson, adorning the fork of the road to Mangyongdae with a greater concern for the revolution than his native village to meet workers first before he met his grandparents and relatives.

The great leader who went to Kangson trusted the workers who had been subjected to the oppression and maltreatment as masters of the country and stood them on the worthwhile road for the building of a new fatherland.

The fork of the road to Mangyongdae, the road of history, is a glorious and brilliant road of revolution and a road of great love which could be covered only by the great leader who has been devoting his life solely to the revolutionary cause of the working class, they stressed.

The speakers said: The great idea of revolution with which the great leader has adorned the road of his continued on-the-spot guidance after passing through the fork of the road to Mangyongdae is inscribed as it is on the road of the wise guidance covered by the glorious party centre.
They stressed that the entire working people should brilliantly accomplish the revolutionary cause of chuche by learning from the great idea of revolution associated with the fork.

A resolution was adopted at the meeting.

DAILY ON ROLE OF WORKING PEOPLE'S ORGANIZATIONS

SK120402 Pyongyang KCNA in English 0334 GMT 12 Oct 83

[Text] Pyongyang, October 12 (KCNA)--NODONG SINMUN October 11 dedicated an article to the 15th anniversary of the publication of "On Further Enhancing the Role of Working People's Organisations," a historic work of the great leader Comrade Kim Il-song, on October 11, 1968.

The article titled "Historic Work Which Brought About Turn in Work of Working People's Organisations" says:

In this work the great leader Comrade Kim Il-song newly expounded the position, role and tasks of the working people's organisations. In particular, he laid important emphasis on problems of strengthening the party's guidance of the work of working people's organisations, vigorously pushing ahead with the work of revolutionizing and working-classizing the working people and firmly building up the core ranks of these organisations.

The work of the great leader carries great significance in making the working people's organisations successfully discharge their missions and duties as peripheral organisations of the party.

The work is above all a firm guideline for the working people's organisations including the League of Socialist Working Youth and the General Federation of Trade Unions in thoroughly defending and implementing the party's line and policy.

In this historic work the great leader defined the working people's organisations as organisations for ideological education of the broad masses and peripheral organisations of our party. This is a most clear elucidation of their position and role.

With the presentation of the new idea that they are the party's peripheral organisations, the working people's organisations came to have the stand and attitude of regarding it as their basic mission and an inexorable law to defend and implement the party's line and policy.
The significance of the work also lies in that it made the working people's organisations vigorously push ahead with the work of revolutionizing and working-classizing the broad masses.

The great leader in his historic work propounded the idea that the work of revolutionizing and working-classizing the broad masses is the most important revolutionary task of the League of Socialist Working Youth, the General Federation of Trade Unions and the Union of Agricultural Working People, thereby making these organisations take this work as their primary task.

Saying that for the revolutionization of people it is necessary to make a deep study of its way and plan this work in a concrete way, he indicated the way for this work on the basis of practical experiences he personally gained in the period of his revolutionary activities in his early years and of the anti-Japanese armed struggle.

The working people's organisations have waged a vigorous struggle to revolutionize the broad masses in the course of modelling the whole party and whole society on the chuche idea under the guidance of our party, with the result that a new turn has taken place in the ideological and moral traits of the people.

NODONG SINMUN ON ESTABLISHING CHUCHE IN IDEOLOGY

OW121701 Pyongyang KCNA in English 1602 GMT 12 Oct 83

[Text] Pyongyang, October 12 (KCNA)—NODONG SINMUN today carries an article headlined "Establishing Chuche in Ideology Is the Primary Requirement of Revolutionary Struggle for Chajusong (Independence)," which reads in part:

One of the important contents of "On the Chuche Idea," a treatise of Comrade Kim Chong-il, member of the Presidium of the Political Bureau, and secretary, of the Central Committee of the Workers' Party of Korea, is the idea of establishing chuche in ideology.

As expounded in the treatise, to establish chuche in ideology means having the consciousness that one is the master of the revolution and construction, thinking and doing everything, centering on the revolution in one's own country, and acquiring the viewpoint and attitude of solving all questions by one's own talents and initiative.

The basis of the revolutionary struggle is man's thinking and it decides everything. To establish chuche in politics, economy, military affairs, culture and all other domains of the revolution and construction, therefore, can be ensured only by establishing chuche in thinking. Hence the establishment of chuche in thinking is the primary requirement of the masses' revolutionary struggle for chajusong.

To establish chuche in ideology is, above all, an indispensable requirement for the party and people of each country to successfully carry out the revolution of their own country.

The principle of establishing chuche in ideology is a most correct guideline for acquiring the chuche stand and viewpoint in the revolution and construction.

This guiding principle emanating from the fundamental principle of the chuche idea does never allow one to make revolution in reliance upon others, without the consciousness of being the master, or to have his rights as the master infringed upon, but sets it as the basic requirement to carry out the revolution of one's country on one's own responsibility.
Only when the party and people of each country firmly adhere to the principle of establishing chuche in ideology, therefore, can they successfully carry out their own revolution and construction and discharge fully their basic duty as masters of the revolution.

Establishing chuche in ideology is also a guarantee for powerfully promoting the international cause of the working class.

For each people to successfully carry out their own revolution is the way to fulfil both the national and the international duty of the working class.

The revolution of each country is part of the world revolution. The final victory of the world revolution is won in the course of the revolution in each country emerging triumphant.

Our party and people have consistently waged the struggle for establishing chuche in ideology and won great victory in the revolution and construction and actively contributed to the international communist movement.

The treatise gives an all-round exposition of ways for establishing chuche in ideology.

Our party expounded that to establish chuche in ideology it is necessary to equip oneself with the revolutionary idea of the working class and with the policy of one's party, to be versed in one's own things and to possess a high sense of national dignity and revolutionary pride. And it raised it as an important question in establishing chuche in ideology to develop national culture and elevate the cultural and technical levels of the masses, and to struggle against flunkeyism and all shades of outdated ideas.

All these policies of our party indicate the most correct way for thoroughly embodying the principle of establishing chuche in ideology.

What is also important in implementing the party's policy of establishing chuche in thinking at present is to continually uphold the line of the three revolutions, ideological, technical and cultural.

KCNA ON DEVELOPMENT OF RAILWAY TRANSPORT

SK071521 Pyongyang KCNA in English 1504 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)--The railway transport of Korea has been developed and strengthened to be a modern socialist railway transport with a rational transport system and powerful material and technical foundations.

Great efforts have been directed to the railway electrification in Korea.

The railway electrification entered a full-scale stage from the early period of the Five-Year Plan (1957-1961). In the subsequent Seven-Year Plan period 850 kilometre sections were switched over to electric traction, with the result that electrification was finished in the major trunk line sections.

Entering the 1970s the railway electrification progressed at faster tempo. In four years after the 18th Plenary Meeting of the Fifth Central Committee of the Workers' Party of Korea discussed the problem of effecting a new turn in the railway transport in June 1979, more than 1,000 kilometres of railway lines were electrified.

At the end of 1980 the traction proportion of electric locomotives reached 87.5 percent in the railway freightage and a unitary system of transport by electric locomotives was established in the trunk line and major branch line sections.

Today the railway electrification has been realised not only in the major trunk line sections but also in the branch lines and lines for the exclusive use of factories and enterprises.

The introduction of modern, heavy and high-speed transport means is being vigorously accelerated in the railway domain, and production of electric locomotives and other rolling stock has sharply increased to further consolidate the material and technical foundations of the railway transport.

At many railway stations and railway sections automation has been introduced and means of communications have been modernized.
The railway station compounds have been rebuilt and expanded and many centralized goods stations built and the mechanisation of loading and unloading has reached a high level. As a result, three ways of transport—centralized, container and combined transport—have been successfully realised and a radical change has been brought about in the transport as a whole.

The railway transport of Korea has made rapid progress with the support of the whole party, the whole country and the entire people.

Now the working people in the railway transport domain are vigorously waging various mass drives for mass innovations including "the drive to run safely, on schedule and with more freight for the implementation of the decision of the 18th Plenary Meeting of the Fifth Central Committee of the Workers' Party of Korea" to more fully meet the growing demand of the national economy for transport.

Today Korea's railway carries only in 11 days as much goods as were transported in the one year of 1946.

SK130644 Pyongyang KCNA in English 0343 GMT 13 Oct 83

[Text] Pyongyang, October 13 (KCNA)—A few days ago scientists moved to

Sciences there in March this year and said that the better modern houses
should be built for scientists.

The dear leader Comrade Kim Chong-il took measures to solve all problems
arising in the building of new flats for scientists and, acquainting him-
self with the construction on several occasions, energetically guided work
so that the speed campaign was waged in the housing construction.

Thus, modern multi-storied flats were built in a brief period in Pyongsong.

The new flats in Pyongsong are built well to be convenient to grown-ups,

STEEL PRODUCTION CAPACITY RAPIDLY INCREASES

SK091007 Pyongyang KCNA in English 0932 GMT 9 Oct 83

[Text] Pyongyang, October 9 (KCNA)--The working people in the metal industrial domain of Korea are significantly marking their red-letter day (October 9).

They are celebrating Day of Metal Workers with unprecedented successes in expanding steel production capacity.

A vast project for increasing the annual steel production capacity to 6 million tons in the near future is progressing apace at the Kim Chaek Iron Works, a large-size iron production base.

The new production processes to be built in this project include steel shop No. 3, plate-sheet steel rolling shop, electric welding shop, pot repair shop and continuous roughing ground. The iron works also plans to double the production capacity of steel shop No. 2 and substantially increase the capacity of the hot rolling shop, the oxygen shop and other related production processes.

Many other projects to help toward increasing the steel production capacity of the Kim Chaek Iron Works are being carried on at other enterprises.

The Chongjin Steel Works is building several revolving furnaces and the Musan mine vigorously carrying on the projects of laying belt conveyer for the transport of scraped earth, ore cutting ground and object of treating tailings. The work for building the Chongjin thermal power plant and laying another concentrated ore transport pipeline between Musan and Chongjin is progressing.

In the last one month the builders undertaking these vast projects carried out the work which would take half a year at an ordinary pace.

A large-size melting hearth of our style whose melting method is completely different from that at the existing electric hearths is being built at the Songjin Steel Works at fast tempo. It is a modern electric melting hearth whose operation is easy and which is able to considerably increase steel production with less labour. The workers there are vigorously making the last charge.

The capacity expansion projects are also going on vigorously at the Kangson Steel Complex and the Hwanghae Iron Complex.

ORE DRESSING CAPACITY INCREASES IN DPRK

SK081529 Pyongyang KCNA in English 1519 GMT 8 Oct 83

[Text] Pyongyang, October 8 (KCNA)--Korea has increased the tunnelling capacity 1.7 times and transport and ore dressing capacity 2 times respectively in last one year as against the previous year through an energetic drive to boost the nonferrous metal ore production capacity.

In the past one year vigorous endeavours have been made at nonferrous metal ore mines to implement the decision of the Hambung Plenary Meeting of the Central Committee of the Workers' Party of Korea which discussed the problem of attaining the goal of 1.5 million tons of nonferrous metals.

In this course large-size modern ore dressing plant No. 3, a leading one of its kind in the world, which is capable of treating annually 10 million tons of ore was successfully built and put into operation recently at the Komdok general mining enterprise. And with the building of over 40 large-size cutting faces whose scale is 20-30 times the existing ones, many large-size shafts and a belt conveyor, the production capacity of the enterprise has substantially increased.

The nonferrous metal ore mines in the Tanchon District boosted their annual production capacity by an average of 2-3 times in the past one year.

The production capacity of the Uhmung and Hyesan youth mines and mines in the Yanggang provincial area also grew markedly.

New nonferrous metal ore mines were developed and the work to introduce large and high-speed transport machines was energetically accelerated.

The Yongam, Sinpa and Nojung mines were newly developed in Yanggang Province.

Large trolley coaches carrying two times more ore than the existing large-size butches are running on the newly built loop line at the Sangnong mine.

The construction of cables was vigorously carried on at the Kapsan and August mines.

As a result, a solid foundation has been laid in Korea to attain ahead of schedule the goal of 1.5 million tons of nonferrous metals, advanced as one of the 10 prospective targets of the socialist economic construction in the 1980s.

Maize also has done well this year.

And the plateau areas are visited by a bumper yield of potatoes.

The Munam cooperative farm in Musan County looks ahead to a 3 ton jump in potato harvest per hectare above last year. Many plots of the Obong cooperative farm are expected to produce 5 more tons on an average, 10 tons at maximum, per hectare up on last year.
The bountiful crops which have visited all the rural areas of Korea this year again are fruits of the thorough implementation of the great juche method of farming.

The cooperative farms which finished harvesting are directing all efforts to thrashing.

[Text] Pyongyang, October 13 (KCNA)--The Orori and Taewon plains in Anak County, South Hwanghae Province on the western coast of Korea, have been visited by bumper crops again this year.

Having finished maize and rice harvesting before others with the joy of bumper crops, the cooperative farmers in the county are now hastening thrashing while carrying in grains in time.

The average per hectare rice harvest this year is expected to be 800 kilogrammes more than the peak year. And a rise of hundreds of kilogrammes over last year is foreseen in maize harvest per hectare.

The Oguk cooperative farm, the first producer of more than 10,000 tons of grain in the Orori plain, and the Taechu, Toksong and Omgot cooperative farms foresee a jump of more than one ton in rice harvest per hectare above last year.

In many plots per hectare rice yield is estimated at more than 9 tons.

This year, too, the whimsical weather under the influence of the cold front adversely affected the growth of the crops in spring and summer. But the cooperative farms in the county have brought such bumper crops by doing farming on a scientific and technical basis as required by the chuche method of farming.

Anak County which boosted grain output last year by 20 per cent above 1981 is expected to harvest this year far more grain than last year.

KCNA NOTES RELEASE OF NEW FEATURE FILMS

SK071200 Pyongyang KCNA in English 1001 GMT 7 Oct 83

[Text] Pyongyang, October 7 (KCNA)--New feature films have been released in Korea.

The feature film "Manbyongcho" released by the Korean February 8 Film Studio gives a profound artistic answer as to the noblest trust and sense of duty through a portrayal of a woman guerrilla who was boundlessly faithful to the great leader Comrade Kim Il-song during the anti-Japanese armed struggle.

The film gives an emotional characterization of Chang Chol-ku, the heroine of the film, who is made a cook for the headquarters after clearing herself of the false charge of being a member of the "Minsaengdan" (a spy-organization formed by Japanese imperialists) by the deep trust of the great leader and fights staunchly with an unshakable will to go to the great general, though she is suspected by the narrow-minded logistic officer at a rear hospital far off the headquarters.

Through her portrayal, the film accentuates in a high-pitched tone the idea that revolutionaries of chuche type should only trust and follow the great leader and the glorious party centre and walk unswervingly along the road of the revolution under whatever circumstances like Manbyongcho of Mt. Paekdu which blossoms under the sunrays even in snow storms.

The feature film "Through Trials" released by the Korean Film Studio shows the heroic struggle of our people who covered an untrodden path in the history of chuche-based city construction, upholding the unique policy of pre-fab construction set forth by the great leader Comrade Kim Il-song in the period of the postwar rehabilitation and construction.

Standing in the centre of the film is Choe Yong-ho, the hero, who is made the first minister of construction of working class origin after liberation by the deep trust of the great leader.

Workers including the hero create the miracle of building flats for 20,000 families with kunds for 7,000 families, smashing all manner of manoeuvres of factionalists and mythicists towards technique, and convincingly prove the validity and great vitality of the great leader's original policy of pre-fab construction.

TOKYO MEETING MARKS DPRK NATIONALITY LAW

SK101045 Pyongyang KCNA in English 1034 GMT 10 Oct 83

[Text] Pyongyang, October 10 (KCNA)--A central meeting of Koreans in Japan was held at the Korean House of Culture in Tokyo on October 8 to mark the 20th anniversary of the enactment and promulgation of the Law on the Nationality of the Democratic People's Republic of Korea by the great leader Marshal Kim Il-song.

Placed on the platform of the meeting hall were a portrait of the great leader Marshal Kim Il-song and a portrait of the dear leader Comrade Kim Chong-il.

Han Tok-su, chairman of the Central Standing Committee of the General Association of Korean Residents in Japan (Chongnyon), made a speech at the meeting.

The enactment and promulgation of the Law on the DPRK Nationality which was a concentric expression of the compatriotic policy of the great leader was a historic event firmly guaranteeing the legal position of the compatriots in Japan, he noted, and stressed:

With the enactment of the law, all the overseas Koreans including compatriots in Japan came to live proudly with a legal position as nationals of a dignified independent and sovereign state and proudly exercise national sovereignty and civil rights in an alien land far away from the homeland under the legal protection of the DPRK.

The promulgation of the law dealt a heavy blow at the reactionaries at home and abroad who infringe upon the civil rights of the compatriots in Japan and try to realise their despicable purpose.

The law is a brilliant fruition of the great leader's protracted great efforts to make our people lead a free and dignified life as nationals of an independent and sovereign state.

Referring to the great successes achieved by the Chongnyon functionaries and compatriots over the past 20 years in the endeavours for defending the honor and rights as overseas citizens of the DPRK and adding lustre to them,
the speaker stressed: All the compatriots in Japan should invariably advance along the road of loyalty in any difficult period with ardent reverence for the great leader and the glorious party centre.

A letter to the great leader Marshal Kim Il-song was adopted at the meeting.

The meeting also adopted a letter of request to the Japanese Government.

It closed with a chorus of song "Long Life and Good Health to the Leader."

Chongnyon functionaries and compatriots in Japan who saw the film are deeply impressed and excited by the fact that the dear leader Comrade Kim Chong-il enjoys high international authority and prestige as an outstanding leader of the era of chajusong (independence).

Kwon Yong-chun, director of the Tohoku Korean Primary, Middle and High School, said:

When Chinese leaders received the dear leader, they are filled with the feelings of respect and intimacy and noble sense of comradely obligation for revolutionary comrade-in-arms, going beyond the usual practice of meeting a distinguished foreign guest.

Seeing such scenes, I felt great pride and honour in holding the sagacious and great leader in high esteem.

Pak Tae-chun, a teacher of Tokyo Korean Primary School No. 3, said:

The noble traits and generous, kind-hearted and boundlessly modest personality of the dear leader like those of the respected leader Marshal Kim Il-song in his young age and his great revolutionary traits deeply moved not only Chinese leaders and people but all the people who saw the film.

Seeing the film, I keenly felt that it is only the dear leader who leads our people to victory for the accomplishment of the chuche cause started by the respected leader.

O Sunwhui, a teacher of the Tokyo Korean Middle and High School, said:
A scene showing the dear leader meeting Comrade Deng Yingchao, an old leading cadre of China, with tenderness is a very impressive one showing the revolutionary comradeship and sense of obligation on the highest level.

Indeed, I was deeply moved by unboundedly lofty personality and virtues of the dear leader.

Pak Sam-ho, chairman of the Kuwana, Mie Prefecture, branch of Chongnyon, said that the dear leader's visit to China has made a great contribution to strengthening the friendship and unity between the Korean and Chinese peoples. He further said:

While seeing the film, I firmly believed that the blood-sealed friendship and unity between the Korean and Chinese peoples which the respected leader provided and the dear leader glorifies is indestructible.

This invincible strength will make a great contribution to accomplishing our people's cause of the reunification and firmly guarantee the victory of the world people's cause of anti-imperialism and independence.

Yi Hyong-kun, director of the trade and industry department of the Federation of Korean Traders and Industrialists in Japan, said after seeing the film: The dear leader's visit to China was a world-startling great historic event and greatly contributed to the accomplishment of the just cause of the Korean and Chinese peoples and the world's revolutionary people.

KCNA CITES PRC DAILY REPORT ON PRC-DPRK TIES

SK120110 Pyongyang KCNA in English 2243 GMT 11 Oct 83

[Text] Beijing, October 10 (KCNA)--The Chinese "People's Daily" on October 10 carried an article by the reporters' group which had accompanied the Chinese party and government delegation in its Korean visit under the headline "Sino-Korean Friendship Will Shine Through All Generations."

Noting that the Chinese party and government delegation led by Comrades Peng Zhen and Hu Qili was warmly welcomed and accorded hospitality overflowing with friendship of the Workers' Party, government and People's Army of Korea and her people in Pyongyang, Wonsan and Sinuiju, the paper says:

President Kim Il-song, the great leader of the Korean people and a close friend of the Chinese people, in the midst of his busy days, found time to receive the entire members of the Chinese party and government delegation and arrange a luncheon for them, and Comrade Kim Chong-il and other leading comrades of the party and government accompanied the delegation in its tour of inspection and visit to Wonsan and different parts of Pyongyang.

We deeply felt that the relations between the Chinese and Korean parties and states are close relations in sharing weal and woe and the blood-cemented friendship between the two peoples is a great friendship which had withstood trials of many years.

Referring to the impressions the delegation got while inspecting the Grand People's Study House, the National Economy Institute, the Pyongyang Metro, the Ponghwa and Mirim lock gates, the Wonsan Honored Disabled Soldiers Resin Daily Necessaries Factory, the Pyongyang-Wonsan express highway and others, the paper says:

What we saw were only a few of the great many successes achieved in the 35 year long construction of Korea. But they explain that the Korean people have performed great feats without precedent under the leadership along the correct line of independence in politics, self-support in economy and self-reliance in national defence put forward by President Kim Il-song and the Workers' Party of Korea.
Dwelling on the great Sino-Korean friendship, the paper continues:

In the days of our Korean visit we spent each day amid the pleasure of friendship.

The warm and grand welcome of the Korean people fully showed their deep sentiments toward the Chinese party, government and people and at the same time evoked warm sympathy of the same feelings cherished deep in our hearts.

During the visit of the delegation to Korea the Korean comrades fully supported once again the Chinese people's struggle to accomplish the cause of reunification by having Taiwan returned to the homeland and the Chinese comrades on their part resolutely supported the Korean people's struggle for the independent and peaceful reunification of the country and the proposal for founding the Democratic Confederal Republic of Koryo advanced by President Kim Il-song.

All this testifies to the fact that the Sino-Korean friendship sealed in blood in the flames of war has pulled through storms and struck deep roots in the hearts of the two peoples.

This great friendship between the Chinese and Korean peoples was formed and nursed by Comrades Mao Zedong and Zhou Enlai and Comrade Kim Il-song and it is close relations of complete equality, mutual respect, mutual trust and mutual support; it is based on the principles of Marxism-Leninism and proletarian internationalism.

This noble traditional friendship is now being carried forward and developed in the relations between the two parties and two countries of China and Korea.

The Korea visit of Comrades Hu Yaobang and Deng Xiaoping and the China visit of Comrade Kim Il-song last year and the China visit of Comrade Kim Chong-il in June this year all brought satisfactory successes.

The supreme leaders of the two parties recorded an important chapter in the history of Sino-Korean relations through their sincere, cordial meetings and talks and lifted the relations of Sino-Korean friendship to a new stage of development.

During our visit we keenly felt that the Sino-Korean friendship has a deep and solid foundation.

In conclusion the paper stresses that the blood-cemented Sino-Korean friendship will be conveyed through generations, develop still further and shine forever.

The maternity hospital has all the modern facilities best in the world.

Korean children are born happily, indeed.

The dear leader Comrade Kim Chong-il showed great care for its construction, not sparing fund.

In Korea the state takes care of the children's health from their birth and educates them free of charge while they go through the nurseries and kindergartens and schools of all levels up to university.

Calling the children "king" of the country, President Kim Il-song spares nothing for them.

Dealing with the development of education in our country, he says: The education is run through with the chuche idea at the schools of all levels. State enforced the universal 11-year compulsory education.

On his visit to a cooperative farm in Korea, he writes:
The state supplies tractors and farm machines to the cooperative farms and irrigation projects are also carried out at state expense. It also builds dwelling houses for the peasants.

All farm work is done by machines in Korea.

Introducing the superiority of the socialist system of our country, he continues:

The socialist system of Korea provides all people with jobs in accordance with their hope and ability.

The workers are given dwelling houses by the state and supplied with rice at prices next to nil.

Korea has already joined the ranks of the industrial powers.

The Korean people are vigorously advancing towards a brighter future.

Concluding his travelogue, the author stresses:

The Korean people is an industrious and united people.

Korea is a country where the people are working miracles startling the world people, all of them united as one around the great President Kim Il-song and dear Comrade Kim Chong-il and an earthly paradise where all people lead a happy life.

The dear leader Comrade Kim Chong-il clearly indicated the way for us to safeguard peace and security in the world.

The dear leader, a symbol of resources and hope, strength and wisdom and genius of outstanding guidance, seeing through the danger to peace and security in all parts of the world, called upon all the people desirous of peace and security of mankind to rise in the struggle for smashing the U.S. imperialists' new war provocation moves and defending world peace in firm unity, transcending the difference in political view, religious belief and social system.

This is a very important problem in the present situation when humanity is faced with a serious problem, new global war or peace.

The dear leader who made tireless efforts for world peace and security set forth the following important tasks of mankind:

Firstly, all the progressive and peaceloving forces of the world including the socialist forces, international communist movement, national liberation movement, democratic movement and non-aligned movement should form an anti-U.S. united front and mount a collective attack on the U.S. imperialists so that they may not run riot.

Secondly, all the anti-imperialist independent forces should check and frustrate the frantic arms buildup and war preparations of the imperialists
and force the U.S. imperialists to dismantle their military bases in other countries and withdraw the U.S. troops and their nuclear and other mass destruction weapons from there.

Thirdly, they should persistently struggle for the dissolution of military blocs, establishment and expansion of nuclear-free, peace zones in different parts of the world and realization of universal and complete disarmament.

DAILY DENOUNCES CANADIAN DELEGATE'S REMARKS

SK080445 Pyongyang KCNA in English 0425 GMT 8 Oct 83

[Text] Pyongyang, October 8 (KCNA)--The utterances made by the Canadian delegate defending the old international economic order at a meeting in New York are precisely brigandish remarks claiming that the Third World countries cannot have the equal rights with the imperialist countries but must be obedient to them and reconcile themselves indefinitely to unbridled exploitation and plunder by them, says NODONG SINMUN today in a commentary.

The author of the commentary titled "Defender of Devils" says:

The call of delegates of non-aligned countries at the meeting for smashing the old international economic order was a voice of the times and an expression of their unanimous will.

Entirely just is the collective struggle of the non-aligned countries for the establishment of a new equitable international economic order.

But the Canadian delegate carped on this just struggle to fully reveal his true colour as a dirty servant of the imperialist monopolies. It was not fortuitous that he was branded as a "defender of devils" at the meeting.

He must realise that the more he works to curry favour with the imperialists trying to maintain and consolidate the old international economic order, the more fully he shows his true nature as a servant of imperialism and political charlatan.

No matter how desperately such fellows as the Canadian delegate may try to stem the powerful tide of the times, the just struggle of the Third World people for the establishment of a new international economic order will gain in strength and scope as the moon moves on no matter how viciously a dog may bark at it.

DAILIES OBSERVE UGANDA'S INDEPENDENCE DAY

SK090919 Pyongyang KCNA in English 0853 GMT 9 Oct 83

[Text] Pyongyang, October 9 (KCNA)--Dailies here today carry articles marking the 21st anniversary of the independence of Uganda.

A signed article of NODONG SINMUN notes that the independence of Uganda opened an important phase in the history of struggle of her people for independence, sovereignty and new life.

The article goes on:

In the past the Ugandan people struggled to do away with the aftermath of the imperialists' colonial rule and build a new prospering Uganda.

Such struggle of theirs took a road of new development from 1980 when it was guided by President A. Milton Obote.

The imperialists and domestic reactionary forces which dislike it are viciously manoeuvring to hold in check the advance of Uganda, taking advantage of the complex situation temporarily created in the country.

But, the Ugandan people are consolidating national independence and sovereignty, smashing at every step their dastardly moves. The country's stability and national unity are being achieved.

Our people are sincerely rejoiced over the favourably developing situation in Uganda.

Korea and Uganda have formed the bonds of friendship in the common struggle against imperialism and for independence. These relations are being made closer since the visit of President A. Milton Obote to our country in December 1981.

We believe that the relations of friendship and cooperation between Korea and Uganda will grow stronger and develop in the future.

Our people sincerely hope that the Ugandan people will register new victory in their just cause.

NODONG SINMUN ON SOUTH AFRICA'S NAMIBIA POLICY

SK111053 Pyongyang KCNA in English 1037 GMT 11 Oct 83

[Text] Pyongyang, October 11 (KCNA)—NODONG SINMUN Tuesday comes out with an article hitting at the fabrication of a "State Council" in Namibia by the South African racist clique some time ago under the pretext of instituting a "new constitution."

The signed article reads in part:

The fabrication of the "State Council" in Namibia by the South African racists indicates that their racist rule is shaking violently in that country.

Namibia is now being swept by a furious flame of the struggle of the people to put an end to the colonial rule of the racist clique and win national independence and sovereignty. The Namibian people, under the guidance of the South West Africa People's Organisation, are dealing serious military and political blows to the racist clique all over the country.

Hence the efforts of the South African racists to shore up the colonial rule in its crisis by framing up such puppet tool as "State Council."

But it is not a brainchild of the Botha clique. It is an offspring of the U.S. imperialists' criminal intrigues to maintain the bastion of racism in Southern Africa.

The U.S. imperialists are framing up a hundred and one intrigues to bar a peaceful solution of the Namibian question, while arming the South African racists and driving them into "mopping up" of guerrillas and suppression of people.

This proves that they are the backstage manipulator of the racist rule in Namibia and the very one making the Namibian question complicated.

The more intensified the base machinations of the Botha clique to maintain the colonial rule, the wider the struggle of the Namibian people against it will expand, and it will lead the racial rule to final destruction.
