FOREIGN FIGURES SUPPORT KOREAN REUNIFICATION

SK301524 Pyongyang KCNA in English 1500 GMT 30 Aug 82

[Text] Pyongyang, 30 Aug (KCNA)—Many personages spoke at the seminar on the question of Korean reunification which was held at the Socio-Economic Study Centre of the Third World in Mexico.

Dr Jose Ruiz Cesena, director of the Economic Institute of the Mexico Autonomous National University, said: The reunification of Korea is an important question in world politics. It is not a question confined to the Korean people but a question related to the world people, too.

The main responsibility for the 37-year long division of Korea rests with the U.S. imperialists, the chieftain of world reaction. The reunification of Korea is a serious class and national question of liberating the South Korean people from the U.S. rule. It must be achieved on the principle of great national unity.

The proposal for founding the Democratic Confederal Republic of Koryo advanced by the respected leader of the Korean people President Kim Il-song is a most correct and reasonable one for the reunification of Korea. I consider this proposal to be a realistic, just proposal for the genuine reunification of Korea at the present juncture. It is very important to lift up the voice of international support and solidarity for the reunification of Korea.

Carlos Morales, vice-chairman of the Radical Party of Chile, said: Korea was divided into North and South by the United States. More than 40,000 U.S. troops are stationed in South Korea today. But there can be no pretext for them to stay on there.

If the United States had not interfered in the internal affairs of Korea and had withdrawn its troops from South Korea, the question of Korea would have been solved already long ago.

The United States and the South Korean puppet clique are viciously trying to keep Korea divided into two.
The Democratic People's Republic of Korea put forward over 200 reasonable proposals for the country's reunification. The cardinal point of the DPRK proposals for reunification is to solve the question of national reunification independently by the efforts of the Korean people themselves.

Though the South Korean reactionaries are loud-mouthed about "dialogue," "negotiation" and so forth today, they do not mean what they say, but attempt to flout world public opinion. If they want to have a dialogue truly from the stand on reunification, they should force the U.S. troops to withdraw from South Korea and democratize the South Korean society.

The task of the Latin American people for the reunification of Korea is to extend international support to and solidarity with the Korean people's struggle.

At the same time they should fight against the U.S. interventionist policy.

FOREIGN FIGURES SUPPORT REUNIFICATION LINE

SK301544 Pyongyang KCNA in English 1521 GMT 30 Aug 82

[Text] Pyongyang, 30 Aug (KCNA)--Many personages spoke at the seminar on
the question of Korean reunification held at the Socio-Economic Study Centre
of the Third World in Mexico.

Mexican parliamentarian Antonio Becerra said: The question of Korean reuni-
figure is a very complicated question directly linked with the interference
of outside forces, namely, the United States.

Immeasurable sufferings and misfortunes are forced upon the dignified Korean
people by the manoeuvres of the United States. The division of Korea has
entirely resulted from the U.S. occupation of South Korea.

The reunification of Korea, as respected President Kim Il-song declared,
must be achieved independently by the Korean people themselves without
foreign interference. For an independent reunification of Korea, the U.S.
troops must be withdrawn from South Korea and the U.S. interference in the
internal affairs of Korea be terminated, first of all.

The proposal for founding the Democratic Confederal Republic of Koryo is
supported not only by the Korean people, but also by all the people of the
world. Korea must be reunified in accordance with this proposal under all
circumstances.

Dr Jaime Estevez, chief of a room of the Socio-Economic Study Centre of the
Third World, said: President Kim Il-song, the great leader of the Korean
people, put forward the proposal for founding the DCRK to achieve the reuni-
figure of the country. This proposal calls for achieving the reunifica-
tion of the country on the principle of great national unity, pushing national
commonness to the foreground. Herein lie the significance and truth of
this proposal.

The Korean people regard the withdrawal of the U.S. troops from South Korea
as the prerequisite to the solution of the question of Korean reunification.
Having experienced the U.S. policy of interference through our own life,
we express solidarity with the Korean people in their efforts to have the
U.S. troops withdrawn.
Alfredo Romero Castilla, professor at Mexico Autonomous National University and researcher of the Socio-Economic Study Centre of the Third World, said: If Korea is to be reunified, the democratisation of South Korean society must be realised. The South Korean people toppled the Syngman Rhee and Pak Chong-hui dictatorial "regimes" by their struggle. The Chon Tu-hwan "regime," too, will certainly be overthrown by the struggle of the people. This is beyond all doubt.

Kim Tae-chung must be released in South Korea and he be guaranteed the freedom of political activities.

Teresa Bengolea, researcher of the Socio-Economic Study Centre of the Third World, said: The United States is the very one responsible for the division of Korea and the chief force obstructing her reunification still today.

Louder voices demanding the withdrawal of the U.S. troops from South Korea should be lifted on the international scale so that the brazen-faced Americans cannot stay there any longer.

Statements, protests and resolutions should be adopted not only at international meetings, but by political parties and public organisations of each country demanding the withdrawal of the U.S. troops from South Korea.

At the same time, the scholars should logically prove that there is no ground or excuse for the U.S. troops to stay on in South Korea, and expose its injustice.

The reunification of Korea is not others' affairs, but our own. If the U.S. troops are withdrawn and their interference is terminated, the Korean people will reunify the country by their own efforts.

OVERSEAS KOREANS DENOUNCE JAPANESE TEXTBOOKS

SK310831 Pyongyang KCNA in English 0808 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)--The 19 August issue of SINHAN MINBO, a newspaper of Korean residents in the United States, in an editorial titled "Japanese Textbooks Distortion and Winning of Nation's Chajusong (Independence)" says: A sincere attitude we should take in the Japanese textbooks distortion is the frustration of the wild ambition of Japanese militarism, withdrawal of foreign forces, overthrow of the puppet "regime" and establishment of national independence and dignity.

The editorial further says: The Japanese authorities distortion and forgery of historical facts in the textbooks are preparations for laying an ideological base to realize the wild ambition for overseas aggression and reinvasion of South Korea, by instilling the militarist idea of aggression, that is, the "greater East Asia co-prosperity sphere" of the past, into the minds of children and young people to justify their policy of militarism.

Colonial servility implanted in the pro-Japanese flunkeyists of South Korea withered the spirit of the nation and, as a result, subjugated South Korea to the United States and Japan, the editorial notes, and remarks: To reinvoke South Korea Japan started the revision of the constitution and large-scale arms build-up.

But history always brings truth to light and watches everything. Our consciousness of national identity will not remain in differ-ent to the schemes of Japan.

As the 37 year history following 15 August 1945, the situation after the Kwangju uprising in particular, shows, the United States is the very one bringing the greatest misfortunes and sufferings to our nation. Therefore, Chon Tu-hwan cannot conceal the truth of the national history that as long as the domination of South Korea by the United States is tolerated, we cannot frustrate the Japanese militarists wild ambition for reinvasion.

'NODONG SINMUN' COMMEMORATES S. KOREAN AUGUST STRUGGLE

SK251519 Pyongyang KCNA in English 1502 GMT 25 Aug 82

[Text] Pyongyang, 25 Aug (KCNA)--Today is the 17th anniversary of the patriotic August struggle of the South Korean students and people. Dailies dedicate articles to this anniversary.

A signed article of NODONG SINMUN titled "Let Us Terminate the U.S. Imperialists Aggression and Interference Under the Banner of Anti-U.S. Struggle for Independence" says: The massive struggle of the South Korean students and people in August 1965 was a struggle against fascism and for democracy to smash the pro-U.S., pro-Japanese flunkeyist and treacherous acts of the puppet clique and its fascist suppression and realise democracy in society; it was an anti-outside struggle to defend the dignity and sovereignty of the nation, opposing and rejecting the aggressive machinations of the U.S. imperialists and the Japanese reactionaries.

Through the August struggle the South Korean students and people dealt a heavy blow at the treacherous schemes and fascist terror rule of the puppet clique and the aggressive manoeuvres of the U.S. and Japanese aggressors and powerfully demonstrated the heroic stamina and indomitable fighting will of our people determined not to tolerate any interference and aggression by outside forces.

Though 17 years have passed since then, none of independence, democracy and national reunification so ardently cried for by the South Korean students and people, while shedding blood, has been realised, the article notes, and says: The U.S. imperialists have seized all the actual powers in political, economic, military and cultural domains of South Korea, lording it over there and further stepping up the policy of colonial subjugation and war policy. While persistently pursuing the "two Koreas" policy, they are continuously shipping into South Korea various types of destructive weapons and military equipment for arms buildup and frantically staging war exercises against us.

In particular, the U.S. imperialists, openly pursuing the "policy of strength," are zealously using the Japanese reactionaries of late in the execution of their aggressive policy.
It is due to the encouragement of the U.S. imperialists that these days the Japanese reactionaries are following the road of militarisation and overseas expansion, prettifying and whitewashing the Japanese imperialists blood-stained dirty history of aggression and running hogwild to realise their reinvasion of South Korea.

Facts tell that as long as the U.S. imperialist aggressors remain in South Korea and their colonial rule is maintained there, the South Korean people and students cannot be freed from the miserable position of today nor can the lofty desire for independence, democracy and reunification called for by the august fighters be realised.

Today the sovereignty of the nation has been ruthlessly trampled underfoot in South Korea and the whole of South Korea has been turned into a dark land where the outside forces are strutting around. This is due to the treacherous acts of the Chon Tu-hwan clique.

Pointing out that now the flames of the anti-U.S., anti-puppet struggle are flaring up in different parts of South Korea, the article stresses: The U.S. imperialists must look straight at the raging flames of the anti-U.S. struggle in South Korea and renounce the policy of South Korean occupation and withdraw from there at once, taking along the destructive weapons.

The Japanese reactionaries must also act with discretion, clearly mindful of the lesson of history and squarely facing the trend of the times.

The Chon Tu-hwan group, the executor of the U.S. imperialist policy of colonial subjugation, must apologize to the country and the nation for its crimes and step down from power without delay as demanded by the people.

'KCNA' DENOUNCES CHON TU-HWAN AS RARE MURDERER

SK311556 Pyongyang KCNA in English 1538 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)—It is well known to the world that the Chon Tu-hwan clique is a group of the most ferocious fascist fanatics bereft of human reason and murderers rare to be seen.

The Chon Tu-hwan military gangster clique drenched the whole land of South Korea with the blood of people, viciously challenging their ever growing desire for democratisation.

The slaughter of fellow countrymen in Kwangju, a peaceful town, was a shocking bloodbath that reached the height of brutality. Chon Tu-hwan the murderer issued a brutal order to "kill all the young people," crying that "you may kill 70 percent of Kwangju citizens," and committed a hair-raising massacre of Kwangju citizens by letting loose a heavily armed force more than 78,000 strong.

They drove tanks and armoured cars over people who were crying for democracy and reunification and fired machineguns and rifles at random at them, burned them dead with flame-throwers and beat them dead with clubs. They killed defenceless citizens and youths and students by most barbarous methods—ripping up the abdomen of an expectant mother and picking out the unborn baby, cutting off the breasts of women students, cutting human bodies to pieces, dismembering people and hanging them, burying and burning groups of people alive.

In such fascist rampage of the thugs more than 5,000 people, men and women, young and old, were murdered in cold blood and over 14,000 citizens sustained serious and light wounds in a few days.

The massacre of fellow countrymen by the Chon Tu-hwan clique far surpasses the atrocities of all other fascist dictators in the world in its brutality, ferocity and viciousness. History does not know any other butcher of the nation who slaughtered thousands of, tens of thousands of, fellow countrymen at a time.

The Chon Tu-hwan fascist clique threw into prison more than 20,000 people who survived the bloodbath in Kwangju and murdered them in cold blood or crippled
them for life by brutal tortures that defy description. They imposed harsh penalties upon Kim Tae-chung and many other democratic figures and patriotic people and scheme to make them wither away in jails including "special prisons" in solitary islands.

Some time ago the ferocious thugs gouged out the eyeballs and cut off the kidneys of prisoners under death sentence in Seoul and sold them off.

The Chon Tu-hwan group, a band of human butchers who are always as ferocious as a pack of wolves against fellow countrymen, is now hell bent on suppressing the forces for independence against U.S. imperialism.

After the arson at the "American Cultural Centre" in Pusan, the Chon Tu-hwan clique inflicted capital and heavy penalties upon those involved in it.

Facts indict the Chon Tu-hwan clique to the world as a group of human butchers and traitors who make no scruple of putting fellow countrymen on the altar of the U.S. imperialist master on his instructions.

It is an intolerable insult to and mockery of the people who oppose imperialism and demand independence, democracy and justice for such gang to disguise itself as a "friend" of someone and talk about "friendship."

DAILY FLAYS CHON TU-HWAN'S AFRICAN TRIP

SK311530 Pyongyang KCNA in English 1515 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)--The African tour of traitor Chon Tu-hwan was a trickery in which he pursued the sinister aim of improving, if only a little, his position as an international orphan denounced and rejected by the people at home and abroad and winning the favor of African countries for delivering himself from the ever worsening international isolation.

So says MINJU CHOSON today in a commentary on puppet Chon Tu-hwan's African tour.

Noting that during his junket the puppet had the cheek to talk about "the idea of anti-colonialism" and "freedom," "peace" and "unification" and went the length of styling himself "a companion" of the developing African countries, the author of the commentary says: In his utterances, traitor Chon Tu-hwan merely read the script put in his hand by his American patron. They were run through with the sinister intention to conceal his treacherous nature as a colonial puppet and a fascist murderer, disguise South Korea as "an independent state" and thus drum up "support" of African countries.

It is an outrageous act and an insult to the anti-colonialist idea for traitor Chon Tu-hwan who is barely prolonging his days, begging for the U.S. imperialists' permanent occupation of South Korea and their colonial domination, to talk stupidly about "anti-colonialist idea."

During his tour traitor Chon Tu-hwan, a mangy colonial puppet, raised outcries over someone's "unification by force of arms" and "arms buildup," hurling mud at us, in a bid to keep off the influence abroad of the proposal for founding the Democratic Confederal Republic of Koryo, the most realistic proposal for national reunification.

Either the "democratic unification" ballad chanted by him with a dagger under his cloak or the prayer of "peace" muttered by him with the cannon levelled at us can never deceive people.

The trickery of traitor Chon Tu-hwan's trip was made all the clearer when he styled himself "a companion" of African countries and uttered words of "support" to the liberation cause of African peoples with a profusion of rubbish about "mutual cooperation" and "promotion of friendship."
The world people know only too well that traitor Chon Tu-hwan has acted as an enemy of the people of the new-emerging forces including the Arab peoples, being an imperialist stooge executing in the van the U.S. imperialists' policies of aggression and war.

It is an intolerable insult and mockery of the people struggling against imperialism and for independence and for democracy and justice for such a heinous enemy of the people to advertise himself as someone's "companion" and cry for "friendship and cooperation."

It is useless of the despicable stooge of U.S. imperialism, who is utterly isolated, to try to worm himself into the ranks of the countries of the new-emerging forces by raising the price of his body that has nosedived with a crafty "diplomatic" stunt.

KOREANS' PAPER IN CANADA RAPS INVITATION OF CHON

SK020410 Pyongyang KCNA in English 0338 GMT 2 Sep 82

[Text] Pyongyang, 2 Sep (KCNA)—A recent issue of NEW KOREA TIMES, a Koreans' newspaper published in Canada, carried an editorial protesting with the Canadian Government against its invitation of traitor Chon Tu-hwan.

Lodging a protest with the Canadian Government against its invitation of Chon Tu-hwan, the traitor to the nation and criminal, who has no support of the South Korean people and usurped power with the backing of the United States, the editorial explains the reasons.

It says: To seize "power," traitor Chon Tu-hwan arrested many guiltless politicians, passed heavy penalties including death sentence upon them and massacred fellow countrymen in Kwanju by means without precedent in the world history.

After his assumption of office, traitor Chon Tu-hwan established a dictatorial system, pursued a policy of repression and intelligence to put guiltless people behind bars and tortured them to death, encouraged secret information to create an atmosphere of distrust among the people and suppressed the press to stuff the ears, gag the mouths and blindfold the eyes of the South Korean people and make them live in darkness.

While enforcing an unprecedented power policy, he has had a hand in many scandals to line his pocket, leading the South Korean economy to bankruptcy.

He is not entitled to be a ruler in view of his knowledge and capacity. He is maintaining his "regime" only with military and economic "aid" of foreign forces.

To "invite" Chon Tu-hwan the murderer and traitor cursed by the South Korean people is an insult to them, stresses the editorial.
OVERSEAS KOREANS PROTEST U.S. PRESENCE

SK310729 Pyongyang KCNA in English 0338 GMT 31 Aug 82

It said: The United States has justified the stockpiling of nuclear weapons under the name of "protection under nuclear umbrella" as if it were doing a favour. This talk about "protection" under a nuclear umbrella, having turned others land into a nuclear base which may be scorched by nuclear weapons is like administering a medicine after giving a disease.

How can it "protect" this land from nuclear war? South Korea is in danger of being plunged into nuclear holocaust as it offered a military base not for our interests but for the interests of the United States.

Here we can understand that the "security" of South Korea is not the security of our nation and our land but that of the United States under its global strategy and South Korea is used by the United States.

The U.S. troops are the source of constant danger of leading our country to nuclear war. To maintain their military presence in South Korea, they have supported overtly and covertly the existence of a pro-U.S. military dictatoral "regime" there. They have long resorted to interference and pressure to check the growth of the national, democratic and progressive forces.

The editorial stressed: The nuclear weapons and U.S. troops must be withdrawn from South Korea. A lasting peace in the Korean Peninsula is possible only when national unity and unification are achieved.

To realise peace and achieve national unification, the Korean Peninsula should be turned into a nuclear-free neutral zone. The struggle against dictatorship and for democracy in South Korea should be waged in close combination with the movement against war and nuclear weapons and for the withdrawal of U.S. troops.

U.S. ATTEMPTS TO OBLITERATE KOREAN LANGUAGE

SK311035 Pyongyang KCNA in English 1034 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)—From the first day of their occupation of South Korea, the U.S. imperialists have persistently pursued a policy of obliterating our national language, stepping up ideological and cultural infiltration to justify their colonial subjugation policy and make the South Korean people slaves obedient to them.

In the first period of their occupation the U.S. imperialist aggressors enforced a military rule, declared in a "proclamation" that "for all purposes English will be the official language" and even made companies, shops and restaurants put up their signboards in English.

They spread reactionary ideas corroding the consciousness of national independence, such as U.S.-worshipping flunkeyism and national nihilism. At the same time, they mobilised reactionary linguists to circulate various reactionary theories, saying that the Korean people have to discard national language and use developed English. The successive South Korean puppets have zealously executed the U.S. imperialists' policy of obliterating our national language.

The puppet clique's fabrication of a "plan to simplify the Korean letters" at the instructions of U.S. imperialism is aimed at negating the superiority of the Korean language.

Due to the puppets' policy of obliterating our national language, words mixed with English, Japanese and other foreign words are widely used in South Korea. It is said that a daily average of 800 foreign words which are easy to be transposed into Korean are found in each of eight dailies in Seoul and over 1,000 mixed words which are hardly understandable in weeklies. Mixed words are widely used also in radio and television broadcasting, more than 40 percent of titles are used in foreign languages and vulgar English songs are disseminated by radio. Signboards written in foreign languages account for 77.7 percent of the total and trade marks 55 percent in South Korea; labels of cake, bread, chewing gum and so forth written in English or other mixed words account for over 99 percent. The proportion between Korean and foreign words in spoken language in South Korea is 40:60.
Even hotch-potch of Korean, English and French words is used there. As a result, nearly 70 percent of the primary school children take mixed words prevalent in South Korea for original Korean words. This fact shows well what a serious danger the manoeuvres of U.S. imperialism and its stooges to destroy our national language pose to the future of the Korean nation.
BULGARIAN PAPERS DENOUNCE COURT TRIALS IN S. KOREA

SK011722 Pyongyang KCNA in English 1541 GMT 1 Sep 82

[Text] Pyongyang, 1 Sep (KCNA) -- Bulgarian papers recently carried commentaries denouncing the South Korean puppet clique for trying to tone down their sordid scandal and divert the attention of the people elsewhere by staging "trials" of the loan scandal case and the case of arson at the "American Cultural Centre," according to a report.

In a commentary titled "What Decides the Verdict in South Korea?," the paper RABOTNICHESKO DELO notes that the Chon Tu-hwan puppet clique passed very light "penalties" upon those involved in the loan scandal in view of their crimes, for the reason that they are Chon Tu-hwan's relatives.

In an attempt to allay the resentment of the people at the Kwangju massacre, the paper says, traitor Chon Tu-hwan went to great pains to style himself "a fighter against bribery." The "trial" of the loan scandal case was aimed at propping up his dictatorial rule, it adds.

The paper says that the South Korean puppet clique harshly dealt with the "criminals" involved in the fire at the "American Cultural Centre" in Pusan by imposing death sentences and life imprisonment upon them.

Stripping bare the absurdity of these two "trials," the paper says: The Seoul "court" is a tool for "defending" the dictatorial rule shaking to its very foundation and the Pusan "court," too, is no more than an apparatus to defend the interests of those playing the masters in South Korea today.

Another Bulgarian paper OTECHESTVEN FRONT ran a commentary titled "Court Dance." It says that traitor Chon Tu-hwan danced the "court dance," carrying out "cabinet reshuffles" several times, to conceal the background of the banking scandal in which his relatives played the leading part. But he could deceive no one, it adds.

Noting that the "trial" of Chang Yong-cha, Yi Chol-hui and others, the leading characters in the loan scandal, staged in Seoul was the first "trial" where the South Korean puppets could not impose false charges upon "communists," the paper says: Though the Chon Tu-hwan clique showed to reporters handcuffed Chang Yong-cha, it is clear that they will not be unkind to this real criminal.

'KCNA' CITES FOREIGN REPORTS ON SOUTH'S LOAN SCANDAL

SK020402 Pyongyang KCNA in English 0332 GMT 2 Sep 82

[Text] Pyongyang, 2 Sep (KCNA)—Publications of various countries recently carried articles exposing the loan scandal of the Chon Tu-hwan puppet clique, according to reports.

The Jordanian journal SHUUN AL-SAA in an article titled "Big Scandal of Chon Tu-hwan Clan Threatens Existence of South Korean Regime" says: The loan scandal is an unprecedentedly large one in recent years in the world. Today the case attracts the attention of people because traitor Chon Tu-hwan is directly involved in it and it is a crime committed by his wife's relatives.

In an attempt to put down the anti-"government" sentiments mounting high among the South Korean people of all walks of life due to this case traitor Chon Tu-hwan hurriedly published "results of investigation" and replaced some leading personnel of the "Democratic Justice Party" with others and even staged a "cabinet reshuffle," it notes, and says: This is a crafty trick to keep in the dark the direct involvement of traitor Chon Tu-hwan in the scandal and to prevent its development into a more serious problem.

The case is a logical result of the U.S. troops' occupation of South Korea and anti-popular policy of the Chon Tu-hwan puppet clique, it notes.

The Bangladesh paper NAYAJUC in an article headlined "Loan Scandal in South Korea Shakes Chon Tu-hwan 'Regime'" says: The prime mover of the case is none other than traitor Chon Tu-hwan himself. He is foolishly trying hard to hush up the case. Traitor Chon Tu-hwan, the paper notes, must bear full responsibility for this case and immediately step down from power.

The Mozambican paper NOTICIAS, the paper of Democratic Yemen ARBATASHARA OUPTOUBUR and the French journal HUMANITE DIMANCHE also exposed the truth of the loan scandal in South Korea under the respective titles "Case of Illicit Money-Hoarding in South Korea," "The Opposition Forces of South Korea Demand Chon Tu-hwan to Step Down From Power" and "Loan Scandal Uncovered in South Korea."

BRIEFS

PUSAN STUDENTS' ANTI-CHON RALLY--Pyongyang, 27 Aug (KCNA)--A group of students in Pusan put traitor Chon Tu-hwan on a "mock trial" and burned him in effigy at a time when the South Korean fascist gang was staging a trial of the persons involved in the arson at the "American Cultural Centre" in the city at the puppet Pusan District court on 2 August, according to radio "Voice of the Revolutionary Party for Reunification." Those students, who are members of an underground circle of a university in Pusan, proclaimed puppet Chon Tu-hwan a special-class traitor without parallel in the world scheming to penalise and murder patriotic students and people who had raised the torch of the anti-U.S., national salvation struggle, sentenced him to burning at the stake and burned him in effigy then and there. Then they sent the traitor a notice reading: "You have already been punished in the name of the people. Admit your grave crimes against the nation and go to hell quickly." AUTHORITIES SENTENCE LEAFLET SCATTERER--Pyongyang, 28 Aug (KCNA)--The South Korean military fascist clique on 25 August staged a fascist trial at the puppet Pusan District court and passed a 5-year prison term on Yi Man-chae, a resident in Yongho-dong No 1, South District, Pusan, who had made and scattered anti-"government" leaflets, on charges of "the violation of the law on assembly and demonstration," according to a report. In the period from August last year to March this year, he made 1,250 leaflets exposing the treacherous crimes of the puppet clique and agitating rallies and demonstrations and distributed them to personages of various circles or scattered them in the city. MANY COLLEGE STUDENTS 'PUNISHED'--Pyongyang, 1 Sep (KCNA)--Over 800 students were expelled from Seoul University from 1 March last year to the end of June this year, according to a report. More than 600 of them were removed from the campus registers for failing to pay the impositions and over 180 others under the pretext of "bad records." Koryo University in Seoul on 26 August served "disciplinary warnings" to 659 students on charges of "bad records" and expelled 34 of them. The Chon Tu-hwan fascist clique had already disciplined or expelled over 2,500 students from different universities in Seoul in a "disciplinary step." The Chon Tu-hwan puppet clique raised the registration fees by an average of 25 percent at South Korean universities
with the opening of the new academic year last year and are expelling students who cannot pay them and driving out progressive students under the pretext of "bad records." [Text] [SK011635 Pyongyang KCNA in English 1510 GMT 1 Sep 82]

SOUTH'S RESERVE FORCES' EXERCISES PLAYED—Pyongyang, 26 Aug (KCNA)—The South Korean military fascist clique are staging war exercises called "surprise mobilisation training" by dragging into it the "Homeland Defence Reserve Forces" allegedly for taking "a posture against" someone's "invasion," according to a report. These provocative exercises, expected to continue a whole week, are taking place in a number of areas of South Korea along with the "annual commanding post training of the South Korea-U.S. Combined Forces Command" code-named "Ulji-Focusland-82" which is under way with Seoul as the main theatre. Openly provoking us, they are making quite a noise, blaring that the current exercises are aimed at "examining the war-time mobilisation system" and "testing the real war capacity." [Text] [SK261022 Pyongyang KCNA in English 1010 GMT 26 Aug 82]

MILITARY EXERCISE 'ULCHI-FOCUS LENS'—Pyongyang, 27 Aug (KCNA)—MINJU CHOSON today, commenting on the "Ulchi-Focusland-82" exercise now being held by the U.S. imperialists and the Chon Tu-hwan clique, says that the current military rehearsal is one for further perfecting the coordinated operation command system of the U.S. imperialist aggression forces and the South Korean puppet army. The author of the commentary says: Entering this year, the U.S. imperialists staged the "Team Spirit 82," the largest war exercise ever in history, and the puppets, on the orders of their master, are frantically holding war exercises reminiscent of actual fighting, such as "civilian defence training" and "blackout training." The current "Ulchi-Focusland-82" exercise of the U.S. imperialists and the Chon Tu-hwan clique is part of the war exercises staged by them almost every day. Facts clearly prove that the war manoeuvres of the U.S. imperialists and the South Korean puppets against us have reached a more serious stage. The danger of war in Korea comes from the South, not from the North. An "incident," "detente" and "peaceful unification" clamoured about by the U.S. imperialists and the South Korean puppets are nothing but slogans for veiling their war manoeuvres and deceiving public opinion. The U.S. imperialists must give up at once their policy of South Korean occupation and war manoeuvres and withdraw from South Korea, taking along their aggression forces and destructive weapons and the Chon Tu-hwan clique must stop acting disgracefully as an executor of the master's policy of aggression and war. ANTI-CHON FEELINGS REPORTED—Pyongyang, 31 Aug (KCNA)—The August issue of the Japanese politico-theoretical magazine SEKAI, reporting about a prayer meeting of religionists held on 18 May in Kwangju in memory of the victims of the Kwangju popular uprising on the occasion of its second anniversary, said that hidden in Kwangju, a city of eternal youth, is the strength of the popular masses which will smash the terrorist "regime." The prayer meeting openly called for saving the whole nation from the terrorists and shouted that a new sky and a new land should be born from the bloodshed in Kwangju to make the people the master of this land, the magazine wrote. According to the magazine, a pastor said at the meeting, denouncing the
Chon Tu-hwan fascist bandits: Who has kindled in Kwangju the flame of this horrible oppression? Why has there not been a single peaceful day but have terrible cases taken place without letup, frightening the people since the appearance of the "regime" captured by Chon Tu-hwan? Noting that Chon Tu-hwan is shamelessly twaddling about "national concord," having turned South Korea into an unrivaled sphere of activity of his clan, the pastor said: As a big loan scandal was brought to light recently and it became a target of public hatred, this group which had been swaggering around is now struggling to crawl out from under the skirt of Chang Yong-cha. CHON AFRICAN TOUR DENOUNCED—Pyongyang, 28 Aug (KCNA)—The Ghanaian paper THE GHANAIAN TIMES 20 August carried an article exposing fascist repression of people by traitor Chon Tu-hwan and denouncing his African trip, according to a report. Noting that South Korea has turned into a slaughterhouse where the blood of the people flows, the paper cites concrete facts laying bare the brutal suppression of people by traitor Chon Tu-hwan typified by the Kwangju bloodbath. The paper continues: The Chon Tu-hwan clique who have established a heinous military fascist rule are utterly isolated at home and abroad and are facing their doom. Even if traitor Chon Tu-hwan makes an African tour, he can never be a friend of the African people nor can he get rid of international isolation. His trip will only bring into salient relief his true colour as the enemy of the African people and lash the progressive governments and peoples of Africa into towering anger and fury at him. Because the progressive governments and peoples of Africa know well that traitor Chon Tu-hwan is a faithful vassal of the imperialists resorting to vicious schemes against the national liberation struggle in Africa and the just struggle of the Palestinian people, hand in glove with the South African racists and the Israeli Zionists, and a criminal who committed mass destruction at the battlefields of the U.S. imperialists' war of aggression in Vietnam already long ago. PAPER HITS CHON'S CANADIAN TOUR—Pyongyang, 1 Sep (KCNA)—NEW KOREA TIMES, a newspaper of Koreans published in Canada, recently carried statements issued by the Society for the Study of Democracy and National Unification in Canada and the Toronto Society for Promotion of Commemoration of the Kwangju Righteous Uprising in denunciation of traitor Chon Tu-hwan's tour of Canada. The statement of the Society for the Study of Democracy and National Unification in Canada opposes the tour of Canada by Chon Tu-hwan, the traitor to the nation, who put down the uprising of patriotic citizens of Kwangju and slaughtered thousands of fellow countrymen with U.S.-made destructive weapons under the manipulation of the United States and calls for overthrowing Chon Tu-hwan, the stooge of the United States and prime mover of the Chang Yong-cha loan scandal. In its statement the Toronto Society for Promotion of Commemoration of the Kwangju Righteous Uprising lodges a strong protest with the Canadian Government for its "invitation" of the chieftain of the military hooligans who slaughtered fellow countrymen. It says: We denounce brazen-faced act of Chon Tu-hwan in visiting Canada styling himself "president" elected in a democratic way, while feigning ignorance of his thrice-cursed crimes and keeping many guiltless people in prison. Recalling the cries of the Kwangju citizens "tear Chon Tu-hwan to death," we pledge ourselves to
the spirits of those who were killed in Kwangju to overthrow him, seeing
that his doomsday is drawing near. [Text] [SK312344 Pyongyang KCNA in

CHON'S FEAR OF SHOOTING—Pyongyang, 1 Sep (KCNA)—A recent issue of HANMINBO, a newspaper of Korean residents published in the United States, said that traitor Chon Tu-hwan is seized with uneasiness and fear by frequent shooting incidents. The paper noted that traitor Chon Tu-hwan failed in his attempt to raise 700,000 million won through his hirelings including Yi Chol-hui and Chang Yong-ch'a involved in the loan scandal and form a private organization throughout South Korea with his younger brother Chon Kyong-hwan as the central figure. Pointing out that during his "inspection" of the frontline Chon Tu-hwan was in a bullet-proof glass box, the paper said: His personal guard was too strict and this was not because of a vague sense of uneasiness but was based on real danger. The paper reported about a shooting incident which happened in his office room of Chongwadae on 25 January this year, and two abortive attempts on the life of Chon Tu-hwan in December last year. There was an incident in which disension and discord between the pro-Chon Tu-hwan forces and the anti-Chon Tu-hwan forces in the military developed into a shooting battle, the paper noted, and said: To meet Chon Tu-hwan, even those who were in the same class with him at the army academy have to wait in Chongwadae, moving rooms twice or thrice and have their bodies thoroughly searched. OVERSEAS KOREANS ON U.S. ROLE—Pyongyang, 1 Sep (KCNA)—A recent issue of NEW KOREA TIMES, a Koreans' newspaper published in Canada, carried a statement released by the "U.S.-Resident Koreans Society for Unification," an overseas Koreans organization. The statement says: After the 15 August 1945 liberation, a new dominator under the guise of "liberator" and "savior" seated himself in the ruling position in place of Japanese imperialism in South Korea. Today there flows in South Korea the anti-national, anti-democratic stream in which flunkeyism punishes independence, treachery beats patriotism and dictatorship and torture strangle the popular masses. Unless the rosy mask is taken off the United States and the cause of diseases removed, this counter-stream is inevitable. Pointing out that the successive rulers of South Korea since liberation have been selected by the United States and they pursued fascist dictatorship under U.S. manipulation, the statement demands: The United States must no longer obstruct the democratisation of South Korea and reunification. WORKERS CALL FOR PRISONERS' RELEASE—Pyongyang, 1 Sep (KCNA)—The Italian Federation of Transport Workers recently adopted a resolution supporting the just cause of national reunification of the Korean people, according to a report. The resolution says: The Italian Federation of Transport Workers, in the name of its 250,000 members, reaffirms its solidarity with and support to the Korean people in their struggle for national reunification. Our federation demands the withdrawal of the U.S. troops from South Korea, the
prerequisite to the independent and peaceful reunification of Korea. Considering that the reunification of Korea in accordance with the proposal put forward by President Kim Il-song of the Democratic People's Republic of Korea will be a great contribution to defence of peace not only in Korea but also in Asia and the whole world, our federation demands a stop to the repression of democratic freedom and immediate release of the trade union leaders, political figures and democrats under arrest in South Korea.

'NODONG SINMUN' EMPHASIZES NATIONAL INDEPENDENCE

SK251042 Pyongyang KCNA in English 1024 GMT 25 Aug 82

The article says: In his historic work "Tasks of the People's Government in Modelling the Whole of Society on the Chuche Idea" the great leader Comrade Kim Il-song propounded a new unique idea and policy on making the whole world independent. Comprehensively expounded in it are theoretical and practical questions arising in building a new independent society from the essence of the work of making the whole world independent to its course and the way for its realization.

The great leader taught that an important way to make the whole world independent is for all countries and nations to maintain chajusong. This idea is an outstanding idea indicating the most straight way of successfully carrying out the work of making the whole world independent and a programmatic guideline to be firmly adhered to in the struggle of the world people to build a free, prosperous new world freed from all manner of domination and subjugation.

As taught by the great leader Comrade Kim Il-song, an independent world means a world where dominationism and colonialism of all forms have been completely wiped out and the sovereignty of all countries and nations has been fully realized. To realize the chajusong of a country and a nation it is necessary, first of all, to achieve national independence and establish an independent government. An independent government is a political organisation representing the interests of the country and the nation and a powerful political weapon for the building of a new society.

It is the first and foremost criterion of an independent and sovereign state to maintain chajusong in state activities. If a country with power loses chajusong and acts under other's baton, such a country cannot be called, in fact, an independent and sovereign state. What is important in maintaining chajusong of a country and a nation is to strictly exercise the sovereignty in external relations.
All countries and nations must develop friendly and cooperative relations on the principles of complete equality and mutual respect; they must neither infringe upon the sovereignty of others nor allow their own sovereignty to be violated.

When all the countries and nations exercise their sovereignty, there will be no commanding or obeying countries, no dominating and dominated nations in the world and complete equality and freedom will be ensured to the countries and nations.

If a victory is to be won in the sacred struggle for defending chajusong, countries and nations must firmly unite on the basis of chajusong. Only internationalist unity based on chajusong can display invincible might as truly voluntary, equal and solid one.

With the great leader Comrade Kim Il-song propounding the unique idea of making the whole world independent and laying down the principle of all countries and nations maintaining chajusong, the world people have come in possession of a powerful ideological and theoretical weapon for destroying for good the old world that recorded a history of domination and subjugation, aggression and plunder, and building a new bright world.

Invincible is the cause of making the whole world independent, the common desire and hope of mankind.

KWP PUBLICATION ON INHERITANCE OF CHUCHE CAUSE

SK281547 Pyongyang KCNA in English 1517 GMT 28 Aug 82

[Text] Pyongyang, 28 Aug (KCNA)--The publishing house of the Workers' Party of Korea recently brought out a book titled "Brilliant Inheritance of Cause of Chuche." The revolutionary cause of the working class is the cause of a leader and a protracted undertaking to be carried on generation after generation.

He solves all problems arising in the leadership of the popular masses from the principle of making them maintain the stand of master in the revolution and construction and fully play their role as master.

In each period and each stage of the developing revolution, the dear leader puts up a proper fighting slogan and indicates a correct way for its materialisation and unites the popular masses as a single political force, leading them to continued leap and innovation.

The dear leader is a genuine leader of the people possessed of noble communist virtues—unboundedly broad magnanimity and lofty personality in treating people. He looks after the working people with a paternal affection. With warm revolutionary comradeship and communist sense of obligation he infinitely cares for and loves comrades struggling on the same road of the revolution. Today our people hold the dear leader Comrade Kim Chong-il in high esteem, absolutely trust and ardently revere him and wholly entrust the destiny of the country and their own to him.

The book says that the glory of Korea and the unbounded pride of our people lie in advancing, holding in high esteem respected Comrade Kim Il-song, the sun of the revolution, as the great leader and dear Comrade Kim Chong-il as the lodestar in the van of the revolution.

DAILY ON CHUCHE'S REVOLUTIONARY OUTLOOK

SK301024 Pyongyang KCNA in English 1006 GMT 30 Aug 82

[Text] Pyongyang, 30 Aug (KCNA)--Our party, basing itself on a profound exposition of the philosophical principle of chuche, clearly expounded that the chuche idea is a most scientific and revolutionary world outlook of our era, an era of chuche, notes NODONG SINMUN 29 August in an article titled "The Chuche Idea Is Most Scientific and Revolutionary World Outlook."

The article says in part: The first reason why the chuche idea becomes a most scientific and revolutionary world outlook of our era is that it is based on a correct philosophical principle.

The chuche idea is the first in history to propound the basic problem of philosophy, attaching the greatest importance to man, and indicate the philosophical principle that man is the master of everything and decides everything. This is a man-centered philosophical principle expounding the position and role of man in the world.

This principle is based on a new exposition of man. The chuche idea scientifically elucidates the essential nature of man in social relations. Man is a social being with chajusong (independence), creativeness and consciousness.

For his chajusong, creativeness and consciousness, man becomes the most superior and powerful being in the world, approaches the world in a revolutionary and positive way, not in a fatalistic and passive way, and remakes it in a purposeful way, not in a blind way.

The clarification of the philosophical principle by the chuche idea based on the scientific exposition of a social human being marks a radical turn in the development of world outlook.

The chuche idea also expounds a man-centered, new world outlook. This is an important reason why the chuche idea becomes a revolutionary world outlook of our era. The chuche idea values man as the master dominating the world, not as a mere part of it, and thereby gives a new outlook on the world and its changes and development with the greatest importance attached to man, master of the world.
Placing man in the centre in approaching the world means proceeding from the interests of man, the master of the world, and attaching basic importance to the activities of man, the remaker of the world, in approaching the world and its changes and development.

The next reason why the chuche idea becomes a most scientific and revolutionary world outlook is that it renewed a view on social history.

The chuche outlook on social history gave a new exposition of the basic principle of the social movement, revolutionary movement of the popular masses, considering them the subject of history and the social movement. The subject of history is the masses of the people, a socio-historic movement is their independent and creative movement and their independent ideology plays a decisive role in a revolutionary struggle. This socio-historic principle forms the basic content of the chuche-based outlook on history. This is a new scientific exposition of the essence, nature and motive force of the socio-historic movement, a movement of the subject.

The chuche outlook on social history correctly defines the essence of the socio-historic movement waged by the working masses for chajusong, and gives a scientific elucidation of its source and motive and a profound exposition of the orientation of social development and its law. Herein lie the essential nature of the chuche outlook on social history and the source of great force with which the chuche idea inspires the popular masses to the revolutionary struggle.

The chuche idea is a most scientific and revolutionary world outlook—this original definition by our party carries weighty theoretical and practical significance in the development of the revolutionary idea of the working class and in the realisation of the cause of chajusong.

The clear exposition of the reasons why the chuche idea becomes a most scientific and revolutionary world outlook helped realise the greatness and originality of the chuche idea and enabled the popular masses to more thoroughly apply the chuche idea in cognizance and practice. This is a historic contribution of our party to the development of the revolutionary idea of the working class and to the realisation of the cause of chajusong.

KIM IL-SONG, KIM CHONG-IL CARE FOR FORMER OFFICIAL NOTED

SK311145 Pyongyang KCNA in English 1032 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)--NODONG SINMUN dedicated one whole page to an article titled "Lofty Benevolence Associated With the Growth of the Working Class."

The article tells an emotional story that the great leader Comrade Kim Il-song brought up Kim Pyong-sik, an ordinary worker who barely finished the primary school course before liberation, to be a leading functionary in charge of construction work of the country.

Kim Pyong-sik worked at the Hungnam fertilizer factory in the period of the Japanese imperialist colonial rule. It was only when he was taken in the warm bosom of the great leader after liberation that he came to follow the road of a worthy life.

He met the great leader in April 1946, one year after the country was liberated, for the first time, while working as a finishing worker at the electrolytic shop of the Hungnam fertilizer factory.

Saying that in order to make our people lead an affluent life as early as possible, it was necessary above all to do farming well and, to this end, large quantities of fertilizers should be sent to the countryside, the great leader asked workers of the factory if they could rehabilitate with their own efforts the factory destroyed by the Japanese imperialists and produce much more fertilizers.

Answering the great leader, Kim Pyong-sik said that he would make utmost efforts to rehabilitate the factory without fail and produce more fertilizers.

Looking at him trustingly, the great leader warmly shook his hand and said: Thank you very much. I believe you.

Under the warm care of the great leader, he became a chief, vice-director and director of the large factory.

The great leader showed deep trust in him, appointing him as minister of construction and building materials industry in 1958 when the country's
construction was in rapid progress and later making him work at responsible posts in the Ministry of Urban and Industrial Construction, the Pyongyang Municipal General Bureau of Construction and other construction organs.

The great leader frequently called Kim Pyong-sik to his office to teach him one by one so that he might creditably discharge his heavy duty. The great leader always took him along during on-the-spot guidance to teach him and frequently sent him to the construction of grand monumental edifices.

In 1978 when Kim Pyong-sik was in charge of the construction of the international friendship exhibition, an unexpected accident happened and he was in a critical condition. Hearing this, the great leader warmly said that he performed many feats in the construction of Pyongyang and must be saved at any cost.

Upholding this lofty intention of the great leader, the dear leader Comrade Kim Chong-il sent a helicopter and a group of competent doctors for his medical treatment.

When Kim Pyong-sik died in 1978, the great leader and the dear leader sent wreaths in their name and saw to it that he was buried in the martyrs cemetery.

'KCNA' ON KIM CHONG-IL'S GUIDANCE TO CONSTRUCTION

SK271530 Pyongyang KCNA in English 1507 GMT 27 Aug 82

[Text] Pyongyang, 27 Aug (KCNA)—Pyongyang, the capital of revolution, has today turned into a magnificent and grandiose, modern city. The history of the construction of Pyongyang is associated with undying exploits of the dear leader Comrade Kim Chong-il. The dear leader clarified with lucidity all problems arising in the construction of the capital including the problem of correctly laying out its central part, of improving the general looks of the city and of building streets and erecting monumental structures, and gave detailed teachings on the ways of city construction.

He said that the central part of Pyongyang, the capital of people, should always be crowded with people and therefore be laid out to this end.

He said that the Grand People's Study House should be constructed on Namsan Hill overlooking the Kim Il-song Square and the heart of the capital be built up with it as the architectural axis and that the study house should be built in a grand style in national form so that it may not be overshadowed by big structures to be built in the future in its neighbourhood but stand in bold relief as the axis. He instructed that the spacious area surrounding the house should be boldly cleared of other buildings and arranged into a fountain park and small square.

He repeatedly examined the design and model of the house and organised a powerful construction force to wind up the construction project in a brief period.

The Grand People's Study House with a total floor space of some 100,000 square metres is standing imposingly in excellent harmony with the Kim Il-song Square and such monumental structures as the Mansudae Art Theatre, Pyongyang Student's and Children's Palace and Pyongyang Department Store No 1, adding to the grandeur and beauty of the heart of the capital prospering day by day.

The dear leader Comrade Kim Chong-il also guided the work for forming new modern residential quarters to completely change the general looks of the capital.
With a far-reaching plan to effect a new change in the city construction, he set forth concrete ways to build a new street lined with modern multi-storied flats by completely doing away with the old Yonhwason (circular) street built after the war.

The dear leader Comrade Kim Chong-il said that if the "sea of blood"-style revolutionary opera in the early 1970's was the starting point of a great turn in the development of arts, the construction of the Yonhwason Street (now Changgwang Street) should be made the starting point of a new change in our construction domain entering the first year of the 1980's.

He organised a powerful construction force for the building of the Changgwang Street and solved all problems one by one, grasping overall work from the plan for the street, its model and construction.

The constructors completed the project of building high-rise apartment houses with a total floor space of hundreds of thousands of square metres in a matter of 10 months.

The new street lined with apartment houses of different stories shows well the light straight and curved lineal beauty and solid beauty and is varied in architectural structure thanks to the excellent harmony of different styles of houses, square, tower, and saw-toothed.

The flats have been built and appointed well to suit the sentiments and national character of the people.

The Changgwang Street forming an excellent ensemble with the Pyongyang indoor stadium, the People's Palace of Culture, the Changgwang health complex and other monumental edifices give a new big change to the general looks of the capital.

While solving immediate problems with his unique architectural aesthetic idea and outstanding intelligence, superb leadership ability and extraordinary revolutionary sweep, the dear leader Comrade Kim Chong-il always plans work to be undertaken at the next stage and organises construction operations and, after the work is carried out, conceives a task to be fulfilled at the higher stage and directwork to finish it at one sweep.

Having directed work for the construction of the Changgwang health complex, the Pyongyang Maternity Hospital and the Changgwang Street one after another, he saw to it that efforts were concentrated on the construction of the Munsu Street in 1981. At the same time, he energetically guided the construction of the tower of chuche idea, Arch of Triumph, ice rink, Chongnyu Restaurant and Pyongyang Department Store No 1 to complete them before the 70th birthday of the great leader.

In the last few years many grand monumental structures have been erected in the central part of the capital, the Kim Il-song Stadium and the Arch of
Triumph in the Moranbong District and the Tower of Chuche Idea along the Taedong River in the east Pyongyang District to further improve the general looks of the capital under the wise guidance of the dear leader.

Many foreign visitors to our country, unable to repress their amazement at the changed looks of Pyongyang, call the city with high praise "a city of paradise," "a city of hope."

'KCNA' ON DEVELOPMENT OF SHIPBUILDING INDUSTRY

SK261520 Pyongyang KCNA in English 1506 GMT 26 Aug 82

[Text] Pyongyang, 26 Aug (KCNA)--The shipbuilding industry has made rapid development in the Democratic People's Republic of Korea. The shipbuilding industry of Korea is greatly contributing to the development of the fishing industry and marine transport by building ships of tens of thousands of tons.

The great leader Comrade Kim Il-song put forward a unique policy of building an independent and modern shipbuilding industry and wisely guided the struggle for its implementation. Under the wise guidance of the great leader our country laid the bases of shipbuilding industry at various favourable places of the east and west coasts in the period of the great chollima upsurge after the war and went over from the building of wooden ships to that of iron-clad ships.

Later the state, while increasing the production capacity of the existing shipyards, laid new bases and trained a large number of technicians and specialists in this domain.

The 1970's witnessed the leaping development of Korea's shipbuilding industry. The shipyards were newly built or expanded on a large scale and their technical equipment was replaced with large, modern and automatic one and the production processes were streamlined. The production bases of the 2,500 hp medium-speed engines, 3,000 hp high-speed engines and ship equipment and modern ship repair bases were solidly built up.

Korea's shipbuilding industry came to build large cargo ships of tens of thousands of ton class and 15,000 ton processing mother ships, 5,000 ton refrigerator transports, 3,750 ton stern-trawlers and other fishing ships and technical ships.

In 1974 the Chongjin shipyard built and launched the 14,000 ton cargo ship "Wangjaesan," the first one of its kind in our country, on its own design and with its own technique. And in 1975 the Nampo shipyard built 20,000 ton cargo ship "Taedonggang."

35
During the 6-year plan period (1971-1976) the building of ships increased more than four times.

Entering the second 7-year plan (1978-1984), the Chongjin and Nampo shipyards built "Tumangang," "Taehongdan," "Kwanmobong" and other 14,000 ton cargo ships and "Yonpung," "Ammokgang" and other 20,000 ton cargo ships.

During the present second 7-year plan Korea will build many 20,000, 50,000 and 100,000 ton cargo ships and 20,000 ton processing mother ships, 5,000 ton refrigerator transports and other fishing boats, and self-propelled dredgers and various other technical ships.

NEW TEACHING MATERIALS AID SCIENCE, INDUSTRY

SK281024 Pyongyang KCNA in English 1014 GMT 28 Aug 82

[Text] Pyongyang, 28 Aug (KCNA)---Thousands of textbooks for universities and colleges and higher specialised schools and for common education have been rewritten to suit the demands of the developing realities in Korea.

Functionaries of the Education Commission, teachers of a number of universities and colleges and higher specialized schools, researchers of institutes and those at work sites all over the country carried out qualitatively in a short time the authoring of the vast quantities of teaching materials by pooling their creative wisdom and energy. All the students and school children will study with these textbooks from the new school year which begins on 1 September.

The systems and contents of those rewritten teaching materials are suited to the requirements of the policy of the Workers' Party of Korea for thoroughly establishing chuche in education and carrying out the chuche-orientation, modernisation and scientisation of the national economy. Their contents conform with the developing realities and the trend of the development of modern science and technology.

The teaching materials on mining industry give deep-going descriptions of scientific and technical knowledge needed for introducing large-size, modern and high-speed mining equipment, carrying out comprehensive mechanisation and automation at the coal and ore mines and scientific prospecting, excavating and ore dressing methods conforming to the geological conditions and characteristics of minerals of our country.

The teaching materials on the machine building industry fully expound theoretical and practical problems arising in designing and manufacturing more efficient and economic machines and introducing precision, large-size and high-speed machines, and scientific and technical problems particularly in actively introducing press and stamp forging.

The teaching materials of agricultural biology give full accounts of the principles of the chuche-based farming method founded by the great leader Comrade Kim Il-song and sufficient scientific and technical knowledge necessary for their strict application.

The work of rewriting the teaching materials on an overall scale to suit the demand of the developing realities has been successfully carried out with the approach of the fifth anniversary of the publication of "Theses on Socialist Education" by the great leader Comrade Kim Il-song (5 September).

KCNA HAILS FOUNDING OF COLLEGE ON TELEVISION

SK290955 Pyongyang KCNA in English 0944 GMT 29 Aug 82

[Text] Pyongyang, 29 Aug (KCNA)--The college on TV has been founded amid the keen interest of the entire working people. Its educational telecast will begin from 1 September, the first day of the new school year. Students embraced in the correspondence courses of colleges under the study-while-working educational system will benefit by it.

The college on TV came into being when the whole country is covered with TV networks and everyone has attained culture and knowledge above the level of middle school graduation, in response to the developing reality which faces us with the task to gradually enforce compulsory higher education.

Now the students of the correspondence courses and working people who are active in various domains of socialist construction have become able to receive higher education in their localities through telecast, without leaving their posts.

The founding of the college on TV is a signal step of weighty significance in attaining the strategic goal of our party, the intellectualisation of all the members of society.

The dear leader Comrade Kim Chong-il had clearly indicated the direction and ways for the founding of the college on TV and all problems arising in its management and operation and taken concrete measures for the purpose. Five 20-member study teams had been organized at many units including factories, enterprises and cooperative farms throughout the country with students of correspondence courses, lecture rooms furnished with TV sets had been arranged and the students had been supplied with necessary textbooks and reference books.

The college teaches the students mathematics, physics, foreign languages and other higher basic subjects and conducts educational telecast three times a week from 1730 to 1900.

KIM CHONG-IL GUIDES IN ICE RINK

SK311543 Pyongyang KCNA in English 1524 GMT 31 Aug 82

[Text] Pyongyang, 31 Aug (KCNA)--The ice rink located on the bank of the Potong River in Pyongyang is animated these days with professional and amateur skaters. This ice rink completed at the end of last year has been normally operating all through its first summer. The temperature on the surface of the ice is 3-5 degrees below zero and that of the auditorium 18-20 degrees centigrade. The air is always clean.

Now hockey players are undergoing an intense training on the threshold of an international junior friendship ice hockey tournament of socialist countries here.

Figurers are also absorbed in training. Fascinating is the rhythmic movement of young figurers sliding on the spacious ice ground under the bright rays of hundreds of lamps projected from the vault.

During breaks an ice-planing car smooths the surface of the ice in 15 minutes.

With this ice rink built, the physical exercise and technical skill of the skaters have improved noticeably through their uninterrupted training in all seasons, said the general secretary of the Korean Ice Hockey Association. So happy, he said, are our sportsmen who are testing their skill to their hearts content in this excellent, modern ice rink provided by the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il.

The great leader said that our skaters could not do themselves justice at international competitions by practising on roller skates during summer and training themselves on Lake Pujon in short winter. He taught that a modern ice rink should be built so that they might normally train in winter and summer.

The dear leader elaborated upon a plan to build a most modern ice rink for the use in every season, upholding the lofty intention of the great leader, and indicated a concrete direction of designing from the style and scale of the ice rink to its detailed contents. Afterwards, he saw the blueprints and models of the rink several times and wisely guided its construction, correcting defects one by one.

Under the energetic guidance of the dear leader the ice rink took shape as a large-scale, modern sports edifice with a total building space of more than 25,000 square metres and above 6,000 seats.

CHONGNYON SCORES JAPANESE TEXTBOOK REVISION POLICY

SK300826 Pyongyang KCNA in English 0817 GMT 30 Aug 82

[Text] Tokyo, 28 Aug (KNS-KCNA)--The Central Standing Committee of the General Association of Korean Residents in Japan (Chongnyon) held a press conference at the Korean Hall in Tokyo on 26 August and made public a statement denouncing a talk issued by the director of the cabinet secretariat of the Japanese Government that day in connection with the revision of Japanese textbooks on history.

Saying that the Japanese Government's view on the revision of textbooks bitterly denounced at home and abroad is an insincere excuse which convinces no one, the statement stresses:

The Japanese Government must take prompt rectifying measures. But it said that it would take measures several years after, making this or that excuse. This cannot be construed otherwise than an attempt to delude public opinion, dragging on time, and make no correct revision in the end.

What is all the graver in this view is that it made no word of apology to the Democratic People's Republic of Korea, the genuine fatherland of the entire Korean people. The Japanese authorities must apologize to the entire Korean people for the distorted description of the history of aggression on Korea in the textbooks and promise an immediate correction.

The essence of the question of Japanese textbooks lies in that the Japanese reactionary ruling quarters are scheming to conceal the aggressive crimes committed by the Japanese imperialists in the past, embellish them and make ideological preparations to reinvade Korea and Asia.

We strongly demand once again that the Japanese authorities sincerely reflect on the crimes of the Japanese imperialists against the Korean people and correct the distorted description in the Japanese textbooks and correctly describe historical facts as demanded by the Korean people and the Asian people.

KIM CHONG-IL RECEIVES MESSAGE FROM U.S. JOURNALIST

SK271600 Pyongyang KCNA in English 1538 GMT 27 Aug 82

[Text] Pyongyang, 27 Aug (KCNA)--The dear leader Comrade Kim Chong-il, member of the Presidium of the Political Bureau, and secretary of the Central Committee of the Workers' Party of Korea, received solidarity messages or letters from organisations supporting Korea's reunification and organisations for friendship with the Korean people during the month of anti-U.S. joint struggle.

A solidarity message from William Ryan, chairman of the Guardian Committee for Supporting Korea's Reunification and editor of the U.S. paper GUARDIAN, says: South Korea occupied by 40,000 U.S. troops armed with nuclear weapons has now become a hotbed of danger of war in the world.

The U.S. imperialists occupation of South Korea is also a basic obstacle to the independent and peaceful reunification of Korea, the unanimous aspiration of the Korean people, and constitutes active support to the ill-famed fascist dictator of South Korea, Chon Tu-hwan, who is widely known for his brutal suppression of the people, the Kwangju massacre in particular.

Considering all these facts, the progressive people of the United States regard it as their particular duty to set a month of joint struggle for the withdrawal of U.S. troops from South Korea and wage a support movement.

The GUARDIAN newspaper office and the Guardian Committee for Supporting Korea's Reunification express firm solidarity with your people's struggle for driving the U.S. imperialist aggression forces out of the Korean Peninsula.

We demand the United States to stop supporting the South Korean dictatorial "regime" and completely withdraw its troops and nuclear weapons from South Korea.

In his solidarity letter Luis Perez Rara, chairman of the Spanish Association for Friendship and Solidarity with the Korean People, on behalf of the attendants of a solidarity meeting supporting the independent and peaceful reunification of Korea which was held in Madrid, says:
Believing that the proposal for founding the Democratic Confederal Republic of Koryo advanced by the great leader President Kim Il-song is a most realistic and reasonable way for the independent reunification of Korea, we express full support to the patriotic struggle of the Korean people for democracy in South Korean society and the reunification of the country.

We express indignation at the U.S. troops occupation of South Korea and the South Korean authorities treacherous acts and resolutely protest against and denounce the "two Koreas" plot and new war provocation manoeuvres of the U.S. imperialists and the South Korean fascists.

The reunification of Korea is the unanimous demand of the world's peace-loving people advocating cha'iusong (independence).

We will energetically conduct various activities for forcing the U.S. troops to withdraw from South Korea at an early date and exposing the South Korean authorities policy of dependence upon outside forces.

We are convinced that under the wise guidance of the great leader and the dear leader the Korean people will realise the proposal for founding the Democratic Confederal Republic of Koryo and build an independent and prosperous, reunified Korea.

The solidarity message and letter sincerely wished good health and a long life to the dear leader Comrade Kim Chong-il.

The messages extend warm congratulations and militant greetings to the dear leader Comrade Kim Chong-il on the occasion of the day when the Korean people won a great victory in the fatherland liberation war against the U.S. imperialist aggressors.

Agnes Bend, chairman of the Guyanese National Committee for the Study of the Chuche Idea of Comrade Kim Il-song and president of the study group of the chuche idea of Comrade Kim Il-song of Guyanese women, says: The great victory of the Korean people in the fatherland liberation war was a shining victory of the military idea of self-reliant defence, chuche-based tactics and outstanding art of leadership put forward by the great leader Comrade Kim Il-song, the ever-victorious iron-willed brilliant commander.
The precious exploits and experiences achieved by the great leader in the fatherland liberation war against the U.S. imperialists have become a torch-light indicating the road of the peoples fighting for national independence and liberation.

U Po Da Pay, secretary general of the Burma-Korea Friendship Association, says: The 29 years have passed since the fire ceased and armistice was achieved in Korea. But, owing to the war policy and nation-splitting manoeuvres of the U.S. imperialists and the Chon Tu-hwan clique, peace is under constant threat and the danger of permanent division is growing.

The U.S. imperialists, not forgetting the bloody lesson of the Korean war, must give up the new war manoeuvres and scheme of permanent division of the nation in Korea, and withdraw at once from South Korea, taking along their troops and all the lethal weapons including nuclear weapons.

Zuer Al Midani, general secretary of the Arab Lawyers Union, says: The victory of the friendly Korean people over the U.S. imperialist aggressors inspires the Arab people with the conviction of certain victory in their struggle against the U.S.-led imperialist forces and Zionism.

Shamsul Alam, chairman of the Central Committee of the Bangladesh Self-Reliance Research Academy, says: Availing ourselves of this opportunity, we pay highest regards to Your Excellency Kim Chong-il who, personifying the noble virtues of the great leader, devotes all your energy to strengthening the political and ideological education among the soldiers and people and guiding them to give full scope to their political and ideological superiority, combining military technique with it.

We are firmly convinced that the Korean people and the Korean People's Army, under the wise leadership of your excellency, have grown to be invincible forces prepared to smash any aggression of the U.S. imperialists and their stooges.

The messages wholeheartedly wish good health and a long life to the dear leader Comrade Kim Chong-il.

DAILY OBSERVES HONECKER'S BIRTHDAY

SK250534 Pyongyang KCNA in English 0425 GMT 25 Aug 82

[Text]  Pyongyang, 25 Aug (KCNA)—Today is the 70th birthday of Comrade Erich Honecker, general secretary of the Central Committee of the Socialist Unity Party of Germany and chairman of the Council of State of the German Democratic Republic. On this day NODONG SINMUN carries, together with his photograph, an article titled "70th Birthday of Comrade Erich Honecker."

The article says in part:

Comrade Erich Honecker has been devoting his all to the victory of the cause of socialism in the German Democratic Republic.

Born in the family of a miner in Neumkirchen, Saar, on 25 August 1912, he joined the German Communist Party in 1929. He led the illegal youth work against fascism in Ruhe area, southwestern part of Germany and Berlin and joined in organising the anti-fascist resistance movement.

For these activities Comrade Erich Honecker was repeatedly arrested by the fascists and sentenced to 10 years in prison in 1937. After his release from prison he conducted the youth work as secretary in charge of youth work of the Central Committee of the German Communist Party and chairman of the Central Anti-Fascist Youth Committee.

After the war Comrade Erich Honecker made positive efforts to advance the revolution and construction in the German Democratic Republic, holding important posts of the party and the state.

He was elected to the Central Committee of the Socialist Unity Party of Germany in April 1946. From 1946 to 1955 he worked as chairman of the Central Committee of the Free German Youth Union.

In July 1950 he was elected alternate member of the Political Bureau of the Central Committee of the Socialist Unity Party of Germany, and member of the Political Bureau and secretary of the same in 1958.
He was elected first secretary of the Central Committee of the Socialist Unity Party of Germany at the 16th plenary meeting of the party in 1971 and again first secretary of the Central Committee of the party at its 8th congress.

Comrade Erich Honecker was elected general secretary of the Central Committee of the Socialist Unity Party of Germany at its 9th congress held in May 1976 and chairman of the Council of State of the German Democratic Republic in October that year. He was reelected general secretary of the Central Committee of the Socialist Unity Party of Germany at its 10th congress.

Through many years of revolutionary activities Comrade Erich Honecker has performed great exploits.

The GDR people are a courageous and industrious people and have glorious fighting traditions. The German communists and people valiantly fought against fascism and imperialism for a long period and finally established the German Democratic Republic, the first worker-peasant state in the land of Germany, in October 1949.

The founding of the German Democratic Republic was the realisation of the age-old desire of the German people to have a genuine power of people and a great event which opened up a new epoch in the history of the German people.

The people of the GDR who became the genuine masters of the country have made big successes in socialist construction over the past 30 odd years under the leadership of the Socialist Unity Party of Germany.

Today the fraternal working people of the GDR under the leadership of the Socialist Unity Party of Germany headed by Comrade Erich Honecker are vigorously striving to carry out the decisions of the 10th congress of their party. Thanks to their creative endeavours, the present 5-year plan is being successfully carried on and the people's living standards are rising day by day in the German Democratic Republic.

The GDR has registered many successes in external relations, too.

The Korean people warmly hail all the successes achieved by the fraternal GDR people and express firm solidarity with the struggle of the GDR Government and people to defend European peace and security.

The Korean and GDR peoples forged the relations of fraternal friendship and cooperation and have constantly consolidated and developed them through the common struggle against imperialism and for the victory of the cause of socialism.

The meeting between the great leader Comrade Kim Il-song and Comrade Erich Honecker in Pyongyang in 1977 was an epochal event in bringing to a higher stage the relations of fraternal friendship and cooperation between the Korean and GDR peoples.
Today the friendly and cooperative relations between our two peoples are developing extensively in political, economic, cultural and various other fields.

The GDR people actively supported and encouraged the just cause of our people in the past and today, too, express firm solidarity with the struggle of our people to build socialism, force the U.S. imperialist aggression army to withdraw from South Korea and achieve the independent and peaceful reunification of the country.

The GDR party and Government fully support the three principles and five-point policy of national reunification put forward by the great leader Comrade Kim Il-song and resolutely denounce the "two Koreas" plot and new war provocation manoeuvres of the U.S. imperialists and their lackeys. This is a great encouragement to our people.

The Korean people will as ever firmly join hands with the GDR people in the struggle against imperialism and for the victory of the cause of socialism.

Our people greet the 70th birthday of Comrade Erich Honecker and heartily wish the GDR people greater success in the struggle for building a developed socialist society.

Meanwhile, MINJU CHOSON prints a profile of Comrade Erich Honecker.

[Text] Pyongyang, 1 Sep (KCNA)--Foreign mass media introduced economic development of Korea, according to reports.

A recent issue of the Guinean paper HOROYA carried, together with a portrait of the great leader Comrade Kim Il-song, an article titled "Korea." Pointing out that the Korean people have dynamically advanced along the road indicated by respected President Kim Il-song and thereby scored big successes in social and economic construction, the article introduces the daily improvement of the Korean people's living standards.

The 10 August issues of GUARDIAN, WORKING PEOPLE'S DAILY, ROKTA PITU NESING and other Burmese papers printed articles on the successful economic construction in Korea.

In an article titled "Great Potential of Independent National Economy" the paper GUARDIAN says: The great leader Comrade Kim Il-song put forward the line of building an independent national economy and has wisely led the people to its implementation. As a result, the potential of the independent national economy has markedly increased.

The departmental structure of the industry has been further perfected and the policy of making the national economy chuche-oriented, modernised and scientised is being successfully carried out.

The dear leader Comrade Kim Chong-il put forward a policy of waging the speed campaign in all domains of the socialist economic construction to ensure a fast tempo in economic growth and is brilliantly carrying it into practice.

U.S. RESOLUTION AGAINST LATIN AMERICA ATTACKED

SK260423 Pyongyang KCNA in English 0345 GMT 26 Aug 82

[Text] Pyongyang, 26 Aug (KCNA)—NODONG SINMIN today comes out with a commentary headed "Dangerous Plot to Cause New Clashes in Western Hemisphere" in connection with the recent adoption at the U.S. Senate of a resolution containing a new aggressive plan against Cuba, Nicaragua and other Latin American countries.

The author of the commentary says: The adoption of this document openly disclosed the brigandish intention of the U.S. imperialists to start direct armed intervention for barring the victorious advance of the revolution in Cuba and Nicaragua and suppressing the desire of the Latin American people to achieve independence against U.S. imperialism.

This is an outright threat to the peoples of Central American and Caribbean countries advancing along the road of independence and a dangerous signal to cause new clashes in the western hemisphere.

The Korean people bitterly denounce the military threat and aggressive manoeuvres of the U.S. imperialists against the Latin American people and express firm militant solidarity with the Cuban, Nicaraguan and other Latin American peoples who are valiantly struggling to defend their national dignity and sovereignty.

The U.S. imperialists' clamouring about "aggression" of Cuba and Nicaragua reminds one of a thief calling others thief. It is a shameless sophism for justifying their aggressive and interventionist manoeuvres. Nothing can deny that the threat of aggression to Central America and Caribbean region comes precisely from the United States.

The U.S. imperialists try to play again with the destiny of the people in Latin America and lord it over there. This is an anachronistic daydream. With no aggressive machinations can the U.S. imperialists bring the Latin American people to their knees. The Latin American people today are not the people of yesterday who had been oppressed and ruled in the "hereditary estate" of the U.S. imperialists.

The U.S. imperialists must renounce the anachronistic "policy of strength" and take their hands of aggression and intervention off Latin America.

DAILY HITS U.S. 'SCHEMES' IN CENTRAL AMERICA

SK271032 Pyongyang KCNA in English 1024 GMT 27 Aug 82

[Text] Pyongyang, 27 Aug (KCNA)--MINJU CHOSON today in a signed commentary flays the military interventionist schemes of the U.S. imperialists against the Central American and Caribbean peoples.

The commentary says: Some time ago, the U.S. Senate adopted a resolution containing a plan against the peoples of Cuba, Nicaragua and other Latin American countries. The adoption of this resolution at the U.S. Senate is a heinous criminal move to put down the desire of the Central American and Caribbean peoples to achieve independence against imperialism and stamp out the ever mounting struggle against U.S. imperialism and dictatorship. This is an extremely provocative scheme to cause new clashes in the western hemisphere and gravely jeopardizes peace and security in this region.

The scheme of the U.S. imperialists to intensify their military intervention against the Central American and Caribbean countries is an outright challenge to the Latin American people who call for peace and security in this region.

Many countries of Latin America are resolutely opposing and denouncing the U.S. imperialists adoption of the aggressive resolution.

The Korean people vehemently denounce the U.S. imperialists' military interventionist scheme against the Latin American people and express firm solidarity with the struggle of the people in this region to defend their national sovereignty.

The U.S. imperialists' adoption of the so-called resolution opposing the peoples of Cuba, Nicaragua and other Latin American countries is part of the systematic and premeditated aggressive manoeuvres against the countries of this region.

The U.S. imperialists must give up the anachronistic attempt to dominate the Latin American countries again and immediately discontinue military threat to and interventionist schemes against them.

The Chinese working people in the industrial domain are registering fresh successes by displaying political enthusiasm and strengthening the increased production drive.

Production assignments are being overfulfilled in the metallurgical industry.

On the evening of 6 August, upon hearing the news of the forthcoming convention of the party congress, the workers of the second-shift work team of the heavy rolling mill of the steel company in the capital carried out their quotas at 126.6 percent and the workers of the third-shift work team produced 220 more tons of rolled steel than their commitment per shift through a vigorous drive for increased production with elated enthusiasm. Many workshops of the rolling mill alone are also topping their daily targets of rolled steel production.

The metallurgical workers in Shanghai are also boosting steel production on the threshold of the party congress. The average daily steel output is now more than 13,600 tons.

The Shanghai silicon steel plate mill, the Shanghai second steel works and other metallurgical works have lifted the rolled steel output by between 8 and 20 percent above the plans.

The coal mines in different parts of China are making great contributions to meeting the nation's demand for power by increasing coal output.
The workers of the state-run coal mines boosted the average daily output of coal 4 percent in the second 10 days of August above that in the first 10 days, breaking through difficulties with the display of the revolutionary spirit of self-reliance, despite the high temperature and heavy rainfall that created obstacles to production.

The Huainan Mining Bureau, Anhui Province, had turned out 3,200 tons of coal outside the plan by 15 August by organizing and mobilizing the miners to an increased production drive.

The workers of the Qixing coal mine in Shuangyashan, Heilongjiang Province, lifted the goal of coal production for August from 180,000 to 200,000 tons after the publication of the information on the convocation of the party congress and are now pulling their full weight on its attainment.

The textile workers and technicians are also greeting the party congress by an increased output of fabrics of high quality.

The workers of the Qinghua woolen mill in Beijing set the record for this year by upping the daily output by 11 percent in the 7-14 August period above the daily average in July. Now the proportion of the first-rate products is more than 97 percent and the trial production of four kinds of new products which had been expected to be completed in September was successfully carried out in a matter of a few days.

The Shijiazhuang second cotton mill in Hebei Province is chalking up a new record every day. Its average daily output of cotton thread and textiles has jumped 1.3 percent since 10 August as against early August.
