SOVIET PAPER DENOUNCES U.S. ASIAN STRATEGY

SK271024 Pyongyang KCNA in English 1017 GMT 27 May 83

The paper says that most of the U.S. forces deployed in the Pacific area are massed in Japan and South Korea.

Noting that the U.S. Defence Department is trying to turn Japan and South Korea further into a nuclear hostage of the United States like West European countries by deploying ground base cruise missiles in Japan and South Korea, the paper says: Of late the United States is working harder to draw Tokyo into the Washington-Seoul military alliance.

The plan to frame up the Washington-Tokyo-Seoul triangular military alliance is based on the consideration that South Korea with a complex of U.S. nuclear weapon bases and storehouses has become one of the most important bridgeheads of the United States on the Asian continent.

The play to deploy neutron weapons in South Korea has already been made known.

More than 42,000 U.S. occupationist troops are concentrated in barracks distributed at bases and military objects [as received], particularly in Osan, Kunsan, Taegu, Kwangju, Seoul, Pusan and along the "Demilitarized Zone."

The units belonging to the U.S. Quick Deployment Forces of aggression are stationed in South Korea as in Japan.

In conclusion the paper exposes the scheme of the United States to link the U.S.-Japan military alliance not only with the U.S.-South Korea alliance but also with NATO, the biggest imperialist bloc.

SOVIET DAILY ON PLAN FOR JAPAN-U.S. EXERCISE

SK311545 Pyongyang KCNA in English 1510 GMT 31 May 83

[Text]. Pyongyang, 31 May (KCNA)—The Soviet paper SELSKAYA ZHIZN 29 May printed a commentary denouncing the plan of the Japanese military to hold joint military exercises with the U.S. forces present in South Korea, according to a TASS report.

Noting that the United States following the line of militarizing the Pacific pins hope on the arms buildup of Japan and South Korea and contemplates to form the U.S.—South Korea—Japan axis, the paper says: This step proves that the U.S. Defence Department has entered a new dangerous stage in carrying into effect its plan to turn this part of the world into a forward base and a nuclear bridgehead of the United States.

The paper further says:

Washington has started the deployment of new type strategic bombers carrying cruise missiles in the Pacific and built their commanding centre near Tokyo to strengthen its military presence. U.S. submarines carrying "Trident" nuclear missiles are massed in the Pacific and the deployment of medium-range missiles and neutron weapons in South Korea is planned.

All these facts have naturally caused due anxiety and protest among the peoples in this region, the paper notes, and says: Public figures and many political activists pointed to the danger of the military alliance to the cause of peace and its threat to the Japanese and South Korean people who are being made a nuclear hostage of the United States.

JAPANESE-U.S. JOINT MILITARY EXERCISE DENOUNCED

SK261654 Pyongyang KCNA in English 1500 GMT 26 May 83

[Text] Pyongyang, 26 May (KCNA)—The "Self-Defence Forces" of Japanese militarism intend to make their way into the Korean Peninsula where a tense situation prevails that might lead to the outbreak of a war any moment to stage a provocative military exercise. This is a most heinous criminal scheme to directly participate in a war of aggression in Korea together with the U.S. imperialists. So declares MINJU CHOSON in a commentary today.

Noting that the Japanese reactionaries decided for the first time on a plan to hold a joint exercise of the Japanese "Self-Defence Forces" and the U.S. imperialist aggression forces occupying South Korea and set about a full-scale examination for its realisation, the commentary says: In this they do not bother to conceal their intention to restore their old position as the colonial ruler by force of arms in South Korea.

The author of the commentary goes on: The dispatch of air and ground forces of the Japanese "Self-Defence Forces" to South Korea on the part of the Japanese reactionaries under the cloak of military exercise would, actually, be an overseas dispatch of troops ignoring the constitutional ban and the first step of militarist aggression.

This proves that the Japanese militarists are putting operational assignments into a concrete arm. Making it fait accompli to join the U.S. imperialists in another war of aggression in Korea, and are now entering into the stage of practising and completing combat actions on the spot. This is a very grave development and an immediate threat to our republic.

Noting that it is an old plan of the U.S. imperialists to inveigle the "Self-Defence Forces" of Japan into a new Korean war, the commentary stresses: The adventurous war scheme of the Japanese militarists is a grave threat to the cause of the independent reunification of Korea and to peace and security in Asia and the world. This is a stupid act leading Japan herself to destruction. The Japanese reactionaries should act with discretion and give up their reckless war scheme at once, looking straight at the reality.

MINJU CHOSON CONDEMN U.S. DECISION ON MX MISSILE

SK290937 Pyongyang KCNA in English 0911 GMT 29 May 83

[Text] Pyongyang, 29 May (KCNA)--Both houses of the United States recently decided to allot 625 million dollars for the development of the "MX" missile, strategic nuclear weapon of the latest type. In this connection, MINJU CHOSON today carries a commentary titled "Adventurous Nuclear War Scheme," which says that this decision is another patent proof of what reckless stage the U.S. imperialist warmaniacs have reached in their adventurous moves for a nuclear war.

Noting that in order to realize their ambition for world supremacy, they are squandering a huge amount of funds for the buildup of nuclear arms and the modernization of nuclear means, crying for "nuclear superiority," "limited nuclear war" and "forestalling nuclear attack," the author of the commentary says:

The U.S. imperialists have built nuclear bases for the shipment and stockpile of nuclear means all over the world and deployed there large quantities of nuclear weapons and nuclear vehicles and specialized nuclear units.

They are rapidly increasing their nuclear forces particularly in the Far East including the Korean Peninsula to which they attach great importance in executing their global and Asian strategy.

Now over 1,000 nuclear bombs, shells and mines are deployed in South Korea and U.S. nuclear-powered carriers and battleships carrying nuclear weapons are constantly afloat at major ports of South Korea and its adjoining seas. The U.S. imperialists are scheming to deploy neutron weapons and cruise missiles in South Korea. These are actual proof that the U.S. imperialist sabre-rattlers intend to light a nuclear blasting fuse in Korea any moment.

Their preparations for a nuclear war are an unpardonable criminal act of aggravating the Asian situation and menacing peace and security in Asia and the world. If the U.S. imperialists run wild with nuclear weapons, ignoring the trend of the times, they will pay dearly for this.

U.S. PAPER EXPOSES NEUTRON BOMBS DEPLOYMENT IN SOUTH

SK010351 Pyongyang KCNA in English 0336 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA) -- The U.S. paper WORKERS WORLD 20 May carried an editorial exposing the scheme of the U.S. imperialists to deploy neutron bombs in South Korea.

The paper recalls that the WASHINGTON POST quoted U.S. brasshats as saying that the European allies of the United States refused to have neutron bombs deployed in their territories and that they were determined to deploy them in South Korea. It wrote that the South Korean people live under the fascist dictatorship actually bolstered up by the U.S. occupation forces and, therefore, if they opposed the deployment of neutron weapons in South Korea, they might be immediately taken away by the hangmen.

It draws attention to the exposure by WASHINGTON POST of the fact that the U.S. Eighth Army is already possessed of various kinds of nuclear bombs and shells.

Pointing out that it is none other than the U.S. imperialists who want neutron bombs, the paper quoted the WASHINGTON POST as calling South Korea as the place wherein the deployment of neutron bombs stockpiled by the United States is most likely accepted.

The plan to deploy the weapons in South Korea indicates that the greatest threat to the world people comes from Pentagon, not from anywhere else, the paper said.

KIM TAE-CHUNG URGES U.S. POLICY CHANGE TO SOUTH

SK262305 Pyongyang KCNA in English 2205 GMT 26 May 83

[Text] Pyongyang, 27 May (KCNA)—Kim Tae-chung now banished to the United States, speaking at a meeting held in Washington on 22 May in commemoration of the third anniversary of the Kwangju popular uprising, demanded a "radical switchover in the U.S. policy towards South Korea," according to a foreign press report.

"The Kwangju incident was a historic mass movement demanding democracy and the resistance to the military dictatorship is still going on in South Korea," he stressed. He criticized the United States for its wrong attitude in supporting the massacre at the time of the Kwangju incident.

He held that the Chon Tu-hwan "regime" must apologize for the massacre and set free at once political prisoners and participants in the labour movement.

Kim Tae-chung repeatedly urged the United States to correct its wrong attitude in supporting Chon Tu-hwan, the report said.

JAPANESE LAWYERS DEMAND RELEASE OF SO CHUN-SIK

SK262253 Pyongyang KCNA in English 2200 GMT 26 May 83

[Text] Tokyo, 25 May (KNS-KCNA)—Five hundred seventeen lawyers of Japan on 25 May sent letters of request to the South Korean puppet justice minister, the judge of the Seoul "Higher Court" and the South Korean puppet ambassador to Japan in demand of an immediate release of So Chun-sik, a Japan-born Korean political prisoner in South Korea.

The Japanese lawyers sent the letters to them in connection with the fact that the "examination" of an "administrative litigation" raised by So Chun-sik in prison against the South Korean puppet authorities in demand of the nullification of a "decision to renew the custody for public peace under the social security law" has been concluded and a "ruling" will be passed on 30 May.

A letter sent to the judge of the puppet Seoul "Higher Court" noted that So Chun-sik has been detained in prison for five years till today under the name of "custody for public peace under the social security law" after he served out his prison term in May 1978. It said:

"Custody for public peace under the social security law" is a step to force an ideological conversion upon those who have served out their prison terms by detaining them continually in prison and there is no limit to its "renewal."

This is contradictory to the principle of modern penal law and suppressed freedom of idea and conscience.

As Japanese lawyers we cannot tolerate such repeated infringements upon human rights of a Japan-born Korean resident.

Therefore, we demand that the "extension of the period of custody for public peace" for So Chun-sik be declared null and void on the basis of democracy and justice and he be set free at once.

TOKYO MEETING DISCUSSES KOREAN QUESTION

SK310515 Pyongyang KCNA in English 0406 GMT 31 May 83

[Text] Tokyo, 30 May (KNS-KCNA)—An international forum on the Korean question was held in Tokyo on 28 May on the occasion of the third anniversary of the Kwangju popular uprising.

Attending the forum which was sponsored by the Committee of Foreign Residents in Japan to Support Reunification of Korea were Andrew Hughes, an Australian journalist, who was representative of the sponsor organisation, Jiro Suzuki, president of Zoge University, Tokyo, Khonmiong Intarathai, a university professor of Thailand, and many public figures, scholars, men of culture and journalists of Japan, the United States, Britain, India, Spain, Egypt, Kuwait, Greece and other countries.

Andrew Hughes spoke first at the forum.

Noting that the Reagan administration of the United States is creating military tensions and staging frenzyed war exercises in Korea and other parts of Northeast Asia to realise its nuclear strategy, he said: We should heighten vigilance against the U.S. imperialists' war manoeuvres and pay keen attention to the realization of Korean reunification and her peace.

Touching upon the question of human rights in South Korea, he noted that the Chon Tu-hwan clique several times more truculent and fascist than the earlier rulers, brutally massacred and imprisoned Kwangju uprisers and recently took to a hospital by force Kim Yong-sam, former president of the New Democratic Party of South Korea, on his hunger strike.

Personages of the United States, Japan, Britain and other countries spoke at the forum under the titles "The Present Situation of South Korea," "U.S.-Japan-South Korea Relationship" and "Right to National Self-Determination and the Question of Korea's Reunification," etc.

The speakers said that the U.S. imperialists were going against the times by keeping hold of South Korea as their colony and pursuing a neo-colonial policy there.
It is because of the U.S. imperialists' standing behind the Chon Tu-hwan fascist clique that the latter could grab power after massacring participants in the Kwangju popular uprising and dare wantonly trample underfoot the human rights of the South Korean people, the speakers noted.

Pointing out that the biggest factor of the acute tension in Korea today is the scheme to form a tripartite military alliance of the United States, Japan and South Korea, they stressed that for the reunification of Korea and her peace, an end must be put to the U.S. imperialists' colonial rule over South Korea and the reinvasion scheme of the Japanese reactionaries.

They called for roundly exposing to the world people the brutal suppression of the South Korean people and violation of their human rights by the Chon Tu-hwan clique after it usurped power at the point of the bayonet and lifting up louder voices supporting the righteous patriotic struggle of the South Korean people for the democratization of society and the reunification of the country.

KCNA CITES REPORTS ON 27 MAY RIOT ALERT IN SEOUL

SK290926 Pyongyang KCNA in English 0900 GMT 29 May 83

[Text] Pyongyang, 29 May (KCNA)—Japanese papers on 28 May reported that students in Seoul attempted a large-scale anti-"government" demonstration on 27 May and that the Chon Tu-hwan fascist clique intensified suppression, frightened by this, according to a KNS report from Tokyo.

MAINICHI SHIMBUN, quoting a report from its Seoul correspondent, said:

An alert posture was taken in the main streets of Seoul on 27 May after the call "gather at the Kwanghwamun crossroads" was circulated through universities.

Men of the riot police squad were seen standing by twos at 50-metre intervals.

Arrests of passing students, continued around Kwanghwamun and Chongno.

Discontent and opposition of students to the "graduation limit system" also seem to underlie their demonstration these days. In their leaflets and slogans the students call for the "overthrow of fascism," and "resignation of Chon Tu-hwan," etc.

The paper draws attention to the coincidence of the students' struggle with the hunger strike of Kim Yong-sam, former president of the New Democratic Party.

ASAHI SHIMBUN and YOMIURI SHIMBUN conveyed the following Kyodo report from Seoul:

Students of various universities called for anti-"government" demonstrations in Seoul on 27 May, the day marking the lapse of three years since the suppression of the Kwangju uprising, and some students planned to stage demonstrations in a guerrilla way in Chongno District, downtown Seoul, and other places in the evening that day. The police authorities strengthened guards by letting loose a large force of riot police squads and walked off a considerable number of students.

That day students of Seoul and Yonse Universities boycotted lessons and attempted a demonstration, crying for the overthrow of the Chon Tu-hwan "regime" and democratisation of campus. But the police authorities dispersed them.

CHONDOIST PARTY HITS CHON'S SUPPRESSION

SK020509 Pyongyang KCNA in English 0401 GMT 2 Jun 83

[Text] Pyongyang, 2 Jun (KCNA) -- The Central Committee of our Chondoist Chongu Party sternly denounces with bitter national indignation the Chon Tu-hwan group's inhumane and brutal suppression of democratic figure Kim Yong-sam and students as an intolerable violation of the elementary human rights and human conscience and as a heinous reactionary offensive on the democratic forces of South Korea.

The spokesman of the Central Committee of the Chondoist Chongu Party stresses this in a statement made public on 1 June in denunciation of the Chon Tu-hwan military fascist clique's unusually heinous suppression of South Korean democrats and students.

The statement says:

The Chon Tu-hwan puppet clique carried to a hospital in Seoul by surprise Kim Yong-sam, president of the defunct New Democratic Party, when he was fasting in his house after making public a statement denouncing the fascist dictatorship and calling for democratic reforms in the South Korean society. And they are committing fascist outrages almost every day, arresting and imprisoning at random those students who demand democracy.

The statement continues:

The Chon Tu-hwan group is persecuting Kim Yong-sam, confining him in a solitary room of the hospital, and kicking up a row of wholesale arrests of students. It seeks in this to keep off the influence of their struggle on the South Korean society, crush the patriotic action of the students and people now gaining in strength, bridge over their critical political crisis and guarantee the security of "power."

The U.S. imperialist aggressors are entirely to blame for all the fascist suppression committed by the Chon Tu-hwan group against democrats and students who demand independence, democracy and reunification after turning South Korea into a huge military prison.

The Central Committee of the Chondoist Chongu Party once again calls down curses on and expresses indignation at the fascist suppression of the South
Korean people by the Chon Tu-hwan puppet clique engineered by the U.S. imperialists and strongly demands that the illegally arrested democratic figures and students including Kim Yong-sam be immediately and unconditionally released and their democratic rights and the freedom of their political activities be guaranteed.

CHON TU-HWAN BRANDED 'HUMAN BUTCHER'

SK281009 Pyongyang KCNA in English 1001 GMT 28 May 83

[Text] Pyongyang, 28 May (KCNA)---If the desire of the South Korean people and students for the reunification of the country is to be realized and the South Korean society to be democratized, the U.S. imperialists must unconditionally withdraw from South Korea and the Chon Tu-hwan puppet clique, the butcher of the nation, must step down from "power."

So stressed Eduin James, chairman of the Guyana Committee for Support of Korea's Reunification, at a recent press conference held on the occasion of the third anniversary of the Kwangju popular uprising.

The Kwangju popular uprising greatly shook the South Korean fascist rule to its very foundation and struck terror into the hearts of the U.S. imperialists and the Chon Tu-hwan fascists, he noted, and said:

The world's revolutionary peoples including the Guayanese people brand and hate Chon Tu-hwan, the present South Korean ruler, as a human butcher, military fascist, who emerged on the scene on the blood and corpses of fellow countrymen.

He denounced the U.S. imperialists and the South Korean puppet clique for persisting in the "two Koreas" plot and new war provocation manoeuvres.

He stressed that Korea must be reunified in accordance with the proposal for founding the Democratic Confederal Republic of Koryo put forward by his excellenncy Kim Il-song, president of the Democratic People's Republic of Korea.

PAPER EDITORIAL ON NORTH'S UNENDING ESPIONAGE

SK280324 Seoul THE KOREA HERALD in English 28 May 83 p 4

[Text] The rounding of of another band of espionage agents as announced by the Agency for National Security Planning Thursday came as no surprise to us who are well aware of the series of last-ditch schemes employed by the desperate North Korean Communists to subvert our Republic by all possible means.

It nevertheless has served as a fresh and stern reminder in that it revealed that the incessant maneuvering of the communist regime in Pyongyang knows of no end to their deep-rooted desire to conquer the south.

The arrest of the communist spies comprising two groups also indicates that their tactics in espionage warfare are gradually changing so that the detection, much less the arrest, of the espionage rings becomes more difficult. That is, instead of having their agents go to the north or join the pro-Pyongyang Korean residents association in Japan, known as Chochongnyon, third countries are picked as hideouts. The case of Kim Pyong-kyu, suspected ring-leader of the second spy group apprehended who frequented the Portuguese colony island of Macao disguised as merchants well bespeaks the changing pattern of the communists' spying tactics.

Even more appalling is their plan to eventually use our southernmost island of Cheju-do as their forward base for espionage operations, instead of resorting to the technique of roundabout infiltration that has been used mostly thus far. This could be done as the plan to open the island province as a free port is reportedly under study by authorities.

It is as plain as daylight that the communist clique in the north is bound to step up fifth column activities in a desperate attempt to calm down the growing complaints of the residents, caused by the deterioration of all aspects of life in the north.

With the projected succession to power by Kim Chong-il, son of chieftain Kim Il-song, in a preposterous form of hereditary rule, and with the ever-worsening economic sufferings, intraregime discord and widespread dissension on the part of the multitude in the north is reaching a point beyond repair. In the meantime, the gap between Seoul and Pyongyang in overall wealth and strength continues to widen as our Republic is gaining rising stature in the
international community of nations, being chosen as the venue of such presti-
guous gatherings of nations as the Inter-Parliamentary Union slated for this fall,
the general conference of the International Monetary Fund in 1985, the 1986
Asian Games and the summer Olympiad scheduled for 1988.

Constantly harassed by a hard-to-cure sense of defeatism that keeps escalating
as the prestige and dignity of the south continue to go upward, Kim Il-song
and his cronies seem resolved to cling to whatever plots and intrigues (?)
within their reach in futile pursuit of their avowed goal to drive our Repub-
lic into chaos.

We can rest assured, however, that any such fatuous maneuvers staged by North
Korea will only end in total failure as long as our military, officialdom and
the public stand firmly in harmony and unity. In this regard, the crackdown on
the two spy rings has offered us another occasion for replenishing our resolve
in fighting the indirect aggression waged by communists in the north.

VARIOUS GROUPS BACK KIM YONG-SAM'S HUNGER STRIKE

SK262304 Pyongyang KCNA in English 2208 GMT 26 May 83

[Text] Pyongyang, 27 May (KCNA)—Kim Yong-sam, former president of the New Democratic Party of South Korea, who has been on an indefinite hunger strike against the fascist dictatorship, was forcibly taken to a hospital by the puppet police on 25 May, but he refused to receive medical examination and was determined to gon on the hunger strike even at the hospital, according to a report.

Meanwhile, seven organisations of compatriots under the influence of the "'ROK' Residents Association in Japan" ("Mindan") including the Japan headquarters of the "National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" and the "Mindan Committee for Defence of Independence" issued a joint statement on 24 May in support of the hunger strike of Kim Yong-sam.

The statement says:

Chon Tu-hwan is working hard with bloodshot eyes to maintain his "regime" by further intensifying the fascist repression and totally strangling freedom and democracy.

We call upon the conscience and public opinion of the whole world to express greatest support to the death-defying struggle of Kim Yong-sam.

At the same time, we strongly demand that Chon Tu-hwan repeal the house arrest of Kim Yong-sam, ensure the freedom of political activities to all people, immediately release all the political prisoners and step down from "power."

Kim Tae-chung, who has been banished to the United States issued a statement on 24 May demanding that the Chon Tu-hwan military fascist clique accept the demand of Kim Yong-sam and guarantee freedom of the press so that his struggle may be reported. Earlier, Kim Tae-chung reportedly sent a cable of encouragement to Kim Yong-sam.

A foreign press report said that Korean residents in the United States organized groups for the rescue of Kim Yong-sam in New York, Washington, Los Angeles, and other cities on 24 May.

They issued a statement in denunciation of the outrageous action of the puppet authorities that forcibly removed Kim Yong-sam from his house, ignoring his demand for democratic reforms.

In the statement they said: We declare that we enter into a fast to join in the hunger strike of Kim Yong-sam, share his sufferings and push through the demand for democracy.

JAPANESE DAILIES ON KIM YONG-SAM HUNGER STRIKE

SK270545 Pyongyang KCNA in English 0410 GMT 27 May 83

[Text] Tokyo, 26 May (KNS-KCNA)--Japanese papers 26 May conveyed repercus-
sions upon South Korean personages of various strata of a report that the
Chon Tu-hwan puppet clique forcibly took former New Democratic Party President
Kim Yong-sam to the Seoul University Hospital.

MAINICHI SHIMBUN said, quoting its Seoul correspondent's article:

One week long hunger strike of Kim Yong-sam has become a prelude to the strug-
gle against the South Korean "regime."

The development of the situation draws attention because if the Kim Yong-sam
issue is treated wrong, the student demonstration will again flare up and ac-
cordingly, there is the possibility of strengthening the unity of the anti-
"government" forces.

SANKEI SHIMBUN in its Seoul correspondent's article said:

The ties between Kim Yong-sam and Kim Tae-chung now in the United States began
to be strengthened with the former's hunger strike as an occasion. The South
Korean "regime" is guarding against this.

Kim Tae-chung and Kim Yong-sam are attacking the Chon Tu-hwan "regime," brand-
ing it as a "wrecker of peaceful democracy." This is aimed at kindling the
conscience of people.

Student demonstrations are frequently taking place these days at Seoul, Yonse
and Koryo Universities under the slogan "Down with Chon Tu-hwan 'regime.'"

A Seoul correspondent of TOKYO SHIMBUN said: There are opinions that the South
Korean puppets "isolated Kim Yong-sam politically" because if his hunger strike
continues long, it may develop into a political problem.

The correspondent further said:

The South Korean press does not directly refer to the hunger strike of Kim
Yong-sam but reports it in such abstract expression that "a matter of concern
has occurred in the political circles."
A Japanese TV reporters' group who went to the Seoul University Hospital for news coverage was shut out at the entrance.

Kim Yong-sam tries to have contact with foreign newspapers and news agency reporters through a support organisation, but his activity in the hospital is further restrained.

He said that democracy is something that cannot be compromised by anything other than democratisation itself.

He declared he "firmly believes that the enlightened consciousness for democracy of the people and their capabilities will finally realize gloriously democracy in this land by overcoming a military dictatorship."

He said that he was able to carry out the hardships of a hunger strike by recalling the struggle of students demanding justice for democracy and of those involved in the Kwangju popular uprising in May 1980.

JAPANESE SUPPORT KIM YONG-SAM HUNGER STRIKE

SK300841 Pyongyang KCNA in English 0810 GMT 30 May 83

[Text] Tokyo, 29 May (KNS-KCNA)--Japanese figures issued talks on 26 May in support of the hunger strike of Kim Yong-sam, former president of the New Democratic Party of South Korea.

Critic Makoto Nakajima said:

The current situation exposes the instability of the Chon Tu-hwan military "regime" which had vaunted its ostensible "stability."

Chon Tu-hwan seated himself in "power" with the encouragement of the United States and Japan after suppressing the Kwangju uprising with the bayonet. But the Korean people are struggling against the Chon Tu-hwan "regime" undauntedly, refusing to recognise it.

Should the Chon Tu-hwan "regime" fail to treat the situation well, it would invite a strong rebuff from the South Korean people.

Pastor Sigeo Kuwabara said:

The hunger strike of Kim Yong-sam against dictatorship and the struggle of opposition figures who joined him will prove a big force in the struggle for the democratisation of the South Korean society.

It is an advance in the struggle of the opposition figures and students for democracy for them to wage this movement under the situation in which the aggressive military integration of the United States, Japan and South Korea is being stepped up at faster pace and the dictatorship of Chon Tu-hwan is getting more wanton, I think.

I hope they will go ahead with their movement, not yielding to the suppression and appeasement by the quarters in power.

GROUP IN JAPAN OFFERS SUPPORT TO KIM YONG-SAM

SK311034 Pyongyang KCNA in English 1025 GMT 31 May 83

[Text] Tokyo, 30 May (KNS-KCNA)--The Committee of Foreign Residents in Japan to Support Reunification of Korea on 28 May issued a statement in Tokyo in support of the hunger strike of Kim Yong-sam, president of the defunct New Democratic Party of South Korea, against fascist dictatorship.

Saying that Kim Yong-sam must be saved from Chon Tu-hwan's fascist repression, the statement notes: Now the latest report is that nineteen of the supporters of Kim Yong-sam have joined him in the hunger strike.

Their declaration says, "We declare that we launch a hunger strike to assume and share his hardship as well as to win the demand for democratization. Our hunger strike shares the ardent desire of the people for democratization."

This appeal must go out to all the world.

On this third anniversary of the brutal Kwangju massacre which cost at least more than 5,000 lives by brutal military action, suppression, and murder, let public opinion all over the world demand that Chon Tu-hwan set Kim Hong-sam free.

Neither of the Kims (Kim Tae-chung and Kim Yong-sam) can be held responsible for the uprising of the people in Kwangju in their legitimate demand for freedom and democracy. They were guilty of no crime. But one is in forced in exile and the other is fasting to his death for the same cause—freedom and democracy.

We call on both governments and people of the democratic countries to protest and demand justice for them who are denied their basic human rights.

[Text] Pyongyang, 31 May (KCNA)--The Japanese paper ASAHI SHIMBUN 30 May in an editorial said: "If anything happened to the safety of Kim Yong-sam, anti-'government' demonstrations are expected to grow fiercer."

Noting that Kim Yong-sam, former president of the suppressed New Democratic Party of South Korea, entered into a hunger strike for an indefinite period in demand of democracy, and more than 20 former opposition politicians joined him. The editorial stressed: There are signs of student demonstrations gaining momentum in keeping with such protest actions.

Referring to the Kwangju incident in May 1980 and the suppression of the South Korean democratic forces and progressive personages by the Chon Tu-hwan military fascist clique in the ensuing period. It noted that the military blackguards resorted to violent suppression for fear of the mounting anti-"government" demonstrations and the like and this caused much bloodshed.

The editorial pointed to the fact that all political activities of many South Korean personages are banned by the "law on special measures for the renovation of political climate" of November 1980.

Paying attention to the ever intensified suppression of the press by the South Korean puppet clique, it remarked:

A report on the fasting of Kim Yong-sam and others itself hardly can be seen in the South Korean press.

DPRK PHOTO SHOWS MARKS KWANGJU ANNIVERSARY

SK010410 Pyongyang KCNA in English 0342 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA) -- A photo exhibition which opened at the
Moranbong Theatre on 18 May on the occasion of the "ten-day movement for in-

popular uprising drew large crowds of visitors every day.

While it was open many working people and school youth and children in
Pyongyang and People's Army soldiers saw the photographs on display.

The exhibition hall was also visited by officials of foreign embassies here
and foreign guests on visit to Korea.

Through the photographs the visitors recalled the ardent desire and will of
the Kwangju fighters who rose up determinedly in a massive popular uprising
to destroy the colonial rule of the U.S. imperialists and their stooges and
demand a new independent society and a new democratic policy.

They shuddered with bitter hatred and revengeful thought at the rare-to-be-
seen murders, the Chon Tu-hwan military fascist clique, who plunged the city
into a sea of blood of fellow countryment with the bayonets put in their
hands by the U.S. imperialists.

SOCIAL DEMOCRATS DENOUNCE CHON'S SUPPRESSION

SK312239 Pyongyang KCNA in English 2220 GMT 31 May 83

[Text] Pyongyang, 1 Jun (KCNA)—The Korean Social Democratic Party strongly demands an immediate halt to the inhumane suppression of Kim Yong-sam, president of the defunct New Democratic Party, and students by the U.S. imperialists and the South Korean puppet clique.

The spokesman of the Central Committee of the Korean Social Democratic Party (KSDP) stresses this in a statement made public on 31 May in denunciation of the suppression of South Korean democrats and students by the Chon Tu-hwan military fascist clique, a stooge of U.S. imperialism.

The statement notes that the South Korean puppet clique took away Kim Yong-sam, president of the defunct New Democratic Party, who was stubbornly fasting in demand of democratic reforms against the fascist dictatorship, harshly persecuted many democratic figures who supported him, and detained and penalized through trials progressive students. It stresses:

The KSDP Central Committee sternly denounces the high-handed suppression of Kim Yong-sam and South Korean Democrats and students by the Chon Tu-hwan clique as a most barbarous violation of democracy and human rights and as an undisguised challenge to the South Korean people and youth and students who desire independence, democracy and reunification.

The Chon Tu-hwan fascist clique are trying to remove all the democratic and patriotic elements in South Korea and thereby stay in power and prolong their dirty remaining days.

As is unanimously noted by personages at home and abroad, it is none other than the U.S. imperialists who directly manipulate the fascist rowdyism of traitor Chon Tu-hwan. The Chon Tu-hwan clique must unconditionally and immediately release the illegally arrested politicians, democrats, students and churchmen, including Kim Yong-sam, and step down from power without delay.

The U.S. imperialists must no more patronize the Chon Tu-hwan group opposed and rejected by the South Korean people but go home at an early date from South Korea before they are expelled by the people's resistance.

KCNA REPORTS STUDENTS DEMONSTRATIONS IN SOUTH

SK270455 Pyongyang KCNA in English 0332 GMT 27 May 83

[Text] Pyongyang, 27 May (KCNA)—The South Korean puppet clique arrested six girls at Songgyungwan University in Seoul on 26 May on charge of participating in an anti-"government" struggle, according to a foreign press report from Seoul.

The fascist clique stretched its talons of suppression to these girl students, accusing them of agitating over 300 fellow students by scattering anti-"government" leaflets on 23 May.

On 23 May the puppets arrested five boy and girl students at the Suwon branch of the university on the same "charges."

The fascists also arrested four students at Kyonghui University in Seoul on charges of participating in an anti-"government" struggle, according to the report.

This fully shows how wild the Chon Tu-hwan fascist group is running to bar the anti-"government" action of students which is gaining further momentum on the occasion of the third anniversary of the Kwangju popular uprising and create a terror-ridden atmosphere in society.

[Text] Pyongyang, 2 Jun (KCNA)--Soviet papers and news agency gave wide publicity to the struggle waged by the South Korean students against the Chon Tu-hwan puppet clique on the occasion of the third anniversary of the Kwangju popular uprising.

TRUD 29 May under the title "Demonstrations in Seoul" said that students in Seoul continued massive demonstrations under the slogans "Down with the Chon Tu-hwan clique!" and "Enforce democratic reforms!" on the occasion of the third anniversary of the Kwangju popular uprising.

On the same day KOMSOMOLSKAYA PRAVDA reported the demonstrations of South Korean students under the title "Students' Demonstrations in Seoul."

TASS 27 May reported the continued demonstrations of students against the Chon Tu-hwan dictatorial "regime."

It said: The universities and university quarters of Seoul, the theatres of continued actions of students against the pro U.S. Chon Tu-hwan dictatorial "regime," are in police encirclement.

A building of Seoul University was burnt and many were wounded in the course of the fierce fight.

Propaganda materials calling upon the South Korean population to greet with a massive action the third anniversary of the Kwangju popular uprising of May which was brutally suppressed by Chon Tu-hwan's "punitive force" in 1980 are distributed in Seoul in the teeth of repression.

KCNA DENOUNCES PUNISHMENT OF STUDENTS IN SOUTH

SK020417 Pyongyang KCNA in English 0334 GMT 2 Jun 83

[Text] Pyongyang, 2 Jun (KCNA)--The South Korean fascist hangmen staged a trial at the puppet Seoul District Criminal Court on 31 May and sentenced Kim Sang-uk, Yi Tae-yong and Kang Hui-tong, students of Sogang University in Seoul, to prison terms up to three years, according to a report.

The fascist clique charged them with "violation of the law on assembly and demonstration" after they scattered more than 280 copies of anti-"government" leaflets on the campus on 22 March agitating a demonstration.

On the same day the fascist hangmen imposed a prison term of eight months upon four students including Kim Chae-hyok, a student of the Presbyterian Theological Seminary, whom they had been persecuting after arresting on charges of participation in an anti-"government" demonstration in Seoul in early October last year.

Uneasy about the growing anti-"government" action of students, the Chon Tu-hwan puppet clique arrest and imprison progressive students and impose harsh penalties upon them by staging murderous trials every day in a foolish attempt to break the spirit of the rapidly expanding anti-"government" struggle of students.

But, such barbaric repression by the puppets only strips them naked as despicable fascist hangmen and rouse fiercer anger of the students desirous of democracy.

'ASAHI SHIMBUN CITED ON STUDENTS' STRUGGLE IN SOUTH

SK300423 Pyongyang KCNA in English 0409 GMT 30 May 83

[Text] Pyongyang, 30 May (KCNA)—ASAHI SHIMBUN 29 May carried a report from its Seoul correspondent on the daily expanding anti-"government" struggle of South Korean students, according to a KNS report from Tokyo.

The paper says:

South Korea has become the theatre of frequent anti-"government" actions with students playing the leading part.

The anti-"government" rallies and demonstrations that began at universities on the third anniversary of the Kwangju uprising on 18 May have not yet died down in spite of the harsh repression by the authorities.

The anti-"Government" demonstrations and rallies are dragging on longer than usual; they are expected to continue till mid-June.

The leaflets scattered at different universities indicate that their common slogans are the abolition of the "graduation limit system" and the revival of campus autonomy.

Stringent is the surveillance over the campuses. Plainclothes men under the disguise of students lie in hiding everywhere in the campuses.

A profession at Seoul University lamented: "Sometimes the plainclothes men are greater in number than the students."

The South Korean activists of student movement are sternly punished; they are expelled from the campuses and pressganged into the army. Nevertheless, anti-"government" demonstrations break out frequently. Some analysts say that this is because the control on the campuses has become tighter than in any other time and there is a strong distrust in the "government among the students who form the main stream of the movement because they entered the schools in 1980 when the present "regime" appeared on the scene.

Leaflets scattered at different universities, while demanding the resignation of Chon Tu-hwan, voice "Opposition to Japan-South Korean military cooperation," and caution against the Nakasone cabinet is also noticed. The hunger strike of Kim Yong-sam also has influence on the student movement.

KCNA CARRIES TASS ARTICLE ON SOUTH'S SITUATION

SK020859 Pyongyang KCNA in English 0816 GMT 2 Jun 83

[Text] Pyongyang, 2 Jun (KCNA) -- The Soviet News Agency TASS on 31 May published its observer's article titled "Protest Against Arbitrariness and Reprisals" in connection with the expanding struggle of South Korean figures against fascism and for democracy.

It says: Five more representatives of the South Korean opposition forces went on a hunger-strike today in protest against the flouting of fundamental human rights by the Seoul "regime" and its American patrons. More than 20 prominent political, public and religious leaders of South Korea have already joined in the hunger strike started by Kim Yong-sam, president of the defunct New Democratic Party, in Seoul on the evening of 17 May.

The participants in the hunger strike resorted to this form of protest to draw the attention of the world public to the truly draconic orders that have been imposed in South Korea. All political activity has been outlawed, fundamental democratic freedoms are non-existent, thousands of people were thrown into jails without trial or investigation.

The slightest criticism of the "regime" or the U.S. sway calls forth a severe punishment.

Washington views South Korea above all through the prism of U.S. military strategic interests. The Pentagon has turned the south of Korea into a forward base in the Far East. Therefore the actions of the South Korean opposition forces for democratic transformations are closely linked with the struggle for the withdrawal of U.S. troops, for independent and peaceful development.

IUS CALLS FOR SOLIDARITY WITH S. KOREAN STRUGGLE

SK271019 Pyongyang KCNA in English 1014 GMT 27 May 83

[Text] Pyongyang, 27 May (KCNA)—The secretariat of the International Union of Students urgently calls upon all the IUS member organizations to express solidarity with the South Korean students in their struggle, bitterly denouncing the South Korean military "regime" for its suppression and violation of human rights.

This was stressed in a letter sent by the IUS secretariat to all the IUS member organizations on 16 May on the occasion of the third anniversary of the Kwangju popular uprising.

Noting that these days the struggle of South Korean students against the dictatorial rule of the Chon Tu-hwan clique is gaining further momentum and being expanded to all universities, the letter said:

No matter what means of suppression the Chon Tu-hwan clique may employ, it cannot put down the people's desire for democracy and reunification or call a halt to their struggle.

The IUS secretariat once again voices militant solidarity with the struggle of the entire students of Kwangju and South Korea.

APPEAL BY IMPRISONED STUDENT REJECTED

SK010851 Pyongyang KCNA in English 0804 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA)—The South Korean military fascist clique on 30 May unwarrantably rejected an appeal by So Chun-sik, a Japan-born Korean student, who is placed in a detention house, according to a foreign press report from Seoul.

So Chun-sik, who is forced to prison life for a long period on faked-up charges of "spying," presented an appeal to the puppet appellate court in protest against the fascist clique's crime in keeping him in custody by invoking the "measure of custody for public peace." But the fascist clique groundlessly rejected his appeal.

So Chun-sik was arrested in the spring of 1971 while studying at Seoul University as a Japan-born Korean on charges of being involved in a faked-up "campus spying case." After that he completed a seven-year prison term till 27 May 1978.

But the fascist clique in an effort to prevent their dastardly intrigues from being exposed to the world, applied the aforesaid "measure" to him under the notorious "social security law" and renewed the two-year period of "custody for public peace" three times.

By the fascist step of rejecting his appeal this time he will be held in custody until May next year, the foreign press report said.

MORE FROM TASS ON TRIANGULAR MILITARY ALLIANCE

SK261010 Pyongyang KCNA in English 1001 GMT 26 May 83

[Text] Pyongyang, 26 May (KCNA) -- TASS 23 May exposed the schemes of the U.S. imperialists to frame up a triangular military and political alliance of the United States, Japan and South Korea.

It says: The plan to form a tripartite military and political alliance of the United States, Japan and South Korea with Washington as its "leader" is revealing its outline more saliently. According to a report of ASAHI SHIMBUN, the Japanese "Defence Agency" decided to hold joint military exercises with the United States forces stationed in South Korea.

This decision furnishes added proof that the present Japanese Government adopted a policy of establishing close relations including military tieup with the South Korean "regime." Suffice it to recall that Nakasone, new prime minister of Japan, visited South Korea as his first foreign trip.

The United States has long been using South Korea as its bridgehead in the Far East. The Washington strategists do not give up their attempt to inveigle Japan in it. Consultations between the Japanese Foreign Ministry and the South Korean "Foreign Ministry" are held regularly. The meeting between the Japanese "Defence Agency" and the South Korean "Defence Ministry" is held twice a year from 1977.

Tokyo offers bases in the Japanese territory for annual "team spirit" military exercises of the United States and South Korea.

In an annual report submitted to U.S. Congress the Pentagon already regards the relations between Japan and South Korea as equal to those between the NATO member nations. This arouses due apprehensions among Asian countries.

ASSEMBLY TO CALL SPECIAL SESSION IN MID-JUNE

SK270214 Seoul YONHAP in English 0200 GMT 27 May 83

[Text] Seoul, 27 May (YONHAP)--The National Assembly is expected to call a special session around 15 June, Minister of State for Political Affairs O Se-ung said Thursday.

After a policy consultation meeting between the government and the ruling democratic Justice Party (DJP), O explained the administration and the party came close to an agreement to convene the 117th special session in mid-June. O said only 19 of the 39 bills up for the special session underwent the government-party coordination.

Other bills are still either under consideration or yet to be submitted by the government O said.

In the meantime, appearing before the joint government-party session, Foreign Minister Yi Pom-sok reported that the Taiwanese Government had repeatedly requested to send the six hijackers of the Chinese airliner, who allegedly sought political asylum in Taipei.

Yi also said Japan had promised its efforts to correct trade imbalance with Korea in the recent Korea-Japan trade talks held in Tokyo. Yi said no satisfiable results, however, were achieved for transfer of Japanese technology to Korea.

Deputy Prime Minister and Economic Planning Minister Kim Chun-song said Korea achieved a 9.3 percent of economic growth this year as of the end of March, and is expected to see a 7.6 to 7.8 percent growth by the end of this year.

As of 15 May, Kim added, the nation's factory operation rate reached 79 percent, while export dropped by one percent from a year earlier. In terms of quantity, however, export rose by 9 percent from a year ago, Kim said. The wholesale price registered a minus 0.7 percent increase as of 15 May, the first-ever below-zero-rate since the establishment of the government, according to Kim.

Kim predicted that if the agricultural sector this year maintains an average yield, the wholesale price will be held down to within one percent rise and the consumer price of 3-4 percent increase by the end of the year.

CENTRAL BANK REPORTS ROK ENTERPRISE GROWTH

SK300146 Seoul YONHAP in English 0134 GMT 30 May 83

[Text] Seoul, 30 May (YONHAP)—South Korean enterprises earned larger profits last year than in 1981, improving their financial structure, due mainly to bank interest rate cuts and the stabilized prices of imported raw materials. Their growth, however, was somewhat slowed, the Bank of Korea said Monday.

A Central Bank report showed Monday that the manufacturing sector last year registered a net sales growth rate of 12.3 percent (7.1 percent after adjustment for inflation), far below a nominal 33.9 percent growth (15.2 percent after adjustment for inflation) in 1981.

Thanks to several bank interest rate cuts and the stabilized prices of major raw materials, however, the manufacturing sector recorded a net sales growth rate of 0.04 percent, getting out of the deficit for two consecutive years. The normal profits growth rate dropped by 1.1 percent in 1980 and by 0.7 percent in 1981.

The normal profit to net sales also increased from 0.01 percent in 1981 to 0.9 percent last year, according to the Central Bank report.

Enterprises' net worth to their total assets also rose to 20.6 percent last year from 18.1 percent in 1981 and 17.0 percent in 1980, reflecting their improved financial status.

The gross value added per capita, which is usually called labor productivity, registered a rise of 12.2 percent last year (6.1 percent after adjustment for inflation), compared with a nominal 28.2 percent (inflation-adjusted growth of 6.5 percent) in 1981.

While the employment cost per capita was lowered from 19.3 percent in 1981 to 14.3 percent last year, the distribution ratio to gross value added rose from 47.5 percent in 1981 to 48.4 percent last year, according to the bank report.

CANADIAN TO PUSH SEOUL IPU VENUE IN HUNGARY

[Text] Toronto, 24 May (YONHAP)—Rep Marcel Prudhomme, chairman of the Canadian chapter of the Inter-Parliamentary Union (IPU), said Tuesday he will urge all of the Warsaw Pact countries to send their delegations to Seoul's IPU conference in coming October when he attends IPU security and cooperation conference in Hungary this week.

Addressing an annual meeting of the Canadian chapter of the Korea-Canada Parliamentary Association here in Ottawa shortly before his departure for Hungary, Prudhomme said he will continue to work for the success of the IPU Seoul meeting. Prudhomme left here for Hungary at the head of a Canadian delegation later in the evening.

Prudhomme, who is chairman of the House of Commons' Standing Committee on External Affairs and defense, also serves as vice chairman of the Canadian half of the bilateral association. He is known to have worked hard to have the IPU board meeting in Rome last month confirm Seoul as the site of the next IPU General Assembly.

Speaker Jean Marchand of the Canadian Senate, addressing the same forum, complimented the association on its work in boosting friendship between the two nations. "The Korea-Canada Parliamentary group probably has done the best job of any parliamentary associations in strengthening relations between Korea and Canada," Marchand said.

The annual meeting, attended by 35 Canadian members of the bilateral group, re-elected Rep Robert Coates of the major opposition Progressive Conservative Party as Canadian side chairman of the bilateral group for another one year term.

Rep Pong Tu-wan, Korean side chairman of the bilateral group, who is visiting here at the invitation of Coates, also observed the annual conference.

INDIAN VISITOR HOPES FOR SUCCESSFUL IPU MEETING

SK240146 Seoul THE KOREA HERALD in English 24 May 83 p 1

[Text] The speaker of the Lok Sabha (House of the People) of the Indian National Parliament said yesterday that the prospects for relations between Korea and his country are "very bright."

In a news conference at a downtown hotel in Seoul, Dr Bal Ram Jakhar said, "We want expansion of cooperation in the fields of economy, technology and culture and to have better trade relations between Seoul and New Delhi. We also want to have more exchanges between parliamentary groups of the two nations so that we can understand each other better."

He said he was impressed by the economic development Korea has attained in the past decades. "I must say that the country has had wonderful growth."

Dr Jakhar said that his country wants further expansion of cooperation between underdeveloped nations so that they could develop and attain self-reliance. "But we do not want any interference in domestic affairs of other countries."

On the division of the Korean peninsula, the 60-year-old Indian parliamentary leader expressed hope that Seoul and Pyongyang will solve the question through dialogue.

India also has diplomatic relations with North Korea.

As for a meeting of the Inter-Parliamentary Union (IPU) to be held in Seoul in October, he said that "we are sure the meeting will be a success."

He said he will visit Seoul again this October as head of an Indian delegation to the IPU's 70th general conference.

Jakhar arrived in Seoul on 15 May at the invitation of National Assembly Speaker Chae Mun-sik. While staying here, he met with President Chon Tu-hwan, Chae, Prime Minister Kim Sang-hyop, Minister of Foreign Affairs Yi Pom-sok and other Korean parliamentary and government leaders. CHON URGES EFFORTS FOR SUCCESSFUL IPU MEETING

SK270232 Seoul THE KOREA HERALD in English 27 May 83 p 1

[Text] President Chon Tu-hwan said yesterday all-out efforts should be exerted to encourage as many member states to attend the IPU general conference in Seoul.

Talking over lunch with a Korean delegation to a recent IPU Inter-Parliamentary Council meeting in Helsinki, Chon also said the upcoming Seoul event should provide an occasion to make a monumental development in the IPU.

As long as the IPU has reaffirmed its decision to hold its general conference in Seoul this year, "all that is required of us is to hold it successfully in accordance with the IPU spirit," he said.

The president predicted North Korea may launch sustained activities to prevent Seoul from hosting the general meeting, because it failed to prevent Seoul from becoming the site at the Helsinki meeting.

Noting the communist regime may persistently endeavor to persuade other member nations not to take part in the Seoul meeting, he called for full counter-measures.

If they, the North Koreans, fail to prevent the meeting by these means, they may seek to trigger political unrest by infiltrating task troops into the Republic, he warned. Thorough measures should be worked out to stop these infiltration attempts.

The 13 member delegation to the recent IPU council meeting was headed by Kwan Chung-tal, chairman of the National Assembly Home Affairs Committee.

ROK TO RETALIATE AGAINST AUSTRALIAN IMPORT RESTRICTIONS

SK300846 Seoul YONHAP in English 0705 GMT 30 May 83

[Text] Seoul, 30 May (YONHAP)---South Korea seeks to shift its import source for beef from Australia to New Zealand as a countermeasure against Australia's strengthened restrictions on imports from Korea.

Australia has been the sole beef supplier to South Korea.

The move, the first of its kind since the government has decided to adopt the import-export linkage system as a countermeasure against countries restricting commodity flow from Korea, is expected to heighten the possibility of trade relations being soursed between the two countries.

A government source said Monday that the government is planning to import a considerable amount of beef from New Zealand this summer.

Korea imported 172.5 million dollars worth of beef from Australia in 1981 and 116 million dollars in 1982. This year's Australian beef import target is set at 137 million dollars.

Despite the lopsided trade imbalance in disfavor of Korea, Australia has recently imposed anti-dump tariffs on six Korean-made commodities and is investigating the alleged dumping charges against 10 other Korean goods.

In addition, the Australian Government has frustrated Kujje Construction's plan to build a pipeline system in Queensland, Australia in a 25-75 joint venture, according to the source.

[Text] Seoul, 31 May (YONHAP)—The government has decided to liberalize the imports of an additional 305 items beginning on 1 July this year, raising the import liberalization rate from the current 76.6 percent to 80.4 percent, the Commerce-Industry Ministry announced Tuesday.

The 305 import-free items include large-sized refrigerators, black-and-white television sets and parts, washing machines, tractors, farm machines, automobile parts, wall cloaks, some medicines, liquefied propane gas adjustors, shirts, neckties, outer garments, purses, razors and belts.

Eighty-two of the 305 items will be placed under surveillance and 62 others will be required to pay higher tariffs, however, according to the ministry announcement.

New import restrictions will be imposed on glass for the manufacture of braun tubes, snakes and earthworms.

The government plans to boost the import liberalization rate to 85 percent next year, 87 percent in 1985 and 90 percent in 1986. A level available in industrially advanced countries.

Commodity items to be brought into the country without any restrictions will be announced in advance in order to minimize possible adverse effects on domestic industries, the announcement said.

Accordingly, commodities due for free import in July next year will be announced by the end of this year.

The projected 1 July free imports of refrigerators, ice cream and five others will boost the import liberalization ratio of the 164 monopolistic-oligopolistic goods to 48.8 percent from the present 44.5 percent. Ninety-one of the 164 products are now placed under import restrictions.

Meanwhile, exports of fertilizer, cement and 44 other items will be freed beginning 1 July, boosting the export liberalization rate from the present 79 percent to 83.5 percent, according to the announcement.

KIM CHONG-IL CREDITED WITH LEADING ECONOMY IN THE 70'S

SK011037 Pyongyang KCNA in English 1015 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA)—The world public highly laud the wise guidance and noble virtues of the dear leader Comrade Kim Chong-il.

Agnes Bend, chairman of the Guyanese National Committee for the Study of the Chuche Idea of Comrade Kim Il-song, in his congratulatory speech at a meeting held to celebrate the birthday of the dear leader Comrade Kim Chong-il, stressed:

For his distinguished qualities as a revolutionary and for the immeasurable exploits he has performed in the revolutionary struggle the dear leader Comrade Kim Chong-il enjoys unquestioned trust and respect for the Korean people and the world's revolutionary people.

World-startling miraculous successes are achieved in succession in Korea under his wise guidance.

Kamrul Huda, secretary general of the South Dhaka District Committee of the Bangladesh Self-Reliance Research Academy, said on the impressions he had got during his visit to Korea: The Workers' Party of Korea founded by the great leader President Kim Il-song has constantly developed under the wise guidance of the dear leader Comrade Kim Chong-il and now is fully playing its function and role as the heart of society.

The dear leader instilled new spirit into the whole party by seeing to it that energetic work was undertaken to establish the monolithic ideological system of the party through the application of the principle of party construction in keeping with the requirements of modelling the whole of society on the chuche idea.

The Workers' Party of Korea has strengthened and developed into a revolutionary party with an invincible might under his energetic guidance.

B. Ousmane, member of the Organizational Committee of the Central Committee of the Party of the People's Revolution of Benin, stressed with regard to the development of Korean literature and art: One of the events that merit special record in the annals of the cause of chuche in recent years is that an epochal
change has taken place in the literature and art of Korea thanks to the original literary and art idea and wise guidance of dear Comrade Kim Chong-il.

He was the first in history to found the chuche-based idea and theory on humanics and the seed, put forward a bold policy of bringing about a radical change in all spheres of literature and art—the content and form, creative system and method—in conformity with the demands of the times and the desire of the popular masses and has tirelessly led the struggle for its implementation.

As a result, Korea witnessed the creation of a revolutionary opera which presents an organic combination of national and popular stanza and pangchang, graceful national dance and three-dimensional stage decor, a new-type opera placing an independent man in its centre, and ushered in a great heyday in all domains of literature and art, such as film, music, dance, drama, circus and fine art.

That is why the world people call Korea "the cradle of the renaissance of socialist literature and art in the 20th century" and laud Korean art as "art of the highest peak in the world."

The Peruvian paper LA REPUBLICA said: It is under the leadership of Mr Kim Chong-il that Korea has turned today into a country with a mighty economic potential, not wavering in any worldwide economic crisis.

In the 1970's when capitalist countries such as the United States and Britain were undergoing an economic crisis, the Korean people created a surprising rate of development by increasing the annual industrial production 15.9 percent on an average under his wise leadership. Last year they boosted the gross industrial output value 16.8 percent up on 1981 and produced 9.5 million tons of grain.

Robin E. Raveles, chairman of the Surinam National Republican Party, said: Dear Comrade Kim Chong-il is a true leader of the people who, possessed of great personality, shows utmost care for and loves the working masses of people and devotes his all to their benefit.

He regards it as his duty and mission to look after the people's living, places it above any other work and devotes all his efforts to it.

His policy is, indeed, a policy of great love for the people.
DPRK DAILY ON KIM IL-SONG REVOLUTIONARY STRUGGLE

SK311615 Pyongyang KCNA in English 1532 GMT 31 May 83

[Text] Pyongyang, 31 May (KCNA)—NODONG SINMUN today carries an article on the lapse of 50 years since the great leader Comrade Kim Il-song established the People's Revolutionary Government in the guerrilla base-liberated zone along the Tuman River in the period of the anti-Japanese revolutionary struggle.

It recalls that in the period of the anti-Japanese revolutionary struggle the great leader Comrade Kim Il-song propounded the chuche-oriented idea, theory and line of building a people's government and set up a new-type government of the working class by brilliantly carrying them into practice and, in this course, achieved priceless exploits and experiences in building the people's government, making an undying contribution to the development of the Korean revolution and the revolution in our era.

It says: The great leader laid down a chuche-oriented line for the building of the people's government. This line gives a new exposition of the problems of principle arising in the popular masses' building of the government defending their chajusong (independence)—the leadership of the working class over the government and the class and socio-political foundations of the government.

What is important in the basic content of this line is that the people's government should be guided by the working class.

To firmly guarantee the leading position and role of the working class in the people's government is a question of principle in building a government defending and realizing the interests and rights of the masses of people. Based on this revolutionary principle is the idea of the great leader on the leading position and role of the working class in the people's government.

What is also important in the basic content of this line is that the people's government should rely on the united front of people in all walks of life.

If the state power of the working class is to be established in conformity with the actual conditions of the country, it should adopt a type correctly reflecting the character and duty of the revolution and class relations as clarified by the great leader.
The chuche-oriented line of building the people's revolutionary government dependent on the united front of patriotic forces of various strata originates from this demand for establishing the people's government reflecting the character and duty of the Korean revolution and the social and class relations.

After he set forth the unique theory and line of government upbuilding, the great leader Comrade Kim Il-song wisely led the anti-Japanese guerrillas and people in the guerrilla base to successfully establish the people's revolutionary government in the broad guerrilla districts along the Tuman River in the spring-summer period of 1933.

In the course of wisely leading the building of a new-type people's government, the great leader accumulated priceless exploits and rich experiences.

These exploits and experiences served as the firm root of the building of our people's government after liberation and a precious revolutionary wealth.

KCNA ON KIM CHONG-IL GUIDANCE TO PLANT IN PYONGYANG

SK311627 Pyongyang KCNA in English 1541 GMT 31 May 83

[Text] Pyongyang, 31 May (KCNA)--The Pyongyang Textile Machine Factory is well known throughout the country for its good management of equipment.

In the spring of 1961, 20 odd years ago, the dear leader Comrade Kim Chong-il operated lathe No 26. Working together with workers there for more than 10 days, set an example in the management of equipment and clearly explained problems arising in production and equipment management.

He said that machine operators should take care of their machines and work in a manner befitting the master responsible for both equipment and production.

He taught that the workers should be skillful in handling their machines, constantly raise the level of their technical skill and thus improve technical conditions of the machines and maximize the precision of the products.

Upholding his noble intentions, a vigorous drive to keep the machines clean and tidy like lathe No 26 was launched at the factory.

Through this drive, the technical conditions of all the machines and equipment of the factory have been improved and many machines and equipment have been devised and manufactured.

The factory has made nearly 2,000 kinds of textile machine accessory parts more precise and laid a solid material and technical foundation for meeting the nation's demand.

Over 6,700 technical innovation proposals have been introduced into production over the last 20 odd years.

Production centres of oxygen generating machines, rolling equipment and compound [word indistinct] powder and other materials have been consolidated and new casting and heat-treatment methods introduced.

The number of machine tools at the factory has nearly trebled as against [word indistinct].

KIM IL-SONG WORK ON REUNIFICATION PUBLISHED

SK011602 Pyongyang KCNA in English 1506 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA)--"On the Proposal for Founding a Democratic Confederal Republic of Koryo," a collection of speeches and talks of the great leader Comrade Kim Il-song on the question of national reunification and his answers to questions raised by foreign journalists, was brought out recently in Russian, Chinese, Japanese, English, French, Spanish, German and Arabic by the Foreign Languages Publishing House.

In his conversation with the South Korean delegates to the high-level political talks between North and South, which were held in May 1972, the great leader Comrade Kim Il-song, reflecting the demand of fast changing situations at home and abroad in the 1970's, put forward the three principles of independence, great national unity and peaceful reunification as the basic programme of national reunification.

In his report to the Sixth Congress of the Workers' Party of Korea on the work of the Central Committee, he reclarified tasks for the independent and peaceful reunification of the country and ways for their fulfillment.

For the independent and peaceful reunification of the country, he advanced the tasks to liquidate the South Korean military fascist rule, realise the democratization of society, replace the armistice agreement with a peace agreement, remove the danger of war and put an end to the United States' "two Koreas" plot and interference in the internal affairs of Korea.

Basing himself on the three principles of national reunification, the great leader set forth a new reunification proposal for founding the Democratic Confederal Republic of Koryo.

Reiterating that the reunification of the country should be achieved on the three principles of national reunification, he said that the most realistic
and reasonable way for it is to bring the North and the South together into a confederal state, leaving the ideas and social system existing in North and South as they are. He gave a comprehensive exposition of problems concerning the establishment of a confederal state.

The great leader advanced a ten-point policy to be enforced by the Democratic Confederal Republic of Koryo after the achievement of national reunification and clarified tasks for the realization of the new national reunification proposal.

In his various works the great leader Comrade Kim Il-song repeatedly expounded concrete tasks for the realization of the new, most realistic and reasonable proposal for national reunification put forward at the Sixth Congress of the Workers' Party of Korea.

KCNA DESCRIBES DPRK'S CONCERN FOR CHILDREN

SK011033 Pyongyang KCNA in English 1009 GMT 1 Jun 83

[Text] Pyongyang, 1 Jun (KCNA)—June 1 is a significant day marking the seventh anniversary of the enforcement of "Law of the Democratic People's Republic of Korea on the Nursing and Upbringing of Children" provided by the great leader Comrade Kim Il-song.

The adoption of the law on rearing all the children of the country at the expense of the state and society was a great event demonstrating the superiority of the socialist system of our country.

The Korean children now enjoy happiness with nothing more to desire under the tender love and deep care of the great leader Comrade Kim Il-song.

The best and excellent things are preferentially provided to the children in Korea. Last year, for example, high-quality clothes, shoes, foodstuffs and tonics were supplied free to all the children of the country.

As many as 3.5 million children are growing healthily, receiving systematic and diversified education at the expense of the state and society at more than 60,000 modernly equipped kindergartens and nurseries.

Nurseries and kindergartens are found everywhere. The people live, be it town or village or remote mountain area. In recent years many more nurseries and kindergartens have been built, among them the Pyongyang Changgwang Kindergarten equipped with ultra-modern facilities, which has an accommodation of 800.

The state appropriates a huge amount of funds for the management of the nurseries and kindergartens and this work is supported through a social movement.

The state also pays deep attention to the health of the children. The Korean children have doctors assigned to them to look after their health from the moment of their birth. The Pyongyang Maternity Hospital with a total floor space of 60,000 square metres and more than 2,000 rooms is equipped with up-to-date medical facilities and appliances.

Children's department stores and children's parks with modern pleasure facilities are found in Korea.
There are also in Korea children's dressmaking factories, children's bicycle factories, children's cake factories and other special factories serving children and stores for supplies to the nurseries and kindergartens.

Many talented children good at study and art are growing in the cradle of happiness.

KCNA ON CONSTRUCTION OF NAMPO LOCKGATE

SK301545 Pyongyang KCNA in English 1527 GMT 30 May 83

[Text] Pyongyang, 30 May (KCNA)—The construction of the Nampo Lockgate is progressing apace across 8 kilometres of rough sea to be one more pride of Korea.

Nearly 4 kilometres of the main dam has been built, the cofferdam project for damming off the sea scores of metres deep and building ship locks has entered the final stage, 11 box-type building materials each weighing nearly 10,000 tons were manufactured and scores of ri long railways and roads built.

These are the achievements made by the builders of the Nampo Lockgate in the last one year or so since the project entered the full-dress stage.

The scale of the lockgate is unprecedentedly vast; from the designing to the construction the project is carried on with our own technique and effort, equipment and materials.

The lockgate is unique of its kind in the world in the width and length of the dam and ship locks and in the passing capacity.

The construction of the lockgate is a grand nature-remaking project beyond ordinary imagination; it will be equipped with several locks, a gigantic rotating bridge over them, water-controlling dam and auxiliary dam, a fishway, railways and roads.

In May 1981 the great leader Comrade Kim Il-song chose the site for the construction of the lockgate on the spot and indicated the direction and ways of the project, and assigned the honorable task of building the lockgate to the soldiers of the Korean people's army, saying that such a grand project as the construction of the Nampo Lockgate could be done only by them.

The soldiers participating in this construction manufactured by their own efforts a 150-ton crane boat and various other crane boats, underwater excavators, underwater concrete tampers and other machines to create a new speed in the project.
Hundreds of automatic unloading boats and various cargo ships, crane vessels, thousands of large lorries, excavators and bulldozers and other machines are now put to effective use at the construction site.

The dear leader Comrade Kim Chong-il took measures to make the whole party, whole country and the entire people actively assist the constructors of the Nampo Lockgate, and gave working guidance to the construction site on the spot on 20 April this year.

Greatly encouraged by this, the builders are increasing the construction tempo two times in building the main dam and 1.3 times in building the cofferdam.

They made one large box-type building material in a month but now eight of them in the same period.

The soldiers are increasing the speed of the project and with an aim to start the construction of ship locks in the latter half of the year.

The Nampo Lockgate is of great political and economic significance in Korea.

When this lockgate is completed, a big artificial reservoir will be built on the Taedong River to fully solve the water problem in South Pyongan Province, Nampo Municipality and North and South Hwanghae Provinces.

The reservoir will supply sufficient amounts of water particularly to the newly-reclaimed tideland and industrial establishments in the lower reaches of the Taedong River.

The passing capacity of Nampo, Songim and other ports will double, and the industrial and agricultural areas from Nampo to Sunchon, Tokchon and Chaeryong be linked by a great canal to open a bright vista in the development of marine transport.

Railways and roads will be laid on the lockgate to form a grand rotation line on the west coast so as to develop the transport in this area. Recreation grounds and health and holiday resorts will appear in many parts to make the landscape along the Taedong River more beautiful.

SK311029 Pyongyang KCNA in English 1005 GMT 31 May 83

[Text] Pyongyang, 31 May (KCNA)—Prof. Ruhi Amin, chairman of the Barisal District group of the Bangladesh Self-Reliance Research Academy, recently published a travelogue on Korea under the title "Korea, People's Paradise."

Saying that he had visited Korea to have a deeper study of the chuche idea, he said: I visited Mangyongdae before anywhere else.

Mangyongdae is the holy land of revolution associated with the imperishable revolutionary history of the great leader.

All the revolutionary people of the world look up to and follow the great leader Comrade Kim Il-song as the sun.

The historic mementoes preserved in Mangyongdae where he was born make people vividly recall the history of the struggle of the revolutionary family which fought against the Japanese imperialists and for the independence of the country and the revolution.

I also inspected the modern Changgwang Health Complex, which is equipped with facilities necessary for the cultured life and improvement of health of the people.

The Korean people can legitimately boast of this beautiful monumental edifice to the world.

Through this inspection I could see well that the great leader President Kim Il-song and the dear leader Comrade Kim Chong-il pay deep attention to the improvement of the health of the working people.

I also went round the Pyongyang Metro which can be said to be an underground paradise.

It is a most modern metro. The metro stations are decorated with mural paintings and festoons showing the propsering Korean society.
As they are guided by the dear leader Comrade Kim Chong-il, holding President Kim Il-song, a great teacher, as their leader, the Korean people could build such a metro in a brief span of time.

I was firmly convinced that the Korean people under the guidance of the great leader and the dear leader would achieve greater success in the building of a new society through the embodiment of the chuche idea.

The Korean Revolution Museum is one of the immortal ground monuments of the Korean revolution.

it is a university of revolution and a base of education in the chuche idea where people learn the immortal revolutionary idea and profound revolutionary theory of the respected leader President Kim Il-song.

The author continued: No other country in the world achieved so great prosperity and brilliant successes in all realms of social life, political, economic and cultura, in scores of years like the Democratic People’s Republic of Korea.

The Korean people enjoy all benefits under the leadership of the great leader President Kim Il-song, a man of tenderest heart and a statesman who has unquestioned authority in the whole world.

He always finds himself among the people and gives on-the-spot guidance to them.

He is, indeed, a great teacher and a tender-hearted father of the people.

No doubt, a bright future is opened for the DPRK which is developing independently and on an overall scale.

[Text] Pyongyang, 28 May (KCNA)--The attendants at a Pyongyang mass meeting welcoming the delegation of the African National Congress of South Africa which is on a visit to our country sent a letter of solidarity on 27 May to Conrade Samora Moises Machel, president of the Mozambique Liberation Front Party and president of the People's Republic of Mozambique.

The letter says: We send this letter to you, comrade president, with a soaring indignation at the news that on May 23 the South African racists indiscriminately bombed peaceful establishments and killed a number of innocent inhabitants in the suburbs of Maputo, the capital of Mozambique, with many planes of their air force.

It further says: We vehemently denounce the South African racist clique for their reckless bombing of Matola in the suburbs of the Mozambique capital as a grave violation of the territorial integrity and sovereignty of Mozambique, as a malicious challenge to the world's progressive people who set store by social justice and peace.

This act of terrorism committed by the South African racists is a link in the chain of their provocations against Mozambique which are stepped up in a planned way with scrutinized preparations and their escalation.

This reckless act of the South African racists is entirely due to the zealous patronage and backstage manipulation of the U.S. imperialists.

The U.S. imperialists are employing the South African racists as a "special detachment" with a wild ambition to keep hold on Southern Africa, which is located at a place of strategic importance with a wealth of mineral resources, as a stepping-stone for their invasion of the continent, as the last colonial stronghold.

They have supplied the South African racists with the latest weapons and equipment and are transferring to them large amounts of equipment, raw materials and technology to set up their own munitions industry. At the same time, they have gone so far as to dispatch military instructors there to train the racists and instigate them to control, intervention and aggression on the Southern African region.
With no heinous machinations, however, can the U.S. imperialists and the South African racists put down the flames of the anti-imperialist struggle for independence raging furiously in Southern Africa.

If the Pretoria racist clique, defying this fact, persist in the reckless acts of aggression against the peoples of Mozambique and Southern Africa, they will be held fully responsible for all the consequences arising from it and be confronted with more and more furious resistance of the world's people.

The Korean people who always regard the just struggle of the peoples of Mozambique and Southern Africa as their own will, in the future, too, as in the past, do all they can to actively support and encourage their cause of accomplishing national liberation and independence and safeguarding the territorial integrity and sovereignty against U.S. imperialism and the racists.

PERU'S COMMUNIST PARTY LEADER THANKS KIM IL-SONG

SK292241 Pyongyang KCNA in English 2202 GMT 29 May 83

[Text] Pyongyang, 30 May (KCNA)—The great leader Comrade Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea, on 27 May received a letter of thanks from Comrade Jorge Del Prado, general secretary of the Central Committee of the Peruvian Communist Party, leaving our country.

The letter reads:

Respectee comrade,

Before leaving Korea, I express most heartfelt gratitude to you for your personally inviting me to visit your country and receiving me and for according me particular hospitality during my stay in your country.

Deeply regretting that I have to leave your country before the completion of my itinerary in your country because of urgent problems facing our party, I beg you to excuse me magnanimously.

My visit to your country, brief as it was, proved to be very successful and useful to our party and Peruvian people because you received me and showed me particular hospitality.

During my stay in your country I had opportunities of seeing at first hand the successes achieved by your people in socialist construction.

Especially, in your words I could see your idea and view on the current international situation and on the struggle of the Latin American peoples including the Peruvian people.

Your people have registered amazing successes in the industrial domains, successfully developed a cooperativized and mechanized agriculture and have made great successes in science and technology, education and culture, thereby converting theirs into a country of self-sufficiency and radically improving their living conditions and enhancing their material and cultural living standards by their own efforts.
Your party led by you who drove away the Japanese imperialist aggressors inflicted the first crushing military defeat upon the U.S. imperialists and realized the age-old desire of your people.

The shining victory won by your people in the struggle to defeat the U.S. and Japanese imperialists inspires not only the Korean people but also all the peoples of the world, particularly the peoples fighting for national and social liberation.

This is also an inspiration to the struggle for achieving the victory of the cause of socialism on a worldwide scale and defending world peace from the threat of atomic war which might be ventured by the U.S. imperialists.

My visit to your country gave me opportunities of witnessing the realities of your country and understanding your view on the present international situation and gaining precious experiences.

The U.S. imperialists, I think, are the chief enemy of mankind who has created focal points of war in many parts of the earth and their aggressive nature brings a danger to mankind.

I have already told you that your idea and view on this point coincides with the idea of the Peruvian Communist Party and people in my talk with you.

Your view on the continental and worldwide significance of the revolution breaking out in the Latin American countries including Cuba, Nicaragua and Grenada and the armed struggle of the Salvadoran people for power accords with ours.

Your view that the U.S. imperialists' interference in Latin America must be brought to an end coincides with ours.

Also in line with ours is your strategic and tactical view that, in the face of the threat of imperialism, the revolutionaries should unite and the communists should not only fight well but also win over all the patriotic, progressive and democratic strata of each country and the world in the struggle against the U.S. imperialists.

Comrade Kim Il-song, I am not going to write this letter any longer. For this consensus of views the Peruvian communists and people have expressed full solidarity with the Korean people and your party in the victorious struggle waged by the Korean people and your party wisely led by you against the U.S. and Japanese imperialists in the past. And for this consensus of views, we will in the future, too, support with might and main the noble cause of the peaceful reunification of Korea and the struggle to completely smash the manoeuvres to form a fateful alliance of the U.S. and Japanese imperialists and the South Korean puppet clique. Our two parties and two peoples will closely unite in this struggle.

In concluding, I thank you for the precious gifts sent to me. I extend you comradely greetings once again.

[Text] Pyongyang, 28 May (KCNA)—The Pyongyang School Children's Art Troupe on a visit to Japan is successfully giving performances before large audiences in Japan, evoking widespread repercussions among Japanese people.

Tetsu Ueda, member of the House of Representatives, said: Korean art is an incomparably better one than that of other countries. This is the chuche art which no other country can match.

Today's performance was the world's best one not only in artistic value but also in ideological content.

Chuji Kuno, chairman of the Dietmen's League for Promotion of Japan-Korea Friendship, said: President Kim II-song shows warm love for the children and rears them up with great care, calling them the "king" of the country. The superiority of the educational system of the DPRK is manifested precisely in the performance of the Pyongyang School Children's Art Troupe.

The misdeeds of youth and children pose a serious social problem in Japan. But the bright and vivacious features of the Pyongyang School Children's Art Troupe suggest how to solve this problem.

Ryoichi Nagata, Liberal Democratic member of the House of Representatives, said: It was a very wonderful performance gripping the hearts of the audience.

All the numbers were flawless and the music was popular and pleasant to my mind.

They are indeed children with uncommon artistic talent.

It can be said that to show their art performance once is more effective than sending hundreds of diplomats.

Terumi Yamata, professor of Kansai Gakuin University, said: There performance is a brilliant embodiment of the chuche idea in the field of art and testifies to the superiority of the literary and art policy.
We have realised more clearly the wise leadership of Secretary Kim Chong-il, who is brilliantly translating into practice the great chuche idea founded by President Kim Il-song in the field of literature and art.

I extend my wholehearted thanks to the great President Kim Il-song and to dear Secretary Kim Chong-il for sending such an excellent art troupe to give boundless joy to us.

Naoko Watanabe, member of the Central Auditing Committee of the Japan Socialist Party, said: At first I recorded impressive number one by one. But I stopped halfway, because every number I heard and saw was impressive.

The performance fully showed how just the educational policy of the Democratic People's Republic of Korea guided by President Kim Il-song and Secretary Kim Chong-il is and what a splendid fruit it has born.

Masahiro Yamamoto, socialist member of the Diet, said: Little artists showed well the warm love and deep care of President Kim Il-song and his wise leadership with their high artistic talent and skill.

This is a secret of the wonderful performance of the art troupe, I think.

Takamichi Kato, chairman of the Mie Prefectural Headquarters of the Japan Socialist Party, said: The cheerful and powerful singing of children and their graceful rhythmic movement struck everyone with admiration. Their skill was refined. And their bright and clear complexion boundlessly stirs people.

This can be seen only in the children of the DPRK who are growing under the deep care of his excellency President Kim Il-song and his excellency Secretary Kim Chong-il.

Tokitada Sakai, governor of Hyogo Prefecture, had this to say: I was deeply impressed by the vivacious and wonderful performance of Pyongyang School Children.

Seeing the excellent performance of the children today, I felt that the future of the Democratic People's Republic of Korea is very bright and promising.

The Japanese children should learn from the Korean children in the future.

Morio Sakagami, president of the KYOTO SHIMBUN, said: In the performance I felt the pulsating breathing of the Korean people and saw children filled with hope and self-confidence.

I pay sincere tribute to the excellent policy of the great leader President Kim Il-song, who has established the best socialist educational system for the eternal prosperity of the country, saying that children are "king" of the country.

Masao Motoyama, mayor of Nagoya, said: I was moved by the very wonderful performance from beginning to end. Today's performance fully demonstrated the superiority of the socialist educational system of Korea. President Kim Il-song is enforcing truly good politics.

'TASS' SCORES PRESENCE OF U.S. NUCLEAR WEAPONS IN JAPAN

SK311553 Pyongyang KCNA in English 1514 GMT 31 May 83

[Text] Pyongyang, 31 May (KCNA)—TASS made public an analyst's article under the title "When Camouflage Is Removed" in connection with former U.S. President Carter's announcement that U.S. warships cruising off the coasts of Japan carried nuclear weapons.

The article said:

In an interview with a reporter of the Japanese paper ASAHI SHIMBUN Carter, former boss of "White House," said that the planes based on U.S. aircraft carriers and the ships of the 7th U.S. Fleet cruising off the coasts of Japan carried nuclear weapons. But don't these nuclear-armed ships and planes call at Japanese ports and land at its air fields? Such an admission made by someone who only recently served as U.S. Chief Executive is indicative in itself. It confirms the fact of the presence of U.S. nuclear weapons in Japan and a gross violation by Washington of the three non-nuclear principles proclaimed by Tokyo.

At the same time the interview demonstrates that the assurances made by the Japanese leadership on that delicate matter are groundless to say the least.

The Japanese authorities pretend that they firmly adhere to the mentioned principles: "Not to produce, not to acquire, and not to store nuclear weapons" on Japan's territory. When asked if the Pentagon could fit out U.S. naval ships and air force planes with such weapons, the Japanese side gives a standard answer: "The U.S. side made no such requests."

It turns out that the Japanese authorities are trying to make use of the mentioned "three non-nuclear principles" as a camouflage of sorts or as a shield protecting them from the public opinion of their own country.

The Japanese public is well aware of the extent of danger posed by Japan's transformation into a U.S. nuclear cellar which itself could come under a retaliatory strike, in case a conflict was started. Trying to reassure the public opinion the Japanese authorities often and willingly talk of their allegiance to the "three non-nuclear principles." But in actual fact it is with the tacit consent of official Tokyo that Washington has long discarded those principles.

NODONG SINMUN ON WORSENING GREEK-U.S. RELATIONS

SK021540 Pyongyang KCNA in English 1515 GMT 2 Jun 83

[Text] Pyongyang, 2 Jun (KCNA)---NODONG SINMUN today in an article titled "Present Greek-U.S. Relations" deals with the worsening relations between Greece and the United Statps surrounding the problem of U.S. military bases in Greece.

The existence of U.S. military bases in Greece is a result of the U.S. imperialism's aggression and intervention, the paper notes, and says:

The anti-U.S. sentiments of the Greek people ran higher with each passing day and they began to lift up their voice in demand of the withdrawal of the military bases of the U.S. Imperialists.

The government of the Panhellenic Socialist Movement which came to power in 1981 under such circumstances has directed attention to this problem and exerted efforts for its solution.

Prime Minister Papandreou strongly demanded Greek-U.S. talks on the future of U.S. military bases. The talks were thus repeatedly from October last year to March this year. At the talks the Greek side demanded that any new agreement should confirm the date of the final withdrawal of U.S. military bases from the territory of Greece. It also proposed that the U.S. bases be not used in opposing those countries which have good relations with Greece.

The stand and strong demand of the Greek side at the talks reflected the will of its people to defend the sovereignty and interests of their country. But the U.S. imperialists turned down this demand.

While holding talks with Greece, the U.S. imperialists rapidly intensified the military activities at their bases in Greece, infringing upon her sovereignty.

In refusing the demand of Greece and insisting on their brigandish demand, the U.S. imperialists seek a vicious aim to keep hold on their military bases in Greece and establish their control over the area surrounding her with these bases as a strongpoint.
Such moves of the U.S. imperialists are a wanton infringement upon Greece's sovereignty and territorial integrity and run counter to the trend of the times towards chajusong (independence).

The just demand of the Greek Government and people will certainly be realised.

PRC CONDEMNS S. AFRICAN RAID ON MOZAMBIQUE

SK261017 Pyongyang KCNA in English 1009 GMT 26 May 83

[Text] Pyongyang, 26 May (KCNA)—A spokesman of the Chinese Foreign Ministry at a press briefing in Beijing on 24 May denounced the barbarous raid of the South African air pirates on Maputo, Mozambique, according to a XINHUA report.

He said that the raid by South African war planes on Maputo, Mozambique, is a deliberate encroachment on the sovereignty and territory of an independent state and a grave crime committed by the South African authorities to the African people.

He said that the Chinese Government and people sternly condemn the South African authorities for the crime of barbarous aggression against Mozambique and firmly support the solemn and just stand of the Mozambican Government and the organization of African unity and the Mozambican Government's appeal to the governments of all countries and the international community for support.

REPORTS ON 'TASS' HITTING S. AFRICAN AIR RAID

SK281603 Pyongyang KCNA in English 1535 GMT 28 May 83

[Text] Pyongyang, 28 May (KCNA)—TASS published a statement in denunciation of the barbarous raid on a suburb of Maputo, the capital of Mozambique, by the air pirates of the South African racist clique, according to a report.

Noting that the fresh provocative sortie has once again demonstrated the aggressive ambitions of the South African racist regime, the statement notes that the South African authorities seek to put the people of Mozambique and the other peoples of Southern Africa on their knees, subordinate them to its dictate, make them give up support of the legitimate struggle by the African people of the Republic of South Africa and, furthermore, crack down on the determination of the people of Mozambique to proceed along the path of social transformations and strengthening their homeland's independence.

It exposes that the South African racists further intend to threaten peace and security of the peoples of the African continent by building up tensions and aggravating the situation in the region.

The criminal action by the racist regime of South Africa against Mozambique would have not been launched, had that regime not relied for support on the imperialist forces, above all on the United States, it notes.

The statement declares once again the invariable support of the Soviet Union for the Mozambican people in their struggle against the forces of imperialism, colonialism and racism.

TASS DENOUNCES NAKASONE'S MILITARY MOVE

SK271552 Pyongyang KCNA in English 1510 GMT 27 May 83

[Text] Pyongyang, 27 May (KCNA)—TASS published a commentary titled "What Is Prime Minister Nakasone After?".

Referring to the crimes perpetrated by the Nakasone Cabinet for six months since its appearance, it said:

Indeed, over the half a year of his stay in power the boss of the Japanese Government has made all kinds of bellicose utterances, rapidly strengthened Japan's war preparations and done so much for drawing Japan into the Pentagon's adventures, as apparently, none of his predecessors could permit himself.

He declared the readiness to turn Japan into "unsinkable aircraft carrier" carrying nuclear missiles and into a shield to protect the United States in case of armed conflicts.

Nakasone has openly declared for revising Japan's post-war constitution, especially its Article 9, which proclaimed the renunciation of war and creation of a military potential by Japan.

His words and deeds are a source of serious discontent and alarm both in Japan itself and abroad, in particular among the peoples of the Asian countries which have not forgotten the crimes perpetrated by the Japanese militarists.
