MEMORANDUM FOR DISTRIBUTION

SUBJECT: Audit and Evaluation Plan for Fiscal Year 2001

The attached plan indicates this office's planned new starts in FY 2001. Where the audit topics are not mandated by law, regulation, or congressional direction, they have been developed as much as possible in consultation with DoD managers. These projects also have been coordinated in the joint audit and inspection planning groups that address coverage in each major functional area. The plan includes audit policy and oversight projects planned to start in FY 2001; however, intelligence coverage will be addressed separately.

We regularly receive high priority management requests, congressional requests, hotline allegations, and other out-of-cycle requirements that necessitate changes to the initial plan. To discuss currently planned or ongoing coverage at any point during the year, it is advisable to check directly with the cognizant OIG, DoD issue area planning group, as listed in Appendix A. See Appendix B for the plan distribution. Updates to this plan, as well as information on the numerous projects from our FY 2000 plan that carryover into FY 2001, are available on our website at www.dodig.osd.mil/audit.

Financial Statement Audits for FY 2001 (Multiple). These audits (2001-D000FI-0036) will determine whether the FY 2001 financial statements for the Department of Defense are presented fairly in accordance with generally accepted accounting principles described in the Office of Management and Budget (OMB) Bulletin No. 97-01, "Form and Content of Agency Financial Statements," October 16, 1996, as amended November 29, 1998. As part of this objective, we will review the reporting of performance measures in the Overview section of the DoD Agency-wide Financial Statements and in the preparation of the Statements of Net Costs by both the Department and its Components. We will assess internal controls, compliance with laws and regulations, and reporting of program and financial performance as described in the Bulletin. We also plan to follow up on corrective actions resulting from previous financial statement audits. (R. Bird/(703) 604-9175)

General and Application/Security Controls for Automated Financial Systems (2001-D000FG-0049). We will assess the adequacy of general and application control/security policies and implementation for selected automated financial information systems. Our focus will be on evaluating the adequacy of system security, access, continuity, and software development and changes, as well as testing applications controls. (K. Caprio/ (703) 604-9139)
**INFORMATION TECHNOLOGY RESOURCES**

**Summaries of FY 2001 Planned Projects**

**Information Assurance for Automated Information Systems (2001-D000AS-0011).** We will continue this series of audits to evaluate the planning and implementation of automated information systems programs. We will determine whether the selected programs comply with Federal and DoD security initiatives and whether DoD information assurance planning and oversight are adequate. (W. Hopkins/(703) 604-9049)

**Operational Test and Evaluation of Software Systems (2001-D000AB-0026).** The objective of this audit will be to evaluate the purpose and timing of Operational Testing and Evaluation (OT&E) on the development of DoD software systems. Specifically, we will examine when OT&E should occur and how it should be accomplished. (R. Spencer/(703) 604-9071)

**Acquisition Management of Automated Information Systems (2001-D000AL-0001).** We will continue this series of audits to evaluate the acquisition management of selected automated information system acquisition programs. Specifically, the selected information systems will be evaluated to determine if they are being cost effectively acquired, monitored, tested, and prepared for deployment and system life-cycle support. Guidance contained in DoD Directive 5000.1, “Defense Acquisition,” DoD Regulation 5000.2-R, “Mandatory Procedures for Major Defense Acquisition Programs and Major Automated Information Systems,” and Office of Management and Budget A-11 Part 3, “Planning, Budgeting, and Acquisition of Capital Assets” will be used as criteria. (C. Santoni/(703) 604-9051).

**Application of Y2K Lessons Learned (2001-D000AS-0006).** The objective of this audit will be to assess how widely and successfully the Department has applied the lessons learned from the Y2K conversion experience to other information technology programs and management issues. (W. Hopkins/(703) 604-9049).
Audit of Award and Administration of Contracts for Maintenance, Repair and Rebuilding of Equipment Services (D2001-D000CF-0019). The primary objective of this audit is to determine whether contracting and program officials adequately contracted for and administered contracts for maintenance, repair and rebuilding of equipment services. (T. McKinney/(703) 604-9288)

Program Management Audits of Major Acquisition Programs (2001-DAE-0023). The primary objective of the audits will be to determine whether program managers for selected major acquisition programs are adequately readying the programs for their next milestone decision points in the acquisition process. We will follow our critical program management elements approach for the audits and focus on high-risk areas and areas of special interest to the programs’ managers at all levels. We will also determine whether the programs are implementing smart business practices and are making full use of the flexibilities available through acquisition reform initiatives. (J. Meling/(703) 604-9091)

Audit of “Other Transactions” Issued by the Military Departments and Defense Agencies (2001-D000AB-0025). This audit will examine the Military departments and Defense agencies use of 10 USC 2371, “Other Transactions” authority. The audit will examine whether the awards were made in compliance with the limited guidance and whether program objectives are being achieved. The audit will include follow-up on previous recommendations to determine whether corrective actions have been implemented. The audit will not examine the administration of these agreements as the administration of “other transactions” that were reviewed in previous audits. The audit will be conducted at the Military Departments and Defense agencies that have issued “other transactions.” (R. Spencer/(703) 604-9071)

Use of Contracted Advisory and Assistance Services (2001-D000CH-0029). The primary objective is to determine the adequacy of practices for acquiring contracted advisory and assistance services (CAAS). The audit will evaluate the procedures for determining the price reasonableness of CAAS, the nature and extent of the use of sole-source contracts, and compliance with statutory and regulatory requirements on the use of CAAS. (G. Stephenson/(703) 604-9332)

DoD Paperless Contracting Program (2001-D000CH-0031). The primary objective is to evaluate Service and Defense agency reporting systems for tracking progress in meeting the goal for six types of acquisition transactions, to identify impediments, and to
determine if potential savings resulting from electronic commerce technologies are being realized. (G. Stephenson/(703) 604-9332).

**Audit of Contractor Performance Assessments (2001-D000CK-0035).** The audit objective will be to determine if DoD components are conducting contractor performance assessments in accordance with recent policy issued by the Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics. Further, will determine if negative performance assessments are reported in a timely manner and whether effective corrective actions are taken. (J. Doyle/(703) 604-9348).

**Profit Policy for Professional and Management Support Services Contracts (2001-D000CF-0037).** The audit will evaluate the effectiveness of the DoD profit policy for professional and management support services contracts. Specific objectives will be to determine whether prime contractors have sufficient incentive to perform work in-house, whether large percentages of work are subcontracted out resulting in pyramiding of profits and subcontract administrative costs, and whether prime contractors and subcontractors have sufficient incentive to control overhead costs and maximize direct labor, and whether the same support services contractors perform as both prime contractors and subcontractors to each other. (T. McKinney/(703) 604-9288).

**Contract Audit Followup (2001-D000CG-0043).** The audit will review tracking, reporting, and settlement of contract audit recommendations contained in audit reports issued by the Defense Contract Audit Agency to the Military Departments and Defense agencies. The primary objective of the audit will be to determine whether the DoD Components have established audit followup systems that meet the requirements of Office of Management and Budget Circular A-50, “Audit Followup,” and DoD Directive 7640.2, “Policy for Followup on Contract Audit Reports.” The audit will also determine whether DoD contracting officers adhere to DoD policies for followup on contract audit reports when settling contract audit issues. (W. Million/(703) 604-9312).

**DISA Right-Sizing Data Validation (2001-D000CG-0044).** The Director, DISA, requested the IG, DoD, review and validate the FY 2000 year end data that will be collected and used in the decision making process for right-sizing the DISA regional support activities. (W. Million/(703) 604-9312).

Specifically, we will review unprogrammed expenditures and the administration and execution of the contracts. (W. Million/(703) 604-9312).
