Introduction

There are three Task Orders to be addressed in this annual report for Award Number DAMD17-00-2-0005. Task Order 2000-01, “Curation Preparation and Curation of the Archaeological Collection, Robins Air Force Base” contains dual budget items. The first is “Rehabilitation, Accessioning, and Curation of Existing Materials.” This item includes retrieval of all archaeological collections, cataloging when needed, photography of selected specimens, labeling and packaging the collection using appropriate methods, transferral of the collection to the Erskine Ramsay Archaeological Repository, and providing ongoing maintenance. The second item is “Analysis, Accessioning, and Curation of New Collections”. The collections involved with this item are from current archaeological projects at the base. Procedures involving this item are the same as those outlined in the first item with the exception that work was conducted at Robins AFB. Task Order 2000-02 is for “Providing Archaeological Assistance to the U.S. Army Aviation and Missile Command, Redstone Arsenal, Alabama”. This task order provides a full time, on site, Cultural Resource Manager for the Arsenal over a five year period. 2000-02 was funded for one year, with negotiated amount for 2-5 years included, subject to availability of funds. Task Order 2001-03 is “Tabulating Archaeological Artifacts and Preparing Memorandum of Understanding (MOU) for Robins AFB’s Archaeological Collection”. This provides additional collections tabulation and processing for ongoing excavations as well as preparation of an MOU to ensure that both UA and EM at Robins AFB agree to their responsibilities for the proper curation and storage of archaeological collections.

Body

Task Order 2000-01: All work regarding this task is completed with the exception of current project collections transferral back to Robins AFB. The collection was registered and given an accession number (collection number). All artifacts were analyzed, cataloged and placed in 4 mil archival bags. The bags were labeled with the accession number, inventoried as lots according to provenience (excavation location), and stored in acid-free boxes. The records were placed in acid-free archival folders, the folders were labeled with the accession number, inventoried as lots according to contents, and stored in acid-free boxes. The negatives were placed in archival negative sleeves, labeled with the accession number, inventoried as lots according to negative number and description, and stored in a file cabinet in the photographic collections room of the repository. The collection, curated according to guidelines set forth in 36 CFR 79.9, encompasses seven cubic feet of artifacts, two linear feet of documents, less than one linear foot of negatives and is stored in the Erskine Ramsay Archaeological Repository.

Task Order 2000-02: Beverly S. Curry continues her position as Cultural Resource Manager for Redstone Arsenal for year 2 of the agreement.

Task Order 2001-03: This task was awarded September 10, 2001. Work on this project will begin January 2002.
