# BIOTERRORISM

**U.S. Army War College Library**  
**December 2001**

***“After all that has just passed, all the lives taken and all the possibilities and hopes that died with them, it is natural to wonder if America's future is one of fear. Some speak of an age of terror. I know there are struggles ahead and dangers to face. But this country will define our times, not be defined by them. As long as the United States of America is determined and strong, this will not be an age of terror. This will be an age of liberty here and across the world.***

***Great harm has been done to us. We have suffered great loss. And in our grief and anger we have found our mission and our moment. Freedom and fear are at war. The advance of human freedom, the great achievement of our time and the great hope of every time, now depends on us.***

***Our nation, this generation, will lift the dark threat of violence from our people and our future. We will rally the world to this cause by our efforts, by our courage. We will not tire, we will not falter and we will not fail.”***

**President George W. Bush, in his address to a joint session of Congress and the American people, United States Capitol, Washington, DC, Friday, 20 September 2001.**
