This Strategic Forum was prepared by Joseph McMillan, a distinguished research fellow in the Institute for Foreign Policy Analysis. The Forum examines the history of the Kingdom of Saudi Arabia, focusing on the legacy of Abdul Wahhab and Al Saud, and the evolution of the modern Saudi state. It discusses the role of Saudi Arabia in the Middle East, its relationship with the United States, and the impact of political and social changes within the country. The text covers key events such as the rise of the Al Saud family, the establishment of the Kingdom, and the challenges faced by contemporary Saudi Arabia. The report also analyzes the strategic implications of Saudi Arabia's policies and actions on regional and international affairs.
