Award Number: W81XWH-04-1-0026

TITLE: Increasing Early Detection of Prostate Cancer in African American Men Through a Culturally Targeted Print Intervention

PRINCIPAL INVESTIGATOR: Hayley Thompson, Ph.D.
Simon Hall, M.D.
Heiddis Valdimarsdottir, Ph.D.

CONTRACTING ORGANIZATION: Mount Sinai School of Medicine
New York, New York 10029-6574

REPORT DATE: March 2005

TYPE OF REPORT: Annual

PREPARED FOR: U.S. Army Medical Research and Materiel Command
Fort Detrick, Maryland 21702-5012

DISTRIBUTION STATEMENT: Approved for Public Release; Distribution Unlimited

The views, opinions and/or findings contained in this report are those of the author(s) and should not be construed as an official Department of the Army position, policy or decision unless so designated by other documentation.
Prostate cancer (PCa) incidence and mortality is higher among African American (AA) men compared to all other groups. There is compelling evidence that higher mortality is due to the greater likelihood of AA men to be diagnosed with advanced-stage PCa. PCa screening, specifically prostate-specific antigen test (PSA) and digital rectal exam (DRE), has been shown to increase early-stage diagnoses. Although several organizations recommend annual PCa screening starting at age 45 for AA men, screening among AA men is low. Indeed, interventions to increase screening and the early detection of PCa among AA men are critical. Although culturally targeted health interventions have been found to be effective there are no interventions that have systematically addressed culturally relevant factors in PCa screening among AA men. The primary aim of the proposed study is to develop and evaluate the impact of a culturally targeted (CT) print intervention on PCa screening participation among AA men through a randomized controlled trial. The proposed research also seeks to investigate the mediational pathways (i.e., mechanisms) through which the culturally targeted print intervention impacts screening participation. This study is currently awaiting DoD IRB approval, therefore there are no significant findings to report.
INTRODUCTION

Prostate cancer (PCa) incidence and mortality is higher among African American (AA) men compared to all other groups. There is evidence that higher mortality is due to the greater likelihood of AA men to be diagnosed with advanced-stage PCa. PCa screening - prostate-specific antigen test (PSA) and digital rectal exam (DRE) - has been shown to increase early-stage diagnoses. Although several organizations recommend annual screening starting at age 45 for AA men, screening among AA men is low. Therefore, interventions to increase PCa screening among AA men are critical. There are relatively few PCa screening interventions that focus on AA men and these have resulted in only modest increases in screening. One explanation may be that none have systematically addressed culturally relevant factors in PCa screening, even though culturally targeted (CT) health interventions are reported to be more effective than generic interventions. Therefore, it is important to investigate whether a CT intervention is more effective in increasing PCa screening than a generic intervention, and to identify factors that mediate the intervention's impact on screening (e.g., screening intention, attitudes, group norms regarding screening, behavioral control over screening participation, screening knowledge, and perceived PCa risk). A CT intervention is expected to result in changes in these mediators, as well as address culturally salient factors related to PCa screening: medical mistrust, spiritual faith, and ties to one's family (collectivism). These culturally salient factors also represent personal characteristics that may determine a man's response to a PCa screening intervention.

BODY

Within statement of work for months one through twelve there were significant accomplishments. The accomplishments associated with the study start-up period was the hiring and training of a research project coordinator Stacy Davis, MPH. We also began design and preparation of a data entry and participant tracking systems. The achievements associated with the intervention newsletter development were collaborations with Drs. Hall, Valdimarsdottir, and consultants to develop content for intervention newsletters and refine assessment strategies; however we cannot this task until DoD IRB approval. Men have not been recruited to participate in our focus groups nor have any focus groups been conducted within the confines of the protocol due to lack of DoD IRB approval of this protocol.

KEY RESEARCH ACCOMPLISHMENTS

There are no key research accomplishments as of yet for this study do to we are waiting for DoD IRB approval to begin the recruitment and enrollment portion of this study.

REPORTABLE OUTCOMES

Due to lack of DoD approval for this study there are no reportable outcomes that have resulted from this research.

CONCLUSIONS

Without the approval of the DoD IRB, we completed all relevant tasks possible up to the point of recruitment of men for both our focus groups and the randomized controlled portion of the study.

APPENDIX 1
Focus Group 1A Assessment: Culturally Targeted Newsletter Draft, AA men age 45 and older who have never been diagnosed with prostate cancer and have had a PSA & DRE within the past 2 years.

1. What is your date of birth? / /  What is your age? years of age

2. What is your marital status?
- Currently married
- Currently living with partner
- Separated
- Divorced
- Widowed
- Never married

3. Do you have any children? Yes No If yes, how many?

4. Are you currently employed? Yes No

5. What is the highest level of education that you completed?
- Less than 8th grade
- 8th to 11th grades
- High School graduate
- Some college or university
- Vocational or technical school
- Bachelor’s Degree
- Graduate Degree

6. What is the estimated total income for your household for the past year, before taxes, from all sources?
- Less than $10,000
- $10,000 to $19,999
- $20,000 to $39,999
- $40,000 to $59,999
- $60,000 to $100,000
- More than $100,000

7. How many people are supported by this income?

8. Which of the following best describes you? Choose as many that apply.
- Black-American/African American
- Afro-Caribbean/West Indian

Which ethnic group (i.e. Jamaican, Guyanese)?
- African
  Which ethnic group (i.e. Igbo, Yoruba)?
- Afro-Latino
  Which group (i.e., Puerto Rican, Dominican)?
- Other

9. In which country were you born? (Please indicate which state if born in US.)

10. How many years have you lived in the US? years months

11. What type of health insurance do you have? Choose as many that apply.
- Medicaid
- Medicare
- Employer-provided insurance (like Oxford, Blue Cross/Blue Shield, HIP)
- Pay for insurance out-of-pocket
- I do not have health insurance (pay out of pocket for health care)
- Other
- I’m not sure
12. A primary care doctor is doctor who is trained to give you basic care. Your primary care doctor is the doctor you see first for most health problems. He or she makes sure that you get the care that you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them. A primary care doctor is often a family doctor or internist.

Do you have a regular primary care doctor who you usually go to when you are sick or need healthcare?
☐ Yes    ☐ No

What is that doctor's gender? ☐ Male ☐ Female Estimated ethnicity/race ____________________

13. When was your last visit to your primary care doctor?
☐ Within the past year
☐ 1 - 2 years ago
☐ 2 - 3 years ago
☐ 3 - 5 years ago
☐ More than 5 years ago
☐ I'm not sure
☐ I don't have a regular primary care doctor

14. When was your last visit to any doctor?
☐ Within the past year
☐ 1 - 2 years ago
☐ 2 - 3 years ago
☐ 3 - 5 years ago
☐ More than 5 years ago
☐ I'm not sure
☐ I don't have a regular primary care doctor

15. When should African American/Black men start being tested screened for prostate cancer screening?
☐ 35 years old
☐ 45 years old
☐ 55 years old
☐ 65 years old
☐ I'm not sure

16. How often should men been screened for prostate cancer
☐ Twice a year
☐ Once a year
☐ Once every 2 years
☐ Once every 5 years
☐ I'm not sure

17. How much have you heard or read about controversies or problems with prostate cancer screening?
☐ A lot
☐ A fair amount
☐ Relatively little
☐ Almost nothing

The following questions are about the PSA test (prostate specific antigen test). During a PSA test, a doctor or health care provider takes your blood to test for prostate cancer.

18. Has a doctor ever explained a PSA test to you?
☐ Yes
☐ No
☐ I'm not sure

19. Has a doctor ever recommended that you have a PSA test?
☐ Yes
☐ No
☐ I'm not sure
20. Have you ever had a PSA test?
   ☐ Yes
   ☐ No
   ☐ I’m not sure

21. What was the date of your last PSA test? Date ____________________________
   ☐ Within the past year
   ☐ 1 - 2 years ago
   ☐ 2 - 3 years ago
   ☐ 3 - 5 years ago
   ☐ More than 5 years ago
   ☐ I’m not sure
   ☐ I’ve never had this exam

22. Have the results of one of your PSA tests ever been abnormal?
   ☐ Yes
   ☐ No
   ☐ I’m not sure
   ☐ I’ve never had this exam

23. How reliable do you believe a PSA test is?
   ☐ Very reliable
   ☐ Somewhat reliable
   ☐ A little reliable
   ☐ Not at all reliable

The following questions are about digital rectal exam. During a digital rectal exam a doctor or health care provider inserts his or her finger in your rectum (your bottom) to check for prostate cancer.

24. Has a doctor ever explained a digital rectal exam to you?
   ☐ Yes
   ☐ No
   ☐ I’m not sure

25. Has a doctor ever recommended that you have a digital rectal exam?
   ☐ Yes
   ☐ No
   ☐ I’m not sure

26. Have you ever had a digital rectal exam?
   ☐ Yes
   ☐ No
   ☐ I’m not sure

27. What was the date of your last digital rectal exam? Date ____________________________
   ☐ Within the past year
   ☐ 1 - 2 years ago
   ☐ 2 - 3 years ago
   ☐ 3 - 5 years ago
   ☐ More than 5 years ago
   ☐ I’m not sure
   ☐ I’ve never had this exam

28. Have the results of one of your digital rectal exams ever been abnormal?
   ☐ Yes
   ☐ No
   ☐ I’m not sure
   ☐ I’ve never had this exam
29. How reliable do you believe a digital rectal exam is?
   - [ ] Very reliable
   - [ ] Somewhat reliable
   - [ ] A little reliable
   - [ ] Not at all reliable

30. Have you ever had a biopsy (a surgery to diagnose cancer)?
   - [ ] Yes
   - [ ] No
   - [ ] I'm not sure

31. Do you have any blood relatives who have been diagnosed with prostate cancer?
   - [ ] Yes
   - [ ] No
   - [ ] I'm not sure
   If yes, please tell us which relatives.
   a. Father
      - [ ] Yes
      - [ ] No
      How many?
   b. Grandfather(s)
      - [ ] Yes
      - [ ] No
      How many?
   c. Brother(s)
      - [ ] Yes
      - [ ] No
      How many?
   d. Son(s)
      - [ ] Yes
      - [ ] No
      How many?
   e. Uncle(s)
      - [ ] Yes
      - [ ] No
      How many?
   f. Nephew(s)
      - [ ] Yes
      - [ ] No
      How many?
   g. Cousin(s)
      - [ ] Yes
      - [ ] No
      How many?

32. Compared to other Black men, what do you think are your chances of getting prostate cancer?
   - [ ] Much lower than others
   - [ ] Lower than others
   - [ ] About the same as others
   - [ ] Higher than others
   - [ ] Much higher than others

33. During the past two weeks...
   a. How often have you worried about the possibility of getting prostate cancer?
      - [ ] None of the time
      - [ ] Occasionally
      - [ ] Often
      - [ ] All the time
   b. How often has your mood been affected by your concern that you might get prostate cancer some day?
      - [ ] None of the time
      - [ ] Occasionally
      - [ ] Often
      - [ ] All the time
   c. How emotionally upset or distressed have you been about the possibility of getting prostate cancer?
      - [ ] None of the time
      - [ ] Occasionally
      - [ ] Often
      - [ ] All the time
   d. How often have thoughts about getting prostate cancer affected your ability to perform your daily activities?
      - [ ] None of the time
      - [ ] Occasionally
      - [ ] Often
      - [ ] All the time
How much do you agree with the following statements?

34. Overall, I am satisfied with my medical care.
   - [ ] Strongly Agree
   - [ ] Moderately Agree
   - [ ] Not sure
   - [ ] Moderately Disagree
   - [ ] Strongly Disagree

35. I have a strong sense of belonging to Black people.
   - [ ] Strongly Agree
   - [ ] Moderately Agree
   - [ ] Not sure
   - [ ] Moderately Disagree
   - [ ] Strongly Disagree

36. Have you ever been screened for colon cancer?
   - [ ] Yes
   - [ ] No
   - [ ] I'm not sure

37. Have you ever been screened for high blood pressure?
   - [ ] Yes
   - [ ] No
   - [ ] I'm not sure

38. Have you ever been screened for diabetes?
   - [ ] Yes
   - [ ] No
   - [ ] I'm not sure

Focus Group 1A Moderator Guide – Time1: AA men age 45 and older who have never been diagnosed with prostate cancer and have had a PSA & DRE within the past 2 years

I. Moderator introduction

1. At this time, what kind of information do you have about prostate cancer?
2. Where did you get your information about prostate cancer?
   a. Probes
      i. From doctor, brochures, internet, video, spouse, family member, friend, church

II. Review of EHPCA prostate cancer education Powerpoint presentation (led by Simon Hall, MD)

3. Have you been screened for prostate cancer?
   a. Probe
      i. When was the last time you were screened?
      ii. What did the tests you had?

4. What made you go for prostate cancer screening?
   a. Probes (following each probe: How important is this issue for Black men in general?)
      i. How did the each of the following influence your decision:
         1. Concern about health/desire to maintain good health
         2. Peace of mind
         3. Family
            a. Do you have family members diagnosed with prostate cancer, have you talked to family about screening, do you have family members who have been screened, does your role in your family affect your decision to be screened
         4. Friends
            a. Do you have friends who have been screened, have you talked to friends about screening?
         5. Physician recommendation, encouragement
            a. What did the physician tell you?
         6. Religious/spiritual values
            a. Do you feel that it is God's will that you take care of your health?

5. Are there other things that may be important to Black men in general in making the decision to be screened for prostate cancer?
6. What do you think keeps Black men from getting screened?
   a. Probes
      1. Limited information about prostate cancer
      2. Concerns that screening is uncomfortable or painful
      3. Concerns that screening is embarrassing or will make you feel like less of a man
      4. Fear
         a. Are you worried that you might find out you have prostate cancer, if you learned you had cancer, how would your life change?
         b. Concerned that screening would add more stress to your life?
      5. Concerns about the side effects of treatment
      6. Stigma
         a. If you learned you had cancer, how would it affect the way you would feel about yourself and view yourself, how others would view you?
      7. Belief that your risk of getting prostate cancer is low
      8. Mistrust of doctors and hospitals
         a. How much do you trust PSA (the procedure, the results, etc.)? How much do you trust DRE?
      9. Fatalism
         a. How much do you feel that there is nothing you can really do about cancer?
      10. Religious/spiritual values
         a. Do you feel that if you get prostate cancer, it’s God’s will?
         b. Do you leave your health in God’s hands and not worry about prostate cancer?
      11. Medical costs and access

7. Are there other things that may keep Black men from being screened for prostate cancer?

8. [After moderator summarizes motivators of screening] How should a brochure for Black men address these issues?

9. [After moderator summarizes barriers to screening] How should a brochure for Black men address these issues?

10. [Comparison of standard and CT brochure via Powerpoint] What do you like or dislike about these brochures?
   a. Probes
      i. What do you think about the colors?
      ii. What do you think about the graphics?
      iii. What do you think about the topics covered?
      iv. What do you think about the language used?
      v. What do you think about the typeface?

Focus Group 1A Moderator Guide – Time2: AA men age 45 and older who have never been diagnosed with prostate cancer and have had a PSA & DRE within the past 2 years

1. [Review of CT brochure via Powerpoint and review of hard copy] What do you like or dislike about the brochure?
   a. Probes
      i. What do you think about the colors?
      ii. What do you think about the graphics?
      iii. What do you think about the topics covered?
      iv. What do you think about the language used?
      v. What do you think about the typeface?
Focus Group 1B Assessment: Culturally Targeted Newsletter Draft, AA men age 45 and older who have never been diagnosed with prostate cancer and have not had either a PSA or DRE in 2 years or more.

1. What is your date of birth? __/__/____ What is your age? _______ years of age

2. What is your marital status?
   - [ ] Currently married
   - [ ] Currently living with partner
   - [ ] Separated
   - [ ] Divorced
   - [ ] Widowed

19. Has a doctor ever recommended that you have a PSA test?

[ ] Yes
[ ] No
[ ] I'm not sure

The following questions are about the PSA test (prostate specific antigen test). During a PSA test, a doctor or health care provider takes your blood to test for prostate cancer.
20. Have you ever had a PSA test?
   - Yes
   - No
   - I'm not sure

21. What was the date of your last PSA test? 
   Date
   - Within the past year
   - 1 - 2 years ago
   - 2 - 3 years ago
   - 3 - 5 years ago
   - More than 5 years ago
   - I'm not sure
   - I've never had this exam

22. Have the results of one of your PSA tests ever been abnormal?
   - Yes
   - No
   - I'm not sure
   - I've never had this exam

23. How reliable do you believe a PSA test is?
   - Very reliable
   - Somewhat reliable
   - A little reliable
   - Not at all reliable

The following questions are about digital rectal exam. During a digital rectal exam a doctor or health care provider inserts his or her finger in your rectum (your bottom) to check for prostate cancer.

24. Has a doctor ever explained a digital rectal exam to you?
   - Yes
   - No
   - I'm not sure

25. Has a doctor ever recommended that you have a digital rectal exam?
   - Yes
   - No
   - I'm not sure

26. Have you ever had a digital rectal exam?
   - Yes
   - No
   - I'm not sure

27. What was the date of your last digital rectal exam? 
   Date
   - Within the past year
   - 1 - 2 years ago
   - 2 - 3 years ago
   - 3 - 5 years ago
   - More than 5 years ago
   - I'm not sure
   - I've never had this exam

28. Have the results of one of your digital rectal exams ever been abnormal?
   - Yes
   - No
   - I'm not sure
   - I've never had this exam
29. How reliable do you believe a digital rectal exam is?
   - □ Very reliable
   - □ Somewhat reliable
   - □ A little reliable
   - □ Not at all reliable

28. Have you ever had a biopsy (a surgery to diagnose cancer)?
   - □ Yes
   - □ No
   - □ I'm not sure

29. Do you have any blood relatives who have been diagnosed with prostate cancer?
   - □ Yes
   - □ No
   - □ I'm not sure

If yes, please tell us which relatives.

a. Father  □ Yes  □ No
   How many? ____________________

b. Grandfather (s)  □ Yes  □ No
   How many? ____________________

c. Brother(s)  □ Yes  □ No
   How many? ____________________

d. Son(s)  □ Yes  □ No
   How many? ____________________

e. Uncle(s)  □ Yes  □ No
   How many? ____________________

f. Nephew(s)  □ Yes  □ No
   How many? ____________________

g. Cousin(s)  □ Yes  □ No
   How many? ____________________

30. Compared to other Black men, what do you think are your chances of getting prostate cancer?
   - □ Much lower than others
   - □ Lower than others
   - □ About the same as others
   - □ Higher than others
   - □ Much higher than others

31. During the past two weeks...
   a. How often have you worried about the possibility of getting prostate cancer?
      - □ None of the time  □ Occasionally  □ Often  □ All the time
   b. How often has your mood been affected by your concern that you might get prostate cancer some day?
      - □ None of the time  □ Occasionally  □ Often  □ All the time
   c. How emotionally upset or distressed have you been about the possibility of getting prostate cancer?
      - □ None of the time  □ Occasionally  □ Often  □ All the time
   d. How often have thoughts about getting prostate cancer affected your ability to perform your daily activities?
      - □ None of the time  □ Occasionally  □ Often  □ All the time

How much do you agree with the following statements?

32. Overall, I am satisfied with my medical care.
   - □ Strongly Agree  □ Moderately Agree  □ Not sure  □ Moderately Disagree  □ Strongly Disagree
33. I have a strong sense of belonging to Black people.

- Strongly Agree
- Moderately Agree
- Not sure
- Moderately Disagree
- Strongly Disagree

34. Have you ever been screened for colon cancer?
- Yes
- No
- I'm not sure

35. Have you ever been screened for high blood pressure?
- Yes
- No
- I'm not sure

36. Have you ever been screened for diabetes?
- Yes
- No
- I'm not sure

      i. From doctor, brochures, internet, video, spouse, family member, friend, church

IV. Review of EHPMA prostate cancer education Powerpoint presentation (led by Simon Hall, MD)
9. Have you been screened for prostate cancer?
   a. Probe
      i. When was the last time you were screened?
      ii. What did tests did you have?

10. What has kept you from getting screened for prostate cancer?
    a. Probes (following each probe: How important is this issue for Black men in general?)
       i. How did the each of the following influence your decision:
          a. Limited information about prostate cancer
          b. Concern that screening is uncomfortable or painful
          c. Concerns about the side effects of treatment
          d. Fear
             i. Are you worried that you might find out you have prostate cancer, if you learned you had cancer, how would your life change
             ii. Concerned that screening would add more stress to your life?
          e. Concerns about the side effects of treatment
          f. Stigma
             i. If you learned you had cancer, how would it affect the way you would feel about yourself and view yourself, how others would view you?
          g. Belief that your risk of getting prostate cancer is low
          h. Mistrust of doctors and hospitals
             i. How much do you trust PSA (the procedure, the results, etc.)? How much do you trust DRE?
          i. Fatalism
             i. How much do you feel that there is nothing you can really do about cancer?
          j. Religious/spiritual values
             i. Do you feel that if you get prostate cancer, it’s God’s will?
             ii. Do you leave your health in God’s hands and not worry about prostate cancer?
5. Are there other things that may keep Black men from being screened for prostate cancer?
6. What do you think makes Black men get screened for prostate cancer?
   b. Probes
   i. Concern about health/desire to maintain good health
   ii. Peace of mind
   iii. Family
       1. Do you have family members diagnosed with prostate cancer, have you talked to family about
          screening, do you have family members who have been screened, does your role in your family
          affect your decision to be screened
   iv. Friends
       1. Do you have friends who have been screened, have you talked to friends about screening?
   v. Physician recommendation, encouragement
       1. What did physician tell you?
   vi. Religious/spiritual values
       1. Do you feel that it is God's will that you take care of your health?
11. Are there other things that may be important to Black men that makes them go for prostate cancer screening?
12. [After moderator summarizes barriers to screening] How should a brochure for Black men address these issues?
13. [After moderator summarizes motivators of screening] How should a brochure for Black men address these issues?
14. [Comparison of standard and CT brochure via Powerpoint] What do you like or dislike about these brochures?
   a. Probes
       i. What do you think about the colors?
       ii. What do you think about the graphics?
       iii. What do you think about the topics covered?
       iv. What do you think about the language used?
       v. What do you think about the typeface?

Focus Group 1B Moderator Guide – Time2: Culturally Targeted Newsletter Draft, AA men age 45 and older who have
never been diagnosed with prostate cancer and have not had either a PSA or DRE in 2 years or more.

1. [Review of CT brochure via Powerpoint and review of hard copy] What do you like or dislike about the brochure?
   a. Probes
       i. What do you think about the colors?
       ii. What do you think about the graphics?
       iii. What do you think about the topics covered?
       iv. What do you think about the language used?
       v. What do you think about the typeface?
Focus Group 1C Assessment: Culturally Targeted Newsletter Draft, AA prostate cancer survivors, age 45 and older.

1. What is your date of birth? ___/___/___ What is your age? _____ years of age

2. What is your marital status?
   - [ ] Currently married
   - [ ] Currently living with partner
   - [ ] Separated
   - [ ] Divorced
   - [ ] Widowed
   - [ ] Never married

3. Do you have any children?  [ ] Yes  [ ] No  If yes, how many? ______

20. Are you currently employed?  [ ] Yes  [ ] No

21. What is the highest level of education that you completed?
   - [ ] Less than 8th grade
   - [ ] 8th to 11th grades
   - [ ] High School graduate
   - [ ] Some college or university
   - [ ] Vocational or technical school
   - [ ] Bachelor's Degree
   - [ ] Graduate Degree

22. What is the estimated total income for your household for the past year, before taxes, from all sources?
   - [ ] Less than $10,000
   - [ ] $10,000 to $19,999
   - [ ] $20,000 to $39,999
   - [ ] $40,000 to $59,999
   - [ ] $60,000 to $100,000
   - [ ] More than $100,000

23. How many people are supported by this income? ______

24. Which of the following best describes you? Choose as many that apply.
   - [ ] Black-American/African American
   - [ ] Afro-Caribbean/West Indian

Which ethnic group (i.e. Jamaican, Guyanese)? ____________________________
   - [ ] African
     Which ethnic group (i.e. Igbo, Yoruba)? ____________________________
   - [ ] Afro-Latino
     Which group (i.e., Puerto Rican, Dominican)? ____________________________
   - [ ] Other ____________________________

25. In which country were you born? (Please indicate which state if born in US.) ____________________________

26. How many years have you lived in the US? _______ years ______ months

27. What type of health insurance do you have? Choose as many that apply.
   - [ ] Medicaid
   - [ ] Medicare
   - [ ] Employer-provided insurance (like Oxford, Blue Cross/Blue Shield, HIP)
   - [ ] Pay for insurance out-of-pocket
   - [ ] I do not have health insurance (pay out of pocket for health care)
   - [ ] Other ____________________________
   - [ ] I'm not sure
12. A primary care doctor is a doctor who is trained to give you basic care. Your primary care doctor is the doctor you see first for most health problems. He or she makes sure that you get the care that you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them. A primary care doctor is often a family doctor or internist.

Do you have a regular primary care doctor who you usually go to when you are sick or need healthcare?

☐ Yes  ☐ No

What is that doctor’s gender?  ☐ Male  ☐ Female  Estimated ethnicity/race  ____________________

13. When was your last visit to your primary care doctor?

☐ Within the past year
☐ 1 - 2 years ago
☐ 2 -3 years ago
☐ 3 - 5 years ago
☐ More than 5 years ago
☐ I’m not sure
☐ I don’t have a regular primary care doctor

14. When was your last visit to any doctor?

☐ Within the past year
☐ 1 - 2 years ago
☐ 2 -3 years ago
☐ 3 - 5 years ago
☐ More than 5 years ago
☐ I’m not sure
☐ I don’t have a regular primary care doctor

15. When should African American/Black men start being tested/screened for prostate cancer screening?

☐ 35 years old
☐ 45 years old
☐ 55 years old
☐ 65 years old
☐ I’m not sure

16. How often should men been screened for prostate cancer

☐ Twice a year
☐ Once a year
☐ Once every 2 years
☐ Once every 5 years
☐ I’m not sure

17. When were you diagnosed with prostate cancer? Date ____________________

18. What was the stage of your prostate cancer when you were diagnosed?  ____________________

19. What treatment did you receive for your prostate cancer?

☐ Watchful waiting
☐ Surgery
☐ External beam radiation therapy
☐ Brachytherapy (seed implants)
☐ Hormone therapy

20. How much have you heard or read about controversies or problems with prostate cancer screening?

☐ A lot
☐ A fair amount
☐ Relatively little
☐ Almost nothing
The following questions are about the PSA test (prostate specific antigen test). During a PSA test, a doctor or health care provider takes your blood to test for prostate cancer.

21. Has a doctor ever explained a PSA test to you?
   - Yes
   - No
   - I'm not sure

22. Has a doctor ever recommended that you have a PSA test?
   - Yes
   - No
   - I'm not sure

23. Have you ever had a PSA test?
   - Yes
   - No
   - I'm not sure

24. What was the date of your last PSA test? Date _________________
   - Within the past year
   - 1 - 2 years ago
   - 2 – 3 years ago
   - 3 – 5 years ago
   - More than 5 years ago
   - I’m not sure
   - I’ve never had this exam

25. Have the results of one of your PSA tests ever been abnormal?
   - Yes
   - No
   - I’m not sure
   - I’ve never had this exam

26. How reliable do you believe a PSA test is?
   - Very reliable
   - Somewhat reliable
   - A little reliable
   - Not at all reliable

The following questions are about digital rectal exam. During a digital rectal exam a doctor or health care provider inserts his or her finger in your rectum (your bottom) to check for prostate cancer.

27. Has a doctor ever explained a digital rectal exam to you?
   - Yes
   - No
   - I’m not sure

28. Has a doctor ever recommended that you have a digital rectal exam?
   - Yes
   - No
   - I’m not sure

29. Have you ever had a digital rectal exam?
   - Yes
   - No
   - I’m not sure
30. What was the date of your last digital rectal exam? Date ________________

☐ Within the past year
☐ 1 - 2 years ago
☐ 2 - 3 years ago
☐ 3 - 5 years ago
☐ More than 5 years ago
☐ I'm not sure
☐ I've never had this exam

31. Have the results of one of your digital rectal exams ever been abnormal?

☐ Yes
☐ No
☐ I'm not sure
☐ I've never had this exam

32. How reliable do you believe a digital rectal exam is?

☐ Very reliable
☐ Somewhat reliable
☐ A little reliable
☐ Not at all reliable

33. Have you ever had a biopsy (a surgery to diagnose cancer)?

☐ Yes
☐ No
☐ I'm not sure

34. Do you have any blood relatives who have been diagnosed with prostate cancer?

☐ Yes
☐ No
☐ I'm not sure

If yes, please tell us which relatives.

a. Father ☐ Yes ☐ No

b. Grandfather(s) ☐ Yes ☐ No How many? ____________

c. Brother(s) ☐ Yes ☐ No How many? ____________

d. Son(s) ☐ Yes ☐ No How many? ____________

e. Uncles(s) ☐ Yes ☐ No How many? ____________

f. Nephew(s) ☐ Yes ☐ No How many? ____________

g. Cousin(s) ☐ Yes ☐ No How many? ____________

35. During the past two weeks...

a. How often have you worried about the possibility of getting prostate cancer again?

☐ None of the time ☐ Occasionally ☐ Often ☐ All the time

b. How often has your mood been affected by your concern that you might get prostate cancer again?

☐ None of the time ☐ Occasionally ☐ Often ☐ All the time

c. How emotionally upset or distressed have you been about the possibility of getting prostate cancer again?

☐ None of the time ☐ Occasionally ☐ Often ☐ All the time

d. How often have thoughts about getting prostate cancer again affected your ability to perform your daily activities?

☐ None of the time ☐ Occasionally ☐ Often ☐ All the time
How much do you agree with the following statements?

36. Overall, I am satisfied with my medical care.
   □ Strongly Agree □ Moderately Agree □ Not sure □ Moderately Disagree □ Strongly Disagree

38. I have a strong sense of belonging to Black people.
   □ Strongly Agree □ Moderately Agree □ Not sure □ Moderately Disagree □ Strongly Disagree

39. Have you ever been screened for colon cancer?
   □ Yes □ No □ I’m not sure

40. Have you ever been screened for high blood pressure?
   □ Yes □ No □ I’m not sure

41. Have you ever been screened for diabetes?
   □ Yes □ No □ I’m not sure

Focus Group IC Moderator Guide- Time 1: AA prostate cancer survivors, age 45 and older.

V. Moderator introduction
1. How did you learn about your prostate cancer?
2. How was your prostate cancer treated?
3. At this time, what kind of information do you have about prostate cancer?
4. Where did you get your information about prostate cancer?
   a. Probes
      i. From doctor, brochures, internet, video, spouse, family member, friend, church
5. Before you were diagnosed with prostate cancer, did you go for regular prostate cancer screening?
   a. Probe
      i. When was the last time you were screened?
6. If you were screened regularly for prostate cancer before your diagnosis, what made you go?
   a. Probes (following each probe: How important is this issue for Black men in general?)
      i. How did the each of the following influence your decision:
         1. Concern about health/desire to maintain good health
         2. Peace of mind
         3. Family
            a. Do you have family members diagnosed with prostate cancer, have you talked to family
               about screening, do you have family members who have been screened, does your role in
               your family affect your decision to be screened
         4. Friends
            a. Do you have friends who have been screened, have you talked to friends about
               screening?
         5. Physician recommendation, encouragement
            a. What did physician tell you?
         6. Religious/spiritual values
            a. Do you feel that it is God’s will that you take care of your health?
7. Are there other things that may be important to Black men in general in making the decision to be screened for prostate cancer?

8. If you had not been screened or put off screening before your prostate cancer diagnosis, what kept you from going?
   a. Probes (following each probe: How important is this issue for Black men in general?)
      i. How did the each of the following influence your decision:
         1. Limited information about prostate cancer
         2. Concerns that screening is uncomfortable or painful
3. Concerns that screening is embarrassing or will make you feel like less of a man

4. Fear
   b. Are you worried that you might find out you have prostate cancer, if you learned you had cancer, how would your life change?
   c. Concerned that screening would add more stress to your life?

5. Concerns about the side effects of treatment

6. Stigma
   d. If you learned you had cancer, how would it affect the way you would feel about yourself and view yourself, how others would view you?

7. Belief that your risk of getting prostate cancer is low

8. Mistrust of doctors and hospitals
   a. How much do you trust PSA (the procedure, the results, etc.)? How much do you trust DRE?

9. Fatalism
   a. How much do you feel that there is nothing you can really do about cancer?

10. Religious/spiritual values
    a. Do you feel that if you get prostate cancer, it’s God’s will?
    b. Do you leave your health in God’s hands and not worry about prostate cancer?

11. Medical costs and access

9. Are there other things that may keep Black men from being screened for prostate cancer?

10. [After moderator summarizes motivators of screening] How should a brochure for Black men address these issues?

11. [After moderator summarizes barriers to screening] How should a brochure for Black men address these issues?

12. [Comparison of standard and CT brochure via Powerpoint] What do you like or dislike about these brochures?
   b. Probes
      i. What do you think about the colors?
      ii. What do you think about the graphics?
      iii. What do you think about the topics covered?
      iv. What do you think about the language used?
      v. What do you think about the typeface?

Focus Group 1C Moderator Guide - Time 1: AA prostate cancer survivors, age 45 and older.

      iv. What do you think about the language used?
      v. What do you think about the typeface?
APPENDIX 2:

LISTING OF ATTACHED INSTRUMENTS. PLEASE NOTE THAT AS THE QUESTIONNAIRE WILL BE ADMINISTERED VIA INTERVIEW, INSTRUCTIONS FOR RETURN ARE NOT INCLUDED.

1. Background Information
2. Past Prostate Cancer Screening Participation & Physician Recommendation
3. Prostate Cancer Screening Participation (6-month follow-up)
4. Prostate Cancer Screening Intention
5. Perceived Prostate Cancer Risk
6. Prostate Cancer Screening Knowledge
7. Prostate Cancer Screening Attitudes
8. Perceived Group Norms to Participate in Prostate Cancer Screening
9. Behavioral Control/ Perceived Access to Prostate Cancer Screening
10. Medical Mistrust
11. Spirituality
12. Collectivism
13. Ethnic Identity
## Background

1. **What is your birthday?** (month, day, and year) _______  How old are you now? _______

2. **What is your current marital status?**
   - [ ] Married or living with partner
   - [ ] Widowed
   - [ ] Divorced
   - [ ] Separated
   - [ ] Never married

3. **Do you have any children?**
   - [ ] Yes  If yes, how many? _______
   - [ ] No

4. **What is your current employment status?**
   - [ ] Currently employed (full-time or part-time)
   - [ ] Unemployed
   - [ ] Retired
   - [ ] On disability

5. **To get a picture of people's financial situation, we need to know the income of all the people we interview. What was (your/your family's) total income before taxes from all sources last year? Would you say it was...**
   - [ ] Less than $15,000
   - [ ] $15,000 to $29,000
   - [ ] $30,000 to $49,000
   - [ ] $50,000 to $74,000
   - [ ] $75,000 or more

6. **What is your highest level of education?**
   - [ ] Less than high school
   - [ ] High school or GED
   - [ ] Technical or vocational degree
   - [ ] Associates degree
   - [ ] Bachelors degree
   - [ ] Graduate degree

7. **In what U.S. state or foreign country were you born?** ____________________________
   If you were born in another country, how long have you lived in the U.S.? _______

8. **What is your race?** (Check all that apply.)
   - [ ] Black/African-American
   - [ ] Black/African (What ethnic group? ____________________________)
   - [ ] Black/West Indian/Caribbean (What ethnic group? ____________________________)
   - [ ] Black/Hispanic or Latino (What ethnic group? ____________________________)
   - [ ] Other ( ____________________________)

# Prostate Cancer Screening Intention

1. **How much do you agree or disagree with this statement? “I intend to have a digital rectal exam in the next 6 months.”**
   - [ ] Strongly disagree
   - [ ] Disagree
   - [ ] Not sure/undecided
   - [ ] Agree
   - [ ] Strongly agree

2. **When do you plan to have your next digital rectal exam?**
   - [ ] I have no plan to have one or not sure
   - [ ] Within the next 6 months
   - [ ] Within the next year
   - [ ] Within the next 2 years
   - [ ] More than 2 years from now
   - [ ] When my doctor recommends one
   - [ ] When I have symptoms or problems

3. **How much do you agree or disagree with this statement? “I intend to have a PSA test in the next 6 months.”**
   - [ ] Strongly disagree
   - [ ] Disagree
   - [ ] Not sure/undecided
   - [ ] Agree
   - [ ] Strongly agree

4. **When do you plan to have your next PSA?**
   - [ ] I have no plan to have one or not sure
   - [ ] Within the next 6 months
   - [ ] Within the next year
   - [ ] Within the next 2 years
   - [ ] More than 2 years from now
   - [ ] When my doctor recommends one
   - [ ] When I have symptoms or problems
Perceived Risk of Prostate Cancer

1. Compared to other men your age, what do you think are your chances of being diagnosed with prostate cancer during your lifetime?

☐ I am at much lower risk than others

☐ I am at a little lower risk than others

☐ I am at the same risk as others

☐ I am at a little higher risk as others

☐ I am at much higher risk than others

2. On a scale of 0 to 100 where 0 means 'no chance' and 100 means 'certain to happen', how likely do you think it is that you will get prostate cancer? ________

3. On a scale of 0 to 100 where 0 means 'no harm at all' and 100 means 'extremely devastating', how serious would it be if you did get prostate cancer? ________
