**DoD Logistics Roadmap Overview**

Department of Defense, Office of the Assistant Deputy Under Secretary of Defense for Supply Chain, Washington, DC

Approved for public release; distribution unlimited

Same as Report (SAR)

Standard Form 298 (Rev. 8-98)
Prepared by ANSI Std Z39.18
The DoD Logistics Roadmap...

1. establishes a DoD-wide framework for improving logistics capabilities and business processes
2. documents specific actions underway to achieve goals and objectives
3. documents performance targets for tracking and reporting progress
4. provides a basis for current and future capabilities assessment
5. facilitates communication with Congress, the GAO, and other outside agencies
The Roadmap is a living document...

... that establishes objectives adding fidelity and detail to logistics goals specified in the Guidance for the Development of the Force.

**Strategic Direction**

Guidance for the Development of the Force

Department of Defense

2008

**DoD Logistics Roadmap**

- OSD senior logistics leaders establish objectives linked to logistics goals in GDF
- Joint team maps DoD Component initiatives and programs to objectives

**Assessment Process**

Provides a unified statement of what we want to do

Defines a coherent framework for providing globally responsive, operationally precise, and cost-effective logistics capabilities to support America’s warfighters

Institutionalized continuous assessment and feedback
The Guidance for the Development of the Force specified three logistics goals...

- Unity of Effort
- Visibility
- Rapid and Precise Response

Guidance for the Development of the Force

Department of Defense 2008

*BCP* Budget Change Proposal  

**Notional timeline**
The DoD Logistics Roadmap has two volumes...

- **Volume I has**
  - An executive summary
  - A chapter that states the GDF logistics goals, establishes objectives to achieve the goals, and links the objectives to specific logistics capability areas
  - Four chapters that document specific actions underway or planned to achieve the objectives
  - A chapter that lays out the next steps in Roadmap application and development
  - Six appendices that provide background and details

- **Volume II has two appendices that provide expanded information on each initiative and program of record identified in Volume I**
