Regardless of what you may think you’ve heard, given Information Assurance and NetOps focus, in the long run...

Security & Flexibility Of Control & The Experience Of Industry

Control

Staffing
A-B-C in Contracting

IASSURE

NexGen

GEMS

Will NOT be replaced

The agency will exploit existing internal or external contracts to the maximum extent possible.
Our Contracting Strategy

Given statutory and regulatory boundaries,

Like water…

*We tend to take the path of least resistance*

*Federal employees are human too!*
Acquisition of Services

“We are serious about ensuring the proper execution of acquisition of services contracts.”

Bottom line:
Expanded OSD NII and AT&L oversight
Expanded emphasis on performance based contracts
Summary

DISA has many opportunities to improve our support for the warfighter.

Virtually every one involves some form of contract support.

We can’t be successful without industry!
