- Continued work on the project is pending approval of the updated SOW
  - Along with new funding increment to support the work described in SOW

January 2011

- Continued work on the project is pending approval of the updated SOW and receipt of a new funding increment to support the work described there

December 2010

- The project schedule is likely to be delayed by 90-120 days total in the revised project plan, which accounts for work stoppage due to funding gaps

November 2010

- The project schedule is likely to be delayed by 90-120 days total in the revised project plan, which accounts for work stoppage due to funding gaps

October 2010

- The project schedule is likely to be delayed an additional 30 days (60-90 days total) once activity resumes, pending year two funding

September 2010

- The project schedule is likely to be delayed an additional 30 days (60-90 days total) once activity resumes, pending year two funding

August 2010

- The schedule for project year two will be delayed by 30-60 days, due to the following issues
  - Insufficient time was planned in the August schedule to accommodate year-end travel and reporting for year one along with year-two kickoff activities; however, the year-end activities were worth the investment in time since they resulted in helpful communication with the sponsors that we will apply going forward
  - The current funding increment has ended (at time of writing we have approximately two weeks left, depending on level of effort)
  - We are moving our staff to other projects for the time being, but we plan to be ready to start CultureCom work again as soon as funding permits

November 2009
- We have not yet received invoices from the University of Southern California, a subcontractor on this project. As a result the hours worked by USC have not yet been charged to the spend plan. However we do expect to receive an invoice in the month of December which will correct our spending with respect to the plan.

October 2009
- Alelo resolved the spend plan issue from last month by completing a revised spend plan; submitted to ONR and SA, Inc. by email on 26 October, 2009
- We have not yet scheduled a phone conference with ONR on the topic of cultural learning objectives; We engaged or collaborators on this project, both subcontractors (Dr. Michael Agar) and other colleagues (Dr. LeeEllen Friedland) in discussions of this topic and we are ready to schedule the conference for the month of November at ONR’s convenience

September 2009
- Spend plan should be revised and we have already started this work; original spend plan assumed a constant rate of expenditures, when in fact the costs during the initial months will
be lower while costs during software development and integration months will be higher; we are working on a revised spend plan that reflects this change in our method of estimation as well as new hires that we plan to take on for the upcoming software development phase
