Those We Serve…

• COL Greg Gadson practices walking with his new prosthetic knees while his son, Jaelen, looks on.
  
• COL Gadson was severely injured by an IED in Iraq.
  
• Continuing on active duty, he has been a tireless policy advocate for Soldiers testifying before Congress about ways of meeting the challenges faced by Wounded Warriors.

• CPT Dan Luckett lost both his feet to an EFP in Iraq.
  
• He continues to serve as an Infantry officer in the 2d Brigade Combat Team, 101st Airborne Division (Air Assault).
  
• In this photo he leads a unit run.
  
• In CPT Luckett’s words, “If you work hard enough and truly apply yourself there is very little that is going to limit you.”
  
• From day one, CPT Luckett simply knew he had one goal – to return to duty and continue to serve as an Infantry officer.

• Wounded Warrior takes command of the Warrior Transition Battalion at Fort Lewis.
  
• LTC Danny Dudek refused to let the roadside bomb that paralyzed him end his career.
  
• His journey through the Army medical system gives him a clear insight into what can be improved.
  
• “I keep hearing that I inspire people,” said LTC Dudek, “but I’m just trying to get through the day.”

• SGT Kortney Clemons lost his leg in Iraq while helping evacuate a wounded buddy.
  
• In 2007, he was the first Iraq war veteran to qualify for the U.S. Paralympic Team in both Powerlifting and Track.
  
• SGT Clemons is currently enrolled in the Army Wounded Warrior Education Initiative where he is working on his Masters degree at the University of Kansas.

Ensure clinicians understand and determine Medical Retention Decision Point for Warriors in Transition

The MRDP will be made within one-year of being diagnosed with a medical condition that does not appear to meet medical retention standards, may be made earlier if the examiner determines that the member will not be capable of returning to duty within one-year.

Army Rehabilitation and Transition
“Focus on the future; not disability”

Comprehensive Transition Plan

- Number One Priority
- Focuses on the future
- Goal setting
- CTP Scrimmage
- Weekly assessments
- Cdr’s reports

NDAA08: The CTP meets the intent of NDAA08 and exceeds the requirements of the DoD Recovery Coordination Program by identifying seriously wounded, injured, and ill Soldiers and their Families with severe needs and collectively maps out a path of recovery for the Soldier and Family.

“Never Leave a Fallen Comrade!”
Family Support Module

• Module in support of the Comprehensive Transition Plan

• Early involvement and investment of families is critical

• Initial interview should reveal services that the Soldier and Family needs

• Increased Social Workers exposure for Soldiers and Families
Programs for the Families of Wounded Warriors

Triad of Assistance

• **Wounded Soldier Family Hotline (WSFH)** Offer wounded, injured and ill Soldiers and their family members a way to share concerns on the quality of patient care. To provide senior Army leaders with visibility on medically related issues so they can properly allocate resources to better serve Soldiers and their Families. Hotline calls are received by WSFH staff 24/7 365 days at (800) 984-8523.

• **MEDCOM Medical Assistance Group (MMAG)** Accept cases from numerous referral sources and ensure that these assistance requests are handled in a timely manner. Oversee the MEDCOM Ombudsman Program and assists Ombudsman with subject matter expertise and guidance on local case disposition.

• **MEDCOM Ombudsman Program** The Ombudsman are experienced, trained and compassionate personnel who function as a local resource to Soldiers and family members in resolving questions/issues. They are independent, neutral and impartial and report directly to the MMAG and not the local chain of command. There are currently 55 Ombudsman at 32 sites, including Europe and Puerto Rico.

Take Aways

• Army program to care for our wounded, ill, and injured Soldiers is excellent….but not perfect

• The Army is beyond infrastructure improvements and cadre ratios – we inspire Soldiers toward a positive and productive future, defeating any wound, illness, or injury that stands in their way

• Every Soldier has his/her own unique set of challenges

• Early involvement and investment of Families is critical

• We cannot do enough for the Families of our wounded, ill and injured Soldiers
