Deployment-related conditions of special surveillance interest, U.S. Armed Forces, by month and service, January 2003 - January 2012 (data as of 23 February 2012)

Note: The numbers of OEF/OIF/OND deployment-associated conditions in this report differ from those previously published in the MSMR. The change reflects an adjustment in the manner in which service members’ deployments were associated with OEF/OIF/OND. The net effect is to decrease the numbers of service members with the conditions of interest who could be identified as having deployed to OEF/OIF/OND.

Note: Hospitalization (one per individual) while deployed to/within 90 days of returning from OEF/OIF/OND. Excludes accidents involving military-owned/special use motor vehicles. Excludes individuals medically evacuated from CENTCOM and/or hospitalized in Landstuhl, Germany within 10 days of another motor vehicle accident-related hospitalization.

Deaths following motor vehicle accidents occurring in non-military vehicles and outside of the operational theater (per the DoD Medical Mortality Registry)
