14. ABSTRACT
This research will assess mental health and mental health service utilization over time among a representative sample of Guard forces, within a multivariate causal framework taking into account life course experiences together with combat history, other military experience and civilian traumatic event experiences as determinants of mental health. We focus on the prevalence and correlates of PTSD and other mental illness and health service utilization, but also on the trajectories of PTSD and co-occurring psychopathology over time. The scope includes developing, piloting and implementing a structured survey for a random sample of National Guard members. Findings from analyses of all three waves of the survey will be disseminated to key stakeholders. To date, we have constructed a survey for initial data collection as well as subsequent waves that contains modules on (1) risk or protective factors for psychological morbidity over the life course (general traumas, psychological resources, life and family concerns), (2) mental health (depression, PTSD, emotional health history), (3) service utilization patterns (use of mental health resources). We have completed baseline enrollment and data collection on 1000 National Guard. We are currently completing the first follow-up. In addition, we are currently planning the second wave of follow-up surveys and have initiated analysis of the data from the baseline survey.

INTRODUCTION

This work will assess mental health and mental health service utilization over time among a representative sample of the National Guard forces, within a multivariate causal framework that takes into account life course experiences and circumstances together with combat history, other military experience (e.g. humanitarian activity and activation for state missions) and civilian traumatic event experiences as determinants of mental health in this group. We focus here not only on documenting the prevalence and correlates of PTSD and other mental illness and health service utilization among these forces, but also on documenting the trajectories of PTSD and co-occurring psychopathology over time among these forces. Although there is a growing literature about the mental health and mental health needs of active duty military personnel, this would be the first study, as best we know, that has focused explicitly on the experience of the National Guard forces. For the reasons mentioned above, this group needs to be identified as a separate study population so that the special issues associated with their service can be examined. This study has implications for early intervention after exposure to traumatic events (including combat experiences and domestic deployment), training of the NG, and education of commanding officers and military leadership.
STATEMENT OF WORK
Task 1. To develop a structured survey instrument that will assess (a) factors throughout the lifecourse that may be risk or protective factors for psychological morbidity among National Guard force members, (b) mental health, and (c) service utilization patterns among National Guard force members.

Milestone: The final version of the survey instrument has been developed and contains: (a) risk or protective factors for psychological morbidity over the life course (e.g. modules on general traumas, psychological resources, life and family concerns), (b) mental health (e.g. modules on depression, PTSD, emotional health history) (c) service utilization patterns among National Guard force members (e.g. use of mental health resources). Please see Appendix 1 for a copy of the survey.

Task 2. To obtain final IRB approval from relevant local institutions (CU and USUHS) and Department of Defense.

Milestone: Final IRB approval was approved for the baseline survey from the original three institutions (UM, USUHS and DOD).

Task 3. To pilot test the instrument with a random sample of National Guard forces and modify the instrument as necessary to adequately reflect National Guard force experiences.

Milestone: The survey instrument has been piloted with a random sample of the National Guard forces and the instrument has been modified as necessary to adequately reflect National Guard force experience and shortened to reduce participant burden, and approved by DoD.

Task 4. To implement the survey among a randomly selected sample of 1,000 National Guard force members using a combination of telephone and web-based techniques.

Milestone: Participant population selected and baseline survey, N=1000 interviews completed.

Task 5. To analyze survey data and to produce reports that are accessible to military, civilian, and scientific audiences and to prepare first follow-up survey wave.

Milestone: We are currently preparing manuscripts for publications.

Task 6. To implement the first survey follow-up, re-contacting all persons in the original sample and administering the follow-up survey using telephone and web-based methods.

Milestone: Continuing IRB approval has been obtained from the current institutions (CU and USUHS and Department of Defense). See Appendix 2 for a copy of the first follow-up survey.

Task 7. To analyze wave 2 survey data and to produce reports that are accessible to military, civilian, and scientific audiences and to prepare second follow-up survey wave.

Milestone: In conjunction with wave 1 analyses, wave 2 data will be analyzed and cleaned as soon as completed.

Task 8. To implement the second survey follow-up, recontacting all persons in the original sample and administering the follow-up survey using telephone and web-based methods.

Milestone: The second follow-up survey is currently being developed and approved by all IRBs. We are also currently getting the second follow-up survey approved by the necessary IRBS (see Appendix 3). In addition, we have obtained a Extension Without Funds (EWOF) which will allow us to continue our project until the end of 2012.
PRELIMINARY ANALYSES

PARTICIPANT CHARACTERISTICS

Baseline Sample. The enrollment of the baseline cohort began in January 2010 and was completed as of August 2010. In the baseline sample the majority of participants were male (84.9%) and white (79.6%). The modal age was between 25-34 (34.5%) and only 20.0% of participants were over the age of 45. 46.5% of the soldiers had some college or technical training and 51.4% were married at the time of the survey. With respect to the participants’ military characteristics, 18.5% were officers/warrant officers, 22.2% were in the Air National Guard, 49.3% were in the Army National Guard. The majority of soldiers have had some deployment experience (76.3%), with 32.7% experiencing between 1 and 3 deployments. With respect to traumatic event experiences, 89.6% of the soldiers experienced at least 1 traumatic event in their civilian life with the modal amount being between 1 and 5 (56.8%). With respect to their most recent deployment, 69.0% experienced a traumatic event while deployed with the modal value between 5 and 8 traumatic events (38.2%).

Longitudinal sample. Enrollment of the wave 2 cohort began in January of 2011 and is expected to end as of November 2011. 62.4% of wave 1 participants have returned as of September, although we project capturing approximately 65% of the baseline sample when we close wave 2 data collection. The majority of wave 2 participants were male (76.6%) and white (72.8%). The modal age was between 25-34 (35.2%) and only 15.1% of participants were over the age of 45. 46.6% had some college or technical training and 57.6% were married at the time of survey. With respect to military characteristics, the majority had some deployment experience (77.7%), and 35.9% experienced between 2 and 3 deployments.

BASELINE SAMPLE ANALYSES

Prevalence Of Posttraumatic Stress Disorder And Depression By Branch Of National Guard Forces. Our first analysis will focus on the baseline prevalence of lifetime, past year and past month mental health conditions across the branches of the National Guard forces. Depression* was the most prevalent condition to occur in their lifetime, and occur within the past year as well as the past month (21.5%, 8.6% and 5.7% respectively). The prevalence of lifetime depression was significantly different across the branches, with an 18.1% prevalence among those in the Army National Guard and a 3.4% prevalence among those in the the Air National Guard (p-value<0.05). The Army National Guard had a higher prevalence of both past year depression (10.2% vs. 2.8%; p<0.001) and past month depression (7.3% vs. 0.9%; p<0.001) than the Air National Guard. The prevalence of total PTSD* (PTSD that occurred either in their civilian or military lives) was 12.2% ever in their lifetime, 5.2% in the past year and 4.0% in the past month. The prevalence of PTSD developed during their most-recent deployment (6.9% lifetime) was higher than that which occurred during civilian status (6.1% lifetime). Comparing lifetime PTSD, including both deployment and non-deployment PTSD, those in the Army National Guard had a higher prevalence (11.2%) compared to the Air National Guard (1.0%; p<0.0001).

Implications: These findings provide evidence that the National Guard Forces experience a level of mental health worth investigating further and suggests that specific branches within the National Guard could be targeted for more pointed interventions.

LONGITUDINAL SAMPLE ANALYSES

Traumatic Brain Injury. Building on recent interest in the field we have an active research focus on mild traumatic brain injury (MTBI*). MTBI is prevalent in 8.2% of deployed members of our longitudinal sample and more common in men (4.7%) than women (1.2%; p<0.01). The prevalence of MTBI at baseline was different across the two branches, with the Army National Guard having a 10.1% prevalence, and the Air National Guard having a 2.5% prevalence (p<0.01). MTBI at baseline was associated with PTSD at wave 2 – 25.6% compared to 6.2% in those without MTBI (p< 0.0001), but not depression or alcohol misuse. Additionally, MTBI at baseline was associated with anger problems* at wave 2 – 82.9% of those with MTBI at baseline reported high levels of anger problems compared to 51.4% of those without MTBI (p<0.01). Finally, MTBI at baseline was significantly associated with new-onset PTSD (25% compared to 7.9%; p<0.05), new-onset binge
drinking (25.8% compared to 5.5%; p<0.0001) and new-onset driving without seatbelts (15.4% compared to 5.7%), but not new-onset depression, suicidal ideation or drunk driving or at time 2.

**Implications:** These preliminary findings provide evidence that MTBI is associated with psychiatric morbidity one year later, and can have substantial implications for both screening, and treatment, in military populations. Additionally MTBI is associated with anger problems, which may negatively impact interpersonal relationships and social functioning.

**Use Of Mental Health Services.** We are also focusing on the use of mental health services across the branches of the National Guard forces interviewed for the longitudinal sample. Mental health service use was reported by 13.0% of the total population and of those, 69.1% utilized VA or DoD care. Among those with mental health service need* (15.1% overall), 39.4% received care, and 73.0% of those reported receiving care that met their needs. Among those with current year PTSD, 69.2% reported receiving care, and among those with current year depression, 62.2% reported receiving care. Only 29.1% of individuals with alcohol misuse received care, and notably those with alcohol misuse comprised approximately two thirds of individuals with a mental health service need. Among those with a dual diagnosis of alcohol misuse and either PTSD or depression, 73.3% received care. Among those with 1 mental health disorder 25.0% received care, among those with 2 mental health disorders 64.7% received care, and among those with 3 mental health disorders 90.0% received care. Among those with past year suicidal ideation, 64.0% received mental health care.

**Implications:** These findings provide evidence that a substantial proportion of individuals in need of mental health care do not receive services, and suggests that access needs to be greatly improved. This has tremendous implications for a number of ongoing projects, including two ongoing Institute of Medicine consensus panels that are considering care for PTSD in the military.

*MEASURES*

MTBI was measured as having a head injury and > 1 symptom on the Military Acute Concussion Evaluation (MACE). Depression was measured as having at least 2 symptoms on the Patient Health Questionnaire (PHQ-9) and experienced for more than 1/2 the days in a two week period (DSM-IV Criterion A). PTSD was defined according to a modified PTSD checklist (PCL) using all DSM-IV criteria (A-F). Alcohol misuse disorders - abuse or dependence were defined according to the Mini International Psychiatric Interview, using DSM-IV criteria. Mental health need was defined as having PTSD, depression or an alcohol misuse disorder. Dual Diagnosis was defined as having a comorbid pattern of either PTSD or depression and an alcohol misuse disorder. Anger problems were measured using symptoms of the Dimensions of Anger Reactions (DAR) scale, and high compared with low levels of anger were determined with a median split of summary scores.
KEY RESEARCH ACCOMPLISHMENTS

- Baseline survey piloted and implemented
- 1000 National Guard members enrolled and interviewed
- Follow-up survey piloted and implemented
- Manuscripts are being finalized
- First follow-up surveys are currently being completed and the second follow-up survey will be piloted in Nov 2011 (please see appendix 2)
REPORTABLE OUTCOMES

None at this time.
CONCLUSIONS

We completed the baseline data collection of the study in July 2010. This entailed completing and piloting the survey and enrolling and interviewing 1000 National Guard members. Preliminary data analysis has begun and manuscript preparation is being completed.

We are finalizing the first follow-up survey.

We are preparing the second follow-up survey and will pilot the survey to 30 participants in the fall of 2011 and begin implementation of follow-up surveys in January 2012. In addition, we have obtained an Extension Without Funds (EWOF), which will allow us to continue our project until the end of 2012.

A. Introduction

May I speak to [NAME OF PARTICIPANT] Hello, my name is ___________ and I am calling for University of Michigan and the Uniformed Services University of the Health Sciences. You should have received a letter regarding a research study that we are conducting, and I am calling to follow-up. As the letter explained, we are asking you to take part in a study about experiences of military personnel.

A1. First, are you currently at least 18 years old?
1 Yes [GO TO A3]
2 No [GO TO A2]
9 Refused [Go to B5]

A2. In order to participate in this study, you must be at least 18 years of age. Please tell me when you will be turning 18 and we will call you back then to schedule an interview.
1 Yes, okay [Schedule call back for date after birth date given]
9 Refused [Go to B5]

A3. Is this a good time for you to talk or would you like to make an appointment for a more convenient time?
1 Continue
2 Make Appointment [Go to B5]
3 Do not wish to participate

During this conversation I will give you important contact information that was also provided in the letter you received earlier. Please make sure that you have a way to record this information.

A4. Are you ready to continue or do you need a moment to get ready?
1 Continue
2 Need to get ready [Wait until ready]
3 Do not wish to participate [Go to B5]
B. Participation

[Overview of Verbal Consent Procedure]:

In the letter we mailed to you, we included a document that explained the purpose of the study, the procedures of the study and contact information. At this time I am going to review that information and make sure you understand the purpose of the study, what will be asked of you if you participate and make sure that you would like to participate.

[Purpose of the study]
The title of the study is "Health and Well-being of National Guard Forces". The study has two purposes – first, it will give us an idea about how certain experiences may affect the health of National Guard Members over time, and second it may help improve the treatment available National Guard members who may have stressful experiences while serving. The principal investigators of this study are Dr Sandro Galea at the University of Michigan and Dr Robert Ursano at the Uniformed Services University of the Health Sciences. The project is sponsored by the National Institutes of Health and the Department of Defense.

[Procedure]
We will be interviewing approximately 2,000 randomly selected National Guard members every year for 4 years. If you choose to participate in the interview today we will collect information about your family history, military history, medical history, quality of life, productivity, and your use of healthcare services. You may decline to answer any questions that you do not want to answer and you can discontinue the interview at any time if you choose to. This survey takes about 40 minutes to complete over the telephone. Agreeing to participate in the study and allowing your health information to be used is voluntary and is separate from your enlistment.

[Risks]
There are no known physical risks to you for participating in this study. Psychological or emotional risks are minimal in that some of the study questions are of a sensitive nature and may make you feel uncomfortable, though we have tried to make the process as comfortable as possible. If you feel distressed during the interview, you may stop. If you feel distress and would like to speak with someone at any point during the interview we will provide you with a phone number for a health provider on call.

[Benefits]
This study does not provide direct benefits to participants. If this work is successful in identifying features of deployment that are associated with better long-term mental health among military personnel, it is possible that subsequent changes in military practice will have benefits for you after a period of time and this study may one day help improve the health care of military personnel.

[Alternate Procedures]
As this is not a clinical or experimental study the only alternative to participation is to not participate.

[Cost]
There is no financial cost for you to participate in this study. We are offering $25.00 for each interview completed. There will be 4 annual interviews so if you complete all of them you can earn $100.00. We will also send $10.00 in a mailing once a year between each of the interviews, for a total of an additional $30.00 or $130.00 all together for people who remain in the study all 4 years. Payment will be mailed to an address you supply at the completion of your interview.

[Confidentiality]
Your participation in this study is confidential. The answers to your interviews will be kept separate from your identifying information and only one file will be kept that links your answers to your identifying information. You will not be identified in any reports on this study. Records will be kept confidential to the extent provided by federal, state and local law. However, the Institutional Review Boards at the University of Michigan and of the Uniformed Services University of the Health Sciences, the sponsor of the study, and government officials responsible for monitoring this study may inspect the reports. USAMRMC are eligible to review research records to ensure the protection of human subjects. The data collected during this study may be kept for an unspecified period of time.

[Certificate of Confidentiality]
Additionally, a Certificate of Confidentiality has been obtained to help ensure the privacy of the data collected and your identity. With this Certificate, the investigators cannot be forced (for example by court subpoena) to disclose information that may identify you in any federal, state, or local civil, criminal, administrative, legislative, or other proceedings. However, the US government may wish to audit the information collected in this study to evaluate the research practices of the study. In addition, if the study staff suspects intent to harm yourself or others we will report it to the proper authorities as necessary, but we would only disclose information in your records relevant to the prevention of serious harm to the person or persons endangered.

You can choose to quit at anytime by refusing to participate in the interviews. If you complete this interview and you decide you would like to permanently be removed from the study, you may contact SRBI by email (RNGStudy@srbi.com), phone (1-888-735-0199) or send a written letter mailed to: SRBI, Inc.. Attn: National Guard Study #4495, 275 Seventh Avenue, Suite 2700, New York, New York 10001. If we are unable to reach you for an extended period of time we may have to discontinue your participation in the study.

[Contact]
You may contact the Principal Investigator at any time with any questions. He is Dr Sandro Galea and can be reached 734-763-9784.

Further information with respect to illness or injury resulting from a research procedure as well as a research subjects' rights is available from the University of Michigan Institutional Review Board at 734-936-0933 or irbhsbs@umich.edu.

[NOTE: THIS INFO ON FAQ SHEET FOR INTERVIEWERS]

Now, please take down the toll free number where you can call us back to complete the survey if we don’t finish it all right now. We can be reached at (1-888-735-0199). Please mention the National Guard study and your survey key number – [KEY] when you call and you will be directed to the right person. As I mentioned before, this survey takes about one hour to complete. The questions are organized into sections that go together, so it works best if we can complete entire sections at one time. I will let you know periodically when we are between sections in case you need to take a break, but of course you can let me know that you need a break anytime you feel like it.

C. Military History
To begin with, I have some questions about your experience in the military.

C1a. Just to confirm, are you currently in a National Guard Component of the United States military, or are you separated or retired from the military altogether?
1. Currently in military National Guard Component  [CONTINUE]
2. Not  [S/O NOT CURRENTLY ENROLLED – THANK & END]

C1. How long have you been in the United States military, including both time on Active Duty and time in the National Guard s?

I'm now going to continue asking you about your most recent deployment.

TRAINING AND DEPLOYMENT PREPARATION

I am going to read several statements about how well prepared you were by the military for your most recent deployment, and I'd like to know how much you agree or disagree with each statement. There are 5 answer choices you can use: strongly agree, somewhat agree, somewhat disagree, strongly disagree, or neither agree nor disagree.

The (first/next) statement is [STATEMENT]. Do you agree, disagree OR do you neither agree nor disagree (3)?

[IF AGREE: Do you agree strongly (5) or agree somewhat (4)?]  
[IF DISAGREE: Do you disagree strongly (1) or disagree somewhat (2)?]

T. Counseling/Conclusion
T1. Thank you for completing the survey. Before I go, I have just a few more things to take care of, including getting some information so that we can send you the check for $25 that we mentioned at the beginning of the survey. First, I would just like to give you our toll-free number in case you have any additional questions about the project or you need to get in touch with us later on.

T2. Would you like to write our number down? It is 1-888-735-0199.
1  Accepts number
2  Does not want the number

T2a. And, if you have any questions regarding your rights as a research participant, you may call the University of Michigan Institutional Review Board. Would you like to write the number down? That number is 734-936-0933.
1  Accepts number
2  Does not want the number

T3. Now, I just need to verify your name and address so that we can send you your check. [INTERVIEWER: IF RESPONDENT ASKS YOU TO SEND THE MONEY TO A CHARITY, SAY: That is a good idea, but the study protocol requires that I send the check to the person who completes the survey. Then, of course, you can send it along to whatever charity you prefer.]
1  Will give address/accept check   [GO TO ADDRESS MODULE]
2  Decline address/decline check

[IF DECLINE CHECK]
T4. Then just let me verify your address. Having this information will make it easier to contact you in about a year to conduct the next follow-up interview or to send you information on the other parts of the study.
1  Will give address   [GO TO ADDRESS MODULE]
2  Decline address
T5. Email is a good way for us to keep in touch and inform you about our next upcoming survey. Do you have an email address?

   YES, WILL GIVE EMAIL  [CAPTURE EMAIL ADDRESS]
   NO – DO NOT HAVE EMAIL
   REFUSED TO GIVE EMAIL

T6. Having contact information for someone who always knows how to get in touch with you will also make it easier for us to keep in touch and inform you about our next upcoming survey. Is there someone who always knows how to get in touch with you?

   Yes, will give information  [ask for first & last name & phone]
   No, no contacts  [SKIP TO T8]
   Refused  [SKIP TO T8]

T7. Is there a second person who always knows how to get in touch with you?

   Yes, will give information  [ask for first & last name & phone]
   No, no contacts  [SKIP TO T8]
   Refused  [SKIP TO T8]

Okay, we're almost done. I have just one more thing to take care of before I go.

T8. Some of the questions in this survey can be upsetting or stressful. Were any of the survey questions emotionally upsetting to you?

   1   Yes  [ASK T9]
   2   No  [GO TO T10a]

T9. Are you still feeling emotionally upset or are you okay now?

   1   Still upset  [ASK T10]
   2   Feeling okay now  [GO TO T10a]

T10. If you would like to talk to someone about how you are feeling, I can have someone call you. Would you like our on call counselor to call you?

   1   Yes  [GO TO T11]
   2   No  [GO TO T10a]

[IF K9c= “YES,” READ T10a and ASK T10a – ELSE SKIP TO T16]

T10a. Earlier in the survey you mentioned having thoughts within the past 30 days that you would be better off dead or of hurting yourself in some way. If you would like to talk to someone about these thoughts, I can have someone call you. Would you like our on call counselor to call you?

   1   Yes  [GO TO T11]
   2   No  [GO TO T10a]

T11. Do you need a counselor to get back to you (today/this evening) or can I have someone call you (tomorrow/Monday) during regular business hours?

   1   Need someone to call today/tonight
   2   Would like someone to call tomorrow/Monday
T12. What is your name?
T12fn. RECORD first name

T12ln. RECORD last name

T12ph. What number should we call you back on?

T12st. And, where do you live? I need to provide the counselor with your name, address, and telephone number to be sure we are able to reach you. This information will only be used by the counselor to contact you.

RECORD street name and number

T12town. RECORD town

T12state. RECORD state

T12zip. RECORD zip code

T12co. RECORD any interviewer comments

Okay, I will have someone get back to you soon.

[NOTE TO INTERVIEWER: IF RESPONDENT WANTS TO TALK TO A DOCTOR TODAY/TOMORROW/MONDAY, NOTIFY YOUR SUPERVISOR NOW!]

[CATI – DISPLAY A NOTIFICATION SCREEN TO PROMPT SUPERVISOR FOR ANY COUNSELING REQUESTS]

T16. As a final note, we want to remind you that we will be calling again to follow-up on how you are doing about once a year. If you change your telephone number or address in the meantime, you can let us know about it by calling the toll free number I provided earlier. This information will be provided in the envelope with your check.

[RECORD CODE 2 ONLY IF PERSON SAYS NOT TO CALL AGAIN]

Thank you for your participation in this survey. Have a great day/evening.
CELL PHONE PROTOCOL

Some respondents will supply a phone number in response to the advance letters and they may turn out to be cell phones.

*Update phone number* needs to be available on the tipresp menu, and updating needs to be enabled in the script where indicated in the following questions.

*[CATI: ADD THESE QUESTIONS TO THE SCRIPT IMMEDIATELY AFTER THE RESPONDENT INTRODUCTION]*

P1. Is this number that I called you on a cell phone?
   
   (If asked why: I just want to offer to call you on a land-line phone, or at a time when you are not driving if this is a cell phone)
   
   Yes (GO TO P2)
   No (SKIP TO A)
   REFUSAL - SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P2. Is there a land line where you would prefer me to call to conduct the interview?
   
   Yes (UPDATE PHONE TO LAND LINE & SCHEDULE CB)
   No, continue on cell phone
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P3. Are you currently driving, or someplace else where it IS NOT safe to talk on your cell phone?
   
   YES/CALL ME LATER (SCHEDULE CALLBACK)
   No, respondent can talk now
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P4. Is now a good time to talk?
   
   *(INTERVIEWER: IF EVENINGS / WEEKENDS ARE BETTER BECAUSE RESPONDENT IS NOT CHARGED FOR CELL USAGE, SCHEDULE CALLBACK AND RECORD COMMENTS)*
   
   Yes, now is fine (CONTINUE TO A1a)
   No, another time is better (SCHEDULE CALLBACK & record comments about best call times)
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

[CELL PHONE PROTOCOL TO BE INSERTED INTO CATI PROGRAM TO ENSURE SAFETY OF RESPONDENTS AND OFFER TO CALL ON A LANDLINE PHONE]

A. Introduction

May I speak to [NAME OF PARTICIPANT] Hello, my name is ___________ and I am calling for Columbia University and the Uniformed Services University of the Health Sciences. You should have received a letter regarding the next year of this study that we are conducting, and I am calling to follow-up. As the letter explained, we are asking you to take part in the next year of the study about experiences of military personnel.

A1. First, are you currently at least 18 years old?
   1 Yes [GO TO A3]
   2 No [GO TO A2]
   9 Refused [Go to B5]

A2. In order to participate in this study, you must be at least 18 years of age. Please tell me when you will be turning 18 and we will call you back then to schedule an interview.
   1 Yes, okay [Schedule call back for date after birth date given]
   9 Refused [Go to B5]

A3. Is this a good time for you to talk or would you like to make an appointment for a more convenient time?
   1 Continue
   2 Make Appointment
   3 Do not wish to participate [Go to B5]

During this conversation I will give you important contact information that was also provided in the letter you received earlier. Please make sure that you have a way to record this information.

A4. Are you ready to continue or do you need a moment to get ready?
   1 Continue
   2 Need to get ready [Wait until ready]
   3 Do not wish to participate [Go to B5]
B. Participation

[Overview of Verbal Consent Procedure]:

In the letter we mailed to you, we included a document that explained the purpose of the study, the procedures of the study and contact information. At this time I am going to review that information and make sure you understand the purpose of the study, what will be asked of you if you participate and make sure that you would like to participate.

[Purpose of the study]
The title of the study is "Health and Well-being of National Guard Forces". The study has two purposes – first, it will give us an idea about how certain experiences may affect the health of National Guard Members over time, and second it may help improve the treatment available to National Guard members who may have stressful experiences while serving. The principal investigators of this study are Dr Sandro Galea at Columbia University, formerly at the University of Michigan, and Dr Robert Ursano at the Uniformed Services University of the Health Sciences. The project is sponsored by the National Institutes of Health and the Department of Defense.

[Procedure]
To better understand the experiences of the National Guard, we will be re-interviewing the members who participated in the baseline survey, every year for the next 3 years. If you choose to participate in the interview today we will collect information about your family history, military history, medical history, quality of life, productivity, and your use of healthcare services. You may decline to answer any questions that you do not want to answer and you can discontinue the interview at any time if you choose to. This survey takes about 40 minutes to complete over the telephone. Agreeing to participate in the study and allowing your health information to be used is voluntary and is separate from your enlistment.

[Risks]
There are no known physical risks to you for participating in this study. Psychological or emotional risks are minimal in that some of the study questions are of a sensitive nature and may make you feel uncomfortable, though we have tried to make the process as comfortable as possible. If you feel distressed during the interview, you may stop. If you feel distress and would like to speak with someone at any point during the interview we will provide you with a phone number for a health provider on call.

[Benefits]
This study does not provide direct benefits to participants. If this work is successful in identifying features of deployment that are associated with better long-term mental health among military personnel, it is possible that subsequent changes in military practice will have benefits for you after a period of time and this study may one day help improve the health care of military personnel.

[Alternate Procedures]
As this is not a clinical or experimental study the only alternative to participation is to not participate.

[Cost]
There is no financial cost for you to participate in this study. We are offering $25.00 for each interview completed. There will be 3 more annual interviews so if you complete all of them you can earn $100.00. We will also send $10.00 in a mailing once a year between each of the interviews, for a total of an additional $30.00 or $130.00 all together for people who remain in the study all 4 years. Payment will be mailed to an address you supply at the completion of your interview.
[Confidentiality]
Your participation in this study is confidential. The answers to your interviews will be kept separate from your identifying information and only one file will be kept that links your answers to your identifying information. You will not be identified in any reports on this study. Records will be kept confidential to the extent provided by federal, state and local law. However, the Institutional Review Boards at the Columbia University and of the Uniformed Services University of the Health Sciences, the sponsor of the study, and government officials responsible for monitoring this study may inspect the reports. USAMRMC are eligible to review research records to ensure the protection of human subjects. The data collected during this study may be kept for an unspecified period of time.

[Certificate of Confidentiality]
Additionally, a Certificate of Confidentiality has been obtained to help ensure the privacy of the data collected and your identity. With this Certificate, the investigators cannot be forced (for example by court subpoena) to disclose information that may identify you in any federal, state, or local civil, criminal, administrative, legislative, or other proceedings. However, the US government may wish to audit the information collected in this study to evaluate the research practices of the study. In addition, if the study staff suspects intent to harm yourself or others we will report it to the proper authorities as necessary, but we would only disclose information in your records relevant to the prevention of serious harm to the person or persons endangered.

You can choose to quit at anytime by refusing to participate in the interviews. If you complete this interview and you decide you would like to permanently be removed from the study, you may contact SRBI by email (RNGStudy@srbi.com), phone (1-888-735-0199) or send a written letter mailed to: SRBI, Inc.. Attn: National Guard and Study #4495, 275 Seventh Avenue, Suite 2700, New York, New York 10001. If we are unable to reach you for an extended period of time we may have to discontinue your participation in the study.

[Contact]
You may contact the Principal Investigator at any time with any questions. He is Dr Sandro Galea and can be reached 212 305 8755.

Further information with respect to illness or injury resulting from a research procedure as well as a research subjects' rights is available from the Columbia University Institutional Review Board at 212-305-5883. The address is 722 West 168th Street, 4th Floor, New York, NY 10032

B1. Do you have any questions?

1. Yes, I have some questions [GO TO B2]
2. No questions [GO TO B2a]
3. No, call back at another time [ARRANGE CALLBACK]
4. I do not wish to participate [Go to B5]
B2. What questions do you have?

1. Questions answered, ready to proceed  [GO TO B2a]
2. Not willing to participate until contact investigator  [ARRANGE CALLBACK IN 3 DAYS]
3. Not willing to participate until contact SRBI supervisor  [ARRANGE CALLBACK]
4. Will do survey at another time  [ARRANGE CALLBACK]
5. Do not wish to participate  [Go to B5]

a new copy of letter  [Go to B2c]

B2c. I can have another copy of the letter sent to you. First let me verify that we have your current address.

This is the address that the letter was sent to: [GO TO ADDRESS MODULE]

Is this correct?  [CORRECT ADDRESS AS NEEDED]

We will have a new copy of the letter sent to you and we’ll get back to you in a few weeks.  
[DISPO AS LETTER REMAIL – ARRANGE CALLBACK FOR 3 WEEKS FROM NOW]

B2a. To make sure that you understand the basic purpose of the study can you please tell me why we are doing this study?

1. Answer given  [RECORD TEXT BELOW AND READ B2b]
2. Not sure/Don’t know  [READ B2b]
3. Refused  [READ B2b]

B2b. (Just to be clear,) The study has two purposes – first, it will give us an idea about how certain experiences may impact National Guard Members over time, and second it may help improve the treatment available to members who may have stressful experiences while serving.

B3. Do you feel your questions have been adequately answered and that you fully understand the purpose of this research study?  (Interviewer: please check “agrees” or “does not agree” corresponding to the participants answer)

1. Agree  [Ask B4]
2. Does not agree  [Return to B2]
3. Don't Know  [Return to B2]
4. Refused  [Go to B5]

B4. Do you agree to participate in this research study and begin study procedures as we have discussed?

1. Agree  [Go to Section C]
2. Does not agree  [Go to B5]
3. Don't Know  [Return to B2]
4. Refused  [Go to B5]

B5. Can you tell me why you don’t wish to participate in the interview?

______________ [THANK AND END]

[CELL PHONE PROTOCOL TO BE INSERTED INTO CATI PROGRAM TO ENSURE SAFETY OF RESPONDENTS AND OFFER TO CALL ON A LANDLINE PHONE]
Now, please take down the toll free number where you can call us back to complete the survey if we don’t finish it all right now. We can be reached at (1-888-735-0199). Please mention the National Guard study and your survey key number – [KEY] when you call and you will be directed to the right person. As I mentioned before, this survey takes about one hour to complete. The questions are organized into sections that go together, so it works best if we can complete entire sections at one time. I will let you know periodically when we are between sections in case you need to take a break, but of course you can let me know that you need a break anytime you feel like it.

C. Military History

COMBAT EXPERIENCES

The following statements are about combat experiences you may have had during your most recent deployment.

While deployed:

*D41a. Did you participate in active combat operations as a member of a combat unit?*

1 Yes
2 No
8 [VOL] Don't know
9 [VOL] Refused
*D41b. Did you experience combat as a member of medical staff, helicopter crew or corpse detail?
1 Yes
2 No
8 [VOL] Don't know
9 [VOL] Refused

*D53d. Were you injured or wounded during your most recent deployment?
1 Yes
2 No
8 [VOL] Don't know
9 [VOL] Refused

D54. Next I'm going to read a list of reasons for injuries or accidents. Please tell me which, if any, of them you experienced during your most recent deployment. [MULTIPLE RECORD FOR EACH “YES”]
- Being hit by shrapnel or a fragment
- Being hit by a bullet or receiving a gunshot wound
- A motor vehicle crash with a vehicle of any type, including a helicopter or airplane
- An explosion or blast, such as an I.E.D. (Improvised Explosive Device), R.P.G. (Rocket Propelled Grenade), Land mine, Grenade, etc.
- Being hit by a Blunt object
- A fall
- OR some other injury or accident [SPECIFY] __________
- None

[IF NONE, DK OR REF FOR D54, SKIP TO D57]

D54b. I recognize that these experiences may have occurred as a result of a single event or multiple events. How many separate events did you experience?

INSTRUCTIONS

IF ANY YES *Ha TRAUMA QUESTIONS, CREATE TWO LISTS: DEPLOYMENT RELATED TRAUMAS AND NON-DEPLOYMENT RELATED TRAUMAS. ITEMS ANSWERED ‘BOTH’ IN b SHOULD APPEAR IN BOTH LISTS.
CREATE TWO RANDOM SELECTIONS FROM EACH LIST FOR J1 NON-DEPLOYMENT AND J28 DEPLOYMENT RELATED
IF HAD NON-DEPLOYMENT TRAUMAS IN WAVE 1:
   IF THERE ARE ZERO NON-DEPLOYMENT RELATED TRAUMAS IN WAVE 2, GO TO Q.J2
   IF ONLY 1 NON-DEPLOYMENT RELATED TRAUMA, GO TO Q.J1B
   IF MORE THAN 1 NON-DEPLOYMENT RELATED TRAUMA, GO TO Q.J1
IF DID NOT HAVE NON-DEPLOYMENT TRAUMAS IN WAVE 1:
   IF THERE ARE ZERO NON-DEPLOYMENT RELATED TRAUMAS, GO TO Q.J28
   IF ONLY 1 NON-DEPLOYMENT RELATED TRAUMA, GO TO Q.J2
   IF MORE THAN 1 NON-DEPLOYMENT RELATED TRAUMA, GO TO Q.J1A
AFFIRMATIVE ANSWERS TO *D ITEMS SHOULD APPEAR IN THE DEPLOYMENT-RELATED TRAUMA LIST PER INSTRUCTIONS BELOW

J. Post-Traumatic Stress Disorder
Now, please consider the lifetime events we just discussed.
[IF THERE IS ONLY ONE NON-DEPLOYMENT RELATED TRAUMA, SELECT IT AND SKIP TO J2]

J1. Of the events we just discussed that were not deployment-related, which event would you consider the worst?
[*H1a- *H37a RANDOM PICK1], OR
[*H1a-H37a RANDOM PICK2], OR
one of the other non-deployment related events you experienced?

[PROBE: Would you like me to read the list of items you mentioned?]
[CATI: IF J1=DK/REF RANDOMLY SELECT A NON-DEPLOYMENT-RELATED EVENT ANSWERED ‘YES’ FROM *H1a-*H37A]

[NOTE: WE ARE NOT PREVENTING THE SAME KIND OF EVENT FROM BEING CHOSEN AS WAS SELECTED IN YEAR 1 – MULTIPLE INSTANCES OF THE SAME TYPE OF TRAUMA CAN OCCUR]

[IF IN WAVE 1 THEY DID NOT EXPERIENCE A TRAUMA OUTSIDE OF MOST-RECENT DEPLOYMENT SKIP TO J2.]

J1B. Now, the last time we spoke, you told us one of the worst events you had experienced was [INSERT WAVE 1 DUWNT/WORST NON-DEPLOYMENT RELATED TRAUMA FROM WAVE 1]. Please consider this event as well as the event you just told us was the worst from this past year.

Of these two events, which event would you consider the worst? [DISPLAY WORST NON-DEPLOYMENT TRAUMA FROM WAVE 1 AND WORST NON-DEPLOYMENT TRAUMA FROM WAVE 2] [IF THEY ARE THE SAME CATEGORY OF TRAUMA, BRING THE QUESTION TO THE SCREEN BECAUSE THE RESPONDENT WILL STILL BE ABLE TO CHOOSE AMONG THE TWO TRAUMA INSTANCES FOR REFERENCE EVEN THOUGH THE DATA WILL NOT DIFFERENTIATE THEM.]

1 ____________ (WAVE 1 EVENT)
2 ____________ (WAVE 2 EVENT)
98 [VOL] Don't know
99 [VOL] Refused

[CATI: IF J1B=DK/REF RANDOMLY SELECT ONE OF TWO EVENTS]

[CATI: DEFINE “WORST NON-DEPLOYMENT RELATED TRAUMA” AS ANSWER TO J1B, DUWNT FROM WAVE 1 IF NO TRAUMAS OCCURRED IN WAVE 2 LIST OR SINGLE NON-DEPLOYMENT EVENT CODED FROM *H1a-*H37a TRAUMA QUESTIONS]

In this next section, I’m going to ask about this event: [WORST N-D TRAUMA].
[READ IF W1 TRAUMA WAS SELECTED: (You may recall talking about it in your last interview.)

[NOTE: IF RESPONDENT DOES NOT RECALL THE EVENT FROM LAST TIME, SAY: “I realize that you may not remember discussing this event last time, but let me go through the questions to see if anything jars your memory of it.” – IF RESPONDENT DOESN’T RECALL THE EVENT, THEN CODE AS “NOT SURE” IN J2 TO J5 AND, “NOT AT ALL” IN J6 TO J22]

[IF “WORST NON-DEP TRAUMA” IS FROM YEAR 1, SKIP TO J6, ELSE ASK:]

J2. During approximately what year did this event -- [WORST N-D TRAUMA] -- occur?
[PROBE: Your best estimate is fine.] [IF THERE WAS MORE THAN ONE OCCURRENCE OF THE EVENT, THEN PROBE: Thinking about the WORST time this happened, what year was it? IF THE EVENT WAS ONGOING, PROBE: Thinking about the WORST time during this period, what year was it?

[IF C10g IS "YES", or C10FLG="1" THEN ASK J3 IF MONTH AND YEAR REPORTED IN J2 IS THE SAME AS THE MOST RECENT DEPLOYMENT IN C12]

J3. Was this before or after you left on your most recent deployment?

1. Before
2. After
3. (VOL) During
8. (VOL) Not sure
9. (VOL) Refused

Now I'm going to ask you about different thoughts and feelings you may have had because of this event -- [WORST N-D TRAUMA].

J4. When this event occurred, did you feel terrified?

T. Counseling/Conclusion
T1. Thank you for completing the survey. Before I go, I have just a few more things to take care of, including getting some information so that we can send you the check for $25 that we mentioned at the beginning of the survey. First, I would just like to give you our toll-free number in case you have any additional questions about the project or you need to get in touch with us later on.

T2. Would you like to write our number down? It is 1-888-735-0199.
1 Accepts number
2 Does not want the number

T2a. And, if you have any questions regarding your rights as a research participant, you may call the Columbia University Institutional Review Board. Would you like to write the number down? That number is 212-305-5883.
1 Accepts number
2 Does not want the number

T3. Now, I just need to verify your name and address so that we can send you your check. [INTERVIEWER: IF RESPONDENT ASKS YOU TO SEND THE MONEY TO A CHARITY, SAY: That is a good idea, but the study protocol requires that I send the check to the person who completes the survey. Then, of course, you can send it along to whatever charity you prefer.]
1 Will give address/accept check [GO TO ADDRESS MODULE]
2 Decline address/decline check

[IF DECLINE CHECK]
T4. Then just let me verify your address. Having this information will make it easier to contact you in about a year to conduct the next follow-up interview or to send you information on the other parts of the study.
[ASK ALL]

T5. Email is a good way for us to keep in touch and inform you about our next upcoming survey. Do you have an email address?

1. YES, WILL GIVE EMAIL [CAPTURE EMAIL ADDRESS]
2. NO – DO NOT HAVE EMAIL
3. REFUSED TO GIVE EMAIL

T6. Having contact information for someone who always knows how to get in touch with you will also make it easier for us to keep in touch and inform you about our next upcoming survey. Is there someone who always knows how to get in touch with you?

1. Yes, will give information [ask for first & last name & phone]
2. No, no contacts [SKIP TO T8]
3. Refused [SKIP TO T8]

T7. Is there a second person who always knows how to get in touch with you?

1. Yes, will give information [ask for first & last name & phone]
2. No, no contacts [SKIP TO T8]
3. Refused [SKIP TO T8]

Okay, we’re almost done. I have just one more thing to take care of before I go.

T8. Some of the questions in this survey can be upsetting or stressful. Were any of the survey questions emotionally upsetting to you?

1. Yes [ASK T9]
2. No [GO TO T10a]

T9. Are you still feeling emotionally upset or are you okay now?

1. Still upset [ASK T10]
2. Feeling okay now [GO TO T10a]

T10. If you would like to talk to someone about how you are feeling, I can have someone call you. Would you like our on call counselor to call you?

1. Yes [GO TO T11]
2. No [GO TO T10a]

[IF K9c= “YES,” READ T10a and ASK T10a – ELSE SKIP TO T16]

T10a. Earlier in the survey you mentioned having thoughts within the past 30 days that you would be better off dead or of hurting yourself in some way. If you would like to talk to someone about these thoughts, I can have someone call you. Would you like our on call counselor to call you?
1 Yes [GO TO T11]  
2 No [GO TO T16]  

T11. Do you need a counselor to get back to you (today/this evening) or can I have someone call you (tomorrow/Monday) during regular business hours?  
1 Need someone to call today/tonight  
2 Would like someone to call tomorrow/Monday  

T12. What is your name?  
T12fn. RECORD first name ____________________________  

T12ln. RECORD last name _______________________________  

T12ph. What number should we call you back on?

[NOTE TO INTERVIEWER: IF RESPONDENT WANTS TO TALK TO A DOCTOR TODAY/TOMORROW/MONDAY, NOTIFY YOUR SUPERVISOR NOW!]  

[CATI – DISPLAY A NOTIFICATION SCREEN TO PROMPT SUPERVISOR FOR ANY COUNSELING REQUESTS]  

T16. As a final note, we want to remind you that we will be calling again to follow-up on how you are doing about once a year. If you change your telephone number or address in the meantime, you can let us know about it by calling the toll free number I provided earlier. This information will be provided in the envelope with your check.
[RECORD CODE 2 ONLY IF PERSON SAYS NOT TO CALL AGAIN]
1 Continue
2 [VOL] Does not want to be called again

Thank you for your participation in this survey. Have a great day/evening.

A. Introduction

May I speak to [NAME OF PARTICIPANT] Hello, my name is ___________ and I am calling for Columbia
University and the Uniformed Services University of the Health Sciences. You should have received a letter
regarding the next year of this study that you participated in [MONTH] of [YEAR]. As the letter explained, we
are asking you to take part in the next year of the study about experiences of military personnel.

A3. Is this a good time for you to talk or would you like to make an appointment for a more convenient time?

1 Continue
2 Make Appointment
3 Do not wish to participate [Go to B5]

During this conversation I will give you important contact information that was also provided in the letter you
received earlier. Please make sure that you have a way to record this information.

A4. Are you ready to continue or do you need a moment to get ready?

1 Continue
2 Need to get ready [Wait until ready]
3 Do not wish to participate [Go to B5]
B. Participation

[Overview of Verbal Consent Procedure]:

The letter we mailed to you explained the procedures of the study and contact information. At this time I am going to review that information and make sure you understand the purpose of the study, what will be asked of you if you participate and make sure that you would like to participate.

[Purpose of the study]
The title of the study is "Health and Well-being of National Guard Forces". The study has two purposes – first, it will give us an idea about how certain experiences may affect the health of National Guard Members over time, and second it may help improve the treatment available to National Guard members who may have stressful experiences while serving. The principal investigators of this study are Dr Sandro Galea at Columbia University, formerly at the University of Michigan, and Dr Robert Ursano at the Uniformed Services University of the Health Sciences. The project is sponsored by the National Institutes of Health and the Department of Defense.

[Procedure]
To better understand the experiences of the National Guard, we will be re-interviewing the members who participated in the baseline survey, every year for the next 2 years. If you choose to participate in the interview today we will collect information about your family history, military history, medical history, quality of life, productivity, and your use of healthcare services. You may decline to answer any questions that you do not want to answer and you can discontinue the interview at any time if you choose to. This survey takes about 50 minutes to complete over the telephone. Agreeing to participate in the study and allowing your health information to be used is voluntary and is separate from your enlistment.

[Risks]
There are no known physical risks to you for participating in this study. Psychological or emotional risks are minimal in that some of the study questions are of a sensitive nature and may make you feel uncomfortable, though we have tried to make the process as comfortable as possible. If you feel distressed during the interview, you may stop. If you feel distress and would like to speak with someone at any point during the interview we have on call counselors available.

[Benefits]
This study does not provide direct benefits to participants. If this work is successful in identifying features of deployment that are associated with better long-term mental health among military personnel, it is possible that subsequent changes in military practice will have benefits for you after a period of time and this study may one day help improve the health care of military personnel.

[Alternate Procedures]
As this is not a clinical or experimental study the only alternative to participation is to not participate.

[Cost]
There is no financial cost for you to participate in this study. We are offering $25.00 for each interview completed and there will be annual interviews until the year 2013. We will also send $10.00 in a mailing once a year between each of the interviews,. Payment will be mailed to an address you supply at the completion of your interview.

[Confidentiality]
Your participation in this study is confidential. The answers to your interviews will be kept separate from your identifying information and only one file will be kept that links your answers to your identifying information. You will not be identified in any reports on this study. Records will be kept confidential to the extent provided by federal, state and local law. However, the Institutional Review Boards at Columbia University and the Uniformed Services University of the Health Sciences, the sponsor of the study, and government officials responsible for monitoring this study may inspect the reports. USAMRMC (US Army Medical Research and Materiel Command) are eligible to review research records to ensure the protection of human subjects. The data collected during this study may be kept for an unspecified period of time.

[Certificate of Confidentiality]
Additionally, a Certificate of Confidentiality has been obtained to help ensure the privacy of the data collected and your identity. With this Certificate, the investigators cannot be forced (for example by court subpoena) to disclose information that may identify you in any federal, state, or local civil, criminal, administrative, legislative, or other proceedings. However, the US government may wish to audit the information collected in this study to evaluate the research practices of the study. In addition, if the study staff suspects intent to harm yourself or others we will report it to the proper authorities as necessary, but we would only disclose information in your records relevant to the prevention of serious harm to the person or persons endangered.

You can choose to quit at anytime by refusing to participate in the interviews. If you complete this interview and you decide you would like to permanently be removed from the study, you may contact SRBI by email (RNGStudy@srbi.com), phone (1-888-735-0199) or send a written letter mailed to: SRBI, Inc. Attn: National Guard Study #4495, 275 Seventh Avenue, Suite 2700, New York, New York 10001. If we are unable to reach you for an extended period of time we may have to discontinue your participation in the study.

[Contact]
You may contact the Principal Investigator at any time with any questions. He is Dr Sandro Galea and he can be reached on 212-305-8755.

Further information with respect to illness or injury resulting from a research procedure as well as a research subjects' rights is available from the Columbia University Institutional Review Board at 212-305-5883. The address is 722 West 168th Street, 4th Floor, New York, NY 10032

4 Refused [Go to B5]

B5. Can you tell me why you don't wish to participate in the interview?

___________ [THANK AND END]
[NOTE: THIS INFO ON FAQ SHEET FOR INTERVIEWERS]

Now, please take down the toll free number where you can call us back to complete the survey if we don’t finish it all right now. We can be reached at (1-888-735-0199). Please mention the National Guard study and your survey key number – [KEY] when you call and you will be directed to the right person. As I mentioned before, this survey takes about one hour to complete. The questions are organized into sections that go together, so it works best if we can complete entire sections at one time. I will let you know periodically when we are between sections in case you need to take a break, but of course you can let me know that you need a break anytime you feel like it.

C. Military History
To begin with, I have some questions about your experience in the military.

D. General Military Experience

I'm now going to continue asking you about your most recent deployment.

TRAINING AND DEPLOYMENT PREPARATION
I am going to read several statements about how well prepared you were by the military for your most recent deployment, and I’d like to know how much you agree or disagree with each statement. There are 5 answer choices you can use: strongly agree, somewhat agree, somewhat disagree, strongly disagree, or neither agree nor disagree.

The (first/next) statement is [STATEMENT]. Do you agree, disagree OR do you neither agree nor disagree (3)?

CATI INSTRUCTIONS

IF NEVER DEPLOYED (C10=0), GO TO SECTION Z

IF NO “WORST DEPLOYMENT TRAUMA” DISCUSSED IN PRIOR WAVE AND:
- IF NO DEPLOYMENT RELATED TRAUMAS IN CURRENT WAVE, GO TO SECTION Z
- IF ONLY ONE DEPLOYMENT TRAUMA IN CURRENT WAVE, GO TO J31
- IF MORE THAN ONE DEPLOYMENT-RELATED EVENT IN CURRENT WAVE GO TO Q.J28

IF A “WORST DEPLOYMENT TRAUMA” DISCUSSED IN PRIOR SURVEY AND:
- IF NO DEPLOYMENT RELATED TRAUMAS IN CURRENT WAVE, GO TO Q.J31
- IF ONLY ONE DEPLOYMENT TRAUMA IN CURRENT WAVE, GO TO Q.J28B
- IF MORE THAN ONE DEPLOYMENT-RELATED EVENTS IN CURRENT WAVE, GO TO Q.J28

DEPLOYMENT-RELATED PTSD
Now, please think about stressful experiences you have had that were deployment-related.

J28. You mentioned that you experienced stressful events related to your most recent deployment such as [*H1a-H37a RANDOM PICK1], OR [*H1a-H37a RANDOM PICK2],

. [IF SUM(D*ITEMS)>0, READ: You also told us earlier that you experienced other events during your most recent deployment such as [*D RANDOM PICK1], OR [*D RANDOM PICK2]

Thinking about these deployment-related events we have already discussed or some other deployment-related event, which event would you consider the worst? [PROBE: Would you like me to read the list of items you mentioned?]

[CATI: SHOW ALL TRAUMAS IN THE LIST FROM *H1b-*H37b & *D ITEMS & *D ITEMS + OTHER]

[CATI: IF J28 IS “DK” OR “REF” RANDOMLY SELECT TRAUMA FROM LIST OF DEPLOYMENT RELATED EVENTS FROM *H1b-*H37b & *D ITEMS – EXCLUDE “WORST NON-DEPLOYMENT RELATED TRAUMA” FROM THIS RANDOM SELECTION]
[IF NO DEPLOYMENT RELATED TRAUMAS FROM PRIOR WAVE, SKIP TO J31]

J28B. Now I also want you to consider [SINGLE TRAUMA OR J28A ANSWER] AS WELL AS the event you told us about from your previous deployment [PRIOR WAVE DUWDT/ INSERT DEPLOYMENT RELATED TRAUMA]. (NOT CALLING WORST BECAUSE IT MAY HAVE BEEN A RANDOM PICK AND DON'T WANT TO HAVE SOMEONE TRY TO CHANGE PRIOR WAVE ANSWERS]
Which of these two events would you consider the worst? [DISPLAY WORST DEPLOYMENT RELATED TRAUMA FROM PRIOR WAVE AND WORST DEPLOYMENT RELATED TRAUMA FROM CURRENT WAVE] [IF THEY ARE THE SAME CATEGORY OF TRAUMA, BRING THE QUESTION TO THE SCREEN BECAUSE THE RESPONDENT WILL STILL BE ABLE TO CHOOSE AMONG THE TWO TRAUMA INSTANCES FOR REFERENCE EVEN THOUGH THE DATA WILL NOT DIFFERENTIATE THEM.]

DEFINE “WORST DEP TRAUMA” AS ANSWER TO J28B OR DUWDT IF NO TRAUMAS FROM MOST RECENT DEPLOYMENT (OR C10GFLG=”2”) OR SINGLE TRAUMA FROM MOST RECENT DEPLOYMENT.

"In this next section, I am going to ask about this event: [WORST PRIOR WAVE DEPLOYMENT RELATED TRAUMA]. You may recall taking about it in your last interview."

[NOTE: IF RESPONDENT DOES NOT RECALL THE EVENT FROM LAST TIME, SAY: “I realize that you may not remember discussing this event last time, but let me go through the questions to see if anything jars your memory of it.” – IF RESPONDENT DOESN’T RECALL THE EVENT, THEN CODE AS “NOT AT ALL” IN J32 TO J48d]

T. Counseling/Conclusion

T1. Thank you for completing the survey. Before I go, I have just a few more things to take care of, including getting some information so that we can send you the check for $25 that we mentioned at the beginning of the survey. First, I would just like to give you our toll-free number in case you have any additional questions about the project or you need to get in touch with us later on.

T2. Would you like to write our number down? It is 1-888-735-0199.

1   Accepts number
2   Does not want the number

T2a. And, if you have any questions regarding your rights as a research participant, you may call the Columbia University Institutional Review Board. Would you like to write the number down? That number is 212-305-5883.

1   Accepts number
2   Does not want the number

T3. Now, I just need to verify your name and address so that we can send you your check. [INTERVIEWER: If respondent asks you to send the money to a charity, say: That is a good idea, but the study protocol requires that I send the check to the person who completes the survey. Then, of course, you can send it along to whatever charity you prefer.]

1   Will give address/accept check  [GO TO ADDRESS MODULE]
2   Decline address/decline check

[IF DECLINE CHECK]

T4. Then just let me verify your address. Having this information will make it easier to contact you in about a year to conduct the next follow-up interview or to send you information on the other parts of the study.

1   Will give address  [GO TO ADDRESS MODULE]
2   Decline address
T5. Email is sometimes a good way for us to keep in touch and inform you about the project.

[IF EMAIL WAS PROVIDED IN WAVE 1 ASK T5a – ELSE GO TO T5b:]
T5a. The email address you gave us before is [EMAIL FROM PRIOR WAVE]. Is that the email address we should use?

Yes [GO TO T6]
No [ASK T5b]

T5b. Do you have an email address that you are willing to share with us?

YES, WILL GIVE EMAIL [CAPTURE EMAIL ADDRESS]
NO – DO NOT HAVE EMAIL
REFUSED TO GIVE EMAIL

T5c. We have found that many study participants have more than one email address. Do you have another email address where we could contact you about the study? [PROBE: Ideally, we’d like to have an address besides the military (.mil) address in case you retire or leave the service.]

YES, WILL GIVE ADDITIONAL EMAIL [CAPTURE EMAIL ADDRESS]
NO - DO NOT HAVE ANOTHER EMAIL
REFUSED TO GIVE ANOTHER EMAIL

T6. Having the phone number of someone who always knows how to reach you will help us get in touch with you if you should move or change your phone number before our next upcoming survey.

[IF A CONTACT PERSON WAS PROVIDED IN PRIOR WAVE, ASK T6a, ELSE SKIP TO T6b]
T6a. The person you designated before is [NAME1 FROM WAVE 1]. Is that the best person to contact?

Yes [VERIFY PHONE NUMBER FROM PRIOR WAVE, THEN GO TO T7a]
No [ASK T6b]

T6b. Is there someone who always knows how to get in touch with you?

Yes, will give information [ask for first & last name & phone]
No, no contacts [SKIP TO T8]
Refused [SKIP TO T8]

[IF A 2ND CONTACT PERSON WAS PROVIDED IN PRIOR WAVE], ASK T7a, ELSE SKIP TO T7b]
T7a. The second person you designated before is [NAME2 FROM PRIOR WAVE]. Is that the next best person to contact if we have trouble reaching you?

Yes [VERIFY PHONE NUMBER FROM PRIOR WAVE, THEN GO TO T8]
No [ASK T7b]

T7b. Is there a second person who always knows how to get in touch with you?

Yes, will give information [ask for first & last name & phone]
No, no contacts [SKIP TO T8]
Okay, we’re almost done. I have just one more thing to take care of before I go.

T8. Some of the questions in this survey can be upsetting or stressful. Were any of the survey questions emotionally upsetting to you?

1. Yes [ASK T9]
2. No [GO TO T10a]

T9. Are you still feeling emotionally upset or are you okay now?
1. Still upset [ASK T10]
2. Feeling okay now [GO TO T10a]

T10. If you would like to talk to someone about how you are feeling, I can have someone call you. Would you like our on call counselor to call you?

1. Yes [GO TO T11]
2. No [GO TO T10a]

[IF K9c= “YES,” ASK T10a – ELSE SKIP TO T16]

T10a. Earlier in the survey you mentioned having thoughts within the past 30 days that you would be better off dead or of hurting yourself in some way. If you would like to talk to someone about these thoughts, I can have someone call you. Would you like our on call counselor to call you?

1. Yes [GO TO T11]
2. No [GO TO T16]

T11. Do you need a counselor to get back to you (today/this evening) or can I have someone call you (tomorrow/Monday) during regular business hours?

1. Need someone to call today/tonight
2. Would like someone to call tomorrow/Monday
3. Would like someone to call another day [spec]

T12. What is your name?
T12fn. RECORD first name _______________________

T12ln. RECORD last name _______________________

T12ph. What number should we call you back on? _______________________

T12st. And, where do you live? I need to provide the counselor with your name, address, and telephone number to be sure we are able to reach you. This information will only be used by the counselor to contact you.

RECORD street name and number _______________________

[NOTE TO INTERVIEWER: IF RESPONDENT WANTS TO TALK TO A DOCTOR TODAY/TOMORROW/MONDAY, NOTIFY YOUR SUPERVISOR NOW!]

[CATI – DISPLAY A NOTIFICATION SCREEN TO PROMPT SUPERVISOR FOR ANY COUNSELING REQUESTS]

T13. Another optional part of this research is a genetics study. The purpose of the study is to create a bank of genetic (DNA) samples of military personnel and then to look for genes which may be involved in resilience and/or risk for problems associated with deployment and combat-related stress, such as post-traumatic stress disorder (PTSD) and other psychological disorders.

Today, I’d just like to give you the key facts of the study so that you can decide whether you want to consider participating.

If you are willing to consider participating:

1. We would mail you a small kit which will allow you to provide a saliva (spit) sample for DNA analysis by the lab at the Uniformed Services of the University Health Sciences, as well as a short pencil and paper questionnaire.
2. All samples are stored and identified with a code number and all other identifying information is removed to keep the results confidential.
3. Abt SRBI will keep a separate file that links the saliva sample code number to your identity; no other organization will have access to this information and Abt SRBI will not know the lab results.
4. You can withdraw your sample at any time by simply contacting us.
5. You will not receive any results of the analysis of the DNA sample
6. Your DNA sample will not be used in other studies without your permission.

If you are willing, we will send you a kit through the mail that explains this portion of the study in more detail. In the kit, there will be a genetics consent form which you will need to read carefully to determine if you would like to participate. After reading the genetics consent form, if you have any questions concerning the study you can call us here at Abt SRBI.

If you decide to participate, we will ask that you sign the consent form and mail it and the completed questionnaire back to us here at Abt SRBI. The saliva sample will be sent to Uniformed Services of the University Health Sciences. Instructions for giving your official consent, completing the questionnaire, giving your saliva sample, and shipping materials will all be included in the kit.

You don’t have to participate, but it would be a big help. All of the postage fees are pre-paid and we are offering $50 for your help with this part of this study.

T13a. Can you tell me why you do not wish to consider participating in this part of the research?

[NOTE OPEN END RESPONSE]
T16. We want to remind you that we will be calling again to follow-up on how you are doing about once a year. If you change your telephone number or address in the meantime, you can let us know about it by calling the toll free number I provided earlier. This information will be provided in the envelope with your check.

[RECORD CODE 2 ONLY IF PERSON SAYS NOT TO CALL AGAIN]

1. Continue [ASK T16a]
2. [VOL] Does not want to be called again [ASK T16b]

T16a. As a final note, the phone number we have on file for you is [phone]. Is this the best number to contact you?

1. Yes
2. No [CAPTURE NEW PHONE NUMBER]

T16b. Can you tell me why you do not want to be called to participate in this survey next year?

1. ______________
8. [VOL] DK
9. [VOL] REF

Thank you for your participation in this survey. Have a great day/evening.
CELL PHONE PROTOCOL

Some respondents will supply a phone number in response to the advance letters and they may turn out to be cell phones.

Update phone number needs to be available on the tipresp menu, and updating needs to be enabled in the script where indicated in the following questions.

[CATI: ADD THESE QUESTIONS TO THE SCRIPT IMMEDIATELY AFTER THE RESPONDENT INTRODUCTION]

P1. Is this number that I called you on a cell phone?

   (If asked why: I just want to offer to call you on a land-line phone, or at a time when you are not driving if this is a cell phone)

   Yes (GO TO P2)
   No (SKIP TO A)
   REFUSAL - SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P2. Is there a land line where you would prefer me to call to conduct the interview?

   Yes (UPDATE PHONE TO LAND LINE & SCHEDULE CB)
   No, continue on cell phone
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P3. Are you currently driving, or someplace else where it IS NOT safe to talk on your cell phone?

   YES/CALL ME LATER (SCHEDULE CALLBACK)
   No, respondent can talk now
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)

P4. Is now a good time to talk?

   (INTERVIEWER: IF EVENINGS / WEEKENDS ARE BETTER BECAUSE RESPONDENT IS NOT CHARGED FOR CELL USAGE, SCHEDULE CALLBACK AND RECORD COMMENTS)

   Yes, now is fine (CONTINUE TO A1a)
   No, another time is better (SCHEDULE CALLBACK & record comments about best call times)
   REFUSAL – SOFT (SOFT REFUSAL - THANK & END)
   REFUSAL - HARD (HARD REFUSAL - THANK & END)
ASK ALL

P5. Based on your phone number, we believe you are in the [TIME ZONE] time zone where it’s now [LOCAL TIME] o’clock. Is that correct?

   Yes  [CONTINUE WITH MAIN SURVEY]
   No  [ASK P6]
   Not sure  [ASK P6]
   Refused  [ASK P6]

P6. Which time zone are you in currently? (This helps so that we don’t call you too early or too late.)

   Atlantic
   Eastern
   Central
   Mountain
   Pacific
   Alaska
   Hawaii
   Other [SPEC]
   Not sure
