# C4I – M&S Convergence

## Opportunities and Challenges for C-BML in NATO

Dr. Hans Jense

Chief, Exercises and Training (CAT-3)

# Report Documentation Page

*Form Approved*  
*OMB No. 0704-0188*

Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

1. REPORT DATE <b>FEB 2010</b>	2. REPORT TYPE <b>N/A</b>	3. DATES COVERED <b>-</b>	
4. TITLE AND SUBTITLE <b>C4I M&amp;S Convergence Opportunities and Challenges for C-BML in NATO</b>		5a. CONTRACT NUMBER	
		5b. GRANT NUMBER	
		5c. PROGRAM ELEMENT NUMBER	
6. AUTHOR(S)		5d. PROJECT NUMBER	
		5e. TASK NUMBER	
		5f. WORK UNIT NUMBER	
7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES) <b>NATO C3 Agency</b>		8. PERFORMING ORGANIZATION REPORT NUMBER	
9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES)		10. SPONSOR/MONITOR'S ACRONYM(S)	
		11. SPONSOR/MONITOR'S REPORT NUMBER(S)	
12. DISTRIBUTION/AVAILABILITY STATEMENT <b>Approved for public release, distribution unlimited</b>			
13. SUPPLEMENTARY NOTES <b>See also ADA564685. 2010 Coalition Battle Management Language Workshop (Atelier 2010 sur le langage de gestion du champ de bataille pour les operations en coalition). RTO-MP-MSG-079</b>

# Contents

- **Background**
- **Opportunities**
- **Challenges**
- **Conclusions**

The Google logo in its multi-colored font.

[“Adopting joint”: interoperability through convergence. – Free ...](#)

**C4ISR** Command Control Communications Computers Intelligence Surveillance and ..... and user interface software released in 1985 to run on top of **MS-DOS**. ...

# Background

- **JC3IEDM  $\approx$  vocabulary, C-BML  $\approx$  language**
- **Each enables interoperability, but at different levels**
- **NATO is all about interoperability, based on common vocabulary and common language**

# C-BML opportunities

- **Joint operational planning / COAA**
  - Ops Management, ref. MSG-48 demo focus on COA analysis
  - NATO joint planning at operational level (JFC - CC, ISAF HQ - IJC - RC)
- **Training and Exercising**
  - Exercise preparation: scenario data + operational plans → simulation and C2 systems databases (C-BML / MSDL)
  - Exercise management: information exchange between CAX tools, C2-simulation interfaces
- **Joint ISR, collaborative sensor planning**

## **BML for Joint Planning**

- **Converting (parts of) the OPLAN from free text to BML**
- **OPLAN contains Forces, Timings, Locations but Actions are mostly expressed as free text**
- **Use Force Tasks list to remove ambiguity**
- **Interface with C2 systems**
- **Be able to simulate CoAs directly from the plan (no special input needed, the plan design can directly be simulated)**

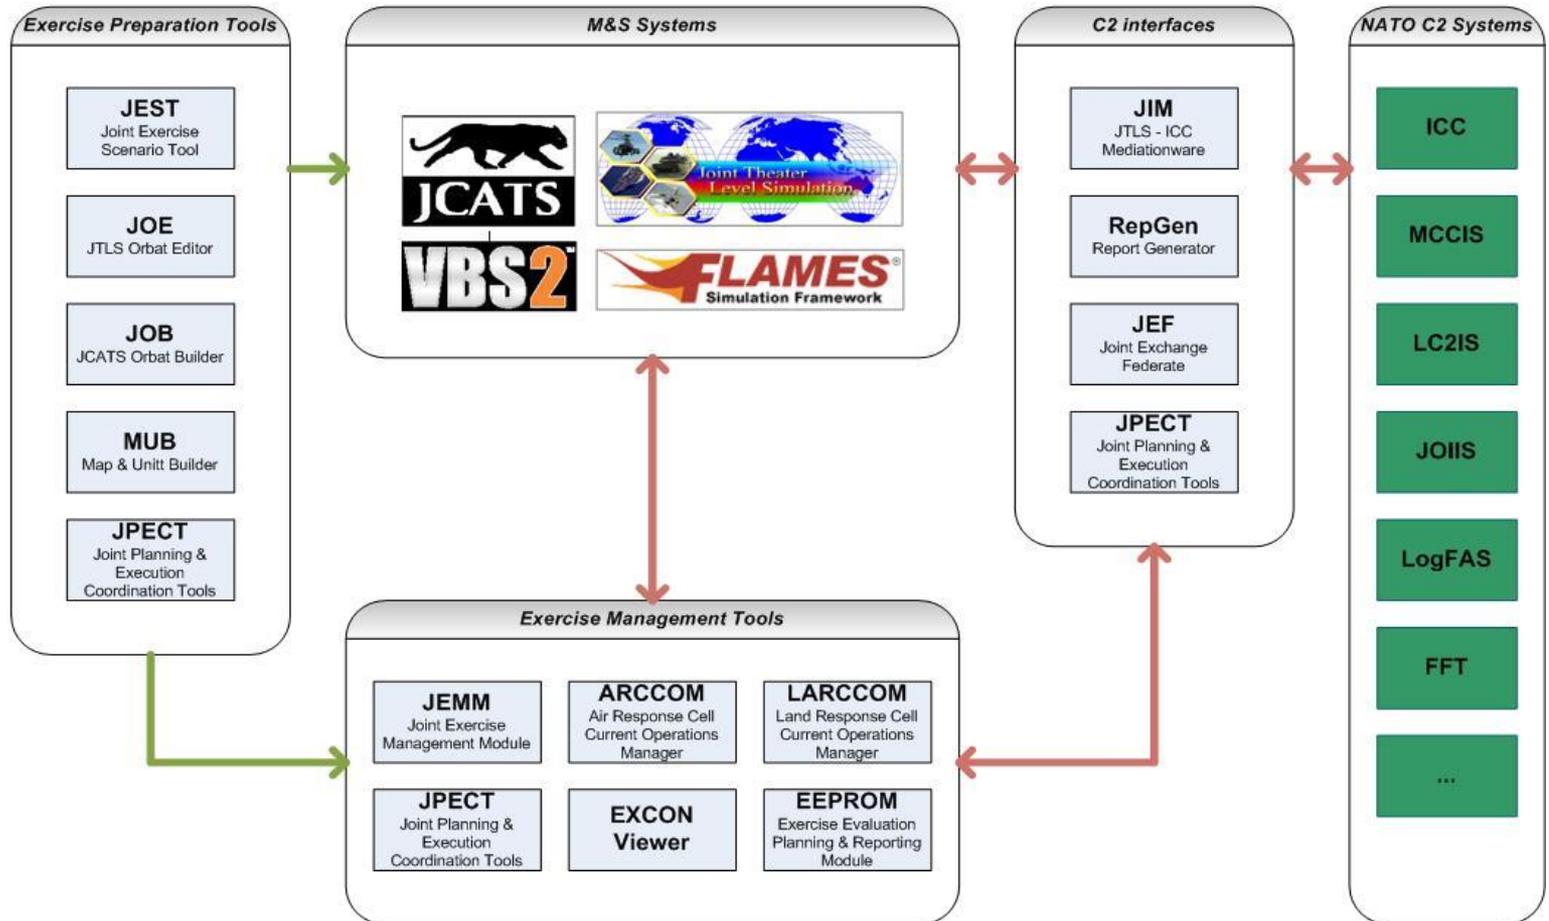

# Leveraging MIP based interoperability

- **BML defines Plans, Orders, and Reports in a manner that is unambiguous and fully data based**
- **BML is compatible by design with the JC3IEDM; the few needed extensions are being submitted to the MIP as JC3IEDM change proposals**
- **BML can be an extension to MIP exchange content**
- **Systems that already implement MIP interoperability can implement BML extensions as they see fit**

## Expected benefits

- **Improved database validation**
  - Against exercise objectives
  - Reflecting NATO force compositions and system capabilities
  - Coherent and consistent across simulations and C2 systems
- **Improved planning in EXCON**
  - More uniform and less ambiguous information exchange
  - Semi-automation of some EXCON planning and execution tasks
- **C2-simulation interoperability**
  - Making C2-simulation interfaces more re-usable (future proofing)

# Challenges

- **Quantifying expected benefits**
- **Leverage MIP-based interoperability (NATO investments)**
- **E&T: keep harmonizing MSDL and C-BML**
- **Automation/MMI issues: how to enable translation of text and graphics based information into BML and vice versa**

# Acknowledgements

- Mr. Jean-Francois Cosse (Joint Planning, C-BML and MIP in general)
- Dr. Dirk Coppieters (Exercise Preparation and Execution, CAX Architecture)

*What?*

*Just when you think  
this presentation is  
terrible, something  
wonderful happens.*

*It ends!*
