### INTRODUCTION

This *Special Bibliography Series*, Number 116, “U.S.- Russia Relations: Refocus, Rebuild, Reenergize,” was developed by the McDermott Library’s Social Sciences Bibliographer and Reference Librarian, Frances K. Scott, in support of the 56<sup>th</sup> Academy Assembly to be held at the United States Air Force Academy, 2 – 4 February 2015.

Most items cited in the bibliography are included in the McDermott Library’s collections, including on-line databases. This year’s topic will focus on America’s relationship with Russia. The subject is of deep interest to both the United States military and policy makers. Relations between the United States and Russia have emerged as one of the most important global relationships in the 21<sup>st</sup> Century. This year’s Assembly will examine the implications of Russia’s relationships with the United States in terms of global security, economics, politics, and social issues. The conference seeks to answer these four main questions:

- What do you imagine will be the nature of US – Russia relationships in 10 years?
- On which current security threats can Russia and the West cooperate in ameliorating?
- How will Russia’s entry into the World Trade Organization (WTO) affect US – Russia relationships?
- Within Russia, upon what does President Putin’s credibility rely most heavily?

If you are a participant in this year’s Academy Assembly (the Academy’s oldest continuing annual event), we welcome you to your United States Air Force Academy. We hope that your stay in the Colorado Springs area will be rewarding and enjoyable and that you find this year’s topic intellectually challenging.

We are pleased to make this bibliography available to other libraries free of charge as part of the Academy’s gifts and exchanges program. Libraries wishing to receive this bibliography or to be on the permanent mailing list for future bibliographies should write to:
