AWARD NUMBER: W81XWH-14-1-0368

TITLE: Addressing the Health Concerns of VA Women with Sexual Trauma

PRINCIPAL INVESTIGATOR: Caron Zlotnick, PhD

CONTRACTING ORGANIZATION: WOMEN & INFANTS HOSPITAL OF RHODE ISLAND PROVIDENCE, RI 02905-2401

REPORT DATE: October 2015

TYPE OF REPORT: Annual Report

PREPARED FOR: U.S. Army Medical Research and Materiel Command Fort Detrick, Maryland 21702-5012

DISTRIBUTION STATEMENT: Approved for Public Release; Distribution Unlimited

The views, opinions and/or findings contained in this report are those of the author(s) and should not be construed as an official Department of the Army position, policy or decision unless so designated by other documentation.
**Title:** Addressing the Health Concerns of VA Women With Sexual Trauma

**Author(s):** Caron Zlotnick, PhD

**Performing Organization:** WOMEN & INFANTS HOSPITAL OF RHODE ISLAND, PROVIDENCE, RI 02905-2401

**Sponsor/Monitor:** U.S. Army Medical Research and Materiel Command, Fort Detrick, Maryland 21702-5012

**Abstract:** The study has not started. No funding has been drawn for the project.

**Subject Terms:** Safety and Health Experiences Program; SHE Providence Veterans Affairs Medical Center (PVAMC)

1. INTRODUCTION:

Our proposed research will develop and assess a computer-delivered intervention (Safety and Health Experiences Program; SHE) that will provide a screening and brief behavior intervention for women veterans with any lifetime ST. More specifically, the intervention, SHE, will address interrelated health concerns for women veterans with ST (i.e., alcohol misuse, IPV, and PTSD). We plan to develop our proposed computer-based intervention with input from our team of investigators as well as information gained in focus groups and informant interviews with women veterans with ST. We will conduct a small trial of SHE with 20 women veterans with lifetime ST to examine if the intervention is acceptable to our population. Finally, we will recruit a sample of 150 women veterans who screen positive for any lifetime ST and have at least one risk factor (i.e., IPV, PTSD, or heavy drinking) and randomize them to the SHE intervention or to a screen and referral (SR) condition. We will examine whether SHE compared to SR will result in decreases in the number of risks and increase resource and treatment utilization at the 2- and 4-month follow-up.

2. KEYWORDS:

Safety and Health Experiences Program; SHE
Providence Veterans Affairs Medical Center (PVAMC)

3. ACCOMPLISHMENTS:

The study has been submitted to the Providence Veterans Affairs Medical Center (PVAMC) and to Waco and Temple VA Medical Centers (August 2015). Currently we are in the process of requesting a research site change from PVAMC to the Waco and Temple VA Medical Centers. There have been no other accomplishments to date because the study has not started.

4. IMPACT:

Nothing to Report.

5. CHANGE/PROBLEMS:

Actual or anticipated problems or delays and actions or plans to resolve them:

There were unforeseen difficulties in the submission of the study’s IRB application to the Providence VAMC. The process started in February of last year and the IRB application was finally submitted last month.

The plan to resolve this issue is to request a change in study site from Providence VAMC to Waco and Temple VA Medical Centers. In contrast to the Providence VAMC, the process of submitting the study’s IRB application at VA Waco Medical Center occurred within a month. (Obtaining all the sign-offs and collating the paperwork at VA Waco took less than a month with
much system-wide support for the project.) The PO, Michelle Lane, has been kept apprised of 
these difficulties and the full justification for the proposed changes has been provided to her.

6. PRODUCTS:

Nothing to Report.

7. PARTICIPANTS & OTHER COLLABORATING ORGNIZATIONS:

There have been changes in the active other support of the PD/PI(s) or senior/key personnel 
since the last reporting period.
