The ornamental design for an antenna mount actuator adapter, as shown and described.

**DESCRIPTION**

The invention described here may be made, used and licensed by and for the U.S. Government for governmental purposes without paying royalty to us.

FIG. 1 is an isometric view of an antenna mount actuator adapter;

FIG. 2 is a front elevation view of the antenna mount actuator adapter;

FIG. 3 is a rear elevation view of the antenna mount actuator adapter;

FIG. 4 is a top plan view of the antenna mount actuator adapter;

FIG. 5 is a bottom plan view of the antenna mount actuator adapter;

FIG. 6 is a left side elevation view of the antenna mount actuator adapter (the right side elevation view being a mirror of the left and is not illustrated);

FIG. 7 is a front, left, top isometric view of the antenna mount actuator adapter, wherein the antenna mount adapter implemented in a typical environment is illustrated; and,

FIG. 8 is a rear, bottom isometric view of the antenna mount actuator adapter, wherein the antenna mount adapter implemented in the typical environment is illustrated.

The broken lines depict environmental structure illustrating the design in a condition of use. The broken lines and structure do not depict or form any part of the claimed design. Views are orthogonal projections unless otherwise noted. The various views are not necessarily to scale in order to better illustrate the design.
### Antenna Mount Actuator Adapter

**Title and Subtitle:** Antenna Mount Actuator Adapter

**Authors:** John J. Schmitz; Robert G. Washburn

**Performing Organization:**

US Army RDECOM-TARDEC
6501 E 11 Mile Rd
Warren, MI 48397-5000, USA

**Spending Agency:**

TACOM/TARDEC

**Number of Pages:** 8

**Security Classification:**
- Report: Unclassified
- Abstract: Unclassified
- This Page: Unclassified

**Limitation of Abstraction:** SAR

**Distribution Statement:**

Approved for public release, distribution unlimited

**Sponsor Monitor’s Report Number:** 20678

**Supplemental Notes:**

Patent No.: US D611,461 S
