SITUATION: Operational Report of 5th Battalion, 42d Artillery for Period Ending 31 July 1969, RCS CSOR-65 (U)

1. (C) Section I, Operations: Significant Activities:

a. Personnel:

(1) The 5th Battalion, 42d Artillery remained assigned to the 54th Artillery Group, APO 96491, with the mission of General Support, II Field Force Vietnam. During the reporting period, batteries of the battalion supported the 9th Infantry Division Artillery in a General Support Reinforcing role; C/1/21 Artillery, 1st Air Cavalry Division Artillery, in a General Support Reinforcing role; and II Field Force Vietnam in a General Support role with priority of fires to the 5th Special Forces Group.

(2) Base camp location of the battalion remains vicinity YT 174063 (nearst).

(3) Command Changes:

(4) On 19 May 1969, Francis A. Clements, CPT, FA, assumed command of Battery B from William H. Kalo, CPT, FA.

(4) Normal 31 activities were conducted during the reporting period.

(5) Personnel strength of the command as of 31 July 1969:

(2) A Battery Activities: At the beginning of the reporting period, A Battery (three howitzers) was located vicinity YT 17403 (Bearcat) with the mission of GS II FFV and A Battery Platoon (three howitzers) was located vicinity YT 096093 (FSG Megan) with mission of General Support II Field Force. On 6 June 1969, one howitzer was moved from Bearcat to FSB Megan, increasing the howitzers in that location to four. On 8 June 1969, a platoon of two howitzers was road marched to Cu Chi and further airlifted (12 sorties) to Tra Cu with an assigned mission of General Support II FFV with priority of fires to the 5th Special Forces Group. On 10 June 1969, (minus) (four howitzers) road marched to vicinity YT 400354 (LZ Rock) with assigned mission of General Support Reinforcing C Battery, 1st Battalion, 21st Artillery. On 22 June, A Battery (minus) returned to FSB Megan with mission of General Support II Field Force. While at LZ Rock A Battery (minus) was resupplied daily by airlift with a total of 26 sorties. The platoon at Tra Cu had been resupplied by air with a total of 234 sorties by the end of the reporting period. From the last reporting period to 25 May 1969, A Battery furnished an FO Party to the 36th ARVN Ranger Battalion and from 25 May 1969 to 28 June 1969 an FO Party to the 6th ARVN Marines.

(3) B Battery Activities: B Battery was located vicinity XS 826716 (Can Gioc) during the entire reporting period with the mission of General Support Reinforcing the 9th Infantry Division Artillery. On 28 July 1969, a platoon of 3 Howitzers was road marched to vicinity of XS 654620 (FSG Steiner) with assigned mission of General Support Reinforcing the 9th Infantry Division Artillery. B Battery furnished an FO Party to 18th ARVN Division during the period 27 June 1969 to 21 June 1969 and an FO Party to the 6th ARVN Marines during the period 26 June to 31 July 1969. On 18 and 19 May 1969 the battery received and passed the semi-annual Combat Readiness Evaluation conducted by the 54th Artillery Group.

(4) C Battery Activities: C Battery was located vicinity XS 547702 (Thu Thua) during the entire reporting period with the mission of General Support Reinforcing the 9th Infantry Division Artillery. On 27 June 1969, the battery received and passed the semi-annual Combat Readiness Evaluation conducted by the 54th Artillery Group. During the period 27 June 1969 to 5 July 1969, C Battery furnished an FO Party to 1st Battalion, 48th Infantry, 18th ARVN Division.
CONFIDENTIAL

4 August 1969

3IPUr;CT; 4 August 1969, HCS CSPOR-65 (0)

5) Headquarters and Headquarters Battery and Service Battery
activities: Both batteries were located at the base camp (Bearcat) for the
entire reporting period. Their mission continues to be that of battalion
and firing battery support and defense of the base camp.

6) Ammunition expended and Missions Fired:

<table>

7) Training:

1) Mandatory training was conducted in the following subjects:
   Character Guidance, Command Information, Clandestine Surveillance, Code
   of Conduct, Riot Control, Helicopter Load Preparation, Counter Sabotage
   and COUNTERMINING.

2) Integrated training was conducted in the following subjects:
   Material Readiness and Physical Security.

3) All batteries are continuing on-the-job training and cross
   training.

4) During the period 2 - 5 May 1969, the runner's test was ad-
   ministered to firing battery personnel who did not take the test during
   the last ORLT reporting period.

5) During the period 26 - 31 May 1969, an eight hour block of
   instruction on counter sabotage training was presented to all battalion
   personnel.

6) The following classes were administered to selected personnel:
   (a) On 5 May, 23 and 25 July 1969, a three hour course of in-
       struction in UCMJ was presented to battery commanders by the II Fligl Force
       Staff Judge Advocate.
   (b) On 5 May 1969, a two hour class on helicopter load preparation
       was presented at base camp by the 213th Assault Support Helicopter Company
       for firing batteries and service battery rigging teams.

AVGAR-C
4 August 1969

PROJECT: Operational Report of 5th Battalion, 424 Artillery for Period Ending 31 July 1969, AGS CSPB-65 (D)

(c) During the periods 4 - 10 May 1969, 9 - 15 June 1969, and 13 - 19 July 1969, seven officers successfully completed the Fire Direction Officer’s School conducted by Headquarters, 54th Artillery Group.

(d) During the period 28 June 1969 thru 9 July 1969, ten enlisted men attended the Projector Operator School conducted by the 221st Signal Battalion, Long Binh Post. All personnel passed the course and were licensed.

(e) On 3 and 4 July 1969, a course of instruction on maintenance of the M-16 rifle was presented at Headquarters, 54th Artillery Group to battery supervisory personnel and armorer.

(f) On 23 July 1969, eight personnel attended a six hour field sanitation team training course conducted by the 20th Preventative Medicine Unit and 54th Artillery Group Surgeon.

(g) During the reporting period, 94 enlisted men attended the in-country orientation course conducted by the 199th Light Infantry Brigade at Long Binh.

d. Intelligence: Air observers from this battalion are airborne on a daily basis for the purpose of collecting and evaluating intelligence data. This data is compiled by the S2, 54th Artillery Group and distributed throughout the group. This information is used to provide intelligence targets and to update or reject previous information concerning enemy activity.

(1) VR missions flown during reporting period: 95.
(2) W/A missions flown during reporting period: 6
(3) Registrations conducted during reporting period: 30.
(4) Convoy coverage missions flown during reporting period: 7.
(5) Intelligence targets fired while airborne during reporting period: 4.
(6) Total air time: 188 hours 40 minutes.
(7) Route Recon during reporting period: 2.

</tbody>
</table>

2. (C) Section II, Lessons Learned, Commander's Observations, Evaluation, and Recommendations:

a. Personnel: None.

b. Operations:

(1) Construction or Improvement of Howitzer Parapet Floors:

(a) Observation: Much of the fill used for construction of parapet floors is unsuitable. During periods of heavy rain, surface forms a layer of slippery mud resulting in poor footing and difficulty in maintaining clean equipment and ammunition. Surface water does not readily drain off unless a system of culverts or ditches is constantly maintained. The replacement of these types of fill with sand eliminates many of these problems. During heavy rain, the sand retains a firm footing and surface water will run off rapidly. This works particularly well with a gravel base under the sand.

(b) Evaluation: The use of sand in the gun pit results in safer working conditions and improved maintenance and cleanliness of equipment and ammunition.

CONFIDENTIAL
AVGAR-C

4 August 1969

SUBJECT: Operational Report of 5th Battalion, 42d Artillery for Period Ending 31 July 1969, RCS CSFOR-65 (U)

(c) Recommendation: Sand and gravel should be used in construction of parapet floors when available.

(2) Battery Life:

(a) Observation: Life expectancy of lead-acid batteries used as radio power supplies can be increased by using them in such a manner that they are neither completely discharged nor overcharged. The preferable type is 12 volt used in the 2½ ton or 5 ton multifuel trucks. Two of these batteries supplying two VRC-12 series FM radios will work well with a 0.5 kW or 1.5 kW D.C. generator on a cycle of 15 to 20 minutes of charge every 2½ to 3 hours. This cycle will conserve both generator and batteries. The cycle can be varied depending on size of batteries and amount of transmitting in a given time block.

(b) Evaluation: Battery life can be extended by the simple expedient of limiting charge to short periods and use between charges to 2½ to 3 hours.

(c) Recommendation: That battery charging be conducted on a timed schedule rather than continuous charging or waiting for the battery to run down between charges.

(3) Night Lighting Device for Gunners:

(a) Observation: Since the majority of artillery firing occurs during the hours of darkness flashlights must be used in large numbers. A problem is presented when the crewman must hold the light and work with one hand. The ammo handlers are handicapped by having to hold a flashlight while selecting proper lots of fuzes to be fired.

(b) Evaluation: Speed and efficiency would be greatly increased if some sort of lighting device could be developed that would free the use of both hands while working at night. This type of lighting device would also reduce the number of accidents caused by improper lighting.

(c) Recommendation: Recommend that a light be developed similar to those used by miners. This light should be designed for placement on the steel helmet.

6. Training and Organization: None.

d. Intelligence: None.

e. Logistics: None.

CONFIDENTIAL
CONFIDENTIAL

AVOA-H-C

SUBJECT: Operational Report of 5th Battalion, 42d Artillery for period ending 31 July 1969, RCS CSFOR-65 (U)

f. Other:

(1) Prevention of skin diseases:

(a) Observation: During the past several months we have had a number of personnel develop serious skin rashes, which were treated with many medications without success. The rashes became infected and caused a loss in man hours.

(b) Evaluation: The rash was caused and sustained due to perspiration and lack of circulation of air under clothing, particularly under the arms and around the legs of the individuals.

(c) Recommendation: That all individuals be encouraged to wear shorts and sandals during off duty hours or whenever possible in order to prevent rashes from occurring.

GRady L. SMALLWOOD
ITC, FA
Commanding
1. (U) This headquarters has reviewed the Quarterly Operations Report—Lessons Learned from the 5th Battalion, 42d Field Artillery and considers that it adequately reflects the operations and lessons learned during the reporting period.

2. (C) Reference Section II para b(1), Construction or Improvement of Howitzer Parapet Floors. The 54th Field Artillery Group concurs. The use of sand in the gun pit with a gravel base will eliminate many safety hazards for personnel in the operation required in artillery firing of a 155mm Towed Howitzer plus improving the maintenance of equipment and ammunition, especially during the rainy season.

3. (U) Reference Section II, para b(2), Battery life. The 54th Field Artillery Group concurs.

4. (C) Reference Section II, para b(3), Night Lighting Device for Gunners. The 54th Field Artillery Group concurs. A request is being prepared for procurement of such lights as an ENSURE item to be tested by 5th Battalion, 42d Field Artillery.

5. (U) Reference Section II, para f(1), Prevention of Skin Diseases. The 54th Field Artillery Group concurs.
CONFIDENTIAL

AVG-AC (4 Aug 69)  2d Ind

FOR THE COMMANDER:
AVHGC-DST (4 Aug 69) 4th Ind
SUBJECT: Operational Report of 5th Battalion, 42d Artillery for Period Ending 31 July 1969, RCS CSFOR-65 (U)

HEADQUARTERS, UNITED STATES ARMY, VIETNAM, APO San Francisco 96375

TO: Commander in Chief, United States Army, Pacific, ATTN: GPOP-DT, APO 96558

1. This headquarters has reviewed the operational Report-Lessons Learned for the quarterly period ending 31 July 1969 from Headquarters, 5th Battalion, 42d Artillery.

2. Reference item concerning "Prevention of skin diseases", section II, page 12, paragraph 2f(l); nonconcur. Shorts and sandals are only appropriate for off-duty daytime wear. Sunlight and air will help to reduce the rashes described; however, tropical uniform without shorts or T-shirt and loose but comfortable dry boots should be worn when cuts or abrasions to the legs are likely to occur. The complete uniform with sleeves rolled down is recommended for all personnel during the evening when mosquitoes become more active.

FOR THE COMMANDER:
